Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the study of physiology to the more immediate connection, and effect of sound food upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was enabled to resume his duties. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any curability in your constitution, confidence, *Coughs, Catarrhs, Bronchitis, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." Should you be troubled with *Nervous Debility*, or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an invigorating cordial. It is nourishing *with its drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses*, the sufferer, after a month's use of Bronson's Blood Food, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefited by its use. It gives strength to the body, and renders the skin clear. The piano of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

Rockingham Weekly Chronicle,

A FAMILY NEWSPAPER,

Containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

1.50 per Year, or $1 in Advance.

SINGLE COPIES, 3 CTS.

Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free; to any part of New Hampshire, 12 cents per year; to any other part of the United States, 20 cents per year.

TERMS OF ADVERTISING

TRANSIENT ADVERTISEMENTS.—For a Square (14 inches) or less, one insertion 50 cents; three insertions $1; one week $1.50; two weeks $2; one month $3; three months $6; six months $9; one year $15.

Notices of Funerals, Lost, Found, &c., 50 cts.

Obituary Notices half-price of advertisements.

Terms Cash, except where accounts are open.

YEARLY ADVERTISERS.—For the space of one square, per year, without alteration $15;—60 cts. for each change. For one square, to change as often as desired, $20.

For two squares, without change, $25 To change when desired, $35.

One Column, in Daily, per year, 4 changes,		$150.
" "	six months,	80.
" "	three months,	50.
" "	one month,	22.
" "	one week,	10.
Half Column, in Daily, per year,		$80.
" "	six months,	50.
" "	three months,	30.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of waste, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS.

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, and then afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the premises of such stores, purchase and sell Bank and Railroad Stock, Bonds and Mortgages, and transact any other commission business. All persons desiring to sell or purchase Real Estate or Stocks, are solicited to call.

MONEY

To loan on good City Mortgages and Farms, in sums to suit customers.

Money wanted to loan on the best of Mortgages and Securities. All persons having money to loan, or wishing to hire money, would do well to call, as all transactions are confidential if desired.

Uncurrent money bought and sold at a discount.

HOME IS WHERE THERE'S ONE TO LOVE US.
BY CHARLES SWAIN.

Home's not merely four square walls,
Though with pictures hung and gilded;
Home is where Affection calls—
Filled with shrines the heart hath builded!
Home!—go watch the faithful dove,
Sailing 'neath the heaven above us,—
Home is where there's one to love!
Home is where there's one to love us!

Home's not merely roof and room—
It needs something to endear it;
Home is where the heart can bloom:
Where there's some kind lip to cheer it!
What is home with none to meet?
None to welcome, none to greet us?
Home is sweet—and only sweet—
When there's one we love to meet us!

AMALGAMATION OF NATIONALITIES IN THE UNITED STATES.—Dr. Josiah Curtis, in his valuable report upon the vital statistics of Massachusetts, remarks, that the proportion of intermarriages between those of native and foreign birth in 1858 is above the average proportion of former years, and appears to be increasing.

DISCERNING CHILD (who has heard some remarks made by Papa) "Are you our new nurse?"
Nurse. "Yes dear!"
Child. "Well then, I'm one of those boys who can only be managed with kindness—so you had better get some sponge cakes and oranges at once."

SUICIDES IN MASSACHUSETTS.—In the year 1858, 91 suicides occurred in Massachusetts, and the number has not greatly varied for the last five years. For the seventeen years and eight months ending December 31, 1858, 1039 persons have taken their own lives in that State.

HYDROPHOBIA.—This disease, though greatly dreaded, is but rarely the cause of death. Of 280,177 persons who died in Massachusetts for seventeen years and eight months, ending Dec. 31, 1858, only eighteen were of hydrophobia. In 1858, two persons died of that disorder.

☞ Anthony Burns visited the Massachusetts Legislature Saturday. He is pursuing a course of study at the Oberlin Institute, and is now in Boston to solicit funds to enable him to graduate.

SARCASM is an ugly cur, kept in the House of Manevolence, who, worried by his growling snappishness at home, finds him occupation by setting him at his best friends abroad.

FIVE
SPLENDID STRAWBERRIES.

HOOKER—Very productive; large, beautiful, and of UNEQUALED QUALITY.
Wilson's Albany—Exceedingly productive; FINE FOR MARKET.
Triomphe de Gand—IMMENSE SIZE:—splendid appearance, and *high flavor.*
Pyramidal Chilian—very handsome; productive, hardy and *good flavor.*
Large Early Scarlet—THE EARLIEST; productive and *excellent.*

As it is impossible to secure all the excellencies of this most popular fruit *in one variety*, we offer the above, as comprising, in five sorts, the various points desirable.

We again confidently RECOMMEND the HOOKER, as by far the best for family use, if only one sort is to be planted—combining a greater number of excellencies than any other variety.

☞ All of the above have perfect flowers, and will produce excellent crops, if planted singly or together.

PRICES—(Securely packed to be forwarded by express.)
Per 100 plants of any of the above varieties, $2,00
" 10 " 20 of each variety, 2,00
" 500 " 100 of each variety, 7,50
" 1000 " of the Hooker, 10,00

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.

Composed of Dock Root, Sarsparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c For General Weakness, Loss of Appetite, and an unhealthy state of the System.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR. CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shocked frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.
25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

DR. C. R. CLARKE, Sharon, Mass.,
Manufacturer and Proprietor.

DR. CLARKE'S HERB PILLS
ARE THE CHEAPEST AND BEST IN THE WORLD!!

DR. CLARK'S HERB SYRUP
cures everybody. Try it!!

Prepared by Dr. C. R. CLARKE, and Sold in Portsmouth by Mathes & Yarrell, Joseph H. Thacher, and Hutchings. feb27

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.

Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability;—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.

In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated

If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.

Patronize your own.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humours of all kinds, Scrofula, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1859.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, *Jr.*

THURSDAY, MARCH 22, 1860.

MISCELLANEOUS EXTRACTS.—The Boston Post says, the Concord Democratic "Standard is *not* a democratic organ."

The Post of March 13, speaking of New Hampshire, gives the 2000 doubtful votes to Mr. Cate, and says:—

If it is, the claimed Black Republican majority for Goodwin is summarily cut down to only 1000, by their own reckoning: and with a full rally of our democratic friends, this 1000 can be easily overcome, if there is *any political virtue left* in the people of New Hampshire—*if they know* what their best interests and their *financial* prosperity demand.

The Dover Gazette of March 17, says:—

The election last Tuesday resulted disastrously to the Democracy. The Republicans carried it by an increased majority over last year. We are not disappointed in the fact that they have carried the State. We expected it, but we are disappointed in their increased majority. The cause, though apparent enough to our mind, we shall not now discuss, but may advert to it hereafter. The body politic has become *corrupted*, as by a loathsome disease; and the positive remedy—if not yet to be discovered—has not had its allotted time to operate effectively. It is said that the darkest hour is just before day.

The New York Herald, about a week before our election, said:—

The rebellion of the shoemakers of New England is having its political effect in this region. It is confidently predicted that Tuesday next will witness a diminution of the Republican majority in New Hampshire to *at least one-half the majority of last year.*

The Saco Democrat of March 20, disposes of the N. H. Election in these four lines:

The New Hampshire Election, last Tuesday, resulted in the success of the republican ticket, by a *somewhat increased* majority from last year.

The Boston Courier, just before election, stated that strangers at a distance might not look for a change in the Granite State, but "our judgment and more intimate observation of the course of events" lead to an entirely different estimate of the result. "We shall hope for good news," and shall be very much disappointed if there is not such a decided anti-Republican gain," as to inspire hopes of a democratic victory next fall.

The Manchester Mirror of March 14, says:

The largeness of the vote surprises us more than any other feature of the election, except the canvass of the Republican State Committee. We were aware of the accuracy and reliability of their canvasses in previous years, but did not suppose that their party would turn out in so full numbers. From the vote given, we are satisfied that the Republicans of this State have a perfect organization, superior to that of the Democrats even, who prided themselves upon the accuracy of their party machinery.

They are jubilant at the result, and have a right to be, particularly in this city, where they got more than the most sanguine reasonably expected, and where the Democrats to a man, felt sure of diminishing the Republican majority.

VACCINATION.—Dr. Perry of Exeter states that he was once called to attend some very bad cases of what appeared to be erysipelous affections, arising from vaccination. A young physician had vaccinated several persons, and they all had severe sickness, with very offensive sores upon the arm which had received the vaccine matter. In some cases the eruptions were not healed for two or three months. On inquiry, it was discovered that the physician was in the habit of collecting the crusts in a vial partly filled with water, which was carried in his vest pocket. Threads dipped in this solution were used in vaccinating. Dr. Perry said that he could account for the bad results only on the supposition that the vaccine matter, being kept warm, underwent putrefaction, and acted as any putrid matter does when introduced into the circulation. It certainly is very important that such facts should be generally known, when such fearful consequences may arise from ignorance in the practice of vaccination.

A SWINDLE INTENDED.—In Boston a fire occurred at No. 111 Haverhill street, two months since, upon premises occupied by Isaac F. Hunnewell, for a liquor store. There was a heavy insurance, and the fire occurred under circumstances which warranted the holding of a fire inquest. A verdict has been made up, but is not yet divulged. In the meantime, and before a verdict was found, Hunnewell, says the Traveller, left the city, and has not yet returned. One singular fact in the case is, that there was an insurance of $6000 upon the stock, including, as was supposed, several hogsheads of brandy. Upon examination of the hogsheads, it turns out that they were filled with water.

☞ Hon. A. B. Meek of Alabama, in taking his leave of the Speakership of the Alabama House, dwelt upon the beauties of the new railroad system inaugurated in that State, "by which," he said, "the mountain barriers of the North are to be overleaped by the fire-horse, and the sands of the South are to glitter in the light of his flashing eyes."

SUICIDE OF LOVERS IN CUBA.—A letter to the New York Express, from Cienfuegos, says that on the 7th of March Carlos Bonfanti, (clerk in the office of Aveles & Leblanc,) a young man possessed of considerable means, and a young lady by the name of Carr, the most beautiful girl in Cienfuegos, both put strychnine in their coffee. The lady died in an hour, and the death of the young man was hourly looked for. They were engaged to be married, and committed this deed on account of the violent opposition of the relatives of the young man to the marriage. Miss Carr's father is a native of Philadelphia, but is at present employed in the custom house at Cienfuegos.

☞ Mrs. Beach, the wealthy and handsome Bridgeport widow, who married Geo. W. Francis, "a dark complected gentleman," gave to her friends as one reason for her conduct, that she had received communications from her deceased husband in the spirit land, advising her to marry Francis, and stating that since he left this vale of tears he had been conjugally united to a colored damsel. The marriage ceremony was performed in the evening, when Mrs. Beach was so much disguised, by "frizzling" her hair, &c., that the clergyman did not suspect she was a white woman. Francis once gained some notoriety as the supposed nephew of Soulouque, Emperor of Hayti.

Mrs. B. was worth $7000, and had two white children. Her relatives being "high stomached and full of ire," sent her to the Insane Asylum, but she was discharged on demand of her husband, as the officers of the Asylum decided she was not insane, and therefore could see no reason for keeping her.

The Massachusetts shoemaker strikers have already spent as much money in their public demonstrations, for music, banners, collations, meetings, &c., as the increased wages demanded would amount to in a whole year.—*N. Y. Jour. of Commerce.*

No doubt their expenditure has been large; but the most of them will learn wisdom by the result of this effort, which will last them a lifetime. Strikes are of foreign origin, especially Irish. In Dublin, nearly every trade has struck, at one time or other; trades-unions there are perfect;—and as a consequence, manufactures of all sorts have moved away from Dublin.

HOW FOUR SEWING GIRLS GOT THEIR WAGES.—William Gordon, a coat-maker, in New York, received $86.87 for work, from a Mr. King. As he was putting the money in his pocket, much to his discomfort four sewing girls appeared and demanded their wages. Several persons were present in the store at the time. Gordon refused to pay up, whereupon the spectators of the scene, sympathizing with the girls, held his arms, while Mr. King took his money, paid the debts to the uttermost farthing, amounting in all to $38.50, and gave him back the balance. Mr. Gordon has prosecuted Mr. King for highway robbery. He admits that he owed the sewing women the amount claimed by them.

☞ A quarrel between two partners at Goldsborough, Pa., for possession of a tannery, resulted in a smart skirmish a few days since. One of the partners collected two hundred men and marched upon the tannery, which was defended by fifteen or twenty. After a sharp engagement the latter party proved victorious, several on both sides having received gunshot wounds.

☞ The cabinet makers of New York city, on Friday last, made a simultaneous demand upon their employers for an increase of wages; and a thousand of them, upon being refused, struck. During the day many of the "bosses" acceded to the terms; and it is expected that an advance of from ten to twenty-five per cent. will be obtained.

☞ Several Cincinnati ladies were travelling down the Mississippi, and while the steamer was letting off freight at a plantation, went ashore for a walk. Dr. Horton, the owner of the plantation, sent a negro to order them off, to which they paid no attention; when the chivalric Doctor himself informed the ladies that he "didn't want people, male or female, from so abolition a hole as Cincinnati, prowling about his premises." The ladies retired.

☞ A telegraphic despatch from St. Louis, dated March 19th, announces that Governor Bissell of Illinois, who had been seriously ill for several weeks, died on the afternoon of the 18th inst. Col. Bissell was 49 years old—a man of decided talents, and distinguished for honesty and patriotism.

☞ John Worthington has again been arrested in Providence on a charge of being implicated in the murder of Burrill Arnold. There is a pending indictment against Edward Shea as principal, and the trial of both him and Worthington has commenced at East Greenwich.

Soulouque is economical for an ex-Emperor. He has changed his lodgings to save $3 per month, and his wife does the family washing.

CONGRESS.

SENATE, Mar. 20.

Mr. Sumner presented the memorial of Samuel May, a distinguished and venerable merchant of Boston, and 400 other citizens of Boston, praying for the repeal of the fugitive slave law of 1850, the abolition of slavery in the District of Columbia, the prohibition of the inter-State slave trade, and the passage of a resolution pledging Congress against the admission of any new slave State into the Union, or the acquisition of any slave territory, or the employment of slaves by any agent, contractor, officer or department of the Federal government. He moved a reference to the Judiciary Committee.

Mr. Davis moved that it lay on the table. Agreed to—yeas 30, nays 17.

Mr. Wilson introduced a bill for the construction of 50 steamships adapted to the African coast, for the suppression of the slave trade.

Mr. Wilson offered a joint resolution, authorizing the President to negociate with other nations for the right of search within 200 miles of the western coast of Africa.

Mr. Wilson introduced an order, instructing the Judiciary Committee to report a bill substituting imprisonment for life, instead of death, and applying the penalty to persons fitting out slave ships or having interest in them.

Mr. Sebastian introduced a resolution, authorizing a treaty to be made with the Indians owning land in and about Pike's Peak, and providing for extinguishing the title to the land.

Mr. Mason opposed acquiring any more territory, and moved to strike out the latter part.

After debate the amendment was disagreed to—nays 33, yeas 5.

The resolution was then passed.

Mr. Green reported a joint resolution that Congress adjourn from April 20 to May 20. Objected to, and lies over.

Mr. Green reported a resolution to pay the undrawn mileage of the late Senator Linn of Missouri, to his widow. Passed.

The bill for the payment of Florida claims was considered, but without action. The Senate went into executive session, and afterwards adjourned.

HOUSE.—Mr. Potter offered a resolution which was reopted, calling on the Secretary of the Treasury for all the papers relating to the removal of the Collector at Milwaukee, and as to whether he was a public defaulter.

The House then voted on the reference to the Committee on Military Affairs, of the West Point Academy bill, as returned from the Senate, with an amendment making an appropriation calling into service a mounted regiment of Texas Volunteers. Agreed to—111 to 72.

Mr. Otero introduced a bill authorizing the President to call into service a regiment of Volunteers for the suppression of hostilities in New Mexico. Referred to the Committee on Military Affairs.

The contested election case of Willamson vs. Sickles, was considered, but without action. Adjourned.

FRANCE AND ITALY.—The Paris Constitutional publishes an article explaining the French policy in Italy. In mentioning the solution proposed in the message of M. Thouvenel, the Constitutionnel says if it is not a Sardinian solution it is an Italian one. Sardinia will possess in Tuscany all who will aid her to overcome the opposition of Naples and Rome in order to constitute an Italian nation, with the concurrence of all its nationalities, and not an Italian kingdom; absorbing everything, without considering the essential differences, opposing interests, and distrust of Europe.

The Paris correspondent of the London Times mentions a rumor that all military men and soldiers not on leave, are to rejoin their regiments as soon as possible. It is said the Imperial Guard are not to be exempted.

The Cardinals and Prelates, who are members of the Senate, have presented petitions demanding the maintenance of the temporal power of the Pope.

A Paris correspondent of the London Post says, official telegraphic despatches have reached Paris from all parts of Italy, stating that the Emperor's speech has not been received very favorably.

That the people of Central Italy will confirm the vote of annexation to Piedmont, is fully believed by the government of that country.

NEW ORLEANS, March 19.—Great excitement existed at Vera Cruz in consequence of the capture by the American squadron of the Mexican steamers Miramon and Marquez. The French and Spanish residents were very bitter in their denunciations of the affair.

Lieut. Chapman is bearer of dispatches to Washington.

☞ News from Europe to March 7, received by the Fulton.

Eight hundred and thirty thousand pounds in Australian gold was en route for London.

Victor Emanuel has agreed to the solution proposed by France with reference to the Romagna.

The Times correspondent says there has been complete stagnation in the mercantile world during the past week.

WASHINGTON, March 19.—The Committee on Ways and Means have reduced Mr. Cobb's estimates in the appropriation bills about four million of dollars in the aggregate, by applying retrenchment wherever experience and investigation justified it.

THE GRAND PAGEANT (Circus Troupe) at the Boston Theatre should be seen by all persons desirous of witnessing the ceremonials of the ancient Tournament. It is put upon the stage in magnificent style, and will be nightly repeated for the present.

☞ In relation to the poisoning case at Auburn, N. H., the Manchester American learns from reliable authority that Mrs. Healey has made a confession to the Selectmen, implicating Richardson as the author of the crime.

An English woman, writing to the London Times in respect to the effort to reclaim abandoned women by midnight tea parties, says, pertinently, "Might I venture to suggest that a meeting should be called of the other sex, that they may be lectured and prayed with about the awful sin and misery that lies at their door. I will bear my share of the necessary tea and toast;—when the demand ceases, the supply will soon be stopped."

☞ The inn-keepers in Chicago, who charge from $1 to $2.50 per day for board, engage to accommodate all the lodgers their houses will hold, at their usual rates, in Convention time.

Downing, the famous New York oyster man, has failed—cannot shell out to his creditors—is in a "stew"—has closed up, will "open" no more—lost by fancy stocks what he gained by fancy roasts.

☞ The picturesque marine terrace erected to the late Lord Murray, on a spur of Castle Hill, Edinburg, Scotland, has given way, owing to some defect in the foundation, and has become a mass of ruins.

MARRIED.

In Exeter, Rev. N. F. Carter, Principal of the Exeter High School, to Miss Hattie F. Weeks, daughter of Maj. Nathaniel Weeks.

DIED.

In West Newbury, Mr. Theodore L. Grant, aged 67.

In Andover, Mrs. Martha Loring, aged 31.

Special Notices.

This may certify, that my son has had a humor which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running sores. He has been cured by the use of Dr. Swett's Panacea and Humor Wash. T. CURRIER.

Kingston, March 10, 1841.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, Pomfret, Conn., N. H., No. 13 Bond St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a true finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiorumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters. There is nothing more common and annoying at the present day than stomach pains of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, emetics, tonics, etc. Now, every body who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOLTON, MASS., June 1, 1859.

MESSRS. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. J. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such general satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

G. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1851.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. E. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Orders solicited, and all articles promptly delivered.

PRICES PER DOZEN:—Families' Washing, 62½ cents; Gentlemens' do. 75 cents; Plain Dresses—each, 17 cents; White Skirts, 10 cents.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if that be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that the great superiority will induce so large a sale that our aggregate profits will make our business sufficiently remunerative.

J. B. WIGGIN & CO.,
Green St. Portsmouth.

Portsmouth, March 1st, 1860.

Local.

NEW HAMPSHIRE "AS SHE WAS."—The proposition to erect a new County out of certain towns in Hillsborough and Rockingham counties, with Manchester for the shire town, was defeated at the late election by the following vote—yeas 3724, nays 8484. Manchester, Derry, Peterborough, Wilton and Londonderry were the only towns giving majorities in favor of the measure, while the other 32 towns interested—including Portsmouth and Nashua—voted strongly against it. The Boston Transcript says "county lines appear to be drawn as rigidly as party lines in that State; and Now Hampshire evidently proposes to remain firm as her granite hills, with her present geographical as well as political divisions."

☞ The U. S. District Court for New Hampshire, commenced a session in this city on Tuesday morning, Judge Harvey presiding.

☞ In the Supreme Court at Portland, Ellen Goodrich, on an appealed case from the Municipal Court, was convicted of keeping intoxicating liquors, with intent to illegally dispose of the same.

Edward L. Kimball pleaded *nolo con.* to an indictment, charging him with keeping a gambling house. A fine of $30 and costs was imposed.

THE HUNGARIAN'S PASSENGERS.—The Agents of the steamship Hungarian give the following as the number of souls on board:

From Liverpool—	Crew	80
	Cabin passengers	30
	Steerage passengers	40
Fm Queenstown—	Cabin passengers	15
	Steerage passengers	49
Total		205

WASHINGTON, Tuesday night. — The news from Mexico has created a profound sensation here. Particulars relative to the capture of the Spanish steamers are awaited with great interest. It is supposed that they were captured as pirates, and the act on the part of our naval force is fully sustained. Loud and open indignation is expressed against the Spanish authorities in Cuba, for fitting out this expedition against the Constitutional Government of Mexico, which we recognize. It is believed by some that the two steamers were fitted out by the authority of Spain, and sustained by France.

A remarkable change has taken place within the last forty-eight hours in the minds of those Legislators who opposed the Nicaragua and Mexican treaties.

The Democratic Senators held a caucus this morning to discuss the propriety of ceasing all efforts to make any treaty with any Spanish American country, since the Republicans have brought matters to a dead look.

The Republican Senators also held a caucus on the same subject, and the result was that Senator Dixon of Conn., and several others, joined Senator Wilson in the policy indicated by his vote on the Nicaragua treaty, and favor it.

MEXICAN NEWS.—*New Orleans, Mar.* 19.—Miramon paid $55,000 for the two steamers. The Miramon steamers passed by all the foreign squadrons and the castle without hoisting a flag, although ordered to do so by a shot from the castle and other signals. The English, French, and Spanish vessels of war did not notice the fact.—The engagement took place by moonlight. The prisoners corroborate the report in relation to the steamers that they cleared from Havana as merchantmen, and hoisted the Mexican flag only after they left that port and subsequently mounted six guns.

☞ On Sunday, 11th, as Mr. Benjamin Green of Bernardstown was returning from meeting, which he had attended all day in his usual health, he dropped the lines, and came near falling from the wagon. He was near a house and help was called, but he almost instantly expired. His age was sixty-eight.

☞ A young Irishman, about 17, who went to Lynn with the Stoneham delegation on Tuesday, was found dead, on Friday morning, in the brickyard of Frederick Stocker at East Saugus. There were no marks of violence upon the body, and no cause has been assigned for his death.

☞ The gun which burst at Wolf'boro', and killed two young men, was not an old cannon, but a new one, cast at Lake Village in 1846. The persons killed were James Garland, aged 17, and Everett Warren, aged 13, both of Wolf'boro'. The other persons hurt are doing well.

☞ A woolen manufactory in Felchville, Vt., was burnt (probably by an incendiary) on the night of the 18th inst.—Loss $30,000; insured $18,500. A Union Church was also burnt; no insurance.

☞ The Anti-Tobacco Journal, No. 3, for March, is just received from the publisher, Mr. Trask, of Fitchburg, Mass. It contains a great variety of interesting matter.

☞ Bark Martha, from Charleston for Boston, was struck by lightning and burned at sea, 13th inst. The crew arrived in New York, on Tuesday.

☞ The act for the protection of the property rights of married women passed both branches of the Legislature of New York, and now lacks only the approval of the Governor to become a law. It places the earnings and property of married women within their own exclusive control.

DUELLING.—Franklin wrote from Passy, July 17, 1784:—

A man says something which another tells him is a lie. They fight; but whichever is killed, the point in dispute remains unsettled. To this purpose, they have a pleasant little story here: a gentleman, in a coffee house, desired another to sit further from him. 'Why so?' 'Because, sir, you stink.' 'That is an affront, and you must fight me.' 'I will fight you, if you insist upon it; but I do not see how that will improve the matter; for if you kill me, then I shall stink too; and if I kill you, you will stink if possible, worse than you do at present.

SOUTHERN POLITICS.—Senator Wilson sent a copy of his speech to a man in Leechville, North Carolina, but the postmaster would'nt deliver it, and wrote to the Senator the following elegant note:—

Leechville, Feb. 16, 1860.

Sir—Your speeches and Black Republican friends cannot circulate your Abolition speeches through this Post Office so you need not send any more to Thomas Dunbar senr. Yours, &c.,

AUGUSTUS LATHAM, P. M.

☞ A letter writer, noticing Dr. Windship's lectures on lifting, says if he (the Dr.) could teach a hard-up man how to lift a mortgage, or raise money, what a blessing he would be to the world.

A WOMAN'S THOUGHTS ON WOMAN.—Fanny Fern says there are two things a woman cannot do, namely, "sharpen a lead pencil," nor "do up a bundle."

☞ During the past ten years the business of the French Post Office has more than doubled. Last year it reached two hundred and fifty-nine and a half millions.

Parson Brownlow has published in his paper a letter dated "Hell, Feb. 21st." The letter is evidently his own, but the good Parson was evidently not *at home* when he wrote it.—*Louisville Journal.*

☞ Gov. Stewart of Missouri has vetoed the bill for the banishment or enslavement of free negroes.—The Governor is in the right.

☞ The earthquake of Wednesday evening was very sensibly felt at Orleans and at Eastham, Mass.

Whatever may be thought of employing the rod at all, it may be laid down as an axiom among those who do employ it, that is should never be put into the hands of anger, but that if wielded, it should be wielded always by the hand of indulgent kindness.—*Beecher.*

HORSE RADISH AND TOMATOES.

PURE GRATED HORSE RADISH. Also, FRESH TOMATOES—warranted to retain all their original flavor. For sale by

LAFAYETTE LAIGHTON.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS.
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N.Y

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known and medicine is a compositon, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

A new style of FLOOR, SCRUB & WINDOW BRUSHES—very durable.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an-hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times. *Ladies' Home Magazine.*

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

THE BEWITCHING BEAUTY.

"I saw a glorious beauty in her face,
And with her breath she did perfume the air.
Sacred and sweet was all I saw in her."
—*Shakspeare.*

"The fire of her eyes dazzles the two worlds."
—*London Journal.*

THE BEWITCHING BEAUTY.

Which is embodied in the exquisite proportions and luminous coloring of

TITIAN'S RECLINING VENUS.

Has for two centuries been the admiration of all beholders. Artists, connoisseurs, and the public will therefore be glad to learn that a magnificent Engraving, colored in oil, of the

PICTURE THAT ENCHANTS THE WORLD,

Has been issued by the undersigned, at a price which places it

WITHIN THE REACH OF ALL.

Our Engraving is the only authentic copy ever published in America, of the

GEM OF THE DRESDEN GALLERY,

For which the government of Hanover paid

FORTY THOUSAND DOLLARS.

It represents the Goddess reclining on a couch and radiant with celestial loveliness. The warm lights and soft shadows which lend such a strange fascination to all the undraped divinities of Titian, are admirably reproduced in this picture, and the accessories, both in the foreground and background, enhance the general effect.

This picture is splendid without gradiness, warm without prurience, and brimful of the very soul of art. (New York Express.

It is the best piece of flesh coloring ever executed in this country. (New York Leader.

Engraver and colorist have produced a work of art that has the Titian tone, as well as the faultless outline of the bewitching original. (N. Y. Mercury.

The drawing, coloring and finish are beyond praise. (N. Y. Atlas.

It deserves a place in the "porte-feuille" of every admirer of the fine arts. (N. Y. Sat. Press.

READER—Inclose $2, and 15 cents in stamps, and you will receive by return mail, a gem of art, with an elegant gift.

A LIBERAL DISCOUNT TO AGENTS AND THE TRADE.

A really valuable GIFT OF JEWELRY is presented with the Engraving. Address,

DAYTON & CO.,
American and European Engraving Warehouse,
No. 37 Park Row, New York.

PRIME VERMONT BUTTER & CHEESE for sale at **No. 12 Market Street**

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the degrading vices, and, above all, by the venereal infection. Whatever its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems, as if, for the sins of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by the taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, lungs, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIVE AND EXCEPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, NEURALGIA, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating power and virtue to purify and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vital energy, through which sound these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but they also cure the more and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dropsy, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thru-t upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE, SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec20 6m d&w

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.
FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; more, if desired, hereafter, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it is due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by this example, and use it if growing gray or getting bald. Very Respectfully,

BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Slamaston, Ala., July 20th, 1858.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC the fact. Not only the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," be, not only, made more beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Inflammatory, Neuralgic, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried, and he confidently offers it to the world as his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Purgle. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use it freely. MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines together put together, though I have tried many. FANNY MINER.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness of voice, from great labors. I wish by this card to say to them, and to all others affected, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable remedy. I have found nothing that gives relief so quick. Let every suffering preacher take a phial and try it. ELIPHALET KIMBALL.

EXETER, July 20, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs, and for any other complaints of the Lungs, of any medicines with which I am acquainted. NANCY F. GOVES.

CANAAN, Aug 29, 1850. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together

THEOPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
since the year of 1837,
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL IN THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him, above competition, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and that one is now paying his first application in a form to secure for them an early and favorable consideration at the Patent Office."

HENRY ELLSWORTH,
Late Commissioner of Patents.

BOSTON, February 3, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending; their unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twelve rejected applications, SIXTEEN APPEALS to the Board of Examiners, in which he succeeded in nine favor, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening the sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless, and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit when properly administered.

FOR ALL COMPLAINTS ATTENDING TEETHING: such as DYSENTERY, COLIC, &c.; also for lancing the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For Croup it is almost fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, which are usually caused by too close no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford, and do not intend to

☞At the Police Court in Manchester, March 19, John W. Joy, Charles M. Putney and D. T. Norris were severally held to bail for selling a glass of liquor each, to one Wm. A. Putney.

Putney was chief witness in each case, and his testimony shows up, if it don't convict, the accused. In Joy's case, as reported by the American, he testified as follows:

Putney sworn—I did not buy a glass of liquor of Mr. Joy on Thursday morning last. I drank a glass of ale there within a month; was in there and he asked me to take a glass of whisky; I preferred the ale; I don't drink now-a-days; haven't drank much of anything, more than ale, for over a year; I don't know whether I drank rum there; don't know whether I called for rum or not; have been away for two or three days, and can't remember everything that has taken place.

I never told Mr. Kelley that I bought liquor of Joy on Thursday, nor that I had bought of Norris or C. M. Putney. I don't remember whether I have bought any liquor of Joy within a year; I think likely I have; I have drank liquor there within a year;—it was in company with others; don't remember whether I paid for it, or whether those with me paid for it; never told Mr. Kelley that he did not dare to prosecute these persons, nor that I had bought liquor at these three places. Complained to Kelley that he did not dare to prosecute "Black Republicans;" these men I admit are "Black Republicans."

John L. Kelley sworn—On Wednesday night Putney stated to me emphatically, that he had bought liquor at all these three places, and dared me to prosecute the proprietors, and made complaint against them, and said he would complain of me if I did not prosecute them. The next morning he met me, and he stated there things all over again; and I can prove these statements by over twenty witnesses.

In Putney's case,

Putney sworn—I did not buy any liquor of Putney last Thursday morning; couldn't swear that I did not drink liquor there; will not swear that I have not bought liquor there within a year; I bought some wine of him; sometime bought a bottle of champagne.

I don't remember whether I was in C. M. Putney's last Thursday morning; don't remember that I drank any old rum there, or whether Joseph Ferren was there;—don't remember anything since last Tuesday, and haven't been in my right mind hardly since then.

In Norris's case,

Putney sworn—I have drank a glass of champagne at the City Hotel within a month; did not pay for it; don't know who did pay for it.

Dr. J. A. Tebbetts on Saturday last recognized in the sum of $200, on complaint of William A. Putney, for selling liquor to Mr. Horn of Derry.

Mr. Wm. A. Putney was the Democratic candidate for Senator in District No. 3.

☞An extraordinary event in the history of the German Jews has just taken place. In the free city of Hamburg, where a Jew, ten years ago, was not even eligible for a night constable, a Jew, by the free suffrage of the citizens has lateley been chosen a chief magistrate, next in station to the higest dignitary in that republic.—The gentleman elected is a distinguished jurisconsult and writer, Dr. Gabriel Reisser, who was Vice President of the German Parliament that sat at Frankfort in 1848.

Here's Health for the Million!!

CLARKE'S SHERRY WINE BITTERS

Warranted Palatable and Healthy.

Composed of Dock Root, Sarsparaila, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so very liberally supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasing to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness,

Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR. CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

NEWSPAPERS.

CHEAP BOOKS, ANNUALS, TOY BOOKS,

Fancy Goods, Stationery, &c.,

may be found at the subscriber's store.

Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.

In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated

If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.

Patronize your own.

Bickford's Spring Balance,

for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

☞Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, JR.

For the Weekly Chronicle.

MEASURES TO PROMOTE TEMPERANCE.

The Temperance Reformation commenced in 1826. Meetings were held, lectures given, the pledge signed and societies organized. For a number of years it went forward with great interest. Distilleries were stopped and hundreds engaged in the nefarious traffic of liquors abandoned it. No moral reform ever progressed with such power.

But some fifteen years ago the attention of many of the friends of the cause was turned to the execution of such laws as had been enacted to regulate and somewhat suppress the traffic; and then, in close connection, laws more decidedly stringent and prohibitory were enacted. The first was in Maine, and soon many other States had similar laws. Since then, the main reliance has been upon prohibitory laws. The pledge and well-organized Temperance societies have been much neglected.

Now, what all should understand is, pro hibitory laws are very essential, but it will not do to rely on them. The pledge is the foundation of our work. It will prepare the way for the faithful execution of the law. It will save multitudes from drunkenness and ruin. In many of our towns there is little or no interest in temperance. The young are indulging in the use of the cup, and training for vice and crime.

We earnestly hope that attention will be given to the pledge and to having good Temperance organizations in every town. The work is important and demands immediate and persevering effort.—We rejoice to say that something of this sort is now being accomplished in Cheshire county, perhaps the most enlightened county in the State. Let others do likewise. J. F.

☞ The Charleston Mercury doesn't like the idea of changing the place of holding the Democratic National Convention. It says:

An intense excitement was produced in the city yesterday, on the publication of our second Washington dispatch, which in some measure cast a doubt over the meeting of the Convention. Arrangements, which were in rapid progress, were at once in many instances suspended, and in others faintly carried on. It is, in our opinion, but the pretext seized by the friends of Mr. Douglas to transfer the Convention, if possible, to some city where they will be in the ascendant. This movement commenced many months since, when they prated of the danger to be apprehended from personal violence in Charleston. This is, however, their last card, and this will fail. Mr. Douglas's friends see plainly that a Convention in Charleston will preserve a Southern aspect, and cannot be brow-beaten or bullied.

The six hundred and fifty gentlemen who compose the Convention will be taken good care of, and the preference given to them. About one hundred have already been invited to accept the hospitalities of our citizens, and many more undoubtedly will be. But the myriad hangers on, who are not admitted to the floor of the Convention, must take their chances for feed and sleep. It is greatly to be desired that their number may be reduced to as small a figure as possible. The Convention will meet in Charleston; but if Mr. Douglas and his friends desire a Northern Convention, let them call one.

☞ The Concord Patriot of Wednesday says:—

It cannot be denied that we labored under great disadvantages in the canvass, in regard to our *national* position, which prevented us from making considerable accessions to our ranks. There is no doubt that hundreds of men were deterred from joining us from the fear that the Democratic party is to be committed to a "*slave code*" and other bugbears by which opposition papers and speakers have sought to frighten honest men into the continued support of a corrupt, sectional and disloyal party.

FROM TEXAS.—The latest news from Texas says Gov. Houston is actively engaged in raising minute men, travelling day and night for that purpose.

Col. Lee was to leave on the 15th inst., for active work on the Rio Grande. Five hundred Rangers were in the field. The Indians still kept on murdering and plundering the people.

☞ The examination of the Auburn poisoning case was commenced on Tuesday.—Both of the accused, Richard S. Richardson and Sarah Ann Healey, were arraigned, but in consequence of the sickness of the latter, who is confined to her bed, and the desirableness of having the results of the investigation of Dr. Hayes of Boston, the examination was postponed to Monday, the second of April. Richardson is a native of Vershire, Vt., but has lived in Auburn and Manchester for some years. He has rather moderate abilities. Mrs. Healey is the daughter of the late Col. Benjamin Tuttle, of New Market. Both parties will remain under keepers at Auburn.

The Manchester American of Wednesday says its former statement that Mrs. Healey had made a disclosure is incorrect. It was Richardson's niece, Mrs. Langmaid, of Manchester, whose testimony will be given at the examination.

SUPREME JUDICIAL COURT.

At the adjourned term of the S. J. Court, holden at Concord, March 15th, the opinion of the Court was obtained in favor of the defendants in the action in Chancery, A. W. Haven, J. W. Pierce & others, against John H. Cheever, David W. Cheever and Adeline H. Cheever, executors of the will of Dr. C. A. Cheever, late of Portsmouth, deceased.

This was a bill in Chancery, dated July 5th, 1856, brought to recover of defendants the sum of one thousand dollars and interest from July 1, 1854. Several allegations were contained in the bill, one of which was that on the 26th of April, 1852, Dr. Cheever, with nine others, including the plaintiffs, signed a joint and several promissory note, payable to the Boston & Maine Railroad, or order, for $10,000, in six months, with interest; that said money was obtained for the use and benefit of the P. & C. Railroad; that plffs. paid said note July 1, 1854, and called upon defendants in March, 1855, and June, 1856, for a contribution of that portion which they alleged belonged to said Cheever's estate to pay.

They further alleged that defendants had so resided out of the State that they had not been able to prosecute their claim within the time prescribed by law.

The defendants denied all knowledge of the claim till the commencement of the suit, and two of them had always resided and had their only homes and domicil at Portsmouth up to July, 1858, and that the others had resided out of the State, but had frequently visited P.; all of which was well known to the plaintiffs. They further alleged that paintiffs had taken of the P. & C. Railroad ample and sufficient security to indemnify themselves; that they were officers of said road, and that said Cheever signed at their request, and as surety only; that plaintiffs had been fully reimbursed, and had received large sums of money into the treasury of said P. & C. Railroad, with which it was their duty to pay said note;—also that they had taken sundry mortgages as security for signing said note, and had released the same without the knowledge or consent of the defendants; that defendants had fully administered upon said Cheever's estate, and that paintiffs having failed to present any claim, they had no just or equitable cause of action.—There were several other allagations, both in the bill and answer.

The testimony of several witnesses was taken and presented to the Court, which, after full arguments, and upon a due examination of the bill, answer and evidence, ordered the bill to be dismissed with costs.—Thus ends another of the many cases which have had their origin in the transactions of the Portsmouth & Concord Railroad.

Daniell R. Rogers v. George W. Odell and Trustee. Demurrer overruled.

Joseph Little and ux v. James Gibson.—Judgment on verdict for pllf.

Josiah Drew v. William Clagget. Judgment on verdict for pllf.

Horton D. Walker and als. v. John H. Cheever and als. Bill dismissed.

Rhoda Sheafe v. William H. Sheafe and als. Bill dismissed with costs to Hatch, J. L. Sheafe and Lampreys. Decree entered that mortgage to Henry Sheafe and conveyance to Charles H. Sheafe and others be set aside as fraudulent and void, and grantees therein named forever enjoined from claiming any interest in any premises therein described by virtue thereof, against complainants; with perpetual injunction against William H. Sheafe from mortgaging or otherwise conveying his interest in the Jacob Smith farm, in the bill described as against complainant's claim for alimony under the decree of the Superior Court, and also against her levy under the Waldron execution.—*Ballot.*

COUNTESS DANNER, the Copenhagen milliner, who became the wife of the present King of Denmark, has become so obnoxious that the ladies of the "best society" leave the house as soon as she enters her box in the opera. The story of the Countess is briefly told. She left her little shop where she sold finery to sailors' wives, and turned ballet girl, and also turned the King's head the first time he saw her. The King sought her out, she became his mistress, and was compensated for the loss of virtue (after the fashion of Kingdoms) by rank and wealth, which are not acknowledged, as it seems, by the high born ladies of Denmark. You remember that the "good old King" of Bavaria made Lola Montez the Countess of Landsfeldt.

Make the bridge from the cradle to manhood just as long as you can. Leave your child a child just as long as you can—especially if you live in a city. Be not in haste to force your child into permature development by intelligence, or by anything else. Let it be a child, and not a little ape of a man running about town. Love the child in its childhood, and for its childishness. It would be better for us, if we had more childishness about ourselves.

☞ A letter bag will be dispatched from the rooms of the Naval Library and Institute, at Charlestown, Mass., to the United States Squadron, Coast of Africa, on or about the 30th inst. Letters and packages of newspapers, sent to the room free of expense, will be forwarded.

TORONTO, C. W., March 21.—The quantity of grain in store and loaded in this port yesterday was, wheat 228,000 bushels; other grains 100,000 bus.; flour 43,000 bus.

ART UNION, ST. PATRICK, &c.

In reply to many inquiries as to the delay in the delivery of the Art Journal, etc., we publish below some extracts from a private letter received from a correspondent in New York—with a pithy paragraph or two on other subjects.

NEW YORK, March 19.

* * * The Secretaries and other employees of the Cosmopolitan Art Association are busily engaged in packing the great number of Paintings, etc., for those fortunate individuals who got "*more* than their money's worth." In regard to the March Art Journal, one thousand per day come from binders, and are mailed as they come in. From all appearances, I can assure you of the certainty of all these articles appearing in the Southern horizon of your Oriental kingdom within a week or two. One room was filled with Paintings, large and small, packed in boxes ready for shipment, and all betokens an approaching distribution.

St. Patrick's day (17th) went off here in fine style. Brittania may rule the *seas*, but blow me if Hibernia don't rule the land in this region. We had a procession, military and civic, and unexceptionably *Irish*, extending some miles on Broadway, and gazed on by two ten-deep hedges of Hibernian humanity, both male and female. The banners, music, etc., were very fine. From the former, one would soon be convinced that both the "Harp that hung on Tara's walls," and the musical instrument of the same sort which was suspended in a more exposed situation "on the willows," were taken down and brought into use, as they should be.

On the whole, St. Patrick's Day here would readily assure to any stranger ample proof of the Irishman's assertion, that if it were not for the Paddies there would be a pole and a sign up on the Battery, "New York to let."

Hope the Democracy of New Hampshire are not utterly extinct. There's a good time coming, boys, some day, whether Douglas, or some better patriot, as Guthrie, Hunter or Dickinson, be the leader of the army of retribution.

As for you, dear "F." you have one leg on Democratic ground, and one in Republican (Black) mud. Now, do, for the sake of the cause of clean feet, *pull in* that *darkey* hoof, and scrape off the mud.

Yours ever, I.

WASHINGTON MATTERS.—The Harper's Ferry Committee in the Senate are at a stand-still, and undecided either to go backward or forward. The resolution not to summon Gov. Wise has been reconsidered, but he has not yet been called. If summoned, he will probably refuse to testify on certain points, and then the Senate may cage another State prisoner.

Mr. Hyatt, the Senatorial prisoner in the jail of the District, is visited daily by his personal friends, Senators and Representatives. He is preparing an address to the American people, which will be issued in a few days.

☞ The Patriot of Tuesday has returns from all the towns in the State, but three, reckoning which the same as last year, and the vote foots up thus:

Goodwin	38,038
Cate	33,486
Majority for Goodwin	4552

This majority varies only 47 votes from the Statesman's estimate, and not much from that of the Republican canvas before election.

☞ In Washington, on Sunday, the new Chaplain of the House, Rev. Thomas H. Stockton, preached in the hall of the House to a very large audience, and to the great satisfaction of the greater part of them. It was an argument for the higher law, and was characterized by great earnestness, almost amounting to the dramatic. Mr. Stockton is a most venerable gentleman in appearance, and his address is very prepossessing. Had some of the members known the strong anti-slavery sentiments of Mr. Stockton, it is doubtful if he could have been elected.

☞ Fowler & Wells of New York have just published a pamphlet of about 50 pages, on The Human Voice; its right management in Speaking, Reading and Debating:—by Rev. W. W. Cassalet, A. M, Cantab.—The book contains many useful hints, the result of the author's experience and observation.

WEIGHT OF EGGS.—But few persons are aware of the great difference in weight of eggs. They vary from less than 15 oz. to more than 30 per dozen—and of course the prices should differ accordingly. The only fair way is to sell them by the pound—which will be done, by-and-by.

☞ A gentleman named Boatright, rather connubially inclined, and evidently believing that it is not well for man to be alone, even though death should remove from his side the partner of his joys and sorrows, has recently married his tenth wife. He is a resident of Cooper county, Missouri.

☞ In the the U. S. Senate, March 21, Mr. Green introduced a resolution requesting the President to communicate to the Senate the correspondence between the Judges in Utah and the Attorney General or the President, in regard to legal proceedings and affairs in that Territory.

Mr. Bayard, from the Judiciary Committee, reported back the bill for the protection of female passengers on board steamships and other vessels, and it was passed. This is the same bill that passed the House.

On motion of Mr. Fitch the bill to reduce the price of public printing and regulate the charges for binding, &c., was taken up. The bill reduces the prices of printing twenty-five per cent., and provides that the binding shall be done by binders elected by Congress.

After debate an amendment by Mr. Hamlin, making the reduction of 25 per cent. on the present prices, was agreed to, as was also an amendment offered by Mr. Fitch that the reduction shall apply to all the printing of the present Congress except the Post Office blanks. The bill was then passed.

Mr. Mallory gave notice that on Friday he would call up the bill to regulate and increase the pay of the Navy.

Mr. Hale offered a resolution which was adopted, that the President of the United States inform the Senate if any instructions have been given to officers of the Navy, by which in any event the naval forces of the United States were to take part in the civil war in Mexico, and by what authority certain Mexican steamers were captured and their officers and crews made prisoners.

In the House Mr. Stanton submitted a resolution of inquiry into the circumstances attending the recent capture of two Mexican vessels by our Gulf fleet, and whether the capture was in pursuance of the orders of the government. Objected to.

The Sickles and Williamson contested election case was considered.

Mr. Sickles spoke in support of his right to a seat.

Mr. Dawes replied in favor of his opponent.

Mr. Branch of North Carolina moved a test vote to table the whole subject. Negatived—80 to 94.

The resolution, as reported from the Committee on Elections, requires Mr. Williamson to serve on Mr. Sickles, within ten days, a particular statement of the grounds of contest; and that Mr. Sickles serve an answer within twenty days thereafter; and that both parties be allowed sixty days to take testimony in support of their separate allegations. Adopted—80 to 64. Adj.

MEXICAN NEWS.—*New Orleans, Mar.* 19.—Miramon paid $55,000 for the two steamers. The Miramon steamers passed by all the foreign squadrons and the castle without hoisting a flag, although ordered to do so by a shot from the castle and other signals. The English, French, and Spanish vessels of war did not notice the fact.—The engagement took place by moonlight. The prisoners corroborate the report in relation to the steamers that they cleared from Havana as merchantmen, and hoisted the Mexican flag only after they left that port and subsequently mounted six guns.

Miramon's steamers returned the Saratoga's fire and then tried to escape. The Indianola pursued the Miramon, whereupon the latter fired upon her. The Indianola returned the fire, and her crew boarded the Miramon at the point of the bayonet. A portion of the Indianola's deck was carried away by the shot. The Miramon was then ran aground, and the Saratoga brought the Marquis to.

The Picayune is informed by the French prisoners on board the prizes, that the fighting was done principally by the officers, who were obliged to charge and fire the guns, assisted only by Mexican officers from the shore.

The two steamers had two hundred and fifty men on board, and their killed and wounded amounted to fifty. The Indianola and Wave had eighty men each. The first engineer of the Marquis, an American, was killed. Capt. Turner asked Martin why he fired upon the American vessels without provocation. Martin replied that his men could not be controlled; he knew the nationality of the Saratoga and understood her signal; the men fired contrary to his orders. Capt. Turner replied, you are entirely responsible for the outrage.

It is stated that the expedition cost $300,000, most furnished in Havana by the Government, in accordance with a secret article of the Almonti treaty.

Juarez's proclamation, declaring Marin's expedition piracy, authorized any one to capture it.

☞ We learn that Mr. W. F. B. Jackson,—once a resident of this city, but more lately of New York, was ordained on Wednesday, the 21st inst., and will proceed to Oregon on the 5th of April, as an assistant to Bishop Scott of that Diocese.

Luck attends the daring sportsman—Think of Moses and his game of Pharaoh. The most sensible grog ration for seamen is moderation.

Bashful young men are victims of misapprehension.

Ever-lasting—The strike of the Lynn shoemakers.—*Post.*

☞ The London papers report that M. Julien, the celebrated musical conductor, attempted to commit suicide in Paris by stabbing himself. His concerts have been postponed and he has been placed under restraint.

BARNUM is once more in the ascendant. The last of his Clock Company's notes, to the extent of $400,000, was extinguished last week. Look out, therefore, for some brilliant speculation.

VETO.—The Governor of New York has vetoed the bill prohibiting Sunday amusements in the city of New York.

WASHINGTON, March 21.—All the Democrats and South Americans, with two exceptions, present in the House to-day, voted against the resolution providing for the taking of testimony in the contested election case of Williamson against Sickles. These two South Americans who voted with the majority are Anderson and Adams, both of Kentucky.

The bids for printing the Post Office blanks were opened to-day. Mr. Crowell of New York offers to execute the work for 93, and Mr. Thomas of Buffalo for 94 1-2 cts. less on the dollar than the government has heretofore paid.

There is the best authority for stating that the capture of the Miramon steamers was not in consequence of even a line of instructions to the commander of the Gulf Squadron from either the President or Secretary of the Navy, though the act is fully approved by the administration.

FUNERAL CEREMONIES—INAUGURATION.—*Springfield, Ill., Mar.* 21.—The funeral ceremonies of the Hon. W. H. Bissel, late Governor of Illinois, took place today. The attendance from the adjoining towns, and from Chicago was very large, and the military display was the finest ever made in the state. The remains were interred with the service of the Roman Catholic Church, and the ceremonies throughout were of the most imposing character.

Lieut. Gov. Wood was formally inaugurated Governor at 5 o'clock this P. M.

SUPPOSED PIRACY.—*New York, Mar.* 21—The oyster sloop E. A. Johnson was found adrift this morning, off Staten Island, deserted, and the cabin floor covered with blood and clotted hair. A large hammer was also found covered with blood. There was also much blood on the deck, with other evidence of violence. The sloop belongs to Islip Li, and was commanded by George Burr. She left the city on the 15th, for Virginia, for oysters, with three hands beside the captain, who had $500 in cash, with which to purchase oysters. It is supposed that the sloop was boarded by river pirates, and all on board murdered.

☞ At the late session of the U. S. Circuit Court, in this city, there was brought up a man named James K. Johnson, who was arrested in Philadelphia and sent here for trial on a charge of purloining a letter from the mail car of the Boston, Concord and Montreal Railroad, while returning from the White Mountains last summer. Johnson is said to have a father residing in Trenton, N. J., and respectable relatives there. He is a printer by trade, and was once editor and proprietor of the Golden Era of California. Since his arrest he has suffered from the effects of a brain fever, and is now apparently in a hopeless state of insanity, requiring as much care as a young child, in feeding, etc. He was remanded to jail in the care of Sheriff Brown to remain until the May term of the U. S. Circuit Court.

☞ U. S. Marshal Dearborn has appointed Augustus W. Simpson of Portsmouth, Deputy Marshal, vice Wm. H. Hackett, resigned.

☞ M. Parry Jones of this city has been chosen a Director in the Bank of New Hampshire, to fill the vacancy caused by the death of Washington Williams.

☞ On Wednesday the Boston & Maine Railroad commenced to operate the Newburyport road, under their recent lease for ninety-nine years.

When misfortunes happen to such as dissent from us in matters of religion, we call them judgments; when to those of our own sect, we call them trials; when to persons neither way distinguished, we are content to attribute them to the settled course of things.

The manufacture of Stomach Bitters.

There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, cematics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, know that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among those, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. F. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1851.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the great confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., Boston and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N.Y

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever, and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Wheeler & Wilson's

SEWING MACHINES.

—THE—

WHEELER & WILSON M'FG CO.

Invite the attention of Seamstresses, Housekeepers, Dressmakers, Tailors, Manufacturers of Shirts, &c., to the perfect adaptation and unrivalled excellence of these Sewing Machines for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, fitted to adorn the parlor, and suited to the workshop—applicable alike to the use of the family and the manufacturer. Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting, as they do, healthful exercise and rational employment for the soul-and-body-destroying drudgery of hand-sewing, they are hailed as Woman's Friend.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

The Lock Stitch made by this machine is the only stitch that cannot be ravelled, and that presents the same appearance each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

Economy of Sewing Machines.

The Wheeler & Wilson Sewing Machine Company has prepared tables showing by actual experiment of four different workers, the time required to stitch each part of a garment by hand, and with their Sewing Machine. The superiority of the work done by the Machine, and the healthfulness of the employment are advantages quite as great as the saving of time. Subjoined, is a summary of several of the tables—

	BY MACHINE. Hours	Min.	BY HAND. Hours	Min.
Gentlemen's Shirts,	1	16	14	26
Frock Coats,	2	38	16	35
Satin Vests,	1	14	7	19
Linen "		48	5	14
Cloth Pants,		51	5	10
Summer "		38	2	50
Silk Dress,	1	13	10	22
Merino Dress,	1	4	8	27
Calico Dress,		57	6	37
Chemise,	1	1	10	31
Moreen Skirt,		55	7	28
Muslin "		30	6	1
Night Dress,	1	7	10	2
Drawers,		28	5	6
Silk Apron,		15	4	16
Plain "		9	1	26

Seams of any considerable length are stitched, ordinarily, at the rate of a yard a minute.

By the sworn statements made by the several Sewing Machine Manufacturing Companies, it is shown that the

WHEELER & WILSON MANUF'G CO.

during the past year,

made more than double the number of Machines of any other establishment, and were still unable to supply orders!

They have won the highest premiums at the Fair of the United States Agricultural Society;—at the State Fairs of Maine, Vermont, Connecticut, New York, New Jersey, Pennsylvania, Virginia, Mississippi, Missouri, Ohio, Indiana, Illinois, Kentucky, Michigan, Wisconsin, California, and at the Fairs of the American Institute, New York; Mechanics' Association, Boston; Franklin Institute, Philadelphia; Mechanics' Institute, Baltimore; Metropolitan Mechanics' Institute, Washington; Mechanics' Association, Cincinnati; Kentucky Institute, Louisville; Mechanical Association, St. Louis; Mechanics' Institute, San Francisco; and at hundreds of County Fairs.

These machines have been used by many families in this city for several years, all of whom pronounce them to be the perfection of a Sewing Machine. Full instruction in the working of the Machine, given to purchasers.

A new style of FLOOR, SCRUB & WINDOW BRUSHES—very durable.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.

Ladies' Home Magazine.

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

KEROSENE! KEROSENE!!

Of the purest quality, almost odorless—made by a new manufacturing company, who have succeeded in producing a very superior article, both for quality of flame and freedom from smoke.

KEROSENE LAMPS,

THE BEWITCHING BEAUTY.

"I saw a glorious beauty in her face,
And with her breath the delicious perfume the air,
Sacred and sweet was all I saw in her."
—*Shakspeare.*

"The fire of her eyes dazzles the two worlds."
—*London Journal.*

THE BEWITCHING BEAUTY,

Which is embodied in the exquisite proportions and luminous coloring of

TITIAN'S RECLINING VENUS,

Has for two centuries been the admiration of all beholders. Artists, connoisseurs, and the public will therefore by glad to learn that a magnificent Engraving, colored in oil, of the

PICTURE THAT ENCHANTS THE WORLD,

Has been issued by the undersigned, at a price which places it

WITHIN THE REACH OF ALL.

Our Engraving is the only authentic copy ever published in America, of the

GEM OF THE DRESDEN GALLERY,

For which the government of Hanover paid

FORTY THOUSAND DOLLARS.

It represents the Goddess reclining on a couch and radiant with celestial loveliness. The warm lights and soft shadows which lend such a strange fascination to all the undraped divinities of Titian, are admirably reproduced in this picture, and the accessories, both in the foreground and background, enhance the general effect.

This picture is splendid without gaudiness, warm without prurience, and brimful of the very soul of art. [New York Sun.

It is the best piece of flesh coloring ever executed in this country. [New York Leader.

Engraver and colorist have produced a work of art that has the Titian tone, as well as the fulleless outline of the bewitching original. [N. Y. Mercury.

The drawing coloring and finish are beyond praise. [N. Y. Atlas.

It deserves a place in the "porte-feuille" of every admirer of the fine arts. [N. Y. Sat. Press.

READER—Inclose $2, and 15 cents in stamps, and you will receive by return mail, a gem of art, with an elegant gift.

A LIBERAL DISCOUNT TO AGENTS AND THE TRADE.

A really valuable GIFT OF JEWELRY is presented with the Engraving. Address,

DAYTON & CO.,
American and European Engraving Warehouse,
No. 87 Park Row, New York.

NUTS, RAISINS, ORANGES, &c., &c,

PRIME VERMONT BUTTER & CHEESE for sale at **No. 12 Market Street**

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rot of him who says, "I will visit the iniquities of the fathers upon their children."

The cure commences by deposition from the blood of corrupt or mucorous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently they become perhaps by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must purify the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. It should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, STRUMAS AND SWELLINGS, AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can scarcely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting the disordered secretions, giving its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is relieved and cured, and the health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec30 6m d&w

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, for I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling of arrested, but the color was restored to the gray hairs and sensibility to the scalp was and dandruff ceased to form on my head, very much to the gratification of my wife, as whose solicitation I first commenced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,

BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Stamaston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC the great benefit to the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative" the hair will grow as thick and beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. C. DENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a remedy.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds about 40 per cent more in proportion, and retails for $3 a bottle.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth, throat, sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of acute and chronic, gout, sciatica, lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has ever used in his practice of more than 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a cough that is distressing, to procure them, and use them freely. MARY P. RICKER.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore would similar recommend the use of them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to all others affected, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a sure remedy for them. I have found nothing that gives relief so quick. Let every suffering preacher take a phial and try it. CHARLES C. RICKER.

EXETER, July 20, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs, and for any other complaints of the Lungs, of any medicines with which I have acquainted. NANCY F. SWETT.

CANAAN, Aug 29, 1850. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together.

THEOPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

American and Foreign Patents.

E. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, [illegible] of 1857.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages which cannot be secured by employing the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and the SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full access to all patents granted in the United States and Europe, render him peculiarly competent to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them the broadest and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1853.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted; and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made no twice rejected applications, SIXTEEN APPEALS, REVERSING 9 of which decisions of the Examiners in his FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is free from all Opium, paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening the sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is safe, harmless and pleasant to take, even the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over other similar preparations:

FOR ALL COMPLAINTS ATTENDING TEETHING: such as DYSENTERY, COLIC, &c.; also, for ordinary fits of infantile suffering pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and alarming of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it, knowing it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those who are principally living by advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 26 Maiden Lane, New York
GEO. C. GOODWIN & CO., Wholesale Agents, Boston.
And by all respectable Druggists throughout the country.
In Portsmouth by W. R. PRESTON.

MRS. WINSLOW,

An experienced Nurse and Female Physician presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic actions, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know a child seriously injured by any one who took the contrary, all are delighted with its operations and speak in terms of highest commendation of its magical effect and wonderful virtues. We *do know,* after ten years *our reputation for the truthfulness of our word,* that the infant is suffering from pain and exhaustion, relief will be found in twenty minutes after this syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in the BRIGHT and FATAL DISEASE, INFLAMMATION OF THE BRAIN, for which no other remedy is so efficacious as this. We believe it to be the best and surest REMEDY IN THE WORLD IN ALL CASES OF DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, SURE—to follow the use of this medicine, if timely and judiciously administered.

This valuable medicine is the *fac-simile* of CURTIS & PERKINS, New York, is Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and sure by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate consumption, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2,000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* let no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility,* or your sleep has been disturbed, if your spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops* in a tablespoonful of water, taken in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action, in the most inveterate cases of *Dyspepsia,* the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses,* the cure is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children,* will find this invaluable, as it fitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with marked success.

For full directions, see circulars. Price $1 per bottle.

Half Column, in Daily, per year, $80.
" " " six months, 50.
" " " three months, 30.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 5 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at 6 o'clock, or before, are to be placed on the counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and if none, to be placed in the house-door; or if necessarily left out, the bell to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also offer our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

GROVER & BAKER'S
Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines new from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The ease with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is especially claimed for the "Grover & Baker" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

In there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.
CHARLES W. BREWSTER.

C. C. WHITTEMORE,
STORE NO. 3 MARKET ST.
AGENT IN PORTSMOUTH.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over a Lifter, we offer them at THE SAME PRICE as the Lifter charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

J. B. WIGGIN & CO.,
Green St., Portsmouth.
Portsmouth, March 1st, 1860.

HALLET, DAVIS & CO.,
409 WASHINGTON ST., BOSTON,
Manufacturers of
Best Square & Grand Piano-Fortes,
WHICH ARE WARRANTED FOR FIVE YEARS.

Having had an extensive experience of 25 years in the business, and having at present the most complete facilities for turning out twenty Pianos per week, they feel confident in guaranteeing perfect satisfaction to all patrons.

As an evidence of the superiority of their Pianos,—this house has received the awards of thirty-two Premiums, 9 Hi Medals of gold, silver and bronze; nine of which were first Premiums for the best Grands and Parlor Grands, over all competitors.

There are many instruments in Portsmouth, from this manufactory—to the owners of any of which, we would respectfully refer.

A splendid 7-octave Piano from the above celebrated makers, may be seen at the Temple; and any information given, or instruments furnished at the manufacturers' prices, on application to
FRANK W. MILLER.
Portsmouth, Dec. 20, 1859.

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.

Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.

In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated

If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.

Patronize your own.

JOSEPH P. MORSE,
Periodical and Newspaper Agent,

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, Jr.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, MARCH 24, 1860.

PROVE YOUR LIQUORS.

Dr. Hiram Cox, a distinguished chemist of Cincinnati, has published a letter giving the results of his analysis of adulterated liquors, in which he says:

"I was appointed [by the Legislature of Ohio] to the office of Chemical Inspector on the 19th day of March, 1853. Since then I have made upwards of 600 inspections of stores and lots of liquors of every variety, and I positively assert that *ninety per cent.* of all that I have analyzed were adulterated with the most pernicious and poisonous ingredients."

Ninety per cent. shows how general the practice of adulteration is. These ingredients were sulphuric, nitric and prussic acids, Guinea pepper, and an abundance of fossil oil; mixed with common whiskey, they made what the dealers called "a beautiful pure pale brandy;" and by adding catechu, an almost equally "pure dark brandy."—Whisky is "extended" with some of the above ingredients, and with some or all of them it makes the common and also the highest priced qualities of the brandy, rum and gin of the shops and of the common and fashionable hotels of the cities and the country.

Is it desirable to be able to ascertain whether any particular lot of liquor has been adulterated? If so, an easy way to do it is afforded by the use of blue litmus paper, which, by its change of color upon being dipped into the liquor, will indicate the presence of a very minute per centage of any acid. A sheet of this paper, to be had at the apothecary shops for ten cents, may be cut into strips enough, two inches long and a quarter of an inch wide, to test, for aught, I know, 500 different lots of brandy, rum, gin and whisky. Dip such a strip of litmus paper half its length into the sample of the lot of liquor you wish to test; if the litmus paper turns to a pink color, it is certain that the sample contains an acid—and, as pure brandy, rum, gin and whisky contain no acid, it is also certain that the sample has been tampered with, adulterated, "extended."

In this case we have ascertained that the liquor which has thus discolored the strip of litmus paper, contains an acid. If it is a sample of brandy, is a reasonable and it will generally prove a true inference, that the sample contains the three acids mentioned by Dr. Cox, and also the Guinea pepper, the nitric ether, and an abundance of fossil oil; and, if the sample is a dark brandy, the catechu.

If it is wished to see the effect of an acid with which we are all acquainted, on the litmus paper, it can be dipped into a small quantity of vinegar and water, mixed half and half. This mixture will certainly turn it to a pink color, but little or no brighter than that which will be produced by most of the liquors in the market of this and other States. The result will be much the same if the liquors of the Town Agents are used, so general is the fraud.

BLUE LITMUS PAPER.

We understand that some experiments with the blue litmus paper, on liquors sold in this city, showed nearly every specimen tried to be impure and destructive, except alcohol alone. Let everybody try the liquor by this test—and beware!

☞ Obadiah, the New York correspondent of the Independent Democrat, says:

Judge Douglas is being slaughtered in the house of his friends, and his worst enemies are those of his household.

The Union movement is going on under the auspices of a most indefatigable set of men, who are divided in their preferences for Houston, Botts, Bell and Bates. If Gen. Houston should be selected, the Republicans will find it easier to acquiesce than to defeat the old hero of San Jacinto.

If Gen. Houston should not only be selected, but elected, perhaps he would make Uncle Toby keeper of the big guns, or inspector of customs.

☞ Steam Fire Engines are fast coming into use all over the country, and where there is an adequate supply of water they are invaluable. Where the water is as deficient as it is in many of our towns, they are, however, comparatively valueless. A careful and expert mathematician has made a caculation, from which it appears that giving a steam engine a constant supply of water, and working it on a long stretch of twenty-four hours continuously, it will throw as much water as ten thousand men from hand engines during the same time.

☞ A young man in Western New York wrote to Horace Greeley, asking his advice whether one of the professions would not be preferable to tilling the soil. The editor of the Tribune returned the following practical reply to the query:

Dear Sir:—I judge there are three times as many lawyers and doctors in the country as are needed; and, judging from the price of flour and beef, not half enough farmers. Of course, I judge that you had better look towards growing grain, than making pills or pleas. Yours, HORACE GREELEY.

MORE ESCHATOLOGY.—In a review of Lee's Eschatology, the Congregational Journal says:

Turn now to the explicit declaration of Paul in 1st Cor. 6: 14—"And hath both raised up the Lord, and will also raise us up by his own power." We are surprised at the commentary of Eschatology on this passage, which is as follows—"God will raise up *us*, not our bodies. The term is applied to the whole man. Will *he* live and be blessed after death? is the question to be answered in the text. The body is to be destroyed—v. 13."

To say nothing of the proof which this text furnishes of the doctrine of the resurrection of the body, it settles the question beyond all doubt, that the change of the natural body to a spiritual body, is wrought by the power of God. This is the doctrine of Revelation. But by the naturalistic theory this doctrine is subverted, even in its application to the resurrection of the body of Christ, for the text last quoted teaches, if it teaches anything, that the *same* power which will raise up the bodies of believers, raised up the body of Christ. And as the resurrection of Christ was a supernatural or marvelous event, as *Eschatology* admits, so the resurrection of human bodies will be an event of the same character.

We object, therefore, to the naturalistic theory, because it excludes Christ from an important part of his work as a Redeemer, and diminishes both his glory and the glory of the redeemed. We object to it, also, because it is subversive of the Scriptural doctrine of a future state of *punishment* as well as of *rewards*. For if the glorified bodies of the saints are nothing more than their souls or minds, which have been developed by a natural law, then we see not why *all souls* will not be saved, for they are *all* subject to the same law. To say that they are prepared for this development by divine power, would be fatal to the theory.

As Uncle Toby read this, he remarked, that in all the operations of natural law, he discerns the workings of divine power:—believing that God created man at first, he has no doubt he can raise him from the dead:—and that as God freely *gave* us the life we now live, so, as Paul says, Eternal Life is also the gift of God.

In several counties of Virginia the forest trees are dying without any apparent cause. This extraordinary blight is the common topic among the citizens of the counties where it prevails.

It is a singular coincidence that this blight should happen the same season when old Virginia has hung seven men, beginning with John Brown and ending with Hazlett. Some of those papers which made such a dismal use of the sudden deaths of Messrs. Moore and Barton, in the great Know Nothing year, ought to moralize on John Brown and the trees.

☞ A few days ago, at Manchester, Mary Miller was arrested for stealing dry goods, and is in jail. It now turns out that she is only one of a large gang of thieves whose headquarters have been the house of Charles R. Clark of Londonderry, and the tenement of Mrs. Huldah Adams, in Manchester. Stolen goods were found at Clark's house, and Clark and his wife are arrested. Clark, who is a native of Londonderry, keeps a rum hole, a depot of stolen goods, and generally a "foul nest" in the vicinity of the old White Tavern; and if it can be broken up, the morals and good order of that part of the town will be greatly benefitted. Thefts of farming tools, fruit, fowls and other transferable property have hitherto been frequent in that vicinity.

Mrs. Adams, who is a sister of Mrs. Clark, keeps a suspicious company of boarders in Manchester. She and her sister, Mrs. Frank Chase, were arrested, some of the stolen goods being found on the premises. Three young men from Londonderry, one of them a brother of Clark, have also been arrested.

THE DANE LAW SCHOOL.—While Professor Parker was addressing the students of the Law School at Cambridge, Tuesday morning, upon constitutional law, he adverted, for the purpose of illustration, to the mission of Mr. Hoar to South Carolina. This caused mingled hissing and applause among those present. Judge Parker expressed his regret at the occurrence, and stated that a similar experience had not befallen him as a lecturer for twelve years past. He observed that the police regulations of South Carolina might afford some extenuation for the behavior toward Mr. Hoar; yet the conduct of the citizens on that occasion, more than any other single act, had operated to create the existing unpleasant differences between the North and the South.

Judge Parker also took occasion to assure the students he should not be deterred by any disapproval on their part, from allowing himself all necessary latitude of remark in the discussion of the important questions which it would be his duty, as a law lecturer, to take under consideration.

☞ Mayor Willard, of Concord, has just delivered his inaugural address; he closes it thus:

Gentlemen, we are about to go to our rooms, to commence the business of the year; let us recognize the Higher Law as the rule of our conduct, and endeavor to make the Lower conform thereto.

A contemporary inquires if the young ladies of the present day are fitted for wives. A much more important inquiry is, whether they are fitted for husbands.

☞ Messrs. Brown & Taggard, publishers, of Boston, have in press, and will commence publishing on the first of July, 1860, the Complete Works of Bacon. This edition will be an exact reprint of the English edition, which the Athenæum justly calls "princely," and truly remarks that "criticism has little to do with it, save to pass it on to a grateful reader, and wish it and him good speed."

In the edition of Messrs. Ellis, Spedding, and Health, which, as every one competent to form a jungement on the subject knows, renders all previous editions comparatively worthless, the Works of Bacon are arranged in three classes: 1st, the Philosophical; 2d the Literary and Professional; 3d, the Occasional. The Philosophical, and the Literary and Professional Works have already appeared in England, and will make fifteen volumes in the American edition. The publishers will begin with the Literary and Professional Works, and will issue at least one volume per month till the whole is completed, unless some delay may be caused by the failure of the English publishers to issue the Occasional Works in due season.

The American edition will be stereotyped and printed by H. O. Houghton, & Co., at the Riverside Press, Cambridge, whose work is too well known to need commendation. Each volume will be an exceedingly beautiful crown octavo, of about five hundred pages.

The publishers confidentially expect a friendly response, on the part of the literary men and cultivated readers of America, in their enterprise of issuing with great luxury of typography the works of a mighty man of genius, whose "writings fill the world with his fame."

Price per volume, in cloth, $1.50; in sheep, library style, $2; in half calf, gilt, $2.50; in half calf, antique, $2.50.

We refer our readers to the advertisement of Messrs. Church & Dupont, No. 409 Broadway, New York.

The "Blood Food" is one of the greatest medicines of the age, and is rapidly driving out of the market all the quack nostrums of modern times. Its efficacy is so great, and its superiority so justly acknowledged, that it is often difficult to supply the immense and increasing demand for the article.

Dr. Eaton's celebrated 'Infantile Cordial' is a medicine prepared by a regular physician of eminence in his profession, and one who has devoted his life to the peculiar phases of Infantile diseases. It is no humbug, but a medicine which commends itself to those only who can appreciate it.—*Apalachicola, Flor. Times.*

We have the pleasure of personal acquaintance with Messrs. Church & Dupont, and can recommend them as prompt and reliable business men, and courteous gentlemen. As to their medicines, we leave them for others to speak of—and there are plenty who do it, in the highest terms of praise.

☞ The great breach of promise case, Carstang vs. Shaw, which is now on its tenth day in St. Louis, is one exciting no little interest. An immense—almost cruel, we think—effort is being made to break down the case of the plaintiff, by the ruin of her character. The whole county wherein she has resided has been ransacked for this purpose. In his opening for the defence (of Shaw, against excessive damages, for this is the point primarily at issue), the counsel, in arguing that men are often made the victims of designing women, (poor, unfortunate fellows!) he made an allusion to the Dr. Pomroy case in Boston, as follows:

We know of clergymen being drawn into a net of this kind without the slightest act of imprudence. A woman in Boston sent for a clergyman to come and see her in distress, and when by her beside, a man, pretending to be her husband, rushed out and demanded satisfaction for assailing his wife. The clergyman appealed to a lawyer, and was actually advised to pay to avoid disgrace, and he did it.

☞ A Mr. F. Skinner was literally torn from the arms of Miss Kate Beardsly, his "spiritual affinity," in Utica, N. Y., a few evenings since, and ridden upon a rail. He was rescued by the police and lodged in the watch-house for safety. Skinner had deserted his wife through the influence of free love spiritualism, and the citizens took this method of expressing their disapproval of the scandalous act.

☞ A lad about sixteen years of age, son of Mrs. Morris, of Decatur, Ala., was murdered by a negro belonging to the family. It seems the lad gave him some orders, and the servant not obeying, he threatened to have him punished, when the negro picked up a stone and hit his young master on the head, it is supposed killing him instantly. After he had committed the deed, he took the body, and threw it into an old well near by.

☞ On Sunday last, Mrs. Alexander Wood of Westport Point, while in the yard near the house, was attacked by a heifer and thrown to the ground, and seriously injured. Just as the animal was about to make another pluoge at the prostrate woman, the dog belonging to the family rushed out of the house, seized the heifer by the nose and prevented further injury, probably saving Mrs. Wood's life.

MARRIED.

In Newburyport, Mr. Elbridge T. Lewis to Miss Ellen T. Chase, both of Newburyport.

DIED.

In St. Stephen, N. B., Mrs. Jennie Lindsay, formerly Jennie Marsh, of Nottingham, aged 22.—Her husband died last October.

HENRY F. GERRISH,
15 Daniel Street.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

CHURCH & DUPONT, Druggists,
No. 409 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston,

And by all respectable Druggists throughout the country. In Portsmouth by W. R. PRESTON.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS including CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERUSE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD", $1 per bottle.

Sold by CHURCH & DUPONT, Druggists,
No. 409 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

Portsmouth, March 19, 1860.

☞ Read Dr. Jackson's opinion of this article:

Boston, Jan. 13, 1860

Dear Sir:—I have made a chemical examination of sample of your Vinegar, and find it to be free from all noxious ingredients or adulterations. It is an agreeable article for table use.—

Yours truly, CHAS. T. JACKSON, M. D.

ICE. ICE. ICE.

The Subscriber has a large amount of ICE, which he will sell as cheap as can be bought anywhere else. This Ice does not get the washing of manure, nor is it dug out in muddy holes; but is made from PURE SPRING WATER.

Apply at No. 30 SOUTH STREET.

march20 GEO. L. STOKELL.

This may certify, that my son has had a humor which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running sores. He has been cured by the use of Dr. Swett's Panacea and Humor Wash. T. CURRIER.

Kingston, March 10, 1841.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 12 Cabot St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiorumenos.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters. There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The demand has created a great variety of pills, cathartics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very unpleasant and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters."—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 26, 1858.

I have used Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it to General Debility, and diseases of the digestive organs. F. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., Plymouth, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

---

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOLTON, MASS., June 1, 1859.

Messrs. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

☞ Allen [& Paine's Manufactory of Ladies' Cloaks, Capes and Mantillas, is at the celebrated "No. 15 Market Street," Portsmouth; where look out for their grand Opening, Monday morning.

Their Salesroom for jobbing is in the dry goods house of Messrs. White, Brown, Davis & Co., Congress street, Boston. Mr. Rufus D. Allen also opens there this week.

☞ At the U. S. District Court in this city on Tuesday, the Ferdinand Clark Bankrupt case was discussed by Counsellors Hackett, Emery, C. L. Woodbury, Tuttle of Boston, and others; and a libel suit against schooner Nancy Mills, for damage to hay freighted for John Burns, from Dover to Boston, was heard.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

☞ We learn that Mr. Wm. Gallagher is to visit Portsmouth next week, to exhibit his famous "Diorama of Moscow."

☞ A part of the duty of Mr. Simpson, the newly appointed Deputy Marshal, will be, to take the census of the city.

POLITICAL JOKE.—A joke is told of the towns of Lisbon and Lyman, at the late election in New Hampshire. Lisbon is a Republican town, and Lyman heretofore has been Democratic. The Democratic leaders in the latter town thought they could spare two or three voters, so as to carry Lisbon for the Democrats, and they accordingly *moved* some two or three, just long enough before the election to entitle them to vote. The result was that Lyman elected a Republican Representative, and Lisbon two, much to the dismay of the astute managers, who had thus over-reached themselves.—*Boston Journal.*

HENRY WARD BEECHER ON INTEREST How many people in the country have found out the truth of the following,—by Henry Ward Beecher:—

No blister draws sharper than interest does. Of all industries, none is comparable to that of interest. It works day and night, in fair weather and foul. It has no sound in its footsteps, but travels fast. It gnaws a man's substance with invisible teeth. It binds industry with its film, as a fly is bound up in a spider's web. Debt rolls a man over and over, binding him hand and foot, and letting him hang upon the fatal mesh until the long-legged interest devours him. There is no crop that can afford to pay interest on money on a farm.

There is but one thing raised on a farm like it, the Canadian thistle, which swarms new plants every time you bleed its roots; whose blossoms are prolific, and every one the father of a million seeds. Every leaf is an awl, every branch a spear, and every single plant like a platoon of bayonets, and a field full of them is like an armed host. The whole plant is a torment and a vegetable curse. And yet a poor man had better make his bed of Canadian thistles, than attempt to lie at ease upon interest.

DESTRUCTION OF GAS WORKS.—About half past one o'clock, Tuesday afternoon, a cast iron retort in the gas house on the estate of John P. Cushing, Belmont, Mass., exploded with a loud report. The gas house supplied gas to the mansion house, conservatory and stable. It was built of brick, with wood and metallic roof, and was nearly new. It was set on fire and entirely destroyed. The loss was about $2000.

The Lowell street Universalist Society, of Manchester, have given a unanimous call to Rev. B. F. Bowles, of Melrose, Mass., to become their pastor, with a salary of $15,00 a year, and he has accepted. He will commence his labors there the first of April, and will probably be installed some time that month.

☞ The "times" are quoted in Montpelier, Vt., to be as hard as in 1857–58. The cause is supposed to be in the farmer's keeping back their produce. It is supposed thereby that they will get bitten, and by themselves, which will not be so very pleasant.

☞ As Mr. N. T. Corlis of Hooksett was drawing a large crooked stick of timber; it rolled over, and the projecting end struck him in the side of the head, fracturing the skull and causing instant death. He was 30 years old, and leaves a wife and child.

☞ A new temperance society has been organized at Augusta, Me., called the "Sons of Levi." It is composed of those who have quite recently abandoned the use of intoxicating liqors.

☞ The trial of Isaac F. Shepard, late Treasurer of the Hanover St. Savings Bank, upon an indictment for forgery, is how proceeding in Boston.

☞ The Wheeling (Va.) Union asserts that an association of Mormons not only exists but flourishes in one of the sections of Wheeling. It numbers forty or fifty persons.

A business man of our acquaintance is so scrupulously exact in all his doings, that whenever he pays a visit, he also insists upon taking a receipt.

☞ The Irish papers deny the truth of the recent report that Piccolomini was married lately in Dublin.

CALEB CUSHING.—*Hartford, Mar. 23.* Hon. Caleb Cushing addressed an audience of 5000 people in this city this evening.—The meeting was held in the large National Hall, erected by the Democrats for this campaign. Mr. Cushing argued that the doctrines of the Republican party tend to the most dangerous results. The meeting was very enthusiastic, and the effort of the orator was received with immense applause.

3 DAYS LATER FROM EUROPE.

HALIFAX, March 23.—Steamship Canada, from Liverpool Saturday, 10th inst., via Queenstown, 11th, has arrived here.

The question of the annexation of Savoy to France was the prominent topic.

Sardinia had consented to the annexation, the inhabitants of Savoy voting on the subject.

Lord John Russell had stated in the House of Commons that Austria and Prussia concurred in the views of England.—Russia had not yet replied.

The House of Commons had voted an address to the crown approving the French treaty. The amendments offered thereto by the opposition were rejected.

It was reported that since Sardinia rejected Napoleon's programme for Italy, the French troops had received orders to be ready to march at the first notice, and that the evacuation of Lombardy and return of the army to France threatened.

☞ At Haverhill, Mass., the strike seems to be about over. At a meeting on the 22d, the chairman stated that of 900 shoemakers in Haverhill, 800 were "scabs,"—i. e., they had gone to work,—leaving not more than 100 strikers.

A gentleman from Newburyport said 250 workmen struck originally in that place, and now all were at work but about fifty. Some of the most prosperous of the shoemakers there worked with muffled hammers, and peeped from the attic windows to see if a committee were coming.

Mr. James Winn, a leading Irishman, said that at the beginning men had objected to joining in the strike because there were so many foreigners in it. If the "mongrels," not the Yankees, had held out as well as the Irish, the manufacturers would all have signed before this. He said the scabs were a disgrace to their forefathers, whose ashes cried out against them, and drew a striking picture illustrating the comparative appearance of the striker and the scab at the judgment day.

Portsmouth, March 1, 1860.

Wheeler & Wilson's

SEWING MACHINES.

—THE—

WHEELER & WILSON M'F'G CO.

Invite the attention of Seamstresses, Housekeepers, Dressmakers, Tailors, Manufacturers of Shirts, &c., to the perfect adaptation and unrivalled excellence of these Sewing Machines for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, fitted to adorn the parlor, and suited to the workshop—applicable alike to the use of the family and the manufacturer. Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses. Substituting, as they do, healthful exercises and rational employment for the soul-and-body-destroying drudgery of hand-sewing, they are hailed as Woman's Friend.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best *ever* offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

The Lock Stitch made by this machine is the only stitch that cannot be ravelled, and that presents the same appearance each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

Economy of Sewing Machines.

The Wheeler & Wilson Sewing Machine Company has prepared tables showing by actual experiment of four different workers, the time required to stitch each part of a garment by hand, and with their Sewing Machine. The superiority of the work done by the Machine, and the healthfulness of the employment are advantages quite as great as the saving of time. Subjoined, is a summary of several of the tables—

	BY MACHINE. Hours	Min.	BY HAND. Hours	Min.
Gentlemen's Shirts,	1	16	14	26
Frock Coats,	2	36	16	35
Satin Vests,	1	14	7	19
Linen "		48	5	14
Cloth Pants,		51	5	10
Summer "		38	2	50
Silk Dress,	1	18	10	22
Merino Dress,	1	4	8	27
Calico Dress,		57	6	37
Chemise,	1	1	10	31
Moreen Skirt,		35	7	28
Muslin "		30	6	1
Night Dress,	1	7	10	2
Drawers,		28	5	6
Silk Apron,		15	4	16
Plain "		9	1	26

Seams of any considerable length are stitched, ordinarily, at the rate of a yard a minute.

By the sworn statements made by the several Sewing Machine Manufacturing Companies, it is shown that the

WHEELER & WILSON MANUF'G CO.

during the past year,

made more than double the number of Machines of any other establishment, and were still unable to supply orders!

They have won the highest premiums at the Fair of the United States Agricultural Society;—at the State Fairs of Maine, Vermont, Connecticut, New York, New Jersey, Pennsylvania, Virginia, Mississippi, Missouri, Ohio, Indiana, Illinois, Kentucky, Michigan, Wisconsin, California, and at the Fairs of the American Institute, New York; Mechanics' Association, Boston; Franklin Institute, Philadelphia; Mechanics' Institute, Baltimore; Metropolitan Mechanics' Institute, Washington; Mechanics' Association, Cincinnati; Kentucky Institute, Louisville; Mechanical Association, St. Louis; Mechanics' Institute, San Francisco; and at hundreds of County Fairs.

These machines have been used by many families in this city for several years, all of whom pronounce them to be the perfection of a Sewing Machine. Full instruction in the working of the Machine, given to purchasers.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N. Y.

Price 25 cents per box.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D., Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

From the Journal.

In the City Council on Thursday evening but little business was done. Petition for reception of Lime street was referred.

A committee was appointed to examine the Court House, and report an estimate of the expense of fitting up Rooms for the City Council.

No action was taken on the change of the name of Islington street, as a petition is receiving signatures of the owners of property and residents on the street, asking that the name be retained, and if any change be made that it be the name of Congress street.

A century and a half ago, the name of Islington was given to the mills located at the head of het pond. Some early deeds speak of land being bounded on the road to Islington. Islington road in time became Islington street, and is one of the oldest streets in the city which bears the original name.

CAMBRIDGE, March 19, 1860.

Dear Journal:—The University term has opened under new, and on the whole, favorable auspices. Ex-Prof. C. C. Felton fills the President's chair with entire efficiency, and adorns it by his distinguished refinement and erudition. He is very generally beloved by the students, though of course the "upper classes" will still cling to Dr. Walker, as the model President. The latter gentleman had the offer of the Junior Pastorate at King's Chapel, but declines on account of advancing years, (he is at the age of 67) and from the necessity for rest which compelled him to resign his office at the University.

Ex-Prof. Huntington will probably be confirmed at the Episcopal church in Cambridge, on next Sunday. He attends that church at present, and has a Bible Class in its Sunday School: but his coming has created a division in the church, and a part of the congregation have left, and propose to hold separate services. Prof. H.'s affinity for Orthodoxy was slight. His mother was excommunicated for heresy, and the continuance of her life thereby affected. He has slipped by into Episcopalianism, and Bishop Eastburn will confer priest's order upon him next September.

In regard to the Plummer Professorship, and the office of Preacher to the University connected with it, the steps taken are satisfactory to all parties in authority here. The Evangelicals think it but honorable and proper that Prof. H. should vacate a Professorship endowed by a Unitarian lady: holding which he would be obliged to preach in a chapel, the result of a Unitarian bequest; and to a congregation, Unitarian by a very large majority. He leaves, accompanied by the good wishes of many strong friends, who have been firmly attached to him by his wonderfully eloquent rhetoric, and his sincere earnestness as a practical Christian. But a heavy blow has fallen in another quarter—in your own city.

We were much pleased with the tone of an article in last Saturday's Portsmouth Chronicle from "o°o" as an appeal to Dr. Peabody's Parish. He *must* leave them. He is absolutely *needed* here and no other can come as a substitute. So far as our own wishes are concerned, we should of course feel an unlimited preference that he should yet remain in the home pulpit. But the many tendrils of affectionate regard and respect, which long years of faithful service have drawn and twined about his person and character, must loose their hold, and let him go. His character, as a man and christian, his learning exceeded by few in the land, for thoroughness and variety; his theology, clearly and positively Unitarian, of the spiritual cast; his great interest in students, and knowledge of the student's character; and his far more extending sphere of usefulness in the position to which he is called, all fit him and render him as necessary for the place as the key-stone for the arch left without it.

Dr. Peabody's nomination has been confirmed by a vote of 16 to 2 in a Board of Overseers, two-thirds anti-Unitarian. We make these statements thus directly, in order that it may not be thought by any who read this letter, that the matter is managed by a sect for its own advantage. The charge that that sect insidiously obtained control of Harvard and continues to hold it in a bigoted, exclusive way, we have often heard made. How true it it, these *facts* may go to show. On the contrary the Unitarians on the Board of Overseers voted to request Prof. Huntington to withdraw his resignation. Pres. Felton, a Unitarian layman was nominated, and the nomination confirmed unanimously.

The Divinity School has 23 members this term: of these the Junior class comprising ten. Philip Chunder Gangooly will attend a portion of the exercises during the remainder of his stay in this country. He will probably leave for India before the close of the summer now approaching.

Rev. T. Starr King will preach his farewell sermon to his parish next Sunday, the last in the month. The closing Festival of the church will take place this week. Mr. King sails from New York on the 5th of April, and we suppose it probable that he will not return to East for some years, five perhaps. Rumor says that his parish may build up town, or a part of them may, in connection with some of Mr. Coolidge's former society. Another church of that persuasion is needed above Blackstone and Franklin Square.

The foundation for Dr. Gannett's new church is being laid, at the foot of Boylston st. near the Public Garden. It is to cost $90,000, and will be an elegant structure. BOWDOIN.

MR. DROWN'S POEMS.—We copy the following from that spirited and interesting paper, the Boston Transcript, whose editor and publishers are always ready to say a kind and generous word, without fee or reward, for the depressed and unfortunate:

"We understand that upwards of one thousand copies of Mr. Drown's volume of Poems—'Fragrant Flowers,'—have been purchased by his friends, and those who have become interested in him, through recent notices in the Transcript and elsewhere. Also, that his publishers, Walker, Wise & Co., continue to receive small donations for the benefit of the afflicted author; two such kind and thoughtful gratuities having been placed in their hands this week. Such ministrations bestowal of charity is of the kind which blesses alike the giver and receiver."

Prof. Shedd, of Andover, is expected to preach in the North Church next Sabbath.

A CARD.

The Treasurer of the Portsmouth Howard Benevolent Society is in receipt of the sum of Fifty Dollars, from three absent Sons of Portsmouth, residents of the city of New York, by the hands of Mr. D. Knight. Grateful to them for thus remembering the poor of their native city, may it be returned to them in four fold blessings. The donation is most opportune at the present time, as the ends of the Society are very low. May it be the means of stimulating others to go and do likewise.

JOHN STAVERS, Treasurer.

Portsmouth, March 22, 1860.

FIVE
SPLENDID STRAWBERRIES.

HOOKER—Very productive; large, beautiful, and of UNEQUALED QUALITY.

Wilson's Albany—Exceedingly productive; FINE FOR MARKET.

Triomphe de Gand—IMMENSE SIZE:—splendid appearance, and high flavor.

Pyramidal Chilian—very handsome; productive, hardy and good flavor.

Large Early Scarlet—THE EARLIEST; productive and excellent.

As it is impossible to secure all the excellencies of this most popular fruit in one variety, we offer the above, as comprising, in five sorts, the various points desirable.

We again confidently RECOMMEND the HOOKER, as by far the best for family use, it only one sort is to be planted—combining a greater number of excellencies than any other variety.

☞ All of the above have perfect flowers, and will produce excellent crops, if planted singly or together.

PRICES—(Securely packed to be forwarded by express:)

Per 100 plants of any of the above varieties, $2.00
" 100 " 20 of each variety, 3.00
" 500 " 100 of each variety, 7.50
" 1000 " of the Hooker, 10.00

WORTHY OF
Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the World testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the facts. I have no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling of my hair, for I had little or no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised at the end of the two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and that about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling of my hair, for I had little or no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised at the end of the two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and that about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

I feel no hesitancy in saying that the use of this preparation has restored to me hair, which are green. A man or woman may be nearly deprived of hair, and by a resort to your Hair Restorative, be still restored to their beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like—By publishing in our Southern papers you will get more patronage south. I have several other certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the greater portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be of very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a remedy.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds a pint, and the medium holds one half pint bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle, and the large holds one hundred per cent more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Sold by all good Druggists.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during upwards of 30 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual purgative. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a cough from that distressing complaint, to use it freely. MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops than all other medicines put together, though I have tried many. FANNY MINER.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore would most cordially recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 5, 1841. "Many of my brethren in the ministry, frequently recommend my troubled lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to all others afflicted with pulmonary complaints, that by Dr. Swett, of Portsmouth, is a valuable remedy. I have found nothing that gives relief so quick. Let every sufferer get a bottle of a pint and try it. Rev. EDWIN BURNHAM.

EXETER, July 20, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs, and for any other complaints of the Lungs, of any medicines with which I am acquainted. NANCY F. JONES.

CANAAN, Aug 29, 1850. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of coughs in our family, than from all other medicines put together

THEOPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed in his circular which accompanies the medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the life fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor others one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in its transmission, descending from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "visiting the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or viscerous matter, which in tubercles, in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, passing through the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous corruption; and many destructive diseases of the liver, kidneys, brain, and, indeed, all of the organs, arise from or are aggravated by the same cause.

Our young people are scrofulous:—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse the system we must remove from the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing malady. It is constructed from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the vigor of the system from its destructive consequences. Hence it should be employed for the cure of not only those cases of scrofulous complaints which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, WHITE SWELLINGS, TUMORS, SORES, BLOTCHES, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA, OR THE DOBLOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "purifying the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or resist them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, giving healthful direction and vigor to every function of the system, and restoring to health, by removing its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or grievous malady is comforted to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Dyspepsia, Indigestion, Liver Complaint, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Fever Fever Ague, Dropsy, Pelter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When combined, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what course to pursue for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior compounds have thrown the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and dealers in medicine in the civilized world. dec26 6m d&w

---

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, D. C., 15 YEARS.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unavailably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT PROCURING PATENTS, and that no superior; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that the most ignorant would reasonably infer, from the fact, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, which, with his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MAGON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and the one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to secure their patents, assuring them he sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. **R. H. EDDY.**

Real Estate and Money Broker,
jy11 No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician,

presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have not of any other medicine, that it NEVER HAS IT FAILED IN A SINGLE INSTANCE, when timely and properly used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its magical effects and medicinal virtues. We speak, in this matter, *what we know,* after ten years experience, and *what we have declare.* In almost all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause, we would say to every sufferer, *Do not let your prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine but that of CURTIS & PERKINS, New York, is sold by Druggists throughout the United States. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

THOUSANDS OF CASES.

The children pain, but mothers, rejoice, corrects acidity, and gives tone to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest REMEDY IN THE WORLD IN all cases of DYSENTERY AND DIARRHŒA, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine but that of CURTIS & PERKINS, New York, is sold by Druggists throughout the world. 13 Cedar st. New York. *Price only 25 cents per bottle.*

And all excess of space occupied above the amount contracted for, to be charged at the rate of the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion. Per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle, and the frequent instances in which we are called upon to deliver duplicate papers, often already once delivered, but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if neither can be obtained, the bell to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward or evidence to convict any person of stealing a copy of the Chronicle from any door.

Morning Chronicle.

CHARLES DICKENS ON HORSES.—I object to the personal appearance of the horse. I protest against the conventional idea of beauty as attached to that animal. I think his nose too long, his forehead too low, and his legs (except in the case of the cart horse) ridiculously thin for his body.—Again, considering how big an animal he is, I object to the contemptible delicacy of his constitution. Is he not the sickliest creature in creation? does an child catch cold as easily as a horse? Does he not sprain his fetlock, for all his appearance of superior strength, as easily as I sprained my ancle?

Furthermore, to take him from another point of view, what a helpless wretch he is! No fine lady requires more constant waiting-on than a horse. Other animals can make their own toilette; he must have a groom. You will tell that this is because we want to make his coat artificially glossy. Glossy! Come home with me, and see my cat—my clever cat who can groom herself! Look at your own dog! see how the intelligent creature curry-combs himself with his own honest teeth!

Then, again, what a fool the horse is—what a poor nervous fool! He will start at a piece of white paper in the road, as if it were a lion. His one idea, when he hears a noise he is not accustomed to, is to run away from it. What do you say to these two common instances of the sense and courage of this absurdly overpraised animal? I might multiply them to two hundred, if I chose to exercise my mind and waste my breath, which I can never do.

I prefer coming at once to my last charge against the horse, which is the most serious of all, because it affects his moral character; I accuse him boldly, in his capacity of servant to man, of slyness and treachery.—I brand him publicly, no matter how mild he may look about the eyes, or how sleek he may be about the coat, as a systematic betrayer, whenever he can get the chance, of the confidence reposed in him.

P. P. P.
PARK'S PRICKLY PLASTERS.
They impart strength; they annihilate pain.

Park's Patent Porus Prickly Plasters Are Sold by all Dealers From 1 to 2 Dimes.	THESE DELIGHTFUL PLASTERS yield readily to the motion of the body, absorb perspiration, and throw off all the offensive coagulated impurities of the system. They should be used for all Chronic Pains, Faintness, Dyspepsia, Colds, Consumption, Rheumatism, Female Weakness, etc. They retain their active properties when other Plasters are useless, and where applied *pain cannot exist.*—Every family should have them.—One size on cloth, three sizes on leather. Sample sent by mail, on receipt of twenty-five cents. BARNES & PARK, 13 & 15 PARK ROW, 3moed&w New York

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

J. B. WIGGIN & CO.,
Green St., Portsmouth.
Portsmouth, March 1st, 1860.

HALLET, DAVIS & CO.,
400 WASHINGTON ST., BOSTON,
Manufacturers of
Best Square & Grand Piano-Fortes,
WHICH ARE WARRANTED FOR FIVE YEARS.

Having had an extensive experience of 25 years in the business, and having at present the most complete facilities for turning out twenty Pianos per week, they feel confident in guaranteeing perfect satisfaction to all patrons.

As an evidence of the superiority of their Pianos,—this house has received the awards of thirty-two Premiums, viz: in the Medals of gold, silver and bronze; nine of which were first Premiums for the best Grands and Parlor Grands, over all competitors.

There are many instruments in Portsmouth, from this manufactory—to the owners of any of which, we would respectfully refer.

A splendid 7-octave Piano from the above celebrated makers, may be seen at the Temple; and any information given, or instruments furnished at the manufacturers' prices, on application to

FRANK W. MILLER.
Portsmouth, Dec. 20, 1859.

Smith's Curative Cleansing Compound

Has readily cured or effectually relieved, in numerous cases in various parts of New England, the following complaints, viz: Neuralgia, Sore Throat, Croup, Chapped Hands, Chilblains, Cuts, Bruises, Sprains, Burns, Scalds, Spider Bites, Sore Breasts, Erysipelas, Frost Bites, Dysentery, Colic, Cramp in the Stomach or Limbs, Rheumatism, Ague, Toothache, &c. The above complaints may either be relieved or cured in a few minutes.

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.

Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.

In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated

If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.

Patronize your own.

Ayer's Cherry Pectoral.

From the N. H. Gazette.

The Causes of our Defeat in this City.

Among the significant items in the New Hampshire returns are the votes in the towns of the two candidates for Governor. Portsmouth, the home of Gov. Goodwin, last year gave Col. Cate 17 majority, but this year gives her honored townsman 152 majority; while Col. Cate's majority in his own town of Northfield has been cut down 25 votes since last spring.—*Boston Journal.*

There is a meanness in the above perfectly characteristic of the Boston Journal. "Portsmouth, the home of Gov. Goodwin," gives him 16 votes *less* than he got there last year, and his 152 majority was caused by full 200 Democrats staying away from the polls—*not* because they were unwilling to vote against Goodwin, but partly because of sourreels about candidates and other local matters. And so as to Northfield—Col. Cate has 25 less votes than he had there last year, but it is simply because that number of Democrats have since moved out and died. Goodwin gets no more votes there than he did last year, and the only "significant" thing about the vote of Northfield is that Col. Cate there got 4 more votes than any other candidate on the ticket, while Goodwin ran 5 below the rest of his ticket.—*N. H. Patriot.*

We have already remarked briefly upon the causes of the defeat which the Democrats of this city sustained at the late election. We truly attributed the defeat to improper nominations and to the profuse use of money by the Blacks. The meanness of the above paragraph from the Boston Journal is therefore manifest, and the Patriot's censure of it just.

The management which resulted in defeating us so signally in the late contest and in giving Gov. Goodwin his gain by keeping Democrats away from the polls, was commenced last fall prior to the municipal election. At a caucus called at that time in Ward One for the sole and only purpose of choosing delegates to attend the State Convention, some twenty persons professing to be champions of Douglas unexpectedly rallied and took control of the meeting, and after electing the delegates assumed to choose a nominating and prudential committee without having any authority so to do.—Through this committee, thus chosen, they controlled the ward nominations, and put forth their most obnoxious men for office in the city government. They boasted that none of the old leaders, the thill-horses of the party who up to that time had performed the principal part of the labor of canvassing the ward and getting out the voters, should have any voice in selecting the candidates, and that none should be nominated who would not subscribe to their new test of Douglaism. The candidates thus put forward were defeated, some of them twice over, and the ward thereby thrown into the hands of the Black Republicans. By this experience unfortunately they did not profit, but persisted in again bringing forward this spring the twice-defeated candidates of last fall, and placing them on the representative ticket to be a third time run down and again to render the defeat of the party inevitable.

With such management it is no wonder that the working Democrats who are relied upon to get out the voters were not at their posts on election day, no wonder that two hundred Democrats absented themselves from the polls, and no wonder that the Black Republicans were thus enabled to carry the city and show a large comparative gain from last year, although their vote is actually less than it was then. Besides this reckless policy of the managers in Ward One, the Democrats of Ward Three felt strong enough to get up a quarrel among themselves, and thereby succeeded in defeating the election of a Representative and contributing their share towards increasing Gov. Goodwin's gain. It was in the power of the Democrats to have handsomely carried the city with proper, with rational management, notwithstanding the corrupt appliances of the foe; but their committees failed to act wisely, and defeat was unavoidable under the circumstances. Unfortunate and disagreeable, as it is, it will work future good, however, and Portsmouth may be relied upon to resume her place in the Democratic line in November.

THE EXTENSION OF STATE STREET.—If ever there was an unjust statute, it is the law which allows three outsiders styled County Commissioners to go into a town or city and cause to be done at the public expense what the authorities of such place unanimously believe to be required by no considerations of public good and is prompted alone by private interest. The injustice of this law has just been verified, by the appointment during the past week of the above named worthies for Rockingham county and their decision to extend State street from Anthony to Cass street. There is no earthly public reason for this extension. It is purely a scheme of private interest, which will in the end subject the city to thousands of dollars of expense for the benefit of a few individuals. The city authorities have unanimously resisted it on this ground ever since it was first started several years ago, and how any honest, disinterested man could take any other view of it we are unable to divine. But the project has at length been accomplished in the way we have stated.

☞ The County Commissioners, after a full hearing of all parties interested, have decided to lay out the extension of State street to Cess street.—When opened to the public, a large number of eligible house lots will be brought into market.

PUDDLE-DOCK.—A project is pending in the City Council to place gates at Liberty Bridge to stop the free flow of the tide in and out of Puddle-Dock, and retain the water in the dock to be used in case of fire. We dislike the idea of creating another stagnant pool within the city, and hope it will not be carried out. All are aware what disagreeable effluvia arise from the South Mill Pond, in summer, caused by an accumulation of filth therein which the dam has prevented being washed away by the tide, and a similar result will follow in time an obstruction of the water in Puddle-Dock. A supply of water to extinguish fires is certainly much needed in that part of the city, but why can it not be furnished by the sinking of reservoirs in the dock at convenient points—say one on either side, and one near Washington street—instead of placing gates at the bridge?

U. S. DISTRICT COURT.—The District Court of the United States was in session in this city on Tuesday, Wednesday and Thursday last, Hon. Matthew Harvey, Judge.

Motions were heard in the case of *Ferdinand Clark in Bankruptcy*, and progress was made towards a final distribution of the assests collected by the assignee.

The case of *Burns vs. Henson & als.* in Admiralty was also tried. The libel claimed damages for injury by water to a quantity of pressed hay shipped by Burns on the deck of the Schooner Nassau Mills at Dover for Boston. The hay was covered with sails, &c., but was considerably injured by a heavy storm of rain, which detained the vessel several days in the Cochecho river. The libel was dismissed without costs. *C. W. Woodman for lib'l. S. M. Wheeler for defts.*

The Court adjourned to May 7th next.

☞ The Independent Democrat trusts the Legislature will repeal the law which allows the dozen fishermen who inhabit "Hog Island" to send a representative to the Legislature. "Hog" Island is not inhabited by fishermen, and is in the State of Maine, so the Legislature will not be called upon to waste their precious time in the consideration of that subject.

For the Chronicle.

"THE CAUSES OF OUR DEFEAT IN THIS CITY."

Under the above caption the N. H. Gazette of last Saturday has an editorial so malignantly false, and so meanly abusive of the Democratic Prudential and Nominating Committee of Ward 1, and its nominations at the three past elections, that, as a member and chairman of that Committee, and one of the candidates of the party at those elections, I crave of the publisher of this paper, space for a brief reply.

The Gazette's warfare upon the Democratic Committee of the first Ward commenced immediately after the Ward caucus to select delegates to our State Convention. The action of that caucus was so independent, indeed, so *defiant* of Custom House and Post Office dictation, that the pap-feeders and their pimps have felt it their duty to do all within their limited power to thwart the efforts, and break down the Democratic organization of that Ward. In their labors to this end they have scrupled at no falsehood, and left untried no dirty trick. Before our elections, as well as after, the Gazette, instead of attacking the Republican enemy, devoted its precious columns to predictions of defeat, attacks upon the Committee, and abuse of the Democratic candidates. To the latter it has repeatedly applied the term of "obnoxious individuals." In the article to which I specially allude, it says, "they (the Committee) put forth their most obnoxious men for office in the city government." The men thus put forth, and thus styled by the Gazette, a paper published and edited by a gentleman of whose wonderful conversion to Democracy I may hereafter have something to say—the men thus styled "most obnoxious" are the following:—Elias Ayers, Uriah Blaisdell, A. S. Alexander, Charles T. Emery, J. S. Turner, John Stokell, Herman Remick, T. J. Spinney, John H. Ferguson, Chas. W. Gerrish, T. Manson, Wm. S. Gallagher, A. H. Hoyt, K. Sheldon, A. A. Staples, J. W. Grant, Augustus Jenkins, P. J. Goodrich, Daniel Mason, G. F. Melcher, and N. P. Thacher. Who is it that styles these men "obnoxious"? Is it the nominal editor of the Gazette, who has wintered but not yet summered in the Democratic party, or is it our astute Postmaster? Who is it that thus insults better men and better Democrats than himself? It is getting near the time when the federal stipendiary will find that in this game there are blows to receive as well as blows to give.

If in our municipal election the number of votes received by the several candidates be a criterion of their respective popularity, it will be well for the Inspector or Postmaster (whoever it be that does up the slang-whanging for the Gazette) to remember that *Augustus Jenkins* was one of the worst beaten men on our ticket.

And now of the Gazette's thrice-repeated statement, that the Committee boasted that "none of the old leaders should have any voice in selecting candidates, and that none should be nominated who would not subscribe to the new test of Douglaism." The mildest reply any member of the Committee feels disposed to make to that statement is this: It is from beginning to end a shameful lie, and the individual who will repeat that statement in the presence of any member of the Committee, will be publicly branded as a liar and a calumniator. Let the editor of the Gazette produce his proofs, or bear their detection.

The candidates for Representatives selected by the Committee, *unanimously* selected, after some opposition to my own name, and *unanimously* adopted at the ratification meeting of the Democrats of the Ward on the evening before election, were "(in part) obnoxious men," so says the Gazette. One of them (Wm. Rand probably) was all right, but the other two were "very obnoxious." "Obnoxious" to whom? Why, to that sturdy old veteran of Democracy, Samuel Gray, Esq.; to the interesting and lovely fellows whom Uncle Sam employs to loaf about the Custom House and set precious examples of honesty, industry and sobriety to the people of this Collection District; to the amiable Postmaster, and to the fetide corps of Dead Rabbits whose highest ambition it is to carry the offal of their masters.

Under the circumstances attending the nomination of our candidates in the last election, it would seem to have been the duty of all faithful Democrats, even of the rank and file, to support the ticket so unanimously adopted; especially should we expect this of the men who eat the bread and butter of an, at least, nominally Democratic administration. But no. According to the Gazette, the friends of the administration, the enemies of Douglas and popular sovereignty, influenced by the mercenaries whom this corrupt, disgraceful and disgraced administration has placed in offices of profit, "staid away from the polls" in this city, to the number of two hundred; could not even be brought out to vote the State and County ticket; and thus the election was lost. Fine fellows are these administration Democrats of Portsmouth, are they not? Valuable and reliable Democrats, truly!

There are other slanders and falsehoods in the Gazette article to which I have no time nor space to allude; they are obvious, however, to every intelligent Democrat, and will do more mischief to the writer and the contemptible clique he represents than to the Democrats of the city.

In conclusion, I would say, that it is the conviction of a large portion of the Democrats of this city, that our disgraceful defeat is owing, not so much to "Black Republican money," (we cannot learn that they paid $1000 per year for the vote of any one man as to the abominable doctrines so offensively paraded and advocated by the Gazette.—doctrines more "obnoxious" than even the men who advance them. So long as the Gazette finds it to its pecuniary interest to advocate Slave Sovereignty, Slave Code, and Slavocracy generally, so long will its influence upon the Democracy be pernicious. As it is now, it is regarded by the true Democrats of this State as a *nuisance* scarcely less odious than its vile coadjutor, Burke's Democratic Standard. The present position of the Democracy in this city and county, compared with that of last year, is the best possible commentary upon its usefulness as a party organ.—But no matter;—it blows for the Administration, and if it blows the Democracy to kingdom come, it is doing its master's work, and securing lots of federal patronage, the extent of its present ambition. AMOS S. ALEXANDER,
Chairman Dem. Com. Ward 1.

The Cincinnatians, when their drinking water is too thick with mud, are in the habit of filtering it through a cane-bottomed chair.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, MARCH 26, 1860.

EXETER LIQUOR SELLERS.

EXETER, N. H., March 23.

Messrs. Editors:—As I commenced to give you an account of the present active attempts to suppress the illegal sale of intoxicating liquors in this town, I thought I would endeavor to keep you posted. Last evening, a conference of the friends of temperance was called in the lecture-room, which was well attended, notwithstanding but little notice was given, and it was not generally understood what was the object of the meeting. It is proposed to hold these conference meetings once or twice a week, for the present; also to form an active temperance society, with branches in all the Sabbath Schools, and to canvass the town for members and signers of the pledge. A town meeting is called for the —th of April, when some startling statistics will be presented for consideration. The police bill for the past year has been rising four hundred dollars, of which nine-tenths may safely be laid to the direct influence of rum, and the other tenth to its indirect influence. And this, besides the expense incurred by the county boarding those in jail who are not able to pay their fines, etc. In the meantime, notices have been served on all the dealers in town, that after Monday next their premises will be liable to search in accordance with the provisions of the laws of New Hampshire, regulating the sale of intoxicating liquors.

Mr. Harris, an aged and very wealthy citizen, who is regarded as the head man of the liquor interest, has closed his bar—taken the faucets from his barrels, sealed them up and repeatedly stated that they shall never be opened again in Exeter, and that as soon as he can make arrangements they shall be returned to Boston. The bar at the Swampscott House, I believe, has been closed,—the Granite House certainly. Mr. Hoyt, the proprietor of this house, is far too good a man to sell liquors, and merits the respect of the friends of temperance by his prompt and gentlemanly acquiescence, not less than by the strict "taste not" rule by which his own life is guided. But the strongest sign—the best omen—is the advent of a Boston liquor dealer to open a shop in our midst. He was here on Tuesday as a runner for some house in Boston, and could not sell a drop to our frightened dealers. Exasperated at their want of pluck, he hired a room and is going to open it on his own account. He told Dr. Johnson if he came into his shop he would kick him out of doors, and if he attempted to search his premises he would certainly shoot him. The Doctor, in his calm, quiet way, told him he would do no such thing, and if he attempts to open a shop it will probably be the first searched. Coming, as he does, for a fight, and for the express purpose of perpetuating a curse upon us, he is doing more to arouse the people than could have been accomplished in any other way, and is calling out a determined feeling that could not have been so fully aroused against our own dealers. If he persists in his course he will soon probably have a chance of testing the many excellent arrangements of our new jail. Yours, ALEXIS.

STRIKERS' CLAM BAKE FESTIVAL.—Male and female strikers of Lynn, to the number of twenty-five hundred, visited a place called Rock's Pasture, Thursday, where they had a grand time, including a fish and clam festival. Shortly after the dinner was over, a "machine boss," named S. G. Piper, who had joined the party, was surrounded by a number of female strikers, to whom he had made himself quite obnoxious, and they pushed and hustled him about the field, until a squad of about two hundred men took him in charge and marched him off the pasture to the music of several drums. No violence was done to him, but he was loudly denounced and ridiculed, especially by the women.

LEGISLATIVE BRIBERY CASE.—The Massachusetts Legislative Committee have closed their hearing in the matter of the alleged attempt of a Horse Railroad Co. to bribe Mr. Shaw, a member of the House from Boston. The question—"who furnished the money?" is involved in a deeper mystery, if possible, than before the investigation commenced. Nobody knows who sent the $100 bill. It will, probably, remain among the unsettled questions of the day, rivalling the mystery of the inquiry for that mythical personage "who struck Billy Patterson."

☞ A foreign letter says: "Meanwhile 'Rome is quiet.' Folks stick knives into one another on the Corso in broad daylight, but quite peaceably and without noise." The "quiet" comes in after the surgical operation.

☞ Friday was private calendar day in both houses of Congress,—where many private bills were duly attended to. The House adjourned to Monday.

The great rock upon which all our fortunes rise, is rock the cradle.

☞ Several gentlemen of the Unitarian congregations in New York city and vicinity have invited Rev. T. S. King, who will sail for California April 5th, to meet them and their ministers at a social breakfast on the 4th of April, which is intended to be of the friendly and religious character of the usual May assembly in Boston. Wm. C. Bryant is expected to preside. Ladies will be present, and the occasion promises to be one of interest, more general than was at first intended, and rather denominational than personal.

Mr. Russell, who made fame and fortune in the service of the London Times, has "started a paper" of his own, which will give him "a start in life" not generally desired. As smart actors, who have coverted nights into gold, are never satisfied until they have ruined themselves as managers, —which greatly dissatisfies them,—so are smart journalists always craving for papers of their own, which they generally manage with the skill of a monkey with a razor.—*Traveller.*

Extremes meet: Brigham Young, with his seventy wives, and Mr. Buchanan, who has no wife, though he has seventy years, takes the same view of affairs in Utah. The President has rebuked the federal Judges, who wished to enforce the law. Is polygamy one of those "institutions" we are required to save as regularly as the Presidential election comes round?

GEORGE W. PLUMER'S

NEW BAKING ESTABLISHMENT.

SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.

Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr S. N. Plumer, the subscriber offers to his patrons

ON TUESDAY, MARCH 27th,

at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c., as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. T WILDES, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.

GEORGE W. PLUMER.

Portsmouth, March 26, 1860.

NOTICE.

"Once I trusted all my friends;
For so they seemed to be;
But when I asked them for my pay,
They only laughed at me."

ONE MORE CALL, AND A NEW INDUCEMENT TO PAY UP.

The Subscriber would say to those in debt to him by note or account, that if payment is made on or before the 1st of May next, a liberal discount will be made to those who are evidently too poor to pay the full demand against them.

We continue to manufacture BREAD of various kinds, for those who are disposed to pay for it HOT BROWN BREAD every morning, (Mondays excepted.)

CAKE, PUDDINGS AND BEANS, baked for families on reasonable terms.

WEISKOFF & BROTHER,

to carry on the manufacture and sale of the

Highly Approved Vinegar.

J. WEISKOFF. C. WEISKOFF.

Portsmouth, March 19, 1860.

☞ Read Dr. Jackson's opinion of this article:

Boston, Jan. 13, 1860

Dear Sir:—I have made a chemical examination of sample of your Vinegar, and find it to be free from all noxious ingredients or adulterations. It is an agreeable article for table use.—

Yours truly, CHAS. T. JACKSON, M. D.

ICE. ICE. ICE.

The Subscriber has a large amount of ICE, which he will sell as cheap as can be bought anywhere else. This Ice does not get the washing of rains, as ice is if cut from ponds or meadows; but is made from PURE SPRING WATER.

Apply at No. 30 SOUTH STREET.

march20 GEO. L. STOKELL.

This may certify, that my son has had a humor which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running sores. He has been cured by the use of Dr. Swett's Panacea and Humor Wash. T. CURRIER.

Kingston, March 10, 1841.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders addressed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 12 Cabot St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases See advertisement in another column.

The manufacture of Stomach Bitters. There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded that there is necessity for pills, emetics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very numerous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in examining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, Tioga Co., Pa., Aug. 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in general Debility, and diseases of the digestive organs. F. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, Vt., Nov. 12, 1851.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOLTON, MASS., June 1, 1859.

Messrs. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

Local.

☞ We learn that it is in contemplation by those desirous of the speedy erection of a City Building,—to call a special Town Meeting of all the voters in the city, and get the public opinion on the subject. It is suggested that a portion of the City Farm might be sold, and perhaps the Spring Market—and a City Hall, &c. erected without greatly increasing the taxes or city debt.

☞ The first Annual Ball of Laconia Engine Co. No. 2, came off on the 21st, as per announcement, and was attended by about 75 couples. Everything passed off pleasantly, and all seemed merry as a marriage bell. This was the first ball ever given by this enteprising Company, and we congratulate them on its complete success. The music was by Messrs. Lamprey and Elliott's Quadrille Band, and was of course of the first order. Among the gentlemen present we noticed ex-Chief Hadley, several of the Assistant Engineers and members of the city government. The out-of-town companies were well represented by large delegations from Tiger 1 and Granite 2, and and two of the Assistant Engineers of New Market, Fountain 1 of Exeter, Frankin 7 of Charlestown, Roxbury 5 of Roxbury, Mass., Granite State 1 and Atlantic 6 of this city. Q.

☞ The Knickerbocker, Vol. 54, No. 638, for March 1860, is before us,—a new number of one of the oldest and best established magazines in the country; established on its own merits and reputation;—and well known as the most lively and humorous of monthlies.

Its present editors are Louis Gaylord Clark and James O. Noyes. The latter gentleman is now in this city; and subscriptions for the work will be received by him, or at the Chronicle Counting Room.

Every subscriber of $3 per year, the regular price for the Knickerbocker, will also receive a copy of the fine engraving, Merry Making in the Olden Time,—which engraving may be seen at Mr. N. P. Thacher's.

☞ "Scotland's burning" yet—or rather Moscow is. Mr. Gallagher "still lives," and is to open his exhibition on Wednesday evening. He wants us to call attention to his advertisement; but if any reader fails to see that old black cut, he couldn't tell whether Moscow was afire or not. If Gallagher wasn't one of the best-natured fellows in the world, we wouldn't 'illustrate' our columns thus for him—perhaps 'illuminate' is the best word in this case.

☞ We hear that Messrs. Tobey & Littlefield have sold the ship now on their stocks at Noble's Island.

PRESIDENT LORD.—A correspondent at Hanover, N. H., writes as follows with regard to the views of President Lord upon the slavery question and the tendency of the human race to degeneracy:

A few words to your readers about those peculiar views of President Lord. It should be widely known that these views are not by any means brought to bear upon us.—He never takes any occasion to present them to us. The most that we know concerning them is from the accounts circulated through the country. He has the most uniform and sincere respect of all true students. He is beloved by all—the same remarkable executive officer, retaining apparently unabated the mental vigor and power of former years.

MURDERERS ARRESTED. — At Providence, R. I., on Friday night, the proper officers arrested Wm. Johnson *alias* Alfred W. Hicks, who is charged with three murders on board sloop A. E. Johnson of Islip, Long Island. Hicks hails from Foster, R. I., where he says he has six brothers, farmers. His wife (an Irishwoman) and a child seven months old, were with him.

WASHINGTON, March 23.—The Post Office Committee of the House, this morning, after a two days' argument, resolved, with but one dissenting voice, that the inland postal service of the country should be restored to its condition on the 3d of March 1859, and instructed their chairman to prepare a bill for that purpose.

☞ In the Boston Criminal Court on Saturday, Edwin W. Reed, convicted on three indictments for adultery with Laura M. Kendall, deceased, was sentenced to thirty months' hard labor in House of Correction.

President Buchanan is stated to be conferring with the Mormon delegate in Congress, about the appointment of new judges in Utah. The sacred rights of polygamy mustn't be interfered with.

☞ At Lynn, Mass., three or four hundred of the disaffected cordwainers seeing no prospect of compelling the manufacturers to sign the bill of wages, have resumed work at advanced prices.

☞ John Whalley, an Englishman, 60 years of age, was killed Saturday, while walking on the track of the Eastern Railroad in Lynn by the noon train from Boston. The body was thrown at least ten feet into the air. When it descended it struck the steps of the first passenger car, and was thrown into a culvert. Mr. Whalley was a temperate man, but was subject to spells of insanity. He leaves a wife and nine children.

MUTINY OF COOLIES AT SEA.—A very serious case of mutiny occurred on board the ship Norway, (of New York) Capt. Major, on her recent passage from Macao, Havana, which came very near proving disastrous to the officers, passengers and crew.

The Norway sailed from Macao Nov. 26, with about one thousand coolies on board, and when five days out, at about six o'clock in the evening, the captain being below at the time, a mutiny broke out among the coolies, who set fire to the ship it two places. Mr. Stimpson of Boston, one of the mates, had charge of the deck, and the watch, with the exception of the man at the wheel, was aloft taking in sail. Mr. Stimpson rushed to the hatch and commenced the struggle. The crew from aloft and those below, tried to seize the boats and leave the ship, when the surgeon, an English gentleman, drew his pistol and threatened to shoot the first man who dared to make the attempt.

The crew then rallied and went to the assistance of the officers, and a fight ensued, which continued from six in the evening until after daylight next morning. Thirty of the coolies were killed and more than ninety wounded, before the mutiny was quelled. The captain then gave the coolies one hour to deliver up the arms in their possession; if they did not he threatened to cut away the masts, set fire to the ship, take the boats and provisions and leave them to their fate. The mutineers soon came to terms.

Capt. Major had his wife and two daughters with him, and also a lady passenger and child—but during the night the lady died of fright, and next morning the child also died.

FROM MEXICO.—*New Orleans, Mar.* 23. The schooner Emily Keith has arrived from Vera Cruz with dates to the 14th inst. Miramon bombarded Vera Cruz on the 13th, but with little damage. A detachment of Miramon's troops at Alvarado were attacked and completely routed by the Liberals.

On the 14th, a flag of truce was sent to Juarez, which resulted in the suspension of hostilities.

A Military Congress, composed of the chiefs of the two armies, and the representatives of the foreign governments, met on the same evening, but the result was not known, when the schooner sailed. It was reported that Miramon had abandoned the siege, deserted his army and taken refuge on board the French fleet.

Miramon's communication with the interior was entirely cut off.

The city of Mexico had pronounced against Miramon, and his army there was deserting him.

Tampico advices of the 11th, state that General Garza has returned and resumed the governorship.

The city was quiet. The United States marines were still there.

Yucatan dates are to the 11th. The excitement about the cession of the Island continued.

WASHINGTON, Mar. 23.—The House Post Office Committee to-day, almost unanimously resolved in favor of the restoration of the inland mail service, which was curtailed by the Post Office Department, after the failure of the appropriation bill during the last Congress.

Official dispatches show that apart from the direct followers of Cortimas, the Mexicans have endeavored to retard rather than encourage his forays. The people of Tamaulipas were much alarmed, and fearful of an invasion by the Texans, of which there is, however, no probability.

ELEGANT TAPESTRY CARPETS at Auction Prices. Twelve thousand yards are advertised in paper to-day, by the New England Carpet Co., of Boston.

☞ A pretty woman is like a great truth, and has no more right to bundle herself under a green vail, or any other abomination, than the sun has to put on green spectacles.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

SHALER'S SPIRAL BRUSHES,
A new style of FLOOR, SCRUB & WINDOW BRUSHES—very durable.

Just received, a fresh invoice of the world-renowned
OLD DOMINION COFFEE-POTS!!
of which so many thousands have been sold during the past year.
COFFEE.
Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times. *Ladies' Home Magazine.*

OLD DOMINION TEA-POTS.
made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.
A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

KEROSENE! KEROSENE!!

Here's Health for the Million!!

CLARKE'S SHERRY WINE BITTERS

Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR. CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 3 qts; and only $1.25 for 4 qts.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. As testimonials may *not* be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the skin returned and ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,
BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Slamaston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced using it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,
WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage than by sending several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood—Dear Sir:—Having had the misfortune to lose the greater part of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes: large, medium, and small; the small holds half a pint, and retails for one dollar; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds more than one pint, more in proportion, and retails for $3 a bottle.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His Panacea is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Cancer in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion. Spikenard and Honeset, a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its varieties, whether Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the world as a safe, easy and effectual Purge. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a cold from that distressing complaint, to use it freely. MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found no relief from any other, but Swett's Cough Drops, than from all other medicines put together, though I have tried many. FANNY MINER.

"I have been cured of a severe cough, by using Dr. Swett's celebrated Cough Drops. I therefore cordially recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. REUBEN CURRIER.

EXETER, March 2, 1841. "Many of my brethren in the ministry, frequently complain of oppression of lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to all others afflicted, that the excellent Cough Drops by Dr. Swett, of Portsmouth, is a valuable remedy. I have found nothing that gives relief so quickly, and I every sufferer should take a phial and try it. Eld. EDWIN BURNHAM.

EXETER, July 30, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs and for any other complaint of the Lungs, of any medicines with which I am acquainted. NANCY F. JONES.

CANAAN, Aug 29, 1850. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad coughs, than from any other medicine, than from all other medicines put together
THEOPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are offered, many of which are printed on his circular which accompanies the medicines. These, with others of DR SIMEON SWETT'S MEDICINES constantly for sale at his residence in **Portsmouth - - - - No. 12 Cabot Street.**

N. B.—All Cash orders promptly attended to, and a liberal discount to those who buy to sell again. oct5 *

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by that venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To purify from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and destructive ills. It is compiled from the most active remedials that have been discovered for the expurgation of this foul blood from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, TUMORS, SALT RHEUM, SCALD HEAD, SWELLINGS AND SUPPURATING AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND DYSPEPTIC SYMPTOMS, ROSE AND ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. In the vernacular of the people, "impure blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action cannot well withstand or resist them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, restoring its disordered action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or sickness is speedily relieved, and his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is always supplied with our American almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in the stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. Its superiority over all others of every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thru upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never repay, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec26 6m dkw

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington,

OFFICE 1 COURT ST.,

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent furnished for prewnting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE; for the number, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has been in business alone, and on the spot, that at no other office of the kind are the charges for professional services so moderate. The immense practice during the last twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, together with his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him for their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

Jy11 No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation, will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for ten years, and *can say, in confidence and truth,* on it, what we have never been able to say of any other medicine, NEVER HAS IT FAILED IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any who used it, on the contrary, all are delighted with its operations, and recommendation of its marvelous effects. We speak in this matter, *"what we do know,"* after ten years experience, and *pledge the reputation of our house* for the truth of every instance where from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

our reputation for the sale of this article, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any less results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

This invaluable prepa ration is the prescription of one of the MOST SKILLFUL NURSES in New England and has been used with HUNDREDS AND THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives vigor and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. To every mother who has a child suffering from any other disease, we would say, *stop not between your suffering child and the relief that will be* ABSOLUTELY SURE, if this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of wants, notices of articles lost, &c.—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion. Special Notices 10 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 3 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the drop-box in the street door, when the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessarily left out, the bell to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any less results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

JOB AND CARD PRINTING

PROMPTLY EXECUTED

At the Portsmouth Chronicle Office.

Anything from good sized Posters, Bill Heads, Circulars, &c., to the smallest Label

SAVINGS BANKS.—The Newburyport Herald is in favor of taxing Savings Banks in Massachusetts. It says "Savings Banks have ceased to be charitable institutions, as they were designed to be; and as a large share of their forty millions of deposits belongs to wealthy individuals, there is no reason why they should escape taxation.—It would be well for the poorer depositors, if they were obliged more closely to divide their earnings semi-annually. Some of them do this without compulsion by law; while others make small dividends semi-annually, and allow their surplus earnings to accumulate for an extra dividend after a term of years. It thus happens that the small depositors, who are obliged to withdraw their funds in a short time, may not receive more than 5 per cent., while the larger and more wealthy depositors, whose interests and principal are untouched for generations, may be having 8 per cet. at the same institution."

COMPARATIVE TAXATION.—The total taxation in the United States averages five dollars per head for all the people; which is about the same as is paid by every man, woman and child in Great Britain for interest on the national debt. In France the total tax is $854,000,000, which gives about ten dollars to each person in the empire.—In Great Britain and Ireland the total tax is, for one quarter less people than in France, one quarter more than there, viz.: $450,000,000, or fifteen dollars to every inhabitant. That is thought by the British to be very light, and so it is, compared with some other periods; as, for instance, in 1813 and 1814, during the last struggle with the first Napoleon, it reached one hundred and thirteen dollars per annum, for every person in the realm.

One of the charges of the Pope against the Piedmontese is that they have interfered to prevent the success of gambling in his pious dominions! They have induced the people not to have anything to do with a lottery of his. Such wickedness is unexampled, and Victor Emanuel is earning a place alongside of Henry VII in papal history.

The Prince of Orange is not to marry the Princess Alice. So all that has been said on the intended espousals—which were never intended—must be taken back. The papers have married the young lady twice, liberally giving her a Bragarza Prince for a husband in the first instance, and then a Nassau Prince. Her hand is not likely to go a begging, as it will be well filled.

The fellow who tried to get up a concert with the band of his hat, is the same genius who a few weeks since played upon the affections of an uptown lady.

13 & 15 PARK ROW,
3mecod&w New York

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market.
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.
Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.
In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.
If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.
Patronize your own.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.—Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Scrofula, and all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights. It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, Jr.

Portsmouth, N. H.

TUESDAY, MARCH 27, 1860.

MR. WIGFALL'S SPEECH.

We treat our readers, in the followng debate on the Homestead Bill, to a remarkable speech by the Great Wigfall, Senator from Texas, *the* Wigfall who deemed Daniel Webster profoundly ignorant of the Constitution. Mr. Wigfall lets fall some of the drollest notions that have been exhibited in this droll session of Congress. His speech is intensely pro-slavery and anti-republican. Our New England readers will laugh at it.

In the U. S. Senate, March 22, the Homestead bill was taken up, when Mr. Fugh spoke in favor of its passage.

Mr. Hale spoke at length on the same side. In the course of his remarks he expressed sympathy with the strikers of New England, and hoped the combination would continue until the highest wages compatible with the general good were paid.

Mr. Johnson of Arkansas referred to Mr. Hale's remarks as insincere and demagogueical; he wanted to hold on to the *canaille* of New England by the cry of "free homes for free men, fearful that under the pressure of starvation they would desert him and his party.

The shoemakers and all other Democratic workingmen of New England must be very much obliged to Mr. Johnson of Ark. for calling them *canaille*—as his pro-slavery notions lead him to do, very naturally. But leaving this, let us hear the great Wigfall.

Mr. Wigfall regarded the matter as a party question, involving, as it did, the power of the federal government. If this government was eleemosynary, if established to provide for the halt, blind, lame, deaf, &c., if it could give lands to the landless, why not niggers to the niggerless? It might open the African slave trade on missionary grounds, and bring negroes here to be converted. Mr. Wigfall went into the powers of the federal government, and contended that, as the trustee of the sovereign States, it had no right to vote away their lands. In the course of his remarks he said it was nonsense to think of a State committing treason—the thing is impossible. He owed allegiance to the State of Texas, which, conjointly with the other States, exercised the same portion of the sovereign power whenever she declared the federal government no longer her agent. Then it would be his duty to return to his State, and, if he should be captured fighting under the flag of the Lone Star, under the law of nations, he could not be treated as a traitor.

Mr. Johnson of Tenn. remarked that there were precedents for the policy proposed in the bill.

Mr. Wigfall was sorry to hear any Democrat refer to precedents. If they are accepted, banks, tariffs, internal improvements, &c., could be justified. He then denounced the policy of New England, which, by federal legislation, had got rich and kept the other sections poor. He thought nothing better could occur than a dissolution of the Union. New England would then beg the South to come back, her spindles would cease to turn, and her ships rot at the wharves; her sailors and operatives, turned out to starve, would burn and steal. He also drew a picture of a mob of deceived and infuriated people, bearing on poles the heads of Seward and Hale. It these men only knew the South was in earnest, they would keep quiet. They are not the men to coin their heart's blood into dramas.

He denied that these were threats—the day of farces has gone by. He would speak his mind freely, and say he believed no Black Republican can be elected President. Northern men talk of subduing the South, but be believed a Southern army could winter in Boston before a Northern one could reach Texas.

He would like to know how they were going to take the South? Let them look around the Chamber, and they would see as the Republican side but one man who ever saw the flashing of a gun, while he particularized numbers on the Democratic side who had rendered signal military services. The military chest was the first matter of consideration in war, and where would the North get the money to fill it? The South could send out their cotton, tobacco, &c., in the bottoms that would carry them the cheapest. Where would the Senator from Rhode Island (Simmons) get the money for his calico? They might talk of blockading the Southern ports, but their officers and men would want money, and where could they get it? Cotton was King, and without it Queen Victoria's crown was not safe.

The Union was nothing more than a compact between confederates, which the North had broken and then tried to persuade us that it was of divine origin. Our fathers shed their blood, not for this Union, but for liberty. He compared the federal government to a lens, which concentrated the rays of the sun. They admired not the lens, but the glorious orb from which it derived its power.

The ancestors of New Englanders went to Holland, but as the Dutch would not allow them to persecute anybody they came to the North. They drove out Roger Sherman and the Baptists, and spread themselves over that country. They thought it useless to dig for what the soil could produce, and have since lived off of their neighbors. He went into an argument to show that the slave States, properly speaking, are the only free States. Mr. Wigfall concluded by denouncing the Homestead bill as unconstitutional.

☞ Ex-Gov. Baker is one of the delegates at large to the Charleston Convention, from Iowa, which State instructed the delegation to support Douglas.

Don't expect to be called a good fellow, a moment longer than you consent to do precisely what other people wish you to do.

Election Riot in Nova Scotia.—When the new government was formed in Nova Scotia, the ministers elect appealed to their constituents for re-election, as is usual in England and her provinces. At Chezetcook, a mob of Roman Catholics took possession of the polls, armed with sticks, stakes and clubs, and so effectually prevented the friends of the government candidate voting, that he received in that district but eight votes, and these were cast in the early part of the day. The rioters had their headquarters at the house of a priest, which was decorated with a white flag having upon it a black cross.

An Indian Embassy.—A lone daughter of the forest named Nah-nee-bahwe-qua, meaning an upright woman, has arrived in New York en route for England, to appeal to the Queen against the removal of her people, the Ojibways, from their towns and villages on the Northern shores of Lake Huron. The Ojibways number about one thousand souls, have embraced Christianity and become civilized, and have good farms, comfortable houses and pleasant homes, which are about to be taken from them, according to the New York Courier and Enquirer, "by the ruthless hand of power." The fair ambassador of the red men is said to be gifted by nature, highly educated, and a member of the Methodist Church.

From California. — Steamer Baltic, with California dates of the 5th inst., arrived in New York, March 25th, at 4 P. M. She does not bring the mails. The Cortez, with the mails, was to leave a few hours after the Golden Gate.

The Baltic brings 420 passengers, and $895,000 in treasure, brought down by the Golden Gate. The shipment of treasure is unusually small, on account of the very large investments in the Washoe silver mines.

The U. S. frigates Roanoke and Sabine, and storeship Relief were at Aspinwall.

☞ An amusing scene in the Legislature of Pennsylvania occurred on a motion to remove the capital of the State from Harrisburg to Philadelphia. A matter-of-fact member from the rural districts, who had heard of the great facilities with which brick houses are moved from one part of the city to another, and who had not the slightest idea that anything but moving the State House was in contemplation, rose and said: "Mr. Speaker, I have no objection to the motion, but I don't see how on airth you are going to get it over the river."

The vicissitudes of fortune are illustrated in this item:—

"A few years ago one of the most active and successful business men in the city of Hudson was Leonard Wells. Everything he touched turned into money. He once made $10,000 in an hour, by a purchase and sale of a piece of real estate. Fifteen years ago Mr. W. was worth $70,000.—Shortly after this, luck turned against him. He lost $34,000 by buying stock in the Hudson and Berkshire Railroad. This was followed by other losses, caused by indorsements. In less than eighteen months, Mr. W. passed from affluence to extreme poverty—from being worth $70,000 to being worth not one cent. Mr. W. is now a resident of Albany, and earns a living for himself and family by peddling candies, apples and doughnuts.

☞ P. T. Barnum made a speech in New York, Saturday night, stating that since his failure, four years ago, he has been engaged in giving exhibitions, and in musical and commercial speculations which, with the proceeds of his lectures throughout Gt. Britain, have enabled him to cancel his Jerome Clock Company debts and preserve a large portion of his estate. He announced himself as again the proprietor of the American Museum, and declared that he was in every sense, "Richard himself again."

Sermons of the Revolutionary Era. The work announced by Messrs. Gould & Lincoln in their annual catalogue, entitled "the Pulpit of the Revolution; or, the Political Sermons of the Era of 1776, with an Introduction, Biographical Sketches of the Preachers, and Historical Notes, etc., to be edited by J. Wingate Thornton, Esq.,"—is now in an advanced state of preparation, and will soon be published. It will be quite an important addition to American historical literature.

New York Politics.—This State has voted alternately for the Democratic and Opposition candidates for the Presidency, for the past twenty years, viz: for Van Buren 1836, Gen. Harrison 1840, Polk 1844, Taylor 1848, Peirce 1852, Fremont 1856; and if consistent in her inconsistency, will vote for the Democratic candidate in 1860.

☞ Some of the Catholics of Cincinnati are at variance with the Arch-Bishop. They had made arrangements to celebrate St. Patrick's day by a ball. The Arch-Bishop forbid the ball, as being a violation of the rules of Lent; but it was given, nevertheless, and was largely attended.

The real New England Revolver—The Sewing Machine.

☞ On Sunday forenoon, in Boston, Rev. T. Starr King preached to his congregation, in Hollis Street Church, his farewell sermon before leaving for California. The church was filled with those anxious to hear what he might say on the occasion.

He reviewed his ministry there, of twelve years duration. It was on the first Sabbath in November, 1848, that he commenced his career with this society. Then it was shattered and disorganized—so much so, that if he had previously known of its condition, he should not have had the courage to accept the call. At the present time, the society is in a very satisfactory condition; as prosperous as when they listened to the eloquence of Holley. The pews were nearly all full, and a lively interest was manifested by the parishioners in the cause, and no period was so honorable as now and within the last five years. There are at present five times as many parishioners as when he began his connection with them.

Liberal Christianity, which he had preached, had advanced in strength, and he had great hopes and confidence in its success, and his judgment was founded on his experience. He had experienced the full value of it, to sustain him in his course toward his fellow-men.

He should not be able to stand in his pulpit and speak to his congregation if he supposed he was preaching his farewell to them; his voice and feelings would not serve him to do so on such an occasion.—Where he was going the climate, so genial and refreshing, would quicken his friendship and make his sincerity more noble than heretofore. He thanked his parishioners for overlooking his many faults and deficiencies, and hoped the Lord would be with them.

In the afternoon there was a full congregation, and the Lord's Supper was administered.

In the morning before the services commenced there were thirty-four persons baptized, including adults and children of both sexes, in addition to thirteen or fourteen infants on the Sunday previous.

☞ The military conference at Vera Cruz amounted to nothing, and the bombardment recommenced on the morning of the 15th, with redoubled energy. The shot and shell taking effect in the city, killing several and doing much damage. Many shot fell among the shipping under the castle, but without doing much damage. Two Spanish war steamers arrived at Vera Cruz on the 15th inst.

The Washington correspondent of the New York Times says:

The President is perfectly satisfied with the attack made on Miramon's steamers, but expresses a doubt as to the propriety of seizing them. He fears lest Miramon, exasperated at the summary disposal of his newly purchased Navy, will wreak his vengeance upon unprotected American citizens within reach of his power, and has requested a gentleman, now here, but long a resident in Mexico, to hold himself ready to leave at a moment's warning for that country, as his services might be needed by the Government.

☞ The Washington Star, referring to the statement of the Tribune, that Mrs. Brannan, wife of Capt. Brannan, U. S. A., (who disappeared so mysteriously from Staten Island some fifteen months ago, and who was supposed to be murdered) is now in Italy, and is thought to have been alone, says:—

"Capt. Brannan is now at Key West, and is not, of course, aware of the Tibune's statement, but his relatives in Washington pronounce it of a piece with the story put out at the time of Mrs. Brannan's disappearance, in the same paper, that she had been seen at the White Mountains in male company. They express a determination to hold the Tribune responsible for the statement."

☞ The Independent says that the remains of Stevens and Hazlett (whose real name was Harrison) lie at Englewood, side by side, between the graves of James G. Birney, Abolition candidate for President of the United States, and Arnold Buffum, President of the first American Anti-slavery Society.

☞ The Peterboro' Transcript says that Capt. Abna Spofford of Temple, committed suicide on Saturday night last. He was about 40 years of age, and leaves a wife and several children. About a year since he attempted the same deed, but was cut down by his son in season to be brought to. Domestic difficulty the cause assigned.

☞ Matthew D. Griffin, overseer on the plantation of Major Watts, in Madison county, Florida, was knocked from his horse and murdered by a gang of negroes, who boat him to death. They then sunk his body in a lake, where it was afterwards found. One of the negroes confessed the deed.

☞ A man in Springfield, Ill., said to be worth $6000, is working in the streets of that city to pay a fine of $13, levied upon him for being accessory to keeping a house of ill-fame. It will take over twenty days to square his account.

☞ A man in Brooklyn has recovered $486.75 damages from the owner of a dog, which had bit him in the hand.

☞ The Brattleborough Phenix says the run of sap this year is remarkable, and estimates the maple sugar crop of Vermont this season at 12,000 to 15,000 tons. Our Vermont friends must be having a sweet time.

Lexington Monument.—The first contribution for the new monument at Lexington has been made by Senator Hammond of South Carolina, who has sent his check for fifty dollars to the association.

☞ It has leaked out that there was quite a row at the last Democratic Senatorial caucus to consider the slavery resolutions. Douglas was pointedly snubbed, and it is said Fitch of Indiana gave Clingman of North Carolina a black eye.

☞ Julia Daniels, daughter of Mr. Hamilton Daniels, of New London, Conn., while at school on Thursday of last week, was taken with bleeding at the nose, from which she died on Friday morning.

MARRIED.

In Kensington, Wm. C. Patten, Esq., of Kingston, to Miss Sarah Ann Weare, of Kensington.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

Betsey Sanborn.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, Portsmouth, N. H., No. 12 Cabot St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

In Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heartontitorumenon.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters. There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, cmetics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

Mansfield, Tioga Co., Pa., Aug. 28, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. F. H. WHITE, M. D.

Auburn, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

Burlington, Vt., Nov. 13, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

---

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

Boston, Mass., June 1, 1859.

Messrs. N. L. Clark & Co.—Gentlemen,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I fully recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skillful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute suffering, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established reputation.

Respectfully yours, RICHARD S. EDES.

Smith's Curative Cleansing Compound

Has readily cured or effectually relieved, in numerous cases in various parts of New England, the following complaints, viz: Neuralgia, Sore Throat, Croup, Chapped Hands, Chilblains, Cuts, Bruises, Sprains, Burns, Scalds, Spider Bites, Sore Breasts, Erysipelas, Frost Bites, Dysentery, Colic, Cramp in the Stomach or Limbs, Rheumatism, Ague, Toothache, &c. The above complaints may either be relieved or cured in a few minutes.

Local.

☞ Several friends for whose opinions we have the highest respect, and of whose commendation we hope to be worthy—censure us for advocating the erection of a City Building. But we think that they do not exactly understand our views—and that each and all of us are equally desirous only of promoting the public good. Everybody—actually almost everybody—will agree that we need a City Hall, &c. The question is, Who is to *pay* for it? It will neither build itself, nor can it be done without some effort—and we can't see any harm in examining the matter long and thoroughly.

One strong objection is, that there might and probably would be great swindling and extravagance, as too often occurs in such affairs. We really believe that, if the matter could be carried out as economically and reasonably as private enterprises, it would receive the general sanction; and we know of no better way to promote this, than by discussing the subject. We will simply say, we are not in favor of debts of any sort, — and would work to reduce rather than increase taxes. More anon.

☞ In speaking of ministers recently removed or about to remove, it has been said that four pulpits were thus vacated.—These four must have included the Temple: but the Christian Society, there worshiping, have a pastor, Rev. Moses Howe, regularly engaged in the ministry, or as the usual term is, settled.

☞ The mystical Order of the Sons of Malta—the Sagamore Camp, in this city—are to give a Ball at Rechab Hall, this (Tuesday) evening. The managers are sparing no efforts to render this one of the most successful entertainments of the season. The music is to be by the full Quadrille Band—one of the best we have had about here for a long time; supper at the City Hotel. See advertisement.

☞ See Auction column this morning, for an opportunity to invest in a small share of a good Ship.

☞ The Burning of Moscow opens at the Temple to-night.

☞ The shoemaker's strike in Haverhill, Mass. was closed on Saturday evening, at a regular meeting of strikers. Eighty-one voted to discontinue the strike; thirty-four voted to continue.

Mr. E. Mann doubted the vote. He would stick to the strike as long as he lived.

A vote was taken to try the feelings of those who were and had been out of work. Thirty-eight voted to discontinue and nine voted to continue.

Mr. Mann said that the nine had proved themselves true strikers.

The chairman, Mr. Hawley, said a man would be as wise if he stood before a loaded cannon when he knew he should have his brains blown out. They were confounded fools.

Mr. Richardson offered a resolution of thanks to Mr. Hawley, which was unanimously adopted.

Dr. Stone says the philosophy of travel may be summed up in three words—take things pleasantly.

True, true, says Uncle Toby; and the philosophy of staying at home in comfort, may be summed up in the same.

We complain that we have no time. An Indian chief of the Six Nations once said a wiser thing than any philosopher. A white man remarked in his hearing that he had not time enough. "Well," replied the Indian, "I suppose you have all there is!" He is the wisest and best man who can crowd the most good actions into now.

A bill has been introduced into the Assembly of Alabama, for transporting all negroes convicted of capital offenses to Massachusetts! There will be more criminals than convictions, in case the bill becomes a law.

Though the investigating committee has determined to have Gov. Wise's evidence, it hasn't had the resolution to summon him. The members fear being overwhelmed with a deluge of words. If he should refuse to testify, and should be shut up with Mr. Hayatt, he would prose that gentleman to death, and so an abolitionist be got rid of. —*Traveller.*

A Wisconsin paper, after describing a farm which the advertiser wants to sell, adds: "The surrounding country is the most beautiful the God of nature ever made. The scenery is celestial—divine; also two wagons to sell, and a yoke of steers."

☞ A bridal party, four prisoners, and a funeral party with a corpse, were on a railroad train that left Pontiac, Mich., one day last week.

A householder, in a Western village, in filling up his census schedule, under the column headed "Where born," described one of his children as "born in the parlor," and the other "up stairs."

PROVIDENCE, March 23.—The case of Shea, on trial for the murder of Burrill Arnold, was given to the jury to-day, and a verdict rendered of not guilty. Worthington's case was not. pros'd.

"Do you sing?" says the teapot to the kettle. "Yes," replies the kettle, "I can manage to go over a few bars." "Bah!" exclaimed the teapot.

☞ About three hundred gallons of gin and other liquors were seized in Millbury, Mass., on Saturday. The parties having the liquor in charge were arrested.

☞ The Manchester American has the following notice of the thief and rum nuisance at Londonderry.

Mary Mullen, the shop-lifter, has a countenance of seeming honesty which is calculated to deceive most observers. Her eye is dull and heavy, her features inexpressive, and her movements quiet and moderate.—She is of herself far from being shrewd or calculating. The fact that she has reaped but little advantage from her numerous thefts shows this—nearly all of the goods stolen by her being immediately surrendered to others. Even her wages have to a great extent been monopolized by the Clarks.

Raised in a Scotch-Irish family in northern New York, she was among the number who six years ago came from that section, and began work on the Amoskeag corporation. She for a year or two bore an excellent reputation. So long as her associates were respectable, she continued so, but her acquaintance with the Clarks led to her ruin. She appears to have been entirely at their control, acting the harlot and the thief at their bidding.

The Clark family with their adherents have been an eyesore to the people of Londonderry for years. On all public occasions, and especially at town meetings they were the centre of a drunken crowd, and the part of the town in which they have lived has not only suffered in reputation but in all its material interests from their disgraceful acts and petty depredations.

SHIP MURDER MYSTERY.—*New York, Mar. 25.*—It is suspected that the China man who was picked up in the yawl off Barnegat murdered the captain and his brother, and then deserted the vessel; and his sudden disappearance, on arriving at this city yesterday, tends to confirm the suspician.

The Spray was bound to Virginia for a cargo of oysters, and captain Lute had in his possession funds for the purchase of his cargo. The police have the affair in hand.

Wm. Johnson, alias Alfred W. Hicks, the suspected murdered of the captain and crew of the oyster sloop E. A. Johnson, arrived here yesterday afternoon, in the custody of detectives Morris and Smith from Providence. A silver watch and a couple of flags found in the possession of the prisoner, have been identified as the property of Captain Burr.

WASHINGTON, March 26.—Mr. Branch will oppose the organization of new Territories, and move an amendment to the Utah bill, giving the President power to appoint the Territorial Legislature. This will cut up all the difficulties by the root. If the new Territories should be organized, elections for delegates will be ordered. Delegates elected prior to the existence of the Territories cannot claim seats in Congress.

☞ It is rumored that A. T. Stewart, the well known New York dry goods merchant, has been taken to an insane asylum.

It is also reported that Lieut. Bartlett has challenged Gen. G. P. Morris, editor of the Home Journal, in consequence of remarks made by that paper, recently, touching the "Diamond Wedding."

The most Agreeable Dentistry—The *insertion* of teeth in roast beef and bread and butter.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS. Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR JAMES CLARKE, M.D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times. *Ladies' Home Magazine.*

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

J. E. HAM & CO.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERTASK, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, ERYSIPELAS and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.
GEO. C. GOODWIN & CO., Wholesale Agents, Boston.
And by all respectable Druggists throughout the country.
In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN PERTAINING DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has no *equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

CHURCH & DUPONT, Druggists,
No. 409 Broadway, New York.
GEO. C. GOODWIN & CO., Wholesale Agents, Boston,
And by all respectable Druggists throughout the country. In Portsmouth by W. R. PRESTON.

Portsmouth, N. H.

WEDNESDAY, MARCH 28, 1860.

SOUTHERN DEMOCRACY!

Messrs. Editors:—We have read in our Northern papers a good deal about Southern Democracy. Can you inform the public what it is? There was a republican party, commencing with Mr. Jefferson's administration, and afterwards a democratic, which continued, for a long period, in the Slave States.

But as the old maxim says, times change, and we change with them. The question is, whether it can now truly be said that there is a Democratic party in our Slave States?

The compound word Democracy is derived from two Greek words, meaning power in the hands of the people. A pure democracy is where the citizens meet and exercise their civil and political rights themselves without delegating them to representatives of the people.

But under a democratic republican government, such as ours, the people, instead of acting in their collective capacity, delegate their political affairs to representative, legislative bodies. A true democrat is an advocate of the equal rights and privileges of all classes of the people. How, then, can there be a democratic party, where the people are so ignorant, debased, and downtrodden by petty despots, or an oligarchy, as to be incapable and unable to exercise their social and political rights?

A Southern statesman said some time since, that the Northern people did not understand "the frame-work of Southern society." But we now understand that there are three castes or classes,—the oligarchy, the common white people, and the slaves—the second being a caste as much under the domination of the slaveholders, as certain castes in India are under the higher order of Brahmins.

Helper, in his book, says they dare not utter their sentiments in the presence of their rulers. They cannot have common schools—of course are uneducated, and generally cannot read and write—are generally destitute of property, because they cannot find employment, and because the land-owners will not pay the wages of labor while their plantations are cultivated by servile labor.

To keep them from being restive in their miserable, degraded condition, the oligarchy inculcate the doctrine that labor is degrading to a white man! They, there'ore, do but stay on the face of the earth. True, they vote, but under the dictation of their rulers. It is said by some travelers among them, that they are in a state of heathenism.

In speaking of the unemployed white population of the South, Gov. Hammond of South Carolina said—"They obtain a precarious subsistence, by occasional jobs, by hunting, by fishing, sometimes by plundering fields or folds, and too often by what is, in its effects, far worse, trading with slaves, and seducing them to plunder for their benefit."

All this and a great deal more of the wretched, appaling condition of the common white people, we have learned, without the authority of Gov. Hammond. Indeed, they are not better fed, nor better clothed, than the down-trodden slaves, and are about on the same level, except rights merely nominal. Can such a caste constitute a Democratic party? If yea, then our definitions of a democracy are erroneous.

We doubt not that among this second class there are thousands of democrats *at heart*, who would form a party, were they allowed to act for themselves, and in such case they would elect representatives from their own class to the legislative assemblies.

And this class would down with slavery at once, if they were allowed and dared to act—because even the light of nature teaches that slavery is the cause of their poverty and want of employment.

Some, perhaps a large portion of the oligarchy, with their heels upon the necks of the white as well as the colored population, profess to be a Democratic party.—Can tyrants and the oppressors of their fellow creatures, be democrats?

AN INQUIRER.

A serious altercation took place, on Sunday evening, in New Bedford, between Joseph Williams and his wife. It is thought that the husband will not live. The parties have had frequent quarrels.

We give this item as we find it,—but if this tells the whole story, Mrs. Williams must have *talked* her husband to death in the altercation. We suspect, however, that besides her tongue, she must have used her teeth or claws.

☞ At the Elmira Female College a new feature has been introduced. No young lady will be allowed to graduate who has not learned practically the use of the sewing machine. The matron gives the lessons.

☞ The New York dispatches of the 26th, say the reported insanity of A. T. Stewart is without the least foundation.

☞ Mr. Draper, one of the principal leaders in the shoemakers' strike, lectured in Newark, N. J., on Monday evening, and is to lecture in Washington city on Thursday, to get up sympathy for the strikers. But by a singular coincidence, the men in New England have mostly left striking, and gone to work at prices somewhat above the old rate in many cases, in others at the same rates; and quite a number have no work at shoemaking, and must do something else or go elswhere.

It is thought that a compromise will be effected in Natick very soon.

In Lynn there are indications that the strike has nearly reached its termination.

☞ New Orleans papers of Wednesday contain statements made by the prisoners on board the Mexican prize steamers, corresponding substantially with the accounts already published. The Gen. Miramon had a crew of 250 men, mostly Spaniards; 40 of the crew were killed and wounded in the engagement. The prisoners state that the arms and ammunition, etc., were put on board at Havana, with the knowledge of the Cuban government. A large portion of her cargo consisted of powder, which was thrown overboard during the fight. Some of the barrels of this powder have been recovered, and proved to be the same as used in the arsenals at Havana.

☞ It is said in Boston that Rev. Dr. Huntington, who was confirmed on Sunday, has accepted an invitation to become rector of a now church, and the building will be commenced early in the fall of the present year. Until the church is completed, the society will meet for worship in some one of the halls of the city. The most active parties in the new movement are at present worshippers at Trinity and St. Paul's Churches, and King's Chapel.

This movement has given occasion for much talk among the Episcopalians, some of the staunchest of whom question the propriety of installing Dr. Huntington over a new church and society until after a period of probation. One of them says in the Boston Journal:

The two principal Episcopal churches—Trinity and St. Paul's—have either pews to sell or to let, and can accommodate a great number. St. Paul's can build galleries, and Trinity can fill her vacant ones with those who want to come. Under this state of things, why build another Episcopal church while there is room in Trinity, St. Paul's and Grace church, which would *then be poorly filled?* Dr. Huntington, while the office of assistant minister is vacant at Trinity church, should be asked to fill it; and if, after he has "learned the ropes," the present Rector, who must soon, necessarily, be wanted more exclusively in his Diocese as Bishop, should see it so, he could then take the helm and navigate with another mate, and the great vessel of State have its appointed head.

☞ The "great unwashed" from the North and West do not seem to be heartily welcome at Charleston, S. C. If we are to believe the Charleston papers, and particularly the News, which is supposed to reflect the public sentiment of that city, the delegates who are to attend the Democratic National Convention are regarded with a decided suspicion; a portion of them at least. We quote from the News:

What has her (the city of Charleston's) private hospitality to do with such a case: an irruption upon her of an immense horde of men, intent on their own selfish ends and indifferent alike to her people, their sentiments and interests? And thousands of them, too, of such *character* and manners that if they were to come here individually, again and again, it would never be thought a duty by a respectable man of our city to admit any of them within his doors. During the presence of that promiscuous crowd, the private doors of Charleston will never have been so tightly shut and carefully guarded as then. She will confer more watching than hospitality on the "camp followers" who have come to swarm at the assembling of a national convention.

This looks something like a snub.

JOHN CHINAMAN DOING BROTHER JONATHAN BROWN.—There is an amusing story of a Chinese Baranm who got hold of an American Daniel Lambert, whom he entertained most hospitably. For some days Jonathan was the observed of all observers. Endless crowds of visitors appeared to do him honor, so much so that these well attended levees became a great nuisance.—The American ultimately found that his host had been making a good thing of him, as he had been exhibited for pay to the staring Celestials, who were supposed to be simply doing him honor.

THE HUNGARIAN.—We understand, says the Portland Republican, that the captain of a brig whose name we could not learn, was in Portland on Friday, who says that he was in the neighborhood of the Hungarian at the time of her loss, and that he lost his vessel by getting into a field of ice, and thinks the Hungarian was lost by the same means. This is a perfect solution of the circumstances of the peculiar position of the wreck, which no one could explain before.

☞ Mr. William Shirley, a highly respected citizen of Goffstown, died very suddenly a few days since, with the heart disease. He had been at work about the farm during the afternoon as usual.

☞ In the U. S. Senate, Monday, March 26, the Pacific Telegraph bill was passed—28 to 15.

The Consular appropriation bill was then taken up, amended and passed—28 to 18.

The joint resolution from the House for relief of the mail contractors was received and passed.

In the House, Mr. Thayer introduced a bill withdrawing the protection of Congress from non-resident landholders in the States and Territories.

Mr. Florence introduced a bill to regulate the duty on imports.

The above bills were appropriately referred.

Mr. Blake introduced a bill to repeal the Fugitive Slave Law of 1850. Referred to the Judiciary Committee.

Mr. Sherman introduced a deficiency bill; and another for the payment of sundry civil expenses of the government for the next fiscal year.

Mr. Haskin introduced a bill on printing; and Mr. Colfax a bill to allow the post office the use of certain revenues.

Mr. Curtis introduced a Pacific Railroad bill. Referred to a select committee.

Mr. Garnett introduced a bill enabling citizens of the United States to carry their property freely and without molestation into the Territory of Kansas. Referred to the Judiciary Committee.

Mr. Morse introduced a resolution declaring that more efficient measures should be taken for the suppression of the African slave trade, which is rapidly on the increase, and as it is a crime against human nature, and opposed to the moral sentiment of mankind, the President be requested to open negotiations with the leading powers of Europe with the view of declaring it piracy of international laws.

A scene of confusion ensued, amid which the roll was called, and the proposition rejected—60 to 106.

Mr. Bocock offered a resolution censuring Messrs. Kilgore and Washburn of Me., for not voting, which, after considerable debate, he withdrew.

Mr. McQueen offered a resolution, which was adopted, instructing the Committee on Ways and Means to inquire and report, if they see fit, a measure relieving the shoemakers of Massachusetts from the tyranny of the capitalists of that State, by repealing the duties on leather and other imported articles which enter into the shoemaking business.

Mr. Vallandigham offered a resolution to inqure into the cruelties alleged to be practised on board American merchant vessels.

Mr. Blake offered the following preamble and resolution:

Whereas, The chattéling of mankind and the holding of persons as property is contrary to natural justice and the fundamental principles of our political system, and is notoriously a reproach to our country throughout the civilized world, and a serious hindrance to the progress of republican liberty throughout the nations of the earth; therefore

Resolved, That the Committee on the Judiciary be and the same hereby are instructed to inquire into the expediency of reporting a bill giving freedom to every human being, and interdicting slavery, wherever Congress has the Constitutional power to legislate on the subject.

Numerous resolutions were then passed, and a large amount of business done for one day.

WASHINGTON, March 26.—The President was engaged with the Secretary of State several hours to-day, on business connected with Mexican affairs.

The recent events in the Gulf occasion much solicitude in official quarters, as it is found they may complicate the United States with the foreign powers having large interests in that country. Nothing materially different from the newspaper accounts has reached government.

The House has been officially informed that the President has signed the bill providing for the protection of female passengers.

THE BATTLE COMMENCED.—In the House of Representatives in Congress, the war upon Kansas has begun. Mr. Garnett, of Virginia, introduced a bill which provides that the citizens of any State may carry their property, of any description, into the Territory of Kansas and hold it there without interference. This is intended to accomplish two purposes—first, to embarrass and if possible to defeat the admission of Kansas with her Wyandotte Constitution, which prohibits slaveholding within her limits; and secondly, it is the precursor of the coming demand of the Democratic party, that slaveholders shall be permitted to take their slaves into any State of the Union and hold them there as slaves. If they may do this in Kansas, in defiance of the will of her people, why not in Massachusetts or Connecticut?—What lovers of State rights and of liberty these Democrats are!—*Atlas.*

☞ The "irrepressible conflict" has got into the University of Mississippi. Dr. Barnard, the President, took the statement of an negro as evidence against one of the students, and there was great excitement.—An investigating committee acquitted the President from all blame, but the mob has resolved that he and the other northern teachers shall be driven off; and as the mob is the government at the South now, they will probably succeed.

BORROWING.—There are two things in this world that you should never do if you can possibly help it, that is to borrow money or trouble, if you would insure to yourself a reasonable amount of happiness. You had a good deal better go to work and honestly earn the one, and use all due precaution to shun and avoid the other.

It is common to speak of those whom a flirt has jilted as her victims. This is a grave error; her real victim is the man she accepts.

CHEERFULNESS. — Tonics, stimulants, medicines! There is nothing in all the pharmacopœas half so inspiriting as a cheerful temper! Don't fancy yourself a victim! Don't go through the world with a face half a yard long! Don't persuade yourself that everything happens! My dear sir, *you* are the only person that is wrong, when you say that this is a world of trial and trouble! It is a great deal better to be without an arm, or a leg, than to lack cheerfulness!

The hotel keepers of Chicago, who could buy and sell those of Charleston without feeling that they had transacted much business, will not raise their prices during the sittings of the Republican National Convention. Yet one could safely back the Republican delegates to consume as much as will be consumed by their democratic brethren. Chicago is full of hope, but Charleston knows that this is her last chance, and means to impress herself firmly on the recollections of the democracy.—She remembers that she can never again see a democratic convention, and will make the most out of this one.—*Trav.*

☞ Out of 162,000 males in Maine above fifteen years of age, 77,000 are employed in agricultural pursuits, and they pay more than 60 per cent. of the taxes.—The farms of Maine are worth $65,000,000.

A FAVOR REQUESTED.

If the individual who entered the New Hampshire Gazette Office some time between nine o'clock on Friday night and Monday morning last, and carried away my DIRECTION BOOKS, has made such use of them as he desires, he would confer on me a great favor if he would seal them up and return them by Express, or by some other agency, before Friday morning next. A prompt compliance with this request will save me the trouble of preparing new books, which will be the only result of neglect to send them back.

SAMUEL GRAY.

Portsmouth, March 27th, 1860.

GEORGE W. PLUMER'S
NEW BAKING ESTABLISHMENT.

SHOPS: { No. 22 CONGRESS STREET, and No. 31 STATE STREET.

Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr. S. N. Plumer, the subscriber offers to his patrons

ON TUESDAY, MARCH 27th,

at that place, and also at the new Shop, corner of Congress and Pleasant streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c., as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. T. WILDES, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.

GEORGE W. PLUMER.

Portsmouth, March 26, 1860.

NOTICE.

"Once I trusted all my friends;
For so they seemed to be;
But when I asked them for my pay,
They only laughed at me."

ONE MORE CALL, AND A NEW INDUCEMENT TO PAY UP.

The Subscriber would say to those in debt to him by note or account, that if payment is made on or before the 1st of May next, a liberal discount will be made to those who are evidently too poor to pay the full demand against them.

We continue to manufacture BREAD of various kinds, for those who are disposed to pay for it HOT BROWN BREAD every morning, (Mondays excepted.)

CAKE, PUDDINGS AND BEANS, baked for families on reasonable terms.

JOHN NUTTER,

LADIES'

SPRING GARMENTS,

comprising about

ONE HUNDRED DIFFERENT

PATTERNS

—OF—

CAPES, TALMAS, &c.

Our friends and the Public are respectfully invited to come soon, and look at them.

ALLEN & PAINE,
No. 15 Market Street.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 12 Cabot St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontorumenos.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, relief and health to your infants. Perfectly safe in all cases See advertisement in another column.

The manufacture of Stomach Bitters.

There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, emetics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs.

E. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1858.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spu0t 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOSTON, MASS., June 1, 1859.

Messrs. N. L. CLARK & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and used other remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to heal up the inflamed parts of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost sure to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

Smith's Curative Cleansing Compound

Has readily cured of effectually relieved, in numerous cases in various parts of New England, the following complaints, viz: Neuralgia, Sore Throat, Croup, Chapped Hands, Chilblains, Cuts, Bruises, Sprains, Burns, Scalds, Spider Bites, Sore Breasts, Erysipelas, Frost Bites, Dysentery, Colic, Cramp in the Stomach or Limbs, Rheumatism, Ague, Toothache, &c. The above complaints may either be relieved or cured in a few minutes.

Local.

☞ The Printers of this city, rather than cut down prices by underbidding for the City Printing, fix on a certain rate per page, (and low enough it is, too,) and draw lots for the job. The City Accounts and School Reports are now printed seperately; so the Printers have two gambling speculations a year. Our friend, the junior of the Journal, drew the prize (the School Reports, etc.) last week. We don't envy our neighbors their good luck, now or ever: but we never could see the difference between the principle of the genteel and unexceptionable Gift Concerts the senior of the Journal used to be so fond of blowing about, and these typographical lotteries.

☞ At a very large meeting of the South Parish in this city, held on Monday evening, a communication was presented from the pastor, Rev. Dr. Peabody, giving official information of his election to the Plummer Professorship in Harvard University, and requesting the advice and action of the parish on his acceptance.

After hearing the communication, a committee was appointed to report resolutions in answer to the request, whose report was unanimously adopted,—resolving that the Parish advise Dr. Peabody's acceptance of the call, and accede to to his request for a dismissal from his pastorship here, to take effect Sept. 1.

A committee was then appointed to prepare a more extended and formal answer, to be presented to the parish for adoption at the annual meeting,—and the meeting was dissolved.

The proposed time for Dr. P's dismissal, will complete 27 years of his ministry here.

REFORM SCHOOL.

On Friday, the New Hampshire House of Reformation closed the Winter Term of its School, having a public examination. Hon. Horton D. Walker of Portsmouth, President of the institution, Col. William Kent of Concord, one of the Trustees, Hon. Frederick Smyth, Treasurer,—quite a number of citizens, among whom were Rev. Messrs. Hall, Pierce and Coburn, and many ladies. The school numbers about 40. The exercises were in reading, writing, spelling, geography, farming and the like, followed by declamations and dialogues. Remarks were made by Messrs. Hall, Pierce, Bunton, Smyth, Walker, Kent and David J. and John B. Clarke, of the Manchester Mirror, all expressing themselves highly gratified with what they had seen, and commending the manner of conducting the school. The neatness, natural abilities and excellent decorum of the scholars, and the deep interest they manifested in the exercises, and the happiness that beamed from their countenances were general themes of remark. Rev. K. S. Hall pronounced the school equal to our average common schools, and others coincided with him. The declamations showed wonderful ability, and one boy sung with such sweetness and tenderness as to cause the tears to start. The Superintendent, Mr. Brooks Shattuck, and the Matron, Mrs. Shattuck, seem well adapted to the position which they fill.

☞ At Manchester, (as we learn from the American,) on Saturday, all the persons arrested for thieves, were discharged except four, viz.: Charles R. Clark and wife, Mrs. Huldah Adams, and Stephen L. Emery. Mary Mullon was retained as as state's evidence, having made a full disclosure of the facts and of her accomplices. The Mirror says:

Mary Mullen is blamed least of all. She has a very honest face, and it is said that up to the time when she gave her all to her betrayer, two years ago, she was very handsome. She was a member of the Methodist Church.

Mr. and Mrs. Clark were ordered to give $1000 bail for their appearance, and Mrs. Adams, $500.

☞ In Exeter a town meeting has been notified on Saturday, the seventh day of April, at 2 o'clock, to see if the town will vote to reconsider or rescind the vote passed at the last town meeting, abolishing the liquor agency, and directing the liquors on hand to be sold, and the proceeds appropriated to the benefit of the Library; and to see if the town will instruct the Selectmen to prosecute or require them to appoint an agent or committee to prosecute all violation of the liquor or license law.

☞ In Exeter, on Saturday last, the Homestead of the late John H. Palmer, on Front street, was sold at Auction—and was struck off to J. B. Wadleigh for $5,000.—This property was formerly the homestead of Prof. J. G. Hoyt, of St. Louis.

The Portland Argus thinks the Legislature of Maine will not allow the Grand Trunk Railroad to be extended to Massachusetts; that a third rail between Portland and Boston is not a practicable idea, and that a separate track is equally out of the question. *Nous verrons.—Boston Post.*

☞ The catalogue of Bangor Theological Seminary shows that there are 47 students. Seven are from our State, one from Rockingham Co., viz. J. T. Dudley of Candia.

NEW YORK, March 26.—The Chinaman, John Lowe, who is supposed to have murdered Capt. Leete and his brother of the sloop Spray, has been captured near Jersey City, and is in custody. Considerable money in gold and silver was found on his person.

By the schooner Enchantress, Capt. Evans, we have dates of the 5th from Maracaibo. The rebel army has been totally defeated and dispersed, at the Pass Caracoles. The war was supposed to be ended. Business generally was dull. Coffee and hides were scarce, on account of political troubles interfering with the industrial pursuits, and consequently rule high. Provisions were in request at remunerating prices.

RAILROAD IN KANSAS.—*St. Joseph, Mo., Mar.* 26.—The first rail over laid in Kansas was put down on the St. Joseph and Marysville Railroad this afternoon, in the presence of many citizens, among whom were our city officials and other prominent men. This is the commencement of the first section of the great Pacific Railroad, west of the Missouri river, which will be rapidly pushed forward.

Emmigration to Pike's Peak is fast reviving, and many are arriving daily, bound to the mines.

FATAL ACCIDENT.—*Hyde Park, Pa., Mar.* 26.—A terrible accident occurred at Chittenden's Shaft, four miles below here, this afternoon. The pumps broke while the workmen were being hoisted up. An explosion of damp followed, when 15 or 20 of them were killed, and many more seriously wounded. The engine and boiler house were blown to pieces. These are all the particulars received as yet.

ONE HUNDRED GIRLS IN A TELEGRAPH OFFICE.—In England the business of operating telegraph wires has been to a great extent placed in the hands of young ladies, who find it a very agreeable employment The inland department of the Electric Telegraph Company in London now employs one hundred young ladies, who receive and transmit the messages from all parts of the United Kingdom.

☞ Frank Blair of St. Louis, has proved before the committee on elections, frauds enough against Barrett, his congressional opponent, to give him, Blair, a majority of 1000 votes.

THE CARSTANG AND SHAW CASE.—*St. Louis Mar.* 26.—The defence in the Carsting vs. Shaw case closed to-day. The Court will hold three sessions daily hereafter, in order to finish the case this week.—Debutting testimony commences to-morrow.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

Here's Health for the Million!!

CLARKE'S SHERRY WINE BITTERS

Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, become imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

DR. E. R. CLARKE, Sharon, Mass.,
Manufacturer and Proprietor.

DR. CLARKE'S HERB PILLS

ARE THE CHEAPEST AND BEST IN THE WORLD!!

DR. CLARK'S HERB SYRUP

cures everybody. Try it!!

Prepared by DR. E R. CLARKE, and Sold in Portsmouth by Mathes & Varrell, Joseph H. Thacher, and B. Hutchings. feb27

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS.
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N. Y.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Hesviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

SHALER'S CARPET SWEEPER!

NEW PATTERN.

With cast iron frame—a very superior article.

SHALER'S SPIRAL BRUSHES,

A new style of FLOOR, SCRUB & WINDOW BRUSHES—very durable.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times. *Ladies' Home Magazine.*

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

KEROSENE! KEROSENE!!

Also, a good assortment of GENTS' FURNISHING GOODS.

J. E. HAM & CO.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory, hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and all CHRONIC COMPLAINTS arising from OVERUSE, NERVOUS DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and enters immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESS, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.
GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely upon*. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circulars for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, since I think it is due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald.

Very Respectfully,
BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Sumaston, Ala., July 20th, 1858.

To Prof. O. J. Wood—Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC the effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all? Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage, and benefit a few by very certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the greater portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and feeling it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and sells for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds one quart or fifty per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1,00.

Cordial of Dandelion, Spikenard and Rhubarb is a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried out of the many during the whole 40 years of his study and practice of medicine. Price $1,00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that disagreeable visitor, to use it freely. MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops than all other medicines put together, though, I have tried many. FANNY MINER.

"I have been cured of a severe cough, by using Dr Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently recommend to oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to all others, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable medicy. I have found nothing that gives relief so quick, let every suffering preacher take a phial and try it. Eld. EDWIN WILLIAMS.

EXETER, July 30, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs, and for any other complaints of the Lungs, of any medicines with which I have been acquainted. NANCY F. JONES.

CANAAN, Aug 29, 1850. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together.

TEROPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies his medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vice, and, above all, by the venereal infection. Whether be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the curse of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their principal inheritance! Nothing but this infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood with a powerful medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYCOSIS, SCURVY AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOLLOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula, in its degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse and invigorate every portion of the human organism, invoking its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other pectoral will be at once apparent to escape observation, and where it has been resident to our climate. While many inferior remedies have gone out of the community have failed and been discarded, this has gained friends at every trial, conferred benefits on the afflicted they can never forget, and performed cures too numerous and too remarkable to be forgotten.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, 8 YEARS.—Office of 1857.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed in the neatest style, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for procuring patents unknown to any other agency, the ability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered these inventors. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and it knows HIS SUCCESS TO BE THE BEST EVIDENCE OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office in the United States charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of mechanical and scientific works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very moderate charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE REJECTED applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

JOHN S. HARVEY,
Real Estate and Stock Broker,
jy11 No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have of any other medicine, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who trary, all are delighted speak in terms of the highest cical effects and medical this matter, *"what we know, we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here assert.* In every instance where the infant is suffering from pain and exhaustion, a fifteen or twenty minutes after they syrup is administered.

This valuable preparation is the prescription of one of the MOST SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and by giving healthe whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe this REMEDY is the wonder in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, sure to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. Note the genuine CURTIS & PERKINS on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York

Price only 25 cents per bottle.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle: and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter or floor, and never on the floor. All left at residences, to be placed within, and that any loss arising from the use of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are not complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended without notice the paper delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

JOB AND CARD PRINTING

PROMPTLY EXECUTED

At the Portsmouth Chronicle Office.

Anything from good sized Posters, Bill Heads, Circulars, &c., to the smallest Labels.

Our facilities for Card Printing are excellent.—Business, Wedding or Visiting Cards, furnished, and PRINTED or ENGRAVED, in the best manner, at the shortest notice. Envelopes furnished, and stamped if desired.

☞ **S. R. Niles,** (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

Morning Chronicle.

☞ A runaway negro at Montgomery, Ala., a few days since, made a gallant resistance to his pursuers, wounding one of them badly by a pistol shot; and refusing to be taken alive, was shot dead, at a loss of $1,800 to the afflicted patriarch to whom his "labor or service was due."—"Liberty or death."

☞ A married physician recently eloped from Malden, Canada, with the daughter of a British officer. They went to Illinois, where the doctor's wife followed them, had her husband arrested for adultery, and acting a motherly part to the misguided girl, gave her good advice and returned her to her parents.

☞ The Connecticut correspondent of the New York Times says that he has been informed that the Republican State Committee have completed their canvass, and figured up twelve hundred majority for their ticket. He has also heard that the Democratic figuring fell short of an election nearly five hundred votes.

☞ Mr. E. Jacobs of Manchester has the best cow in that county, Hillsboro'. She weighs 1318, and her superiority is best seen by an examination of the butter she furnishes.

P. P. P.
PARK'S PRICKLY PLASTERS.
They impart strength; they annihilate pain.
Park's Patent Porus Prickly Plasters Are Sold by all Dealers From 1 to 2 Dimes.
THESE DELIGHTFUL PLASTERS yield readily to the motion of the body, absorb perspiration, and throw off all the offensive coagulated impurities of the system. They should be used for all Chronic Pains, Faintness, Dyspepsia, Colds, Consumption, Rheumatism, Female Weakness, etc. They retain their native properties when other Plasters are useless, and where applied *pain cannot exist.*—Every family should have them.—One size on cloth, three sizes on leather. Sample sent by mail, on receipt of twenty-five cents.
BARNES & PARK,
13 & 15 PARK ROW,
3mod&w New York.

FIVE
SPLENDID STRAWBERRIES.

HOOKER—Very productive; large, beautiful, and of UNEQUALED QUALITY.

Wilson's A bany—Exceedingly productive; FINE FOR MARKET.

Triomphe de Gand—IMMENSE SIZE:—splendid appearance, and *high flavor.*

Pyramidal Chilian—very handsome; productive, hardy and *good flavor.*

Large Early Scarlet—THE EARLIEST; productive and *excellent.*

As it is impossible to secure all the excellencies of this most popular fruit *in one variety*, we offer the above, as comprising, in five sorts, the various points desirable.

We again confidently RECOMMEND the HOOKER, as by far the best for family use, if only one sort is to be planted—combining a greater number of excellencies than any other variety.

☞ All of the above have perfect flowers, and will produce excellent crops, if planted singly or together.

PRICES—(Securely packed to be forwarded by express:)

Per 100 plants of any of the above varieties,		$2,00
" 1,0	" 20 of each variety,	3,00
" 500	" 100 of each variety,	7,50
" 1000	" of the Hooker,	10,00

H. E. HOOKER & Co.,
COMMERCIAL NURSERIES,
Rochester, N. Y.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is draw much easier than much smaller ones is absolutely requisite to draw a Plow of less size, or any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Farmers, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES we are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

J. B. WIGGIN & Co.,
Green St., Portsmouth.
Portsmouth, March 1st, 1860.

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.

Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability;—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.

In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as "Art Unions," Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.

Patronize your own.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that come within the range of his Residence and Office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Bickford's Spring Balance,
for Window Sashes; to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, JR.

Portsmouth, N. H.

THURSDAY, MARCH 29, 1860.

THE EXTENT OF A REPUBLIC.

The domain of the United States is larger than that of all Europe—is about equal in square miles to the Russian empire. It extends from the St. Lawrence to the Gulf of Mexico—from the Atlantic to the Pacific ocean,and further on the latter to the frozen regions of the North. It is large enough for a population of over three hundred millions.

Territories have been added two-thirds larger than the thirteen original states, to which eighteen states have been added, and more will soon be admitted into the Union. Most of Europe was once under the rule of one government. Great Britain was a Roman province. But since that period,Europe has been divided and subdivided into over forty empires, kingdoms, palatinates, principalities and powers, now constituting many distinct nations.

Several of the ancient monarchies embraced so vast an extent that they fell to pieces by their own weight. Such was the fate of the Chaldean, Babylonian, Persian and Macedonian monarchies.

And what was the fate of the ancient republics of Greece and Rome? View Greece now — the land of Demosthenes, Pericles, and Leonidas. How fallen from her ancient greatness and glory, when her confederated democracies constituted an extended republic, whose victorious arms subdued the nations around, but to her dishonor converted the white captives into slaves.

Look at Italy! once "the mistress of the world"—even called *lux orbis terrarum!*—Where are the monuments of her glory? The dark clouds of ignorance and Papal superstition overshadow that beautiful land, upon which now treads the iron heel of despotism.

Shall we, at this enlightened age, not take warning from the lessons of history? Shall we go on extending our republic over heterogeneous, ignorant, vicious, superstitious and degraded races of people?—over nations wholly unfit and incapable of carrying out our theory of self-government?

Will we not rather recur to the political maxims of the wise formers of our government? In laying the basis of our free institutions, it is evident from their published debates that they had before them the lights of history. Some of them doubted whether the original thirteen states did not embrace a domain too large for a republic.

But to one sentiment the wisest of American sages assented; and it is recorded by Washington, the father of his country, and by other patriots—that virtue and the general diffusion of knowledge are the two grand pillars in the support of our political edifice.

Some modern politicians have arisen,contending that inasmuch as our government is an improvement upon all others, our confederacy of states may safely be vastly extended, even over the American continent.

It is true that we have made some new discovery in political science in respect to the balance and check of the three co-ordinate governmental departments—but the wiseacres seem not to consider that human nature is the same on both sides of the Atlantic;—they sneer at the doctrine of the Fathers, that virtuous principles and the general diffusion of knowledge among all classes are the essential and indispensable supports of our system of self-government.

It may safely be affirmed that the population of Mexico, Central America, Cuba, and all that southern region,are so ignorant, vicious, and degraded, as to be wholly unfit for self-government. Even in our own republic, at the South, such is the general state of ignorance with its concomitant evils, that it cannot truly be said that the people enjoy the blessing of free government. Ignorance, growing out of the social organization, and the curse of slavery, have led to the establishment of a complete oligarchy—a many-headed monster, by far a more oppressive government than an absolute despotism.

And now, in less than a century since the origin of our government, we hear the proclamation of that domineering oligarchy, that unless our free states will submit to their designs, annex foreign lands, or else extend their God-abhorred institution over our free territories in order to give it new life and perpetuity, a Southern distinct nation will be formed, and the confederacy dissolved. The threat creates no terror at the North. And we trust that our Union, already, in our humble judgment, too vast for a free republic, will not be extended.

When our population shall be increased to sixty or seventy millions, the people beyond the Rocky Mountains, and southerly on the Pacific, including the California regions, may, perhaps, become distinct nations. And, unless negro slavery shall ere long be abolished, it requires no great political foresight, from causes now operating, to predict that the slave states will be formed under an oligarchy, into a new confederacy, with its southern boundary on the Gulf of Mexico.

But the free, virtuous, and enlightened population of the North, doubling in twenty-five years, will defend and uphold our free institutions, and the wise constitution constructed by the Fathers; to be perpetuated, we trust in Providence,to the remotest generations. Then the existing elements of discord would not disturb the free, confederated states constituting a glorious republic.

HOMO.

DISTURBANCE IN KENTUCKY.—A man named Hanson, who was recently expelled from Boreas, Madison county, Ky., with J. G. Fee, returned to Boreas, whereupon a committee waited upon him for the purpose of again ordering him from the county.—Hanson, with 25 or 30 associates, arrived with rifles, and fired upon the Committee, but without injury to any one. Hanson's party then retreated, and barricaded themselves in a house. The Committee, which is composed of 25 or 30 men, are armed with revolvers. A military force has been ordered from Lexington, and it is thought the disturbance will soon be quelled.

CREEPING OUT AT A SMALL HOLE.—In the Superior Court, Boston, on Tuesday morning, the Shepard Forgery Case came to a "most lame and impotent conclusion." The defense, which has been very ingeniously conducted throughout, presented the point that there was a variance between the allegation and the proof—the former being that the note in question was signed and endorsed "Henry Taylor & Co." while by the latter it appeared that it was adroitly signed and endorsed "Henry Taylor Co."—and upon this point the Court ordered a verdict of not guilty. This precludes another trial for the same offense. If the objection had been presented in the form of a motion to quash, a new indictment might have been found, and the issue tried thereon. The crooks and turns of the law, (says the Boston Journal,) are past finding out.

The prisoner, however, is to be tried for another forgery,— and having the same counsel, Mr. Butler, he may perhaps get out of another hole as small.

☞ The New Bedford *"altercation,"* of which we have had a little notice,proves, as we supposed,to be a *fight* between man and wife. The parties had been separated for three weeks. On Sunday evening, Williams called on his wife, and asked her to take a walk, to which she consented. They proceeded to the shop where Williams is employed, and a melee took place, both parties inflicting horrible wounds on each other's heads, apparently with hatchets.—Williams' skull was severely gashed on the top in twelve places, and he remains insensible. The woman was more dangerously wounded, pieces of her skull being entirely cut out, and one side broken in. She was sensible and declares they were inflicted by him. They are about 45 or 50 years of age, and for a long time have not lived in harmony together.

☞ The Franconia Iron Works are again in operation, the melting of ore in the new works having begun one week since. The Company consists of six owners, two of whom are Nathaniel White of Concord, B. P. Cheney of Boston. Instead of going down into the mountain, as formerly, they have reached the vein by diging into the side of it, thus making a vast saving of labor. For some punposes the Francon a iron is unsurpassed.

HARTFORD, Conn., March 27.—The Democracy met at their Camp to-night, to the number of about 5000, and were addressed by Mayor Wood. Bonfires were burnt outside the Camp, and a large torchlight procession, with rockets, &c., proceeded thro' the streets of the city.

The Republicans dedicated their Camp to-night, over three thousand visiting, political friends arriving in special trains. The meeting was one of the largest ever held in this city, and was addressed by Senator Wilson and Hon. Tom Corwin, after which a torchlight procession was formed and marched through the streets.

The whole city is alive with excitement this evening, and both Democrats and Republicans are sanguine of success.

BUTTING AGAINST AN ENGINE.—The Cleveland Herald of Monday says, last night, as freight train No. 2 on the Cleveland, Columbus and Cincinnati Railroad was approaching Grafton, a drunken man was discovered on the track. The whistle was blown, but the man stood his ground, and defied the train to come on. Just as the engine approached him, he stepped off on the other track, on which the Cleveland and Toledo wood train was approaching.—The man then got between the tracks, and grabbed at the engine in order to pull it off the track. Missing that, he tried the same thing with the cars until the fourth car came up, when he butted at it with his head, in order to butt it off the track. He didn't succeed, but managed to knock a serious hole in his head, and his recovery was very doubtful.

Temperance has promising children, Thrift, Talent, Taste; but Drunkenness has a scaly family, and we have seen among his sons, Debt, Dishonor, Disease and Death.

☞ Latest news from Liverpool is to March 14, via Portland. The Italian States have voted to be annexed to Sardinia, by a very large majority, say 95 or 96 per cent. The army of Rome has been increased to 20,000.

The reply of the Holy See to the last proposals of France has reached Paris. The Pope declines the proposition to confine within an exclusive political compass a question which, as it concerns the integrity of the patrimony of St. Peter, is intimately bound up with the independence of the church. Although decidedly rejecting the proposition to create a Vicariate of Romagna in favor of the former sovereigns, his holiness shows himself disposed to enter into the path of reform, on condition that the integrity of the States of the Church is guarantied.

The Paris correspondent of the London Post writes:

The French government, I have every reason to believe, has sent a telegraphic dispatch to the French army in Italy, requesting the commander-in-chief to be ready to evacuate Italy within twenty hours, and yet I do not believe the Emperor will withdraw the troops, even if the people of Central Italy vote for annexation.

The same authority asserts that the foreign relations of France were silently undergoing a great change, and Austrian influences were in the ascendant.

YORK—The election of Town Officers took place on Monday, the 26th inst. The greatest number of votes cast was 456—Republican 192, Democratic 254,—the Democratic majority being 62. The Democrats elected their full ticket with the exception of Alexander Dennett, an Auditor. The following were elected:

Moderator—Charles Came—majority 64.
Town Clerk—Washington Junkins—majority 62.
Selectmen—Charles Came, Samuel Norton, Edmund N. Goodwin—maj. 62.
Treasurer—George Bowden—maj. 79.
Town Agent—Timothy Young—maj. 69.
Supervisor of Schools—John A. Swett—maj. 55.
Overseers of the Poor—Nath'l Baker, R. H. Walker, John Brewster—maj. 55.
Auditors—George Freeman, James A. Braglon, Albert Young, Alexander Dennett (Rep.)—maj. 71.

☞ Judge Stump of Baltimore, whose absurd decisions have furnished so much amusement, has been removed from the bench by the governor, as the result of an address to that effect by the legislature.—The judge has issued a farewell address, in which he declares his only offence was drunkenness on the bench, and seems to think that a small matter.

All noble natures are hopeful. It is a remarkable fact that the purest people are the most charitable people. When a great sin occurs, when scandal arises in society, you do not find the purest people to have the most bitter words to say of it; but those that are more on a level with the same kind of sin are the most bitter. And when you come, for instance, to some noble minded, pure-hearted woman, you will be sure to find that the word of charity, the judgement of mercy, and the heart of pity rises above all other impulses.—*E. H. Chapin.*

☞ In Cincinnati, the other day, a girl took an infant out upon the sidewalk for an airing, and was thoughtlessly jumping and romping with it in her arms, when she slipped and fell to the pavement, with the child beneath her. The head of the infant came in contact with the curb-stone so hard as to fracture the skull. Death ensued within an hour.

☞ A new and beautiful building in Boston, the Mechanics' Hall, recently completed for the Massachusetts Charitable Mechanic Association, on the corner of Bedford and Chauncey streets, was dedicated on Tuesday evening, in the presence of a distinguished audience.

☞ The rebuilding of the Pemberton Mill at Lawrence has been contracted for. Mr. Caleb Crosby of Lowell is to do the brick work; and it is estimated that two millions of bricks will be used in the construction.

A REMARKABLE MAN.

"Who *are* you?" I inquired to-day
Of one who stopped me in the way—
In this Republic some non-resident.
"Who *am I?*" (so his answer ran),
"Sir, I am the distinguished man
The 'Herald' *hasn't* named for President!"

☞ The New York Evening Post says that Gen. Morris of the Home Journal, and Captain Bartlett, of Diamond Wedding celebrity, have not quarreled, as was reported.

Our republican friends go for men and not measures, since their *Peck* has proved so treacherous.—*Bath Times.*

We might pardon the ungrateful, if they would forget who are their enemies as speedily and completely as they often forget who were their friends.

Butter for some time past has ruled at low figures in Manchester as well as Boston. We notice this week firkins from St. Albans selling from 17 to 19 cents per pound—just such as used to go quick at 24. This is well for boarding house keepers, who for four years past have had a hard time. Cheese the past season has paid better than butter, and now sells at a fair profit for the producer.—*Manchester American.*

☞ Rev. John G. Adams, a native of Portsmouth, is understood to have accepted a call to be pastor of the Second Universalist Church in Providence, R. I. He has been at Worcester several years.

The members of the Hollis Street Society assembled at Nassau Hall, Boston, on Tuesday evening, for the purpose of taking leave of Rev. T. Starr King, whose departure for California it set down for the 5th of April. The Society has presented Mr. King with $2000, which he has accepted.—*Trav.*

MARRIED.

In Exeter, Mr. S. B. Tarlton of Hampton, to Miss Ari E. Smith, of Exeter.

DIED.

In this city, on Wednesday morning, March 28, LUCY, aged 3 months and 17 days, only daughter of J. P. and F. M. BARTLETT.

In this city, Mrs. Palmer, aged 50, wife of Thos. Palmer, a native of Ireland.

In this city, March 26, Elizabeth F. Tobey, aged 4 years.

In Rye, March 23d, Mrs. SALLY MARDEN, aged 71, wife of the late Samuel Marden.

HENRY F. GERRISH,
5 Daniel Street.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."
BETSEY SANBORN.
Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 13 Cabot St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiturumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething,which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters.
There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, bitters, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Dispatch.*
Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.
The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.
For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.
In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.
Subjoined are a few tributes from well-known physicians:
MANSFIELD, TIOGA CO., PA., Aug 26, 1858.
I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs.
F. H. WHITE, M. D.
AUBURN, N. Y., Sept. 6, 1858.
Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters,and in this disease I always recommend it.
H. G. FOWLER.
BURLINGTON, VT., Nov. 12, 1854.
Gentlemen,—I am happy to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.
Yours, &c., JAMES LEWIS, M. D.
Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. eynot 4wd&w

Boils.
These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.
Letter from Rev. Richard S. Edes.
BOLTON, MASS., June 1, 1859.
Messrs. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1856, a carbuncle, which unfitted me for duty for more than one or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and tried the various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings had my system been in its former diseased condition.
I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.
Respectfully yours, RICHARD S. EDES.

JOB AND CARD PRINTING
PROMPTLY EXECUTED
At the Portsmouth Chronicle Office.
Anything from good sized Posters, Bill Heads, Circulars, &c., to the smallest Label

Local.

☞ In the Police Court—before Justice Odell,—Eliphalet Wise plead guilty to the charge of being drunk; and paid a fine of $3, and costs $2.92.

James Danovan was arrested for assault on one Wm. Walker; plea not guilty.—Proved guilty;—and paid $5 fine, and costs $6.68.

Michael Crowley, charged with being a common drunkard; plead not guilty.—Found guilty; sent to the House of Correction for thirty days. Costs $3.36.

SCHOOL DISTRICT MEETINGS.—The annual election of School Committee in District No. 1, will take place at the Ward Room, in Elm street, on Friday evening, March 30th, at half-past 7 o'clock.

In No. 3, on same evening, at 7 o'clock, in the school room in the old South Meeting-House.

☞ The annual meeting of School District No. 2, was held on Wednesday afternoon, in the old brick school house on State street. The following gentlemen were elected as the Committee for the year ensuing:

Robert O. Treadwell, Lyman D. Spalding, Adoniram J. Patterson, Nathan F. Mathes, Joseph M. Edmonds, Andrew Sherburne, Samuel H. Goodall.

The treasurer's report was read and accepted; and it was voted that the committee endeavor to secure a concert of action with the other districts, in relation to the books used in the schools.

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

☞ The conflict between Russian snows and French fires, is to be symbolized again this evening, at the Temple, by the exhibition of the "Burning of Moscow."

☞ The New Hampshire "Governor's Horse Guards" are attracting much notice, and exciting high expectations, on all hands. Portsmouth and vicinity ought to send a long list of recruits. Let old military men who are interested, and can afford it, but don't care to mount themselves, furnish each a uniform for suitable members, whose years and purse are less.

☞ An advertisement of Prince & Co.'s celebrated Melodeons will be found on our fourth page. C. C. Harvey is agent, and has sold a large number of their instruments—which always prove as recommended.

☞ See auction column for a chance to buy a good large House cheap, to-day.

☞ We are requested to state that Mr. Lamprey will commence the Spring Term of his Juvenile Dancing Academy, at Irving Hall, on the third Wednesday afternoon in April.

Included in the Presidential election of this year, and not an unimportant item, when we regard some of their recent law discussions, is the question of appointing Judges for the Supreme Court of the United States. The South have never lost sight of that bench, and they as well as the North see that several of the Judges must soon yield to increasing years and increasing labors. Chief Justice Taney, who has long been in ill health, is now 84 years old; and Judge Daniel, who is much broken in constitution, is about 75. We think Judge McLean, though in vigorous health, on whose dockets at the present time are no less than 2700 cases, and who performs more labor than both the above named, is older than Judge Daniel. Five years will be likely to see all their seats vacant, and probably others. It is not impossible, if the Republicans should carry the election in November, that Judges Taney and Daniel to secure successors of the same views with themselves, may resign.—*Newburyport Her.*

True it is not *impossible* they should resign; but it is quite *improbable*. A man who was put upon the bench as a reward for a piece of mercenary pettifogging, will hardly resign for such a motive as the choice of a successor.

FUGITIVE SLAVE CASE.—*Philadelphia, March* 27.—A young negro named Moses Horner was brought here last night from Harrisburg on a charge of being a fugitive slave. He is claimed by Charles C. Butler of Virginia. The case was before Judge Cadwallader, this morning, but at the request of the fugitive's counsel, it was postponed until the afternoon of the 27th, when Geo. H. Earle, counsel for the prisoner, objected to the transcript of proceedings of the Jefferson county court, the name of the prisoner being spelled in various ways, and there being numerous alterations and erasures. The counsel for the owners produced evidence proving the identity of the slave, after which the hearing adjourned till morning.

A DECIDEDLY SWEET TIME.—The strikers of Lynn, male and female, had a large gathering at Rock Pasture Monday afternoon for the purpose of making candy. The collection of people enjoyed themselves not only in working the boiled molasses into fantastic shapes, but in various sports, and had generally a good time. This is a decided improvement upon the former methods of spending time by the strikers.

TEXAS TROUBLES.—Brownsville advices of the 23d state that two companies of Rangers, under Col. Ford, and two companies of federal cavalry, under Capt. Stevens, crossed the Rio Grande into Mexico March 16, in search of Cortinas, who had returned to the frontier. The troops approached the encampment by night, drove in the pickets and took 30 prisoners, who claimed to belong to a large body of National Guards.—They also went in search of Cortinas next morning, when a large Mexican force appeared and claimed the prisoners as their rear guard. It was afterwards ascertained that these forces had been watching the Americans, and that Cortinas was with them, but escaped at the first alarm. The American troops remained encamped on the Mexican side of the river, above Brownsville, determined to capture Cortinas. Major Heintzelman had sent a reinforcement of two companies of artillery to them. Three thousand of the Church party's troops were expected on the Rio Grande. It was reported that Gen. Garcia had invited Americans into Mexico.

CONGRESS.

SENATE, March 25th.

Mr. Slidell introduced a bill for laying tonnage duties by States bordering on the Mississippi river, for the improvement thereof.

Mr. Johnson of, Tenn., rose to a personal explanation. He had seen in the New York Herald a report of a speech made by the Senator from New Hampshire, Mr. Clark, at Dover, on the 7th of March, in which reference had been made to his State and himself.

Mr. Clark positively declined to give any explanation in the Senate.

Mr. Johnson would then assume that the report was correct, and answer it accordingly.

Mr. Clark said that when the proper time arrived, he would take occasion to state what he did say in his speech, and when he did, he would say nothing in disparagement of Tennessee, or dispute the fact that she made more horses, asses or mules than New Hampshire.

The bill to increase and regulate the pay of the Navy Officers was considered.

Mr. Fessenden, offered a substitute, mainly giving lower salaries, but increasing some of those of the lower grades.

Mr. Crittenden offered an amendment to the original bill, to increase the pay of Midshipmen. Agreed to.

Mr. Slidell offered an amendment that no vacancies in the Chaplaincy shall be filled hereafter. Lost—yeas 15, nays 23. Adjourned.

HOUSE.—The House concurred in the Senate amendment to the bill fulfilling the treaty stipulations with the Indians of Oregon and Washington; and then proceeded to the consideration of the bill providing for the safety of passengers on steamboats.

The further consideration of the bill was postponed for two weeks.

The House went into Committee of the Whole, and took up the Army Bill.

Mr. Boteler moved to increase the appropriation for the National Armories to $400,000.

After a debate, without taking the question, the Committee rose, and the House adjourned.

THE VERA CRUZ DIFFICULTY.—*New Orleans, March* 26.—The prize steamers Miramon and Marquez, and the sloop-of-war Preble, are all anchored opposite the city. The Preble brings 120 prisoners, among whom are Commodore Marin and his two sons. The prize steamers bring 60 prisoners. The prisoners from the Marquez were taken to the Parish prison by the United States Marshal. The trial has been postponed.

The Mexican mail of the 15th is to hand. The Military Conference agreed upon the terms of an armistice, but the Juarez government disapproved of them because they did not sufficiently guarantee the constitution of 1857, which is the cardinal principle of said government. After three meetings the Conference was dissolved.

The garrison opened fire on the morning of the 15th, which was quickly returned from Miramon's battery, two shells bursting in the palace.

The French fleet was constantly communicating with Miramon, contrary to Juarez's orders.

Steamship Arizona is below, from Arizona, 24th inst., with $140,000 in specie.

A FINE THOUGHT.—A French writer has said that "to dream gloriously, you must act gloriously while you are awake; and to bring angels down to converse with you in your sleep, you must labor in the cause of virtue during the day.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, nor however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

A new style of FLOOR, SCRUB & WINDOW BRUSHES—very durable.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the favor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.

Ladies' Home Magazine.

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S

PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

Also, a good assortment of GENTS' FURNISHING GOODS.

J. E. HAM & CO.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS tending to CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops*, and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING, DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has *no equal*—being an antispasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL, this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst. has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had not objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. About five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling on the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color, or even close to it. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to my hair; hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to try both by my example, and use it if growing gray or getting bald. Very Respectfully,

BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Siamaston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by using a few bottles of your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing it in your papers you will get more patronage south. I send several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and I would can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes: large, medium, and small; the small should halt a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, and retails for one dollar per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancer, Scrofula, Scrofula Tumors, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its forms, phases and species, Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the lungs. Price of small bottles, 38 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough, for which I would advise all who have a visit from that distressing complaint, to use it freely. MARY N. RICKER.

"I know the above testimony to be true, in regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found nothing to do me so much good. Swett's Drops,than from all other medicines put together, though I have tried many. FANNY MINER.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I have found nothing so well adapted to all such affected, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable remedy. I have myself received great relief so quick. Let every suffering preacher take a phial and try it. Ed. EDWIN BURNHAM.

EXETER, July 30, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs, and for any other complaint of the Lungs, of any medicines with which I am acquainted. NANCY F. JONES.

CANAAN, Aug 29, 1850. "This certifies that we have found great relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together

TIMOTHY CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whether be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the real curse of the race, and visits the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercle; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must purify the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times has given to the world, superseding prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIVE AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TIC DOLOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from impurity or vitiated BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular fitness and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within their reach, or their action can rarely withstand or evade them. Their penetrating properties search and cleanse, not the blood only, but every other vital organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of purging from them, those who before were down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so agreeable and gentle.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Worms, Gravel, Palpitation and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the Blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cures of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate to bestow undote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. Hence, in localities where medicines thru t upon the community have failed and been discarded, this has gained friends by every trial, confirming its claims to confidence that can never forget, and produced cures too numerous and too remarkable to be forgotten.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, UNDER DATE OF 1857.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries; procures Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Advice as to the patentability of any foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice relative to the business appertaining to the office of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, not possessed by if not immeasurably superio to, any which can be offered them elsewhere. The testimonials below given are from those who have tested the skill of THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVERTISING, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents, rejections, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, rendering it in his power, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and the one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to secure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have of any other medicine, never been able to say FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who tried it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magic virtues. We speak *what we do know,* after ten years of *our reputation for the fulfilment of what we advertise,* and recommendation of its merits. We speak in New England and *never-failing success,* in the child from pain, but and bowels, corrects, and energy to the whole system. It will almost instantly relieve BOWELS, AND COLIC, which, if not in death. We believe REMEDY IN THE WORLD THAT AND DIARRHEA IN CHILDREN, whether it arises any other cause. We mothers who have used the foregoing complaints, *experience, or the experience of others,* stand between your suffering will be SURE—yes, to follow the use of TEY AND DIARRHEA IN CHILDREN each bottle. None genuine of CURTIS & PERKINS on the outside wrapper throughout the world. 13 Cedar st. New York *per bottle.*

GRIPING IN THE WIND and overcome convul speedily remedied, end it the best and surest in all cases of DYSENTERY AND DIARRHEA IN CHILDREN from teething, or from cause. We would say to every suffering from any offer *Do not let your own prejudices of others,* stand between your child and the relief that ABSOLUTELY SURE this medicine, if timely used. In using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York *Price only 25 cents per bottle.*

" "	one week,	12.
Half Column, in Daily, per year,		$80.
" "	six months,	50.
" "	three months,	30.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., must be duly authenticated, and authorized by responsible parties, or they will not be inserted in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterwards "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter, or within the door, if left at the door. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessarily left outside, to be laid out of the way of the rain.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but we have been convinced that they are complied with, and that any loss or results from lack of a suitable place to protect or secure the paper, or from small consumer not continued when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

JOB AND CARD PRINTING

PROMPTLY EXECUTED

At the Portsmouth Chronicle Office.

Anything from good sized Posters, Bill Heads, Circulars, &c., to the smallest Label.

Our facilities for Card Printing are excellent.—Business, Wedding or Visiting Cards, furnished, and PRINTED or ENGRAVED, in the best manner, at the shortest notice. Envelopes furnished, and stamped if desired.

☞ **S. R. Niles,** (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by the Proprietors.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

Morning Chronicle.

☞ The New York Tribune states that Mr. Wigfall of Texas derived the inspiration of his last harangue from liquor.

☞ A meeting has been called in Steilacom, Oregon, to consult about the best means of getting an importation of young women from the Atlantic States. The call was signed by ninety-five bachelors.

Those men talk most who are in the greatest mental darkness. Frogs cease their croaking when light is brought to the water.

STRAWBERRIES.—Cultivators of this delicious fruit (and all who have a garden should raise at least enough for family use) are referred to the advertisement of Hooker & Co., who offer for sale five new varieties.

FIVE
SPLENDID STRAWBERRIES.

HOOKER—Very productive; large, beautiful, and of UNEQUALED QUALITY.
Wilson's A bany—Exceedingly productive; FINE FOR MARKET.
Triomphe de Gand—IMMENSE SIZE:—splendid appearance, and high flavor.
Pyramidal Chilian—very handsome; productive, hardy, and good flavor.
Large Early Scarlet—THE EARLIEST; productive and excellent.

As it is impossible to secure all the excellencies of this most popular fruit in one variety, we offer the above, as comprising, in five sorts, the various points desirable.

We again confidently RECOMMEND the HOOKER, as by far the best for family use, if only one sort is to be planted—combining a greater number of excellencies than any other variety.

☞ All of the above have perfect flowers, and will produce excellent crops, if planted singly or together.

PRICES—(Securely packed to be forwarded by express.)
Per 100 plants of any of the above varieties, $2,00
" 100 " 20 of each variety, 3,00
" 500 " 100 of each variety, 7,50
" 1000 " of the Hooker, 10,00

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.
Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability—the Hon Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.
In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated
If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. I have been in the business for fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.
Patronize your own.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No 37 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN:
Consumption in the first stage, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Inflammation of the Kidneys, and kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1856.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, Jr.

FRIDAY, MARCH 30, 1860.

GREAT FIRE IN EXETER, &c.

EXETER, March 29.

Dear Chronicle:—On Wednesday night, this town was visited by the most destructive fire that has occurred for years. A little past eleven the alarm was given, when the grist Mill belonging to the Exeter Water Power Company, and situated in the rear of Goodwin's Apothecary Store, was found to be thoroughly on fire; as also an out-building connected; while the adjoining stores were beginning to burn.

The flames rapidly spread through to State street, destroying the stores occupied by Charles H. Goodwin; Mr. Coster, Draper and Tailor; Robert C. Thomson, Draper and Tailor; J. F. Ledbetter, Boots and Shoes; Wm. B. Murrill, Jewelry and Silver ware,—where the fire was arrested by almost superhuman exertions of the firemen.

South from where it started, it burnt the fine building of S. H. Piper & Co., Dry Goods; Fogg & Fellows, Periodical Depot; —and an old shanty, occupied by Oliver Lane, fishmarket, oysters and liquors—when it was arrested in this direction.

In addition to the above tenants, these buildings were occupied by T. E. Boutelle, Ambrotypist, who lost about all his apparatus, &c. This loss comes heavy on him, from the fact that he is a poor man, and had just fitted up his rooms; no insurance. Two small families lived in the old building connected with Fogg & Fellow's store. Mr. Wood also occupied the chambers over Mr. Piper's store, and probably saved his papers. Mr. Healey had a market under this store; his loss was large, and said not to be insured.

Mr. Wheeler had a Market under Coster's tailor's store. Fogg & Fellows were insured, but there is a report that the Company has failed—if so their loss, though not large, will be heavy on them, as they are young men with limited means. Mr. Ledbetter loses about half his stock, with no insurance. All the rest, I believe, are fully insured, as most of their goods were saved.

The buildings mostly belonged to two branches of the Gilman family, and were doubtless insured; and will probably be rebuilt on a better scale. They were all of wood, and very closely built. Too much credit cannot be given to our firemen; there are but three engines, and those not the largest or in the best order; yet the firemen of any place might be proud of having subdued such a fire within its limits, considering the combustible nature and nearness of other buildings.

The liquor shops are closed, and Exeter is a temperance place, where neither rum, ale or cider is sold, unless in the most secret manner. Dr. Johnson is firm in declaring that the first chance they give him, he will prosecute: and the fire incidentally developed, that the stock of some of the largest dealers had been removed for fear of search warrants. The account I gave you of a new shop being opened proved untrue, as no such daring plan has been attempted. I had it from two distinct sources, both of which I considered reliable, and had no doubt of its correctness.

The fire cannot be supposed to have any connection with the temperance movement, as no one in the vicinity has any public connection with it; but it was undoubtedly incendiary.

The Spring term of the Academy commences next Wednesday. During the vacation a bust of President Burroughs has been placed in the institution.

Yours, truly, ALEXIS.

An Extra from the office of the Ballot says the property destroyed will amount to $20,000. Charles H. Goodwin, of "Grand Greasjuice" notoriety is probably the most serious loser by the fire—$4000 loss; $1000 insurance.

EXETER TEMPERANCE MOVEMENT.—Our liquor-dealers generally closed the traffic last Saturday night, in compliance with the notice that they would be prosecuted unless they did so. The trade, however, was very lively on Saturday, when innumerable bottles, jugs and demijohns were filled by those fearing a dry season. Many filled their stomachs too, and not a few got some in their heads, there being more drunkenness in town that evening than has been witnessed for a long time. We believe there is now no place in town where the ardent or even beer is publicly sold—the ale venders as well as the dealers in stronger liquors being threatened if their sales are continued.—*Ballot.*

REMARKABLE DISCOVERY OF SPECIE. A Hanover correspondent of the Abington Standard says:—

"Remarkable discoveries have been made in the dwelling of Mrs. Hannah, Robbins, since her decease. A tin pail filled with silver was found under her bed, and a kettle full of specie was also discovered.—Some of it was mouldy and dusty with age, evidently having been undisturbed for years. The amount of specie thus discovered is $1600. In addition to this, a thorough examination of the premises has brought to light a quantity of the old continental money, laid down in tobacco leaves. As this is of no value, it was not counted. All her property goes to a grandchild—the only survivor of a once numerous family."

IMMENSE CHARITABLE BEQUEST.—We learn from the Charleston Courier that Mr. Wm. Euston of that city, who died suddenly on Friday, of disease of the heart, has left a will, by which, after the death of his wife, his whole estate, estimated at from two to five millions of dollars, is given in trust to the city of Charleston for the establishment and support of a retreat for aged indigent persons. No lunatics are to be admitted to it. The city of Charleston must furnish not less than eight acres of ground for the erection of cottages for the accommodation of the inmates, each cottage to have a small garden. The widow of Mr. Euston is to receive the whole income of the estate during her lifetime, with the exception of some liberal bequests and annuities to his brothers and their families, which are to be derived from the income; but the widow's income must not be reduced below $10,000 a year.

Mr. Euston was 52 years of age, and a native of Canterbury, England. After learning the cabinet maker's business he came to this country and established himself at Philadelphia, but subsequently removed to Charleston, where he was very successful in the furniture business and in his investments. He owned largely in Cincinnati, Chicago, and other Western cities, as well as in Charleston.

☞ In the Supreme Judicial Court in Portland, Me., John Shaw, for keeping a disorderly house, was fined $20, costs $44,65; and for want thereof, was committed.

Timothy McCarthy, for a similar offence, $20 fine; costs, $43,41. Committed.

Ephraim Gammon—keeping a gambling house, fined $30; costs; $24,53. Paid.

Thomas McDonough—search and seizure—fined $20; costs $31,46. Paid.

Frank Murphy, a common seller, paid his fine and costs, amounting in the aggregate to $112,35.

Charles B. Paine—a common seller—paid fine and costs, amounting to $124,28.

Silas Hall for the same offence—fined $100 and costs, and in default was committed to the County Jail for three months.

James Dunphy, convicted of keeping a tippling shop, paid his fine of $29,49, including costs.

Not quite a dead letter, there.

MATRIMONY UNDER DIFFICULTIES.—The New Bedford Mercury relates a remarkable case in which a sailor in that city met a beautiful of eighteen, a sweetheart of his school-boy days, and who had come on from the West to marry him at New Bedford:

They were married by Elder Moses Howe, but provision for the future had been wholly overlooked. Neither of the parties had a single dollar. The wife had expended her last cent for travelling expenses, and the husband's finances were in an equally deplorable state. Night came, and they were without "bed and board."—They called at the Central Station house and asked permission to stay for the night. Their request was granted, but they were informed that agreeably to the police regulations they must remain separate. This they emphatically refused to accede to, and during the night they were discovered by a watchman, having made harbor under the lee of barn. They were conveyed to the station-house, and were there kindly provided with lodgings for the night, but were cruelly separated, according to the rigid rules of the watch-house. Here they remained, and the next morning (Sunday) they started on foot for Fall River—the sailor having borrowed twenty-five cents of his old landlord for the journey.

A FISHERY ITEM.—Perley, the reliable Washington correspondent of the Boston Journal, says under date of 24th,—

The House passed a bill, giving to Moses Noble, agent for the brig Good Hope, and the schooners Delta, Jasper, Five Sisters, Sardine, Commonwealth, and Two Brothers, for the benefit of the persons entitled thereto, the sum of $1704 68. It appears that Mr. Noble, as the agent of these fishing vessels, engaged skippers for the fishing season, and caused each of the masters to make an agreement with every fisherman employed in each of the vessels, in accordance with the act of Congress. Under the law, the owners of the vessel became entitled to be paid by the collector of the district of Portsmouth, N. H., out of any money of the United States, appropriated for such purposes, the sum of $1074 68. The payment, however, was refused by the collector on the ground that no log book of the voyage was furnished him; but the Secretary of the Treasury, to whom an appeal had been taken, refused the allowance on account of a slight informality in the instrument of agreement with the fishermen.—The Court of Claims decided that the agreement with the fishermen was a substantial compliance with the act of Congress of June 19, 1813, and reported the bill for the relief of the claimant. The Committee of Claims concurred with the Court of Claims; and its Chairman, Hon. Mason W. Tappan, "engineered" the bill through the House with his usual ability.

☞ One of the den of thieves lately dug into in and near Manchester, viz., Stephen L. Emery, has been arraigned at Manchester for concealing in Londonderry, Rockingham County, on the 20th of March 1860, sundry pieces of brocade silk, &c., the property of Otis Barton & Co. After due examination and a plea by his counsel, the Court held the respondent in the sum of $500 to answer at the Exeter term. The American says:—"He will not be able to get bonds:" and yet he finds able counsel to defend him.

CONGRESS.

WEDNESDAY, March 28.

SENATE.—The joint resolution making Macon, Ga., a port of entry, was passed.

The bill to increase and regulate the pay of officers in the Navy, was taken up, the question being on Mr. Fessenden's substitute. The substitute was amended, and then rejected—20 to 29.

Other amendments were proposed and rejected, and the original bill as amended finally passed.

The HOUSE resumed the consideration of the bill reported from the Committee on the Judiciary, suppressing polygamy in the Territories of the United States.

Mr. Branch proposed to strike out all declaring polygamy criminal, and retaining only so much as annuls and declares void all the laws of Utah sanctioning and permitting polygamy. He suggested to his Democratic friends that, if they could render polygamy criminal, they could render that twin relic of barbarism *slavery*, as it is called in the Black Republican platform of 1856, criminal. He repeated that he could not vote for the provision to make penal laws applicable to all the Territories of the United States.

Mr. Clark of Mo. said the Committee on Territories are contemplating the propriety of parcelling out that Territory to the other Territories, so that the people of the latter may have power to suppress polygamy and other enormities.

Mr. Branch thought these Territories would not have sufficient population thus to control the subject. Whenever the people of a Territory show themselves unfit for self-government, he would take from them all control of their affairs. It was useless to dabble in dirty water below the spring head. They should repeal all laws revolting to the moral sense of the country.

Mr. Nelson, who introduced the bill, was desirous that a vote be taken to-day.

Mr. Barr moved to lay the bill on the table. Negatived—19 to 148.

Mr. Logan proposed a substitute, to repeal the law establishing the territorial government of Utah.

The House then passed to the consideration of other business, without further action on the bill.

Mr. Gurley, from the Committee on Printing, reported a resolution, which was adopted, in favor of the printing of 5000 extra copies of the report on our commercial relations, and also of the last volume of the survey for a Pacific Railroad by Gov. Stevens, containing the Northern route.

Mr. Sherman reported a bill making further appropriations for services in the Post Office department.

Mr. Colfax, from the Post Office Committee, moved to amend the Senate amendment to the bill authorizing publishers to print on their papers the date when subscriptions expire, so as to strike out the new section added by the Senate, and insert that hereafter the total charge for the receipt and delivery by carriers of drop letters in the cities and towns, shall be but one cent.—Adopted.

The House went into Committee on the army appropriation bill.

After a debate, Mr. Boteler's amendment to increase the appropriation for the armories from $250,000 to $400,000, was rejected—47 to 71.

The Committee rose, and reported the bill to the House, with an amendment. Adj.

WASHINGTON, Mar. 28.—The General Appropriation bill makes the following provisons:—

Pensions	$849,000
Military Academy	180,000
Indians	1,907,000
Consular and Diplomatic Expenses	1,082,000
Fortifications	605,000
Army	13,984,000
Legislative, Executive and Judiciary Expenses	5,870,000
Sundry Civil Expenses	3,491,000
Navy	11,182,000
Deficiency in Post Office Department nearly	6,000,000
Total	$45,140,000

or a net reduction by the Committee on Ways and Means of $1,189,000 from the Secretary of the Treasury's estimates.—The appropriations estimated for the service of the fiscal year ending with June, 1861, made by former acts of Congress of a specific and definite character, amount to upwards of $8,174,000, making, with the above total, nearly $53,314,000 for the service of the next fiscal year. The largest reduction by the Committee was $640,000 from the army estimates.

☞ We are very much obliged to our Exeter friend "Alexis," for his interesting correspondence respecting the Temperance movement, the Fire, &c. Anything from his pen is always acceptable. We are sorry to see our old friend Boutelle set down among the sufferers by the conflagration.

☞ A Newburyport gentlemen who had become convinced that winter bathing was essential to health and longevity, tried the experiment about a week ago in the Merrimac river, and has been confined to his domicil ever since in consequence.

☞ The Executive Committee of the American Colonization Society have appropriated ten thousand dollars to aid such free colored persons as have been expelled from Arkansas, or others in depressed circumstances, who may desire to find a home in Liberia.

STRAWBERRIES.—Cultivators of this delicious fruit (and all who have a garden should raise at least enough for family use) are referred to the advertisement of Hooker & Co., who offer for sale five new varieties.

☞ Bishop Haight of Cedar City, Utah, on whom suspicion rested as being concerned in the Mountain Meadow massacre, poisoned himself about the first of February, says a Salt Lake letter.

UNDER THE LEAVES.

BY ALBERT LAIGHTON.

Oft have I walked these woodland paths,
Without the blest fore-knowing
That underneath the withered leaves
The fairest buds were growing.

To-day the South wind sweeps away
The types of Autumn's splendor,
And shows the sweet Arbutus flowers—
Spring's children, pure and tender.

O prophet souls, with lips of bloom
Outveiling in their beauty
The pearly tints of ocean shells—
Ye teach me faith and duty.

Walk life's dark ways, ye seem to say,
With Love's divine fore-knowing
That where man sees but withered leaves,
God sees the sweet flowers growing.

—*Ballot.*

☞ One of the most interesting little books (a twenty-five cent pamphlet only) that we have seen for many a day, has just been put in our hands by the author of it, Mr. J. B. Green, the celebrated Sub-Marine Diver, who has seen more of the bottom of the sea and lakes than any other man living—and who knows and can tell more about swimming and diving.

Mr. Green, as the public may know, was severely paralyzed in his attempt to raise the safe of the steamer Atlantic, wrecked on Lake Erie, and is still an invalid.

He is now in this city for the purpose of selling copies of his book, his only means of living. The purchaser may rest assured, however, that he will get the worth of his money in real information on diving, with and without armor, swimming, &c.,—besides the reading of a very interesting narrative of peril, hardship and deliverance.

☞ Rembrandt Peale has so far recovered from his last illness, which confined him in Stonington, Conn., as to be able to return to his home in Philadelphia. Mr. Peale is now in his 83d year, and is commencing another copy of his celebrated portrait of Washington, the original having been painted from life in 1795. Mr. Peale attributes, in a great measure, the preservation of his life during his late severe illness, to the kindness of the citizens of Stonington, who, during his stay there, loaded him with every attention and civility. The most refined and prominent people of the city visited him, sat up with him, and sent him delicacies and presents. When able to leave, sixteen men of wealth and position formed themselves into an escort, and, on their shoulders, carried Mr. Peale, in an easy chair, from his room to the depot—four of them conveying the venerable painter by turns, their companions alternating with them in the self-imposed task. This reminds one of the honors paid to Titian in his old age, centuries ago.

FUGITIVE SLAVE CASE.—*Philadelphia, March* 20.—The case of the fugitive slave, Moses Homer, was before the U. S. District Court to-day, and Judge Cadwallader gave his decision for the return of the slave to his master, Charles T. Butler of Virginia.

Great excitement prevailed in the vicinity of the Court House, on the announcement of the Judge's decision.

A large crowd, chiefly composed of negroes, assembled, and, on the fugitive being taken to a carriage, they surrounded it, and made a desperate attempt at a rescue. The carriage was broken down, when the police interfered, and arrested twelve of the rescuers. The fugitive was then escorted to prison.

A writ of habeas corpus, returnable to Judge Allison to-morrow morning, has been served on Marshal Yost.

LATER.—Ten of the rescuers have been committed to prison by the city authorities, viz: nine negroes and one white man.

The United States has sent in a writ of retainer. In the meantime the fugitive awaits the action of the State Court on the writ of habeas corpus.

It is not yet determined whether the fugitive will be sent to Virginia, in defiance of the writ, which is issued by the State Court. The Marshal intends consulting counsel about the matter. A former Marshal was imprisoned several days for refusing to obey a similar mandate. It is understood that Judge Ludlow, the colleague of Judge Allison, refused to grant the writ.

In the attempted rescue, with the exception of the negroes and a few whites, there seemed to be a general disposition to assist the officers. The rescuers were in a large minority.

Judge Allison has granted the writ of habeas corpus.

FIRE.—*New York, Mar.* 28.—At a fire this morning in 45th street, beside the loss of 10 lives, several persons were badly injured. A sister of Mrs. Bennett jumped from a window in the 4th story into the yard, breaking a thigh. She is also badly burnt, and, it is feared will die. Six children were rescued from the upper stories by the firemen. Nine bodies have been taken from the ruins. It was a tenement house, with but one flight of stairs—under which the fire was kindled by an incendiary, as is supposed.

☞ Two boys were picked up in the street in New York, on Sunday afternoon, who were sick and nearly insensible from intoxication. They stated that they had been coaxed into a groggery, where liquor was given them. They were taken to the hospital. One of them, it is thought, cannot recover.

"Thunders of applause," says an exchange, were elicited in the Pennsyvania Convention by an allusion to Mr. Breckinridge for the Presidency. "Thunders of applause," may be got off by a thundering small company. We have known the thing done by one dog, one postmaster, two boys and three keepers of rum shops.—*Atlas.*

SHIP BUILDING ON THE PISCATAQUA. We are glad to learn that there is a prospect for considerable ship-work here this season. Messrs. Tobey & Littlefield at Noble's Island, have a Ship nearly completed; which is sold to a company of Boston gentlemen, and will be launched in a few weeks. We understand these enterprising builders will then at once lay the keel for another Ship.

Messrs. John Neal and others are to commence a ship, at the old Badger yard, early in April.

Mr. Wm. Fernald, of Newburyport, has laid the keel for a Bark, at the Raynes yard.

Messrs. Snow & Badger have a fine Schooner nearly completed, at the yard of Marcy & Pettigrew. She is 135 tons, of beautiful model, and in every respect a superior vessel. We have not her dimensions; but that model can't fail to sail like a witch, and her breadth of beam gives her large carrying capacity. She is built entirely of the very best New Hampshire white oak—the timbers, [beams, planking, sealing, rails, hatch-ways,—and all, save the deck, which is of the best white pine, and as heavy as a ship's. Her fastenings are of copper. She is heavily spiked and bolted; and the stock and workmanship is excellent throughout. She is for sale, and eminently worthy the attention of connoisseurs, or purchasers wanting such a vessel. She will rank as extra A No. 1; and need not fear comparison or competition with any vessel of her size.

Messrs. Daniel Humphreys and others are finishing a Yacht on New Castle street, near the Bridge.

SCHOOL DISTRICT MEETINGS.—The anual election of School Committee in District No. 1, will take place at the Ward Room, in Elm street, on Friday evening, March 30th, at half-past 7 o'clock.

In No. 3, on same evening, at 7 o'clock, in the school room in the old South Meeting-House.

☞ At a School Meeting in the Lafayette Road School-house, on Monday evening, the inhabitants of that part of District No. 3 nominated Obadiah Stoddard and John Marden, as members of the School Committee to be elected this evening.

☞ The Republicans of North Hampton, with their wives and children, had a cheerful and jubilant party on Wednesday evening of last week, in token of their joy at the result of the election.

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

—ON—

FAST NIGHT, Thursday, April 12th.

TICKETS $1, admitting a Gentleman and Ladies

MUSIC, by the Full Quadrille Band.

Dancing to commence at 8 o'clock.

Refreshments served in the large Reception Room. SAMUEL LAMPREY.

Portsmouth, March 29, 1860.

GRASS SEED.

150 Bushels HERDS GRASS, CLOVER and RED TOP SEED, for sale by HENRY F. GERRISH, 5 Daniel Street.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SARGENT.

Kensington, Sept. 25, 1858.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMON SWETT, PORTSMOUTH, N. H., No. 13 Cabot st. for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful as true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior Daguerreotypes are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (photo) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiornamnos.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters

There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, cathartics, toulcs, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and a non-vigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters."—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. R. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. F. Packer, Greenland; and dealers everywhere. sprot 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOSTON, MASS., June 1, 1859.

Messrs. N. L. Clark & Co.—GENTLEMEN:—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. The boils to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously tried myself all the things to which I had recourse to, and had tried various scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to my person, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

JOHN WALKER,

mar 29 SHEAFS WHARF, WATER ST.

CITY COUNCIL, THURSDAY EVE.

IN BOARD OF ALDERMEN, March 15th, information was received that the rent of City Rooms will be increased $50 per year, after July 1st. The present rent is $250, and taxes remitted on whole building, about $75 more—total $325. Voted *not* to pay the increase, and to appoint a committee to examine Court House with reference to providing accommodation for City Officers there.

March 28th.—Voted to accept Lyme Street; running from Islington to McDonough street. This is, in fact, a continuation of Cabot staeet; and should, and no doubt will bear that name.

The Aldermen voted to recede from their non-concurrence with the Common Council, to refer the subject of putting water into Engine Houses, to joint special committee; and to concur in said reference.

Petition of Granite State Engine Co. No. 1, to enlarge their House, with accompanying plan was ref. to Com. on Fire Dep.

Petition of J. P. Lyman and others, for new side-walk at Merchant's Row, granted.

Do. of S. Treat, for sidewalk corner of Russell & Vaughan sts., referred to com.

John A. Hammond and A. J. Hill, Police officers resigned.

Remonstrance of A. W. Haven and others, against changing name of Islington St., ref. to com.

IN COMMON COUNCIL, the following draft of an Appropriation Bill, was received from joint Com. on Finance and partially acted upon.

State Tax,		$3 599 40
County Tax		7.508 33
Interest on City Debt		4.000
Support of Poor	$3.100

Cas. of St. School fence		290
City Debt		3000
Collector's Commission		625
		$52,408.41

The joint committee on the subject of building gates to keep water in Puddle Dock, for a reservoir. reported that Messrs. Vaughan, Odion, Philbrick, and others, whose premises abut on the Dock, object to the gates, and would claim at least $200 damages—for which the committee think the city would be liable. They therefore report it inexpedient,—which report was adopted.

The com. on Elections, who were authorized to procure legal advice as to the jurisdiction of the Com. Council over the *qualications* of members—reported W. H. Y. Hackett, Esq. advised that any appointment of members of City Council to "offices of emolument," would be illegal and consequently void—that no member can hold such office, because he is legally ineligible and incapable of being appointed.

The President stated, per request, as the result of legal investigation—that the resignation of a member must be acted on by the Board, before his seat could be declared vacant, or a new election could be held.—Consequently, no such action having been taken, the members who have resigned, (Messrs. Folsom and Rider) are yet entitled to their seats, and liable to be called upon to perform duty as members of the Board.

A resolution was adopted, that a committee of three be appointed, to consider the building of a reservoir on or near Haymarket Square; and report next meeting.

☞ The Concord & Portsmouth Railroad has declared a dividend of three per cent., payable April 2. The Spring arrangement will commence on this road next week, two trains each way, per day.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—to the seed despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N.Y.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.
Ladies' Home Magazine.

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I will do it to you cheerfully, because I think it is due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it begins to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling of arrested, but the color was restored to the gray hair, sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and not let it growing gray or getting bald.

Very Respectfully,
BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Slamatco, Ala., July 23th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," they will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,
WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds fifty per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Sold by all good Druggists.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Benne;—a remedy for Costiveness, for the liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the 30 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use it freely. MARY N. RICKER.

I know the above testimony of my wife with regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this card to say to them, and to all others affected, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable remedy. I have found nothing that gives relief so quick. Let every suffering preacher take a phial and try it. REV. EDWARD STRAND.

EXETER, July 20, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs, and for any other complaints of the Lungs, of any medicines with which I am acquainted. NABOT P. JOHN.

CANAAN, Aug 29, 1846. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together.
THEOPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may appear on the surface on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the law of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercle; in the bones, swellings and white surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions are only safer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently such constitutions are by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; therefore we have invented a powerful purifying infusion, and their health is undermined by it. To cleanse it from the system we must renovate the blood by using powerful medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and most malefic of all diseases. Combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, ERYSIPELAS, ERYSIPELATOUS INFLAMMATIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ENTOMBED LIMBS OR SPINE, ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "Scurvy for the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand their influence. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, purging out disease and its alarming train of disorders, which, if allowed to fasten upon the vitals, are fearfully aggravated by the presence of these properties, the invalid who is bowed down with pain, and groaning on the bed of languishing, finds his health or comfort restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Foul Stomach, Erysipelas, Headache, Dysentery, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, incipient CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its operations and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is so apparent to excape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the discouraging and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec26 6m d&w

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent U. S. Patent Office, Washington, 8 years the chief of 1857.

76 STATE, OPPOSITE KILBY ST. BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and opinions given and rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for procuring patents, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Late Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such numbers are proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and the very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1860. R. H. EDDY.

Ayer's Sarsaparilla.

" "	one week,	10
Half Column, in Daily, per year,		$80.
" "	six months,	50.
" "	three months,	30.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns, 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion; per Square, double the rates of other advertising.

Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS.

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, unobjectionable in appearance and authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterwards "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and also relieve our carriers from the severe and unjust imposition of the loss of our papers.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter or shelves, within the store. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessary left out, the bell to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ S. R. Niles, (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

THE BEWITCHING BEAUTY.

"I saw a glorious beauty in her face,
And with the fairest form of woman the air,
Sacred and sweet was all I saw in her."
—*Shakspeare.*

"The fire of her eyes dazzles the two worlds."
—*London Journal.*

THE BEWITCHING BEAUTY,

Which is embodied in the exquisite proportions and luminous coloring of

TITIAN'S RECLINING VENUS.

Has for two centuries been the admiration of all beholders. Artists, connoisseurs, and the public will therefore by glad to learn that a magnificent Engraving, colored in oil, of the

PICTURE THAT ENCHANTS THE WORLD,

Has been issued by the undersigned, at a price which places it

WITHIN THE REACH OF ALL.

Our Engraving is the only authentic copy ever published in America, of the

GEM OF THE DRESDEN GALLERY,

For which the government of Hanover paid

FORTY THOUSAND DOLLARS.

It represents the Goddess reclining on a couch and radiant with celestial loveliness. The warm lights and soft shadows which lend such a strange fascination to all the undraped divinities of Titian, are admirably reproduced in this picture, and the accessories, both in the foreground and background, enhance the general effect.

This picture is splendid without guadiness, warm without prurience, and brimful of the very soul of art. [New York Express.

It is the best piece of flesh coloring ever executed in this country. [New York Leader.

Engraver and colorist have produced a work of art that has the Titian tone, as well as the full lose outline of the bewitching original. [N. Y. Mercury.

The drawing, coloring and finish are beyond praise. [N. Y. Atlas.

It deserves a place in the "porte-feuille" of every admirer of the fine arts. [N. Y. Sat. Press.

READERS—Inclose $2, and 15 cents in stamps, and you will receive by return mail, a gem of art, with an elegant gift.

A LIBERAL DISCOUNT TO AGENTS AND THE TRADE.

A really valuable GIFT OF JEWELRY is presented with the Engraving. Address,

DAYTON & CO.,
American and European Engraving Warehouse,
No. 37 Park Row, New York.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,
For Children Teething,

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for ten years, and *can say, in confidence and truth,* of it, what we have of any other medicine, FAILED IN A SINGLE INSTANCE, TO EFFECT A CURE. Never did we know a patient to try any one who once tried it, but all are delighted to speak in terms of highest praise of its magical effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years of the *most successful experience, and we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief is obtained in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST SKILLFUL NURSES in NEW ENGLAND, and has been used with THOUSANDS OF CASES, EXPERIENCED and never failing success, in the childhood pain, but it relieves the poor sufferer immediately, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND COLIC, WIND stones, which, if not timely remedied, end in death. We believe it the best and surest REMEDY in all cases of DYSENTERY AND DIARRHOEA IN CHILDREN, whether it arises from teething, or from other causes. We would say to every mother who has a child suffering from any other complaint, *Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will ABSOLUTELY SURE follow the use of this medicine, if timely used. Full directions for using it will accompany each bottle. None genuine but that bearing the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have the experience required to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by successive improvements, to improve—if this be possible—upon our former productions, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over a 1 others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

J. B. WIGGIN & CO.,
Green St., Portsmouth.
Portsmouth, March 1st, 1860.

Morning Chronicle.

☞ The Wheeling Intelligencer is responsible for this instructive narrative:

We noticed, a few mornings since, the elopement of a young couple from Barnesville, Ohio, who came here to the Metcalf House, and went to West Alexander in a hurry, and got married. It seems that the father of the young man, who lives near Barnesville, had been courting his present daughter-in-law for some time, and recently engaged himself to her. Having great confidence in the judgment of his son, he concluded to send him down into the country where the young lady resided, to take a look at her before the solemnization of the marriage contract. The son went down, and returning, announced himself as highly pleased with the young woman, but counselled a short delay. He wanted time to learn more of his "mother-in-law," and continued to visit her apparently for that purpose. The old man's surprise, when he found that his son had eloped with the girl, and victimized his (the son's) confiding parent, may be imagined.

No Right to Retire.—Reader, though you have the wealth of Cræsus or Solomon, you have no more right to retire from your position of active employment, than your Maker, whose riches are all creation. Your obligations to labor for the good of others, increases in proportion with your power to do so. Every man, be he prince, or peasant, Christian or not, ought to do all he can for his neighborhood, his country, and the world; and no power in the universe can absolve him from this obligation.—There is no exemption, thou lazy idler, living upon God's bounty, from this heavenly requirement. Shrink from it, and thy riches shall be a canker and a moth to thee, and all thy gold, in its influence upon thy happiness, shall turn into dross.

A Temperance Revival.—In Monmouthshire and Glamorganshire, Wales, there is now going on one of those extraordinary temperance movements which seem to electrify communities. Like the Washingtonian reform in this country, it had an humble begining, but it is exerting a mighty influence. An itinerant cutler,—Richard Reece, better known as Cheap Jack, once, being himself intemperate, has been lecturing in these counties, with wonderful effect. At the Tredegar Iron Works, above 7,000 persons have taken the pledge of total abstinence. At Ebbw Vale, about 1,000 have become tectotalers, and at Rhymney 3,000. In the last place, the brewers would not allow him to come, but the converts to teetotalism from Tredegar came over in procession and inoculated the inhabitants with the temperance excitement. In Dowlais, within a fortnight, under Mr. Reece's labors, nearly 4,000 took the pledge, and the work is still spreading.—*Morning Star.*

Mr. Walter H. Noyes, of this city, whose farm lies on the Londonderry line, has handed us a petrified mammoth tooth recently found in a marsh near his house.—It is one of the molars of a mammoth animal, the race of which is now extinct. It is the first animal petrifaction we have seen taken from the soil of New Hampshire. The enamel shows that the tooth protruded less that half an inch above the gum. It was worn when the animal died, and is three and a half-inches in circumference.—*Manchester American.*

☞ Mr. A. W. Sanborn, carriage and wagon maker, of Manchester, left there for California the first of January, went to San Francisco, made contracts for building carriages and wagons, and returned home in sixty days. He reached home on the 13th inst., just in time to vote at the State election.

CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.
Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.
In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated
If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.
Patronize your own.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 10 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are particularly useful in purifying the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS FERRY, JR.

SATURDAY, MARCH 31, 1860.

TOBACCO FOR A STATE.—The Newburyport Herald gives the following tobacco items.

We find among the expenditures for the public charitable institutions of this State, that Massachusetts pays quite a bill for tobacco in its different forms—some eight hundred dollars last year. The insane asylums use but little, though it is well known that tobacco gives its part of insanity. Probably the physicians are disbelievers in the theory that like cures like, or that a hair of the same dog would be useful. At the insane asylum at Northampton the tobacco bill for two years was $26. The State almshouses are the recipients of plugs, cigars, snuff and pipes. The bill for the Monson workhouse was $110; for Bridgewater $165 for tobacco, $50 for snuff, and $5 for pipes; for Tewksbury $350, or about one dollar a day.

We are a little surprised at this expenditure, for two reasons. First, because it is not needed for health or happiness; and second because these institutions should be reformatory. The larger part of the inmates are there through intemperance, from which they should be weaned; but it is well known that the use of tobacco with intemperate people begets and keeps alive the appetite for alcoholic drinks.

☞ A State Delegate Convention of the "Constitutional Union Party" was held in Boston on Thursday, "for organization and consultation," in accordance with a public call, signed by Marshall P. Wilder, Esq., member of the National Committee for Massachusetts. Hon. Nathaniel Silsbee of Salem presided. The convention was addressed by George T. Curtis, Leverett Saltonstall, George S. Hillard, and others. A series of resolutions was adopted, setting forth the platform of the party. A State Central Committee was chosen, and also delegates to the National Convention at Baltimore.

On motion, Hon. John J. Crittenden of Kentucky, and Hon. Edward Everett of Massachusetts were recommended to the National Convention at Baltimore, as candidates for the presidency from Massachusetts, and that the Convention express no choice between the two.

☞ The Senate's prisoner Hyattt, is one of the lions at Washington,—as Mr. Garrison was, years ago, in Baltimore. He is visited every day by numerous distinguished people, who regard him as unjustly and wrongly incarcerated. Senator Sumner is one of the most constant visitors to his prison cell, and the other day, Mrs. Fowler of New York, a neighbor of Mr. Hyatt, carried him some flowers from Mr. H.'s own garden. A welcome gift this, to a man in prison, whose windows are so boarded up that he cannot look abroad.

☞ The number of banks and branches on the 1st of January, throughout the United States, according to the returns at the Treasury Department, was 1562; the capital paid in $421,880,000, and the amount of specie on hand $83,984,000. The resources of these banks, including loans, notes, securities and real estate, is stated at nearly one thousand millions, and their liabilities are $531,000,000.

SERVED HIM RIGHT.—In the Boston Police Court, a youth named Jere. O'Brien was examined, on a complaint charging him with disturbing religious meetings held by Rev. Perez Mason on three occasions, in the hall corner of Beach and Lincoln sts. The testimony showed O'Brion to be the leader of a gang of twenty or thirty rowdies, who made it a practice to disturb Father Mason's meetings, by making loud and uncouth noises, singing out of time and tune, and talking loud during prayer time. The Court was satisfied of the guilt of the theft, and sentenced him to thirty days' imprisonment in jail.

TREASURE FROM THE PACIFIC.—The largest amount of treasure ever sent to England at one time, from the Pacific, passed over the Panama railroad on the 8th inst. The shipment consisted of $2,393,261 in silver and $132,933 in gold, making a total of more than two millions and a half. The large proportion of silver is particularly noticeable.

☞ Some one has been curious enough to fathom the April fashions for the ladies, as set forth in the magazines, and says in respect to the sea of flounces on the full-feathered dress, that the busy hand of the sempstress must stitch and sew, to finish one dress, to the extent of nine hundred and seventy-seven feet! Add to this twenty-three feet for the waist, and you have one mile of sewing in about five dresses. This is frightful.

VENDUE PRICES.—Three hundred pieces of Brussels Tapestry are advertised in our paper, for sale at 95 cents per yard, by the New England Carpet Co., of Boston.

☞ Mr. Bonner's Ledger still continues the wonder of the day in newspaperdom. Its success is beyond all precedent.

From the New York Saturday Press.

PARTIES.

Ever since the world was, society has been divided into two great parties: one representing the rich, lettered and refined classes—the other the poor, unlettered and laborious classes. The former has been the conservative or aristocratic party, and the other the radical or democratic party. The Conservatives have always been governed by reason, and the Radicals by instinct.—Nearly every great thing that has been done in the world has been done by the Radicals. What good the Conservatives have done, has been mostly negative and accidental. If the Conservatives had had their way, there would never have been a printing-press, a steamboat, a railroad, a telegraph, or a public school, in existence. Nor, for that matter, a republic. So much wiser is human instinct than human reason.

In fact human reason has made a mull of nearly everything it has ever attempted.—But for the neutralizing power of the instincts and the imagination, it would long before this have reasoned mankind into a state of complete idiocy. The worst thing that can be said of it is, that it has created the various contradictory social and legislative codes which exist, and which are so poorly adapted to human nature that no amount of learning can make them respectable, and no amount of authority make them respected.

In this country the natural lines of separation have faded out. The parties that divide and distract the country are mongrel parties that have no basis either in nature or common sense. The success of either of them at the approaching Presidential election, would in some sort be a national calamity. The question upon which they are divided, is one that will eventually settle itself without their aid.

The Republicans, who oppose slavery where it is not, and favor it where it is, are as much opposed to liberty, in any large and intelligent sense of that word, as the Democrats. The only object which either of them has in view is power—or, in plainer words, office. That the people should be gulled into supporting either of them under such circumstances, is only another proof of the transitional or mongrel state, at this moment, of American politics.

And yet we must have a government, and to the microscopic eye there may be a choice as to whether it shall be what is called Republican, or what is called a Democratic government. To us the choice is as between tweedle-dum and tweedle-dee.

If the old party lines were restored, we should go strongly with the Radicals, since they have been, up to this time, as against the Conservatives or Whigs, the salvation of the country. If the latter had had their way, the country would now have been cursed with a United States Bank, a High Tariff, and every other un-American, undemocratic institution that a stupid conservatism could have devised, in addition to being in a permanent state of toadyism to England, and disposed to resist to the end any attempt to enlarge our national territory, or diffuse our national principles.

As things are, it is a matter of considerable indifference to us which party is destined to achieve the next triumph: except that the Republican party, having become to some extent a religious party,—and religion, aside from the private walks of life, being the most dangerous thing in the world,—we have the strong feeling that its reign, while characterized by all the selfishness and corruption of the party now in power, would, in addition, be characterized by an amount of phariseeism and bigotry, calculated to fill the whole country with alarm.

Moreover, we detect in the Republican party the seeds of the old conservative how-not-to-do-it principle; while in the Democratic party we see faint germs of the good old radical go-ahead principle which has so far been the salt of the earth and the healing of the nations.

☞ The Buffalo Republic says,—two or three nights since, a young couple were married in Rochester, N. Y. The bride was a very beautiful girl, and had quite as beautiful a sister, who was also unmarried. After the two had been made one, the reverend uniter of hearts and souls, kneeling down and praying fervently, entreated the richest blessings and mercies of Providence on the bride and groom, as well as upon the surviving sister!

☞ A very pretty looking girl named Sarah Elizabeth Whalley, a few days since, wished to make oath before a Justice in Washington that she was sixteen years old. She said she was going to a house of ill fame. The justice advised her to go to service in a reputable house. She replied that she had tried that, and was treated like a dog. He told her she was going to a worse fate, but she said she would run the risk.

☞ Horses are dying rapidly in Brooklyn, N. Y., of a disease called by the veterinary surgeons there, "paralysis of the throat."

CONGRESS.

THURSDAY, March 29.

SENATE.—The joint resolution for an adjournment of Congress from the 20th of April to the 21st of of May was taken up, when Mr. Anthony moved an amendment that the two houses adjourn sine die on the 15th of June.

Mr. Clingman moved the adjournment sine die on the first of June, and opposed the proposed adjournment, as did also Messrs. Gwin and Benjamin.

The amendments were withdrawn, and the resolution voted down by yeas 12; nays 29.

The bill supplementary to the act to authorize protection to the citizens of the United States who may discover deposits of guano, was taken up, amended, and passed.

Mr. Gwin gave notice that on this day week he would call up the Pacific Railroad bill. He had lost all hope of anything being done in the other House.

On motion of Mr. Davis, the bill to prevent desertions and facilitate enlistments in the army of the United States was taken up and passed.

The Army Appropriation bill was received from the House, passed to a second reading, and was referred to the Committee on Finance.

The Senate then went into Executive session. Adj.

The HOUSE passed the Army Appropriation bill.

The committee reported a bill in favor of the settlement of the claims of the soldiers of the Revolutionary army, with their widows, children, etc.

Mr. Royce, from the Committee on Foreign Affairs, reported the French Spoliation bill.

Mr. Grow reported back the bill for the admission of Kansas, when, as a test question, Mr. Crawford moved to lay it on the table.

Mr. Clark of Mo. desired until Tuesday to make a minority report.

Mr. Vallandigham and Mr. Davis of Ind. made speeches, indicating that they should vote for the admission of Kansas.

Mr. Garnett spoke to the opposite effect.

Further proceedings were interrupted by the receipt from the President, of a message, in which he expresses his indignant denial of the right of the Representatives to inquire into the conduct of the President, unless in the way of impeachment,—and protests against Mr. Covode's committee, with its implied accusation.

Mr. Sherman said that the President had made the first issue with the House on a most important point. He argued that the House has power to make inquiry in any way it thinks proper. The doctrine enunciated by the President is the same as that which cost Charles the First his head, namely: that the King can do no wrong.

Mr. Craig of North Carolina upheld that the President does not deny the right to the House to impeach, but that his accuser, Mr. Covode, should set in the case.

Mr. Sherman resumed—The President had not the right to tell the House how they should proceed. He was willing to meet the issue.

Mr. Bocock defended the President's views. The honor and dignity of the House should extend to him as fair dealing as they would to the humblest individual.

Mr. Covode said that he made no charge, but merely desired by his resolution to ascertain who received money in carrying the election in Pennsylvania, as *charged* by the President *himself* in his centenary Pittsburg celebration letter.

Mr. Grow contended that the Committee of the House could inquire whether the President was guilty of a violation of his duty, and simply report the facts for action.

Mr. Covode felt that Pennsylvania is the battle ground, and wanted to follow up the subject to see who the guilty parties are.

Mr. Curtis regarded the President's communication as without authority under the Constitution, and an interference with the rights of the House.

Mr. Branch concluded his remarks, and on motion of Mr. Sherman, the message was referred to the Commitee on the Judiciary, with power to report at any time.

Mr. Montgomery made an earnest Douglas speech. Adj.

WASHINGTON ITEMS, *by Perley.*—Several petitions from New England are among those before the Senate Judiciary Committee, praying for a General Bankrupt law. Senator Toombs advocates such a law, and there is reason to believe that one will be passed in the Senate.

Senator Toombs reported a bill repealing the act smuggled through Congress confirming the Houmas grant of land, in Louisiana. This act, by which the inhabitants of a large extent of territory were to be summarily deprived of their estates, was the work of that crafty New Yorker—naturalized at the South—Senator Slidell.—His gains, could he have carried out his plans, would have been half a million; and his dapper colleague, Senator Benjamin, was sure of a ten thousand dollar fee. If the testimony before the Committee is published, there will be rich developments.

The "iron-masters," of Pennsylvania telegraph that they are graciously pleased to accept the tariff as reported by the Committee on Ways and Means of the House. So it will certainly be passed in the House, and the Senate may be induced to adopt it to conciliate the aforesaid "iron-masters," and secure the election of Col. Foster for Governor of the Key Stone State. New England appears to be rather *counted-out* in the arrangement.

THE KENTUCKY TROUBLE.—*Louisville, March 29.*—The Hanson affair arose from slight difficulty with returning Bercans who came merely to dispose of their Kentucky property without intending to remain.—Some of the alarmed Kentuckians sent to Lexington for cannon and balls. This created an excitement, but all is now quiet.

MARRIAGE.

The treasures of the deep are not so precious
As are the concealed comforts of a man
Locked up in woman's love. I scent the air
Of blessings when I come but near the house.
What a delicious breath marriage sends forth!
The violet bed is not sweeter. —*Middleton.*

BOSTON BOOT AND SHOE MARKET.—The Shoe and Leather Reporter has the following:

The market continues quiet. The houses engaged in the Southern and Western wholesale trade are filling an occasional order; with the jobbers who sell to the interior business continues fair. Purchases for the New England trade are beginning to be made, but not as yet to a large extent. The stock of goods on the market is small, but as the demand is very light, manufacturers are not disposed to increase the quantity. Prices are firm, and the recent advances on desirable goods may be set down as from five to ten per cent. In the manufacturing towns, we find that strikers' stock is in rather a depressed condition, and shares are getting below par. It is doubtless near time for the bubble to burst. Among the clearances for the week is ship Mameluke, San Francisco, 1090 cases.

☞ Foreign news by the Arabia, from Liverpool March 17.

The £100,000 preference capital authorized by the Great Ship Company, had all been applied for by the shareholders, and the subscription list was closed.

The Paris correspondent of the Times learns that the second warning, which immediately precedes excommunication, has been sent to Turin. After a certain interval, the bull of excommunication against Victor Emmanuel will be issued.

Several regiments of French troops have received orders to proceed to Savoy and the Romagna.

Sardinia is about to cede Savoy and Nice to France. France will then consult the population of France as to whether they choose annexation to France or separate independence. If they select the latter, then Savoy will be constituted an independent state; if the former, the result will be communicated to the great powers. In case of serious disapproval on the part of European states, which is not anticipated, France would probably consent to the establishment of Savoy as an independent state.

It is positive that France will never consent to the retention of the French slopes of the Alps, by Sardinia enlarged, as she will be a power inferior only to Prussia.

Full returns of the voting in Italy are overwhelmingly in favor of annexation to Sardinia. The vote in Tuscany was 366,000 for annexation and 15,000 for a separate kingdom. No stops have been taken as yet.

An insurrection in Naples is considered imminent.

In the House of Lords, on the 16th, the state of Naples was debated, and the Duke of Sommerset said that protection would be offered to refugees who seek for it, on board the British men-of-war in the bay of Naples.

MINOT'S LEDGE LIGHTHOUSE.—A lithographic plate of the new lighthouse to be erected on Minot's Ledge is just issued by B. Frink, Boston. It shows the interior and exterior of the work, and is valuable to those interested in the matter. When completed, this lighthouse will be one of the most unique structures on the coast.—We hope it will prove more than a match for the waves of the Atlantic.

☞ In England all gas meters are inspected; and inspection laws are also in force in New York and Pennsylvania, and will soon be in Massachusetts.

NEW YORK, March 29.—The examination of Hicks was concluded this afternoon. He is committed on two charges of murder and piracy.

GEORGE W. PLUMER'S

NEW BAKING ESTABLISHMENT.

SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.

Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr. S. N. Plumer, the subscriber offers to his patrons ON TUESDAY, MARCH 27th, at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c, as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. T. WILDES, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.

GEORGE W. PLUMER.

Portsmouth, March 26, 1860.

NOTICE.

"Once I trusted all my friends;
For so they seemed to be;
But when I asked them for my pay,
They only laughed at me."

ONE MORE CALL, AND A NEW INDUCEMENT TO PAY UP.

The Subscriber would say to those in debt to him by note or account, that if payment is made on or before the 1st of May next, a liberal discount will be made to those who are evidently too poor to pay the full demand against them.

We continue to manufacture BREAD of various kinds, for those who are disposed to pay for it

HOT BROWN BREAD every morning, (Mondays excepted.)

CAKE, PUDDINGS AND BEANS, baked for families on reasonable terms.

GRASS SEED.

150 Bushels HERDS GRASS, CLOVER and RED TOP SEED, for sale by

HENRY F. GERRISH,

6 Daniel Street.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 13 Cabot St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtonlitorumnos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters. There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, medicines, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. F. E. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1851.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it will much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. F. Decker, Greenland; and dealers everywhere. spnot 4wd&w

Boils:

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the system to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Estes.

BOLTON, MASS., June 1, 1859.

MESSRS. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the constitution and vitality seemed, and the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had taken five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

march20 GEO. L. STOKELL

Local.

☞ At Mr. Drake's nice new Iron Foundry, which recently grew up on the ashes of the old Portsmouth Iron Foundry, in Mechanic street—everything is fitted in the most approved style, and he is far better prepared than small foundries usually, to manufacture castings of all sorts, including beautiful iron fences, ship-work, house-work, &c.

His "fan" for melting the iron is carried by a new and neat steam-engine, which was manufactured by Herman Remick, of this city, and is a creditable specimen of his handiwork. Engines from his establishment are also employed in the breweries of Frank Jones and M. Fisher & Co.; in the Dover Star office; and one just finished may be seen in operation at Mr. Remick's new Machine Shop, corner of Bridge and Parker streets—where he will be found, able and ready to execute any sort of work in this line.

☞ A very handsome and serviceable pair of double Harnesses, "built" to order for the brewery team of Frank Jones, may be seen at the saddlery establishment of J. Larabee, in Daniel street. It will also be seen, by his advertisement on the first page, that he is well supplied with a full stock of goods in his line, and ready to fill orders in his usual satisfactory manner.

☞ Judging from the delightful weather of Friday, March don't seem to be "going out like a lion," though she did "come in like a lamb." Albert Laighton, who best appreciates the wild flowers, among all lovers of the beautiful with whom we are acquainted, tells us he discovered buds of the modest and fragrant Trailing Arbutus, "under the leaves," at Sagamore, several days since.

☞ We learn that Mr. John H. Ferguson of this city, has sold his light bay mare to an able and liberal "Son of Portsmouth in Boston," for the sum of $600. She is a beautiful animal, and it is said can show her heels to 3 minutes, without troubling herself much. She is a New Hampshire horse, having been raised among the granite hills.

Bogus Voters.—In the Boston Police Court, Charles Sisson was charged with illegally voting in Ward Three, last Monday, for Register of Deeds. It is alleged that Sisson gave his name to the Inspector as James E. Moore, and in that name voted a "Democratic Ticket" for John C. Wyman. Sisson waived examination, and was held in $200 for trial.

This puts us in mind of an occurrence in this city, at a late election, when a stranger offered to vote, and gave his name as ——. Any middle name? asked the Clerk. No, said the would-be voter. Then you can't vote here, said the chair—and the forgetful man who could not remember *all* his name, passed on—but his vote was lost to the country.

Prisoner Escaped.—James K. Johnston, the crazy printer who has been confined in Exeter jail for several months on a charge of mail robbery, escaped about seven o'clock Wednesday evening. He was not confined in a cell at the time, having just been visited by Dr. Perry, who pronounced him hopelessly insane. No fear was apprehended of his attempt to escape, and he craftily slipped out and away. The sheriff offers $50 reward for his apprehension and return to the jail.—*Ballot.*

☞ The omission of a cipher by our compositor, in the report of the amount of damages which would be claimed by abuttors on Puddle Dock, in case the proposed gates were built,—made the sum read $200, instead of $2000 as it should have been.

☞ Our thanks to our friends of the Ballot, at Exeter, for their Extra of Thursday, containing full particulars of the fire. Also to S. B. Marden's Express, for promptness and courtesy in attending to the delivery of this and various other matters.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

☞ On and after Monday, April 2, there will be two trains a day from Portsmouth to Concord, leaving the Depot here at 10 min. before 11, and 20 minutes past 4.

Down trains leave Concord at 7 in the morning, and 3:30 in the afternoon.

☞ We publish to-day, a sort of no-party "manifest destiny" article from a New York Ishmaelitish paper,—worthy to be read in comparison with the able article on "The extent of a Republic," which we published a few days ago. F.

☞ Henry Wilson has the reputation of being the crack pugilist of the Senate. No fear of any fire eater caning him.

Two Alarms of Fire—The Incendiary Caught.—On Friday night, between 11 and 12 o'clock, the watchmen, in going their rounds, saw a fellow pass out of Vaughan street into Hanover street, in such a hurried manner as to arouse their suspicions that something was wrong.—He passed down Hanover street, until he came to the house opposite Hanover street Chapel, in the rear of which there is a barn,—went in, and in about a minute came out, leaving the building on fire. All the while he had not seen the watchmen, Messrs. Carter and Stickney, and consequently was much chagrined upon being abruptly stopped; he made a desperate resistance, but it was of no use, and he was conveyed to the lock-up. The other watchmen, happening near, by great exertions put out the fire without a general alarm.—The name of the incendiary is James Happenny, a jail-bird and general street nuisance for the past five years.

At about half past 1 o'clock—two hours after the first alarm—fire was discovered in a barn near by the Jail, but was extinguished without much damage. It is supposed by the watchmen that Happenny set the latter fire—by the use of a slow match—before he came down into Hanover street; which would account for his hurried manner. He probably has accomplices, although it is a matter of speculation. Put them through.

DIED.

In this city, March 30th, Thomas Treadwell, Esq., aged 80 years and 6 months. He was a native of Ipswich, has been a resident of Portsmouth since 1794, and held many municipal offices of trust.

At Ann Arbor, Michigan, March 8th, Burroughs Holmes, aged 68, father of Rev. Thomas Holmes.

In Trenton, N. Y., Walter Fanton, aged 17 years, only son of Rev. Burroughs S. Fanton, formerly of this city.

In this city, March 27th, Miss Lucy Ellen Pinkham, aged 25 years, formerly of Concord.—Concord papers please copy.

Here's Health for the Million!!

CLARKE'S SHERRY WINE BITTERS

Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

DR. E. R. CLARKE, Sharon, Mass.,
Manufacturer and Proprietor.

DR. CLARKE'S HERB PILLS

ARE THE CHEAPEST AND BEST IN THE WORLD!!

DR. CLARK'S HERB SYRUP

cures everybody. Try it!!

Prepared by DR. E. R. CLARKE, and Sold in Portsmouth by Mathes & Varrell, Joseph H. Thacher, and R. Hutchings. feb27

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all GENERAL COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS and for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that you gain you retain. The No. 3 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 4. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.
GEO. C. GOODWIN & CO., Wholesale Agents, Boston.
And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING, DIARRHEA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing inflamation, regulating the Bowels, and relieving pain, it has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *convulsions or other Fits.* Are you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by
CHURCH & DUPONT, Druggists,
No. 409 Broadway, New York.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—in most hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times. *Ladies' Home Magazine.*

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.
FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given, see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I answ ed it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dye. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling of arrested, but the color was restored to my gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend my husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,

BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Stanaston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least three times as much, and in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Sold by all good Druggists.

Wholesale agents—Barnes, Lyman, George C. Goodwin & Co.; Potter & Weeks; M. S. Burr & Co.; and J. F. Holman, No. 2 Tremont Temple.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great science, who freely give our agents his most popular preparations, viz:

His Panacea is survivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Nervousness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His Family Pills are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His Concrete cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents

Cough Drops for Phthisis, Colds, Asthma, Croup, Whooping and Chin Cough, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of little Jane, and I know of one who have a visit from that distressing complaint, to use it freely. MARY N. RICKER.

I here the above testimony with pleasure in regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many. FANNY MIXUM.

"I have been cured of a severe cough by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this notice to say to them, and to all others afflicted, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable remedy. I have found great relief from them, and quick. Let every suffering preacher take a phial and try it. REV. EDWIN BURNHAM.

EXETER, July 30, 1841. "I have found Dr Swett's cough drops to be the best of any thing I ever for Coughs, and for any other complaints of the Lungs, of any medicines with which I am acquainted. NANCY F. JONES.

CANAAN, Aug 29, 1850. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together

THEODORE CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the whole system becomes weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial diseases, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation. Indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of morbid matter, which, according as the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or ulcers, in the various forms which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by this same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is composed from the most potent alteratives that have been discovered for the expurgation of this foul corruption from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DEBILITY, DYSPEPSIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The grandest purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their purgative properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy functions. As a consequence of these properties, the invalid who has long drooled with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for the use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Gravel, Dropsy, Skin Disease, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and other affections of the Pulmonary Parts in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases in which it cures that almost every section of country abounds in persons publicly known, who have been restored from alarming and even apparently desperate cases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate to resort to it for relief in the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior preparations have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted for years, never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5. All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec26 3m d&w

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington,

LAST EXPIRY OF 1857.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters concerning Patents. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by those measurably superior to, any which can be offered them elsewhere. The testimonials below given prove this to be true. MORE THAN ONE HUNDRED PATENTS THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITIES, he feels that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so small, or the immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of valuable decisions, official decisions relative to patents. These, besides the extensive library of legal and mechanical works, and full acquaintance with business granted in the United States and Europe, render him able, more than others, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful solicitors of patents with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office," EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWEN TY REJECTED APPLICATIONS, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

Ayer's Sarsaparilla.

Half Column, in Daily, per year,			$80.
"	"	six months,	50.
"	"	three months,	30.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as cheap rate notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns, 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion, per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning until 8 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered; but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, shops or the usual places of delivery, to be placed on the counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessarily left out, the bell to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ S. R. Niles, (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

THE BEWITCHING BEAUTY.

"I saw a glorious beauty in her face,
And with her breath she did perfume the air,
Sacred and sweet was all I saw in her."
—Shakspeare.

"The fire of her eyes dazzles the two worlds."
—London Journal.

THE BEWITCHING BEAUTY,

Which is embodied in the exquisite proportions and luminous coloring of

TITIAN'S RECLINING VENUS.

Has for two centuries been the admiration of all beholders. Artists, connoisseurs, and the lovers of art, will be happy to learn that a magnificent Engraving, colored in oil, of the

PICTURE THAT ENCHANTS THE WORLD,

Has been issued by the undersigned, at a price which places it

WITHIN THE REACH OF ALL.

Our Engraving is the only authentic copy ever published in America, of the

GEM OF THE DRESDEN GALLERY,

For which the government of Hanover paid

FORTY THOUSAND DOLLARS.

It represents the Goddess reclining on a couch and radiant with celestial loveliness. The warm tints and soft shadows which lend such a strange fascination to all the undressed divinities of Titian, are admirably reproduced in this picture, and the accessories, both in the foreground and background, enhance the general effect.

This picture is splendid without gaudiness, warm without impurity, and brimful of the very soul of art. [New York Express.

It is the best piece of flesh coloring ever executed in this country. [New York Leader.

Engraver and colorist have produced a work of art that is the Titian tone, as well as the fault less outline of the bewitching original. [N. Y. Mercury.

The drawing, coloring and finish are beyond praise. [N. Y. Atlas.

It deserves a place in the "porte-feuille" of every admirer of the fine arts. [N. Y. Sat. Press.

READER—Inclose $2, and 15 cents in stamps, and you will receive by return mail, a gem of art, and an elegant gift.

A LIBERAL DISCOUNT TO AGENTS AND THE TRADE.

A really valuable GIFT OF JEWELRY is presented with the Engraving. Address,

DAYTON & CO.,
American and European Engraving Warehouse,
No. 57 Park Row, New York.

JOHN S. HARVEY,
Real Estate and Stock Broker,
jy11 No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and ten years, and *can say, in confidence and truth,* of it, what we have not of any other medicine, FAILED, IN A SINGLE INSTANCE, TO EFFECT a speedy and perfect cure, nor did we know an instance of dissatisfaction by any one who had used it. On the contrary, all are delighted in speaking in terms of the highest encomiums of its magical effects and medical virtues. We speak, in this matter, *what we know,* and *pledge our reputation for the truth of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be produced in fifteen or twenty minutes after the syrup is administered.

The remarkable preparation is the prescription of one of the MOST SKILLFUL NURSES in New England and has been used with THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, and AND COLIC, gives tone and vigor to every system. It will almost CERTAINLY RELIEVE WIND CHOLIC, which, if not speedily remedied, end in death. We believe it the best and sure remedy in all cases of DYSENTERY AND DIARRHOEA, CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any other cause, and we know from the *thousands of others,* stand between your suffering child and the relief that will ABSOLUTELY SURE to follow the use of this medicine, if timely sold this article for over *twenty-five years, in confidence and truth, never failing in one instance, in OF CASES.* We speak, in this matter, "what we know" after ten years of the *most unexampled success, in the child from pain, but* and energy to the whole *instantly relieve* BOWELS, AND *cases, which, if not* *the foregoing complaints, or the prejudices of others,* stand *your own* suffering will be SURE—yes, *pledge our reputation* sold this article for over *twenty-five years, in confidence and truth, never failing in one instance, in OF CASES.* We speak, in this matter, "what we know" after ten years of the *most unexampled success, in the child from pain, but* and energy to the whole *instantly relieve* BOWELS, AND *cases, which, if not* *the foregoing complaints, or the prejudices of others,* stand *your own* suffering will be SURE—yes, *pledge our reputation* to follow the use of this medicine, if timely used. Full directions each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, on the outside wrapper throughout the world. 25 cents at New York *per bottle.*

10 and 12 Water St.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto confined ourselves to make our Clippers superior to all others in those points which especially interest Plowmen, we are still endeavoring to improve them, and will do so, if this be possible—upon our former success, although, as we say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

5 do	do	double reed,	F to F, 150
5 do	do	two banks of keys,	200

Our facilities for manufacturing are perfect, and from our long experience in the business, having finished and sold over *Twenty-Four Thousand Melodeons,* we feel confident of giving satisfaction.

All Melodeons of our manufacture, either sold by us or dealers in any part of the United States or Canada, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of one year from the date of sale, we hold ourselves ready and willing to make the same free of charge, provided the injury is not caused by accident or design.

☞ Agents for the sale of our Melodeons may be found in all the principal cities and towns in United States and Canada.

CHAS. C. HARVEY, Exch. Buildings,
Agent for Portsmouth and vicinity.

Smith's Curative Cleansing Compound

Has readily cured or effectually relieved, in numerous cases in various parts of New England, the following complaints, viz: Neuralgia, Sore Throat, Croup, Chapped Hands, Chilblains, Cuts, Bruises, Sprains, Burns, Scalds, Spider Bites, Sore Breasts, Erysipelas, Fever Sores, Dysentery, Colic, Cramp in the Stomach or Limbs, Rheumatism, Ague, Toothache, &c. The above complaints may oftenbe relieved and cured in a few minutes.

Morning Chronicle.

☞ The New Orleans Picayune states that on the 20th inst., Mr. T. L. Lemley gave a dinner party, and during the night and next day his whole family, and all the guests, were a prey to the terrible sufferings of poison. Eighteen or twenty persons were attacked; but at last accounts only one had died, a lad of ten years.—Four others were dangerously ill. The poison, which the physicians think was arsenic, was administered in a dish of "Charlotte Russe." Suspicion rests on Mr. Lemley's cook—as she had been heard to make threats against her mistress, saying that Mrs. Lemley had whipped her—showing a mark on her face—and she would pay dearly for it. She was very surly and grumbling, and Mrs. Lemley states that she had been in great fear of the woman for some time. It is supposed that the determination of Mr. Lemley to sell her boy, who had become unruly and vicious, in consequence of which the youth had run away, had also irritated the woman. She has been arrested, together with two more of the slaves.

AN INSURANCE GAME—ROVING SPECULATORS.—A family, consisting of husband, wife, sister-in-law, and daughter, were arrested last week in Louisville, Ky., who had been making a good thing out of the insurance companies. Their plan was to rent a house, stock it with hired furniture, on which they would get insurance and then burn down the house, having previously run off the furniture. This game they have played in several cities, but were caught at it in Louisville. The game is now blocked for a time.—*Boston Courier.*

☞ Mr. Commissioner Wilson, of New York, severely rebuked certain firemen convicted of disorderly conduct. He said that the true fireman was a true gentleman, and that he lost his identity, *per se*, when by any act he did aught that compromised the organization.

☞ A California member of the "Third House," at Washington, remarks that unless a railroad is built to unite the Pacific and Atlantic States, the line of "disunion" which so many fear, will be the Rocky Mountains, instead of Mason's and Dixon's.

Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.
In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or traveling agents; for in nine cases out of ten you will be swindled and cheated.
If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. Your subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.
Patronize your own.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted in all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
(Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

All Goods at the lowest cash prices. aug 19

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, JR.
SHOP, OVER MERRILL & FERGUSON'S BLACKSMITH SHOP, OPP. NEW CUSTOM HOUSE.

MONDAY, APRIL 2, 1860.

BRIEF EXTRACTS.

We repeat—and we deliberately weigh our words, because we know what we say—that the President and his Cabinet repel with scorn and contempt any and every accusation, from whatever quarter it may emanate, which affects in the minutest particular, their official or personal honor and integrity.—*Washington Constitution.*

That is democratic. It is manly. Investigation is challenged. There is no shrinking from the closest scrutiny. But the poor Republicans, how they winced!—*Portland Argus.*

Mr. John Covode, a Representative from Pennsylvania, is the accuser of the President. * * * Every freeman must revolt at such a spectacle. I am to appear before Mr. Covode, either personally or by a substitute, to cross-examine the witnesses which he may produce before himself to sustain his own accusations against me, and perhaps even this poor boon may be denied to the President. * * *

I do therefore, for the reasons stated, and in the name of the people of the several States, *protest* against these proceedings of the House of Representatives, because they are in violation of the rights of a co-ordinate Executive branch of the government, and subversive of his constitutional independence; because they are calculated to foster a band of interested parasites and informers, ever ready for their own advantage to swear before ex-parte committees to pretended private conversations between the President and themselves, incapable from their nature of being disproved, thus furnishing material for harassing him, degrading him in the eyes of the country, and eventually, should he be a weak or timid man, rendering him subservient to most improper influences, in order to avoid such persecutions and annoyances.—*President Buchanan.*

Mr. Covode said that he made no charge, but merely desired by his resolution to ascertain who received money in carrying the election in Pennsylvania, as *charged* by the President *himself* in his centennary Pittsburg celebration letter.

Here is a pretty kettle of fish, says Uncle Toby.—The Senate made a committee of Investigation igto affa s in Virginia and elsewhere, and called Mr. Hyatt to testify. Hyatt enters a written protest,—and the Senate put him in jail without bail or mainprize.

Now the House make a committee of Investigation into affairs in Pennsylvania and elsewhere, and call on James Buchanan to testify. Buchanan enters a written protest, —and now, *Query*, will the House commit said Buchanan to jail? or if not, why not? Why should they make fish of Hyatt and flesh of Buchanan? Can anybody tell?

And if it were "democratic and manly to challenge investigation!" what is it to shrink or winca, or protest?

We have spoken against Hyatt's imprisonment, and should be very sorry to see Mr. Buchanan locked up,—but if the Senate has the right or the power to act thus, why not the House?

☞ It will be remembered that about a year since, a Catholic in Boston made complaint before a Court, that his son had been cruelly whipped in the Eliot School, for refusing (in compliance with instructions of his parent and priest) to repeat the Ten Commandments. The result was a decision in favor of the teachers. The Boston Post now says "the School Committee of the city have decided to dispense altogether with the rule requiring the pupils in the public schools to repeat the Lord's Prayer or Ten Commandments;" and assures the Catholics that—

"There will not be in the public schools more of what they deem an attempt, on the part of Protestant teachers, not only to proselyte, but to persecute. The city of Boston has set an example worthy of imitation. She has proclaimed in this relation religious liberty in the public schools of Boston!"

☞ The Boston Post is at odds with the Courier, and with the Union Constitution. The Post says:—

The tone of the Convention of the new Third party, held in this city on Thursday, is in singular contrast with the name of the "Constitutional Union Party," which it has assumed; and so far as, on the *slavery* question, there were positive avowals of doctrines, it bore unmistakably in favor of the Republicans.

In another place the Post says:—

Democrats! Be true to your party organization, and leave those who do not like it, to form a better one if they can.

And then quotes the following item from the organ of the party in Washington:

"We have no political friends outside of the Democratic party, and we regard as political enemies all who oppose the Democratic party, and seek to defeat its regular nominees."—*Washington Constitution.*

RUNNING AND BATHING.—We have before alluded to Dr. Smith's (of Newburyport) experiments in running till perspiration is freely obtained, and then bathing in cold water, sometimes when the mercury is below zero. On Thursday morning he ran six miles, bathed, and then run home, and took a second cold bath, in just three hours from the time of starting, and came out after breakfast, as fresh and buoyant as a perfectly healthy child.

WIGFALL AND PARTIES.

Messrs. Editors:—Having been hugely edified by reading Senator Wigfall's speech, I offer thanks for its publication; and having been more hugely edified by reading a piece headed "Parties," which you copy from the Saturday Press, I assure you of my most distinguished consideration, and with your leave will offer a few remarks upon it.

The article from the Press is fully up to Wigfall's standard, as to historical accuracy; and in self-contradiction and confusion of ideas, it beats Wigfall all hollow.

For example, of self-contradiction, the writer first urges that the parties are so totally bad, that there is no good thing possible to *either* but their destruction: this he does in these words:

The parties that divide and distract the country are mongrel parties that have no basis in *nature* or *common sense.* The success of either of them at the approaching Presidential election, would in some sort be a national calamity.

Then he goes on to say that both parties *alike* seek power,—and that to him the choice between a Republican and a Democratic administration would be only "as between tweedle-dum and tweedle-dee."—But in the next breath he says:

If the old party lines were restored, we should go strongly with the Radicals, since they have been, up to this time, as against the Conservatives or Whigs, the salvation of the country.

And following on to the close of his article, he finds a deal of fault, but *all* with the Republican party, and none with the Democratic. This, and this only, is the amount of his professed impartiality or indifference. He makes, among other strange assertions, the following:

The Republicans oppose slavery where it is not, and favor it where it is.

The latter statement, of favoring slavery where it is, is shown to be a falsehood, and proved to be such, by the well known fact that the Republican party is not suffered to exist in any State in the Union where the slave power is strong enough to crush it.

Again, after saying "it is a matter of considerable indifference to us which party is destined to achieve the next triumph,"—he goes on to make an *exception* which shows his *considerable* indifference to be an *earnest* desire for the defeat of the Republicans—for he says "the Republican party, having become to some extent a religious party,—and religion, aside from the private walks of life, being the most *dangerous* thing in the world,—its reign would be calculated to fill the whole country with alarm," on account of its phariseeism and bigotry: and winds up by saying:

Moreover, we detect in the Republican party the seeds of the old conservative how-not-to-do-it principle; while in the Democratic party we see faint germs of the good old radical go-ahead principle, &c.

Now, Messrs. Editors, and Messrs. readers, also, let us take with us the idea that these republicans are conservative pharisees, and carry it back to the first part of the article on Parties, where the writer in the Press says:

If the Conservatives had had their way, there would never have been a printing-press, a steamboat, a railroad, a telegraph, or a public school, in existence. Nor, for that matter, a republic.

Apply this, gentle reader, to New England, if you please to Massachusetts, the home of the puritan pharisee, who always carries his *religion* into politics, fearless of danger,—the home of the Republican party,—and you will see *falsehood* stamped on every line, and contradiction on every comma.

Printing presses and public schools were the work of the men who set up here the christian commonwealth;—and throughout our country to-day, wherever the press, the railroad, and the common school do *most* abound, *there* the republican party is the strongest.

This no man will deny—nor will it be denied that the largest mass of those who *oppose* public schools and support no printing presses, are as much opposed to the *dangerous* Republican party, as the writer in the Saturday Press can be. A. B.

☞ Collector Schell of New York, testified, before Covode's Investigating Committee, that during the canvass of 1859 between twenty and thirty thousand dollars were sent from New York city to Pennsylvania to aid the Democracy.

PRESERVING GRAFTS.—A farmer who has practiced gra ting for a quarter of a century, says the best way to preserve scions after cutting, is to dip the cut end in melted rosin. After being subjected to this process, he says they will not dry or shrink for a long time.

☞ A young man in Kent, Eng., was put under £20 bonds to keep the peace, for coughing and throwing pebbles at his sweetheart's window, the cruel proprietor of the premises, where the sweetheart lived as governess, being the prosecutor.

☞ Macaulay states in his History of England, that no large society, of which the language is not Teutonic, has ever turned Protestant; and that wherever a language derived from ancient Rome is spoken, the religion of modern Rome prevails to this day.

RELIC OF THE HUNGARIAN.—Schooner Sarah, Capt. Upton, has returned to Portland from the wreck of the Hungarian. She brings a few items of intelligence and interest. The clock of the ill-fated steamer was found, whose hands indicated 11 o'clock and 15 minutes. This is undoubtedly the moment when the steamer struck, and the concussion stopped the clock. A thick and severe snow storm was prevailing at that time. It was just at the commencement of ebb tide, which accounts for the fact that no more of the bodies were found. They were carried by it out to sea. Most of the goods recovered were picked up from nine to fifteen miles outside of Cape Sable and to the eastward of that point. But eight bodies have been recovered in all, only one of which, that of Mrs. Woods, could be identified. Singularly enough, the clock was in good order, and run well on being started again. This clock fixes beyond question the hour of the disaster.

WASHINGTON, March 30.—The House Post Office Committee had Gwin's Pacific Telegraph bill up this noon, and referred it to the sub-committee, consisting of Messrs. Colfax, Craig of N. C. and Alley White.—There was a general agreement in favor of some such enterprise, and of extending government aid towards its construction. It was thought proper to examine the details of this particular project more carefully.

Col. Chas. F. Smith only retains command in Utah until Col. Cook, who succeeds Gen. Johnson, shall reach there, when he will occupy the second rank to him.

The majority of the Harper's Ferry Com. have determined to summon Gov. Wise, and it is probable that the question will be submitted to the Senate.

HOW TO GET A HALL.—The officers of the Newburyport Lyceum are to invite persons who, from being natives or residents of "old Newbury," or from some cause interested in the welfare of that community, will deliver lectures gratuitously, the proceeds arising from the sale of tickets to be devoted towards the erection of a building, to be owned by the city, for the better accommodation of the Free Public Library. And at the proper time, the officers of the Lyceum will appoint a large committee to canvass the city for the sale of tickets, that the largest possible amount may be raised for the purpose named.

☞ The leading men in the oyster business at Baltimore assert that there are more oysters in Chesapeake Bay at present, than there were twenty years ago, notwithstanding millions upon millions of bushels have been removed. They say that dredging for oysters in deep water scatters the beds over a greater extent, and is the only way by which the quantity in the long term can be increased. Taking up oysters with the tongs is more economical, in that it destroys fewer oysters; but it does not spread the supply, and ultimately exhausts the stock.

A GOOD EXAMPLE.—James A. McCorkle who embezzled $15,000 of the funds of the People's Bank, at Richmond, Indiana, of which he was Cashier, has been tried, convicted, and sentenced to pay a fine of $500, be disfranchised for five years, and incarcerated in the State Prison for four years. After committing the crime McCorkle fled to Texas, but was followed and captured. On the first trial, the jury disagreed; before the second came on, being at liberty on bail, the defaulter made a second attempt to escape, but was foiled, and on the second trial received his deserts. His previous character was of a high standard.

FIRST EXECUTION OF A WHITE PERSON IN MINNESOTA.—The Governor of Minnesota having refused to commute the sentence of death passed upon Mrs. Anna Blansky, and the Legislature having failed to pass the bill for her pardon, she suffered the punishment for the offence with which she is charged on Friday last, at St. Paul. This execution was the first death penalty inflicted upon a white person in the State or Territory of Minnesota.

A correspondent of the New York Observer says: Rev. Samuel Kennedy, who was settled in Buckinridge, N. J., before the commencement of the Revolutionary war, preached for six months on one text—Rev. iii:20: "Behold, I stand at the door and knock; if any man hear my voice and open the door, I will come to him, and sup with him, and he with me." He preached six of these sermons on the word I, exhibiting the character of Christ in his mediatorial offices of Prophet, Priest and King.

THE NATICK STRIKE.—The Relief Committee of the strikers have issued a card, stating that they have nearly exhausted their means of relief, and unless aid can be obtained, large numbers of their fellow-laborers must be reduced to the severest suffering and want; inasmuch as the employers manifest no disposition to accede to the demands of the journeymen.

"What makes all these apothecary shops have stone floors?" said Billy to Sam as they stood by the counter. "Don't you know, Billy? It is so that if a feller drops a bottle, he'll be sure to break it."

The Connecticut Election takes place today, and the Rhode Island Election on Wednesday. Portland, Me., City Election on Tuesday.

☞ Gov. Banks's veto to the bill to strike out the word "white" from the General Statutes, was sustained in the Senate, but by only one vote; 21 voting to pass the bill over the veto, to 11 nays; and 7 were absent.

To be cast down by undeserved censure, or elated by unmerited compliment, is alike proof of weakness.

Liberty will not descend to a people; a people must raise themselves to it; it is a blessing that must be earned before enjoyed.

PURE ICE.

The subscribers having during the past Winter enlarged their Ice House, which is now well filled with a large stock of Ice of the very best quality, would solicit from their old patrons and the public generally, orders for the delivery of the same, in quantities to suit purchasers.

Customers will be served promptly, at the lowest rates. For quality we would refer to any of our patrons of last season.

Orders may be left at the stores of H. M. CLARK & CO., SAMUEL DONNELL, J. E. RIDER, or with either of the subscribers.

WHIDDEN & PERKINS.

GRASS SEED.

150 Bushels HERDS GRASS, CLOVER and RED TOP SEED, for sale by

HENRY F. GERRISH,

5 Daniel Street.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1856.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Cumsorro, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiorumens.

☞ **Mrs. Winslow.** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters.

There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, emetics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well known manufacturers of the celebrated "Stomach Bitters"—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs.

F. R. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, Vt., Nov. 12, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy action through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOLTON, MASS., JANUARY 14, 1859.

Messrs. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wretched through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disorder of the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was advised to threaten and a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to painful sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

JOHN S. HARVEY, Real Estate Broker,

No. 47 Congress Street.

Local.

☞ It may not be a matter of much importance to the public; but for the sake of consistency, we shall refer again to the case Gift Concert vs. Printer's Lotteries—a paragraph concerning which we copy on our fourth page, from the Journal. Since our neighbor is so fond of quoting couplets, we will call his attention to another:

"Compounds for sin he is inclined to,
By damning those he has no mind to."

Now *this* certainly can't hit us, for we have not the slightest objection either to Gift Concerts or the Printers' Lotteries, in themselves considered; so long as "the lot is cast into the lap, and the disposal thereof is (left) with the Lord." Whether it fits *his* case, we leave the reader to judge.

As to lotteries, the Chronicle has no defence to make of them, and has never made any such. The Journal is very fond of denouncing the Gift Concerts as "Lottery Gambling;" but it would puzzle Webster to define the difference between gambling for a piano and a job of printing. We neither uphold the one or denounce the other—the Journal does, and herein we charge inconsistency. Both lots are gotten up to make money,—they are alike unnecessary, and equally open to the abstract objection of being lotteries, or gambling—though to our apprehension, not a whit more so than most if not all the business of life. The "difference in principle" which the Journal sees so plainly, between the two, exists much more in fancy than in fact; and until our neighbor points out the great odds,—which he will not find it so easy to do as he imagines,judging from the majority he claims for his views—his opposition to and unfair denunciation of the Gift Concerts, may by some be attributed to other causes than the mere merits of the two cases. F.

☞ In the Police Court, Saturday, March 31, James Happenny was accused of setting fire to a barn near Hanover street, and ordered to find $1000 bonds for appearance at Exeter Court in April. Committed.

☞ It appears from the actors and others, that two young men, Messrs. Dow and Webster, put out the fire in the barn near Hanover street, on Friday night; they were the first persons who entered, and mostly trod it out with their feet.

☞ At a very large school meeting in District No. 1, on Friday evening, W. H. Y. Hackett was chosen Moderator, and the following gentlemen elected School Committee:

John Chase, Oliver F. Gerrish, John S. Harvey, Leonard Dodge, John H. Bailey.

At the school meeting in District No. 3, on the same evening, Albert R. Hatch was chosen Moderator, and the following gentlemen elected School Committee:

Albert R. Hatch, Henry F. Wendell, John Gardner, Obadiah Stoddard, John Marden.

The High School Committee for the present year, are Robert O. Treadwell, John Chase and Albert R. Hatch.

The Portsmouth Gazette attempts to account for the falling off in the democratic votes in that city, on the ground that decided Douglas men were in nomination for Representatives. Does the Gazette and its friends intend to bolt or justify bolting if Douglas himself should be nominated?—We think the Portsmouth vote is more rationally explained as the legitimate fruits of the slave-code doctrines which the Gazette has urged in the name of Democracy.—*Bath Times.*

Amos S. Alexander, Esq., of Portsmouth, who was turned out of a small office in the Custom House because he had a soul of his own and dared to obey its promptings, gives the Gazette of that city "Hail Columby" for its attacks upon the nominees for Representatives at the late election. Mr. Alexander was one of the candidates, is chairman of the Ward Committee, and was an out and out Democrat when the nominal editor of the Gazette was carrying a dark lantern in the Know Nothing encampment. The Gazette editor is a government official.—*Bath Times.*

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

☞ Passengers by railroad will remember that the Spring arrangements on our railroads begin to-day. Notice of the changes can be seen in our advertising columns.

RAPID COMMUNICATION.—By steamer Prince Albert of the Galway line, the European public were put in possession of news from the United States within seven days. This is the most rapid communication yet accomplished by steamers across the Atlantic.

NEW YORK, Mar. 30.—John Crimmurs was hung this morning, in the Tombs yard, for murder. He died calmly, expressing sorrow for the crime for which he had been condemed, and commending his wife and children, as also the wife and children of the man he had killed, to the charities of the good.

☞ John Kavanaugh, employed at Allen's print works, Providence, swallowed a a quantity of oil of almonds on Tuesday, as a joke, and died in consequence. He was 20 years old.

THE RIGHTS OF HUSBAND AND WIFE. A bill has passed the both branches of the New York Legislature, designed to better protect the rights of married persons. By the ninth section, the mother is recognized as the natural guardian of her children.—The tenth section gives the husband right of dower in the real estate of the wife:

Sec. 9. Every married woman is hereby constituted and declared to be the joint guardian of her children, with her husband, with equal powers, rights and duties in regard to them, with her husband.

Sec. 10. At the decease of husband or wife, leaving no minor child or children, the survivor shall hold, possess and enjoy a life estate in one-third of all the real estate of which the husband or wife died seized.

Sec. 11. At the decease of the husband or wife intestate, leaving minor child or children, the survivor shall hold, possess and enjoy all the real estate of which the husband or wife died seized, and all the rents, issues and profits thereof during the minority of the youngest child, and one-third thereof during his or her natural life.

A New York paper states that there are many istances in that city where servant girls are systematically cheated by their employees; and relates a story of an English woman, who keeps a boarding house in the upper part of the city, and regularly cheats her servant girls, never paying them any wages. Her mode of operation is this: She hires a girl for a month. At the end of three weeks the girl is suddenly treated by her mistress in a manner which induces her to leave at once, and thus forfeit her claims for wages. First she is accused of laziness; and if that does not cause the girl to leave, she is half starved and at the same time forced to work like a slave; and finally if that fails, the girl is accused of theft. This causes the indignant servant to leave the house, without stopping to quarrel about wages. The lady procures another girl through an intelligence office, and at the expiration of three weeks the new comer is likewise made a victim of this heartless woman.

CHILDLIKE INNOCENCE.—In a town not a hundred miles from Boston, a bright little girl of five years was recently standing by a window, busily examining a hair which she had just pulled from her head. "What are you doing, my daughter?" asked her mother, whose curiosity was excited by her eager gaze. "I'm looking for the number, mamma," said the child; "the Bible says that the hairs of our head are all numbered, and I want to see what the number is on this."

DESTRUCTIVE FIRE.—*Independence, Mo. Mar.* 30.—A fire broke out here at 11 o'clock last night, which consumed nearly the whole south side of the city. Among the buiblings burned are Independence Hotel, two drug stores, ten or twelve business houses, and several dwellings. Loss 100,000.

MARRIED.

In Wyandott Co., Kansas Territory, March 9, FRANK H. BETTON, Esq., son of the late Thornton Betton, Esq., of Derry, N. H., to SUBANNAH, daughter of MUELLATER, Chief of Wyandott Nation.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.

Ladies' Home Magazine.

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

Here's Health for the Million!!

CLARKE'S SHERRY WINE BITTERS

Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horror-dealing disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of 25 cents for a pint bottle.

25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

CHEAP FOR CASH

At 24 Market St. J. C. CARR

From the N. H. Gazette.

The Election in this City, Once More.

We are sorry to say that our statement of the causes which produced the defeat of the Democratic party of this city at the late election, has wrought up our amiable though slightly irascible *abolition* friend, Amos S. Alexander, Esq., "Chairman Dem. Com. Ward 1," to a high state of excitement, which might have been attended with dangerous consequences to himself but for the opportunity afforded him to "blow off" through the columns of the Chronicle. In a communication which appeared in that paper last Monday, he has assailed us in a style peculiarly his own, and which it would be hard for a Billingsgate fishwoman to beat.

Of course we cannot stoop to bandy blackguard epithets with our excited friend. We deemed it our duty to state the causes, correctly and explicitly, of our defeat, in order that our friends abroad might know why we failed, and those at home should be put on their guard against suffering such fatal errors to be committed in future; and we have now only to re-affirm our statements as substantially true in all their length and breadth. We did not intend to imply, in our allusion to the municipal election last fall, that *all* the candidates supported for the city offices were improper or obnoxious men, and no one of course really so understood us. In speaking at the time of our failure then, we distinctly attributed it to the management of two or three individuals only; and, although we indulged in no personal allusions, all knew who was meant from the prominent parts which the persons referred to performed, and Mr. Alexander's effusion shows that he is fully sensible who one of them was.

As we have stated, the Committee of which Mr. Alexander signs himself Chairman was a self-appointed body, having no proper authority to act for the Democrats of Ward 1; as we have stated, it is to the action of this Committee, under the dictation of the individuals to whom we have referred, that the Democracy of Portsmouth are indebted for their defeat, both last fall and this spring. The caucus at which this Committee was chosen declared for Douglas, and it was the boast of the men who composed it that they had taken the management out of the hands of the old leaders, (who were guilty of no other offence than keeping the party in the ascendency,) and that thenceforth they were to have no voice in the management of the party affairs, and that none were to be nominated for office who did not sympathise with these new leaders. This idea the Committee carried out to the fullest practicable extent, nominating, as we have said, the most obnoxious men of the Douglas faction for office in the city government, thus improperly making Douglasism an issue in our municipal election, and when these men were once defeated, pressing them forward for a second trial, again to fail; and after all this, bringing them out for a third defeat and effectual overthrow of the party this spring. Such management would defeat any party anywhere, and of course it could not fail to defeat the Democratic party in a ward which has no Democratic votes to spare, and in a city where the loe is strong and untiring.

Success under such circumstances was impossible. But, we repeat, the failure will work future good. It will be a long time before a reckless and rampant no-country abolitionist, a ribald reviler of of an able and faithful Democratic administration, a retailer of the slang epithets applied to the Democratic party by the blackest Republican papers, and a blackguard generally, will again be suffered to occupy a position by stealth to defeat the Democrats of Portsmouth at two successive elections.

From the Journal.

We last week published a card by the Treasurer of the Howard Benevolent Society, acknowledging the receipt of Fifty dollars from New York. The check was forwarded, and this week came back endorsed by the Cashier, from the drawer being known at the Bank. This is a piece of low knavery of the meanest kind—subjecting the Society to expense of a protest, without one redeeming feature to gratify the hoaxing simpleton.

We would take this occasion to say that the funds of the Society are low.—no concert, address or fair having been given this year, from which to aid. There are many sick and infirm who need aid through the summer as well as winter, and the Society must aid them.

EXAMINATION AT THE STATE REFORM SCHOOL.

Saturday the yearly examination of the School connected the House of Reformation took place under the supervision of the Superintendent, Brooks Shattuck, Esq. For nearly five months the season has prevented the boys from labouring on the farm, and as the institution has no work shops of any kind in which they can labor, Mr. Shattuck has directed their time and attention to the studies of the school room. The examination showed that the winter session had been profitably employed.

At the close of the examination remarks were made by the trustees, clergymen, and other gentlemen present. Among the wants of the institution alluded to and which we know that every visitor will appreciate, is that of a substantial work-shop in which the boys can be employed a portion of the time during the cold season; as it now is, for six months in the year the boys have no opportunity to manual labor, or any kind of discipline more important than that of the school.—Mere knowledge to these lads a very doubtful acquisition, if they do not at the same time acquire the capacity to labor in a useful occupation and have the discipline given by labor in some useful employment. We hope the Legislature will make provisions to secure this end.—*Manchester American.*

"SELL, SARDINE," &c.—If our good neighbor can see no moral difference between popular lottery gambling, and disposing of a job by lot instead of underbidding, all we have to say is—*he is one to a thousand.* The 999 need no argument—and as to the other, it is useless, for

"A man convinced *against his will*
"Is of the same opinion still."

Spring Styles—1860.

IRA B. FONDA, 18 Market St.
Having just completed repairs of Store by which it is enlarged and otherwise greatly improved, will open On MONDAY, April 2, a new and desirable Stock of

to which he would call the attention of *Purchasers.*
March 31.

Assessors' Notice.

THE inhabitants of the City of Portsmouth are hereby required as the law directs to exhibit to the Assessors of said City a list of their true account of their estates taxable by law, on or before the 17th day of April next; and all persons who do not comply with this advertisement, by handing in an inventory of their taxable estate and making oath to the same, will not expect any abatement. The Assessors, City Clerk and Secretary to the Board of Assessors as Justice of the Peace, or any of the Justices of the Peace, are proper persons to administer the Oath, and each individual making his inventory should have an endorsement on the same certifying that it has been duly sworn to, and the same to be handed to one of the Assessors or left with the Secretary at the City Clerk's Office, State street, on or before the sixth 17th day of April next.

Portsmouth, March 31, 1860.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by ancestral disease, low living, disordered or unhealthy food, the use of fish and filthy habits, the depressing vices, and, in short, all the general infection. Whether be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and mesenteric glands, are termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other disease; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system, purify and invigorate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this and everywhere prevailing and fatal malady. It is composed of the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the restoration of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, BLAINS, BOILS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, TETTER OR SALT RHEUM, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "purifying of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this compound is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or escape them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting the disorders which lurking in healthy vitalities. As a consequence of their properties, the invalid who is bowed down with pain or languishing in sickness, disabled to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dropsy, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients it is announced with full confidence that its wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons painfully known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is soon manifest to the sagacious, and where its virtues are known, the public no longer hesitate what antidote to employ for the disorders and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies that have long the community to fatal ills have been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, 7 YEARS PRINCIPAL EXAMINER OF CLASSES,

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers for Securing Patents, executed on liberal terms, and with despatch. Research made into American or Foreign Patents, to determine the utility and validity of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of any Patents, any Invention or Improvement for One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it business can be done more for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be had elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense patronage received by the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."—CHAS. MAGNIN, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, *February 5, 1858.*

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability in his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1860. R. H. EDDY.

Ayer's Sarsaparilla.

" "	three months,	30.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of sales, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements received at any time, if duly authenticated and authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers. And less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter, or on the floor near the door. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessarily left out, she held to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ S. R. Niles, (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

THE BEWITCHING BEAUTY.

"I saw a glorious beauty in her face,
And with her breath the dull perfume the air,
Sacred and sweet was all I saw in her."
—Shakspeare.

"The fire of her eyes dazzles the two worlds."
—London Journal.

THE BEWITCHING BEAUTY,

Which is embodied in the exquisite proportions and luminous coloring of

TITIAN'S RECLINING VENUS,

Has for two centuries been the admiration of all beholders. Artists, connoisseurs, and the public will therefore by glad to learn that a magnificent Engraving, colored in oil, of the

VENUS THAT ENCHANTS THE WORLD,

Has been issued by the undersigned, at a price which places it

WITHIN THE REACH OF ALL.

Our Engraving is the only authentic copy ever published in America, of the

GEM OF THE DRESDEN GALLERY,

For which the government of Hanover paid

FORTY THOUSAND DOLLARS.

It represents the Goddess reclining on a couch and radiant with celestial loveliness. The warm lights and soft shadows which lend such a strange fascination to all the undraped divinities of Titian, are admirably reproduced in this picture, and the accessories, both in the foreground and background, enhance the general effect.

This picture is splendid without goadiness, warm without prurience, and brimful of the very soul of art. [New York Express.

It is the best piece of flesh coloring ever executed in this country. [New York Leader.

Engraver and colorist have produced a work of art that has the Titian tone, as well as the fault! ben outline of the bewitching original. [N. Y. Mercury.

The drawing, coloring and finish are beyond praise. [N. Y. Atlas.

It deserves a place in the "porte feuille" of every admirer of the fine arts. [N. Y. Sat. Press.

READER—Inclose $2, and 16 cents in stamps, and you will receive by return mail, a gem of art, with an elegant gift.

A LIBERAL DISCOUNT TO AGENTS AND THE TRADE.

A really valuable GIFT OF JEWELRY is presented with the Engraving. Address,

DAYTON & CO.,
American and European Engraving Warehouse,
No. 37 Park Row, New York.

All persons wishing to sell or purchase Real Estate or Stocks, are solicited to call.

MONEY

To loan on good City Mortgages and Farms, in sums to suit customers.

Money wanted to loan on the best of Mortgages and Securities. All persons following money to loan, or wishing to hire money, would do well to call, as all transactions are confidential if desired.

Uncurrent money bought, sold, and exchanged.

JOHN S. HARVEY,
Real Estate and Stock Broker,
j7 11 No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in confidence and truth, of it, what we have not to any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we meet with a dissatisfaction by any one who trary, all are delighted with its operations, and speak in terms of highest praise of its medicinal effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and a perfect fulfilment of what we here declare. In almost every instance where the infant is suffering from pain, a single dose is administered.

This was the prepared prescription EXPERIENCED and in New England and has been used with great success, in OF CASES, THOUSANDS the child from pain, but it also relaxes the bowels, corrects, acidity, and gives tone to the entire system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe of the MOST DISTRESSING TEETHING AND DIARRHOEA IN CHILDREN, whether it arises from teething, or from other causes. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own children suffer, or the prejudices of others,* stand between your suffering child and the relief that will follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

MAJOR HOOPER & SON,
10 and 12 Water St.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely required to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that we have bitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if that be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all other, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

J. B. WIGGIN & CO.,
Green St., Portsmouth.

Portsmouth, March 1st, 1860.

PRINCE & CO'S

Daily Morning Chronicle

VOL. 16. PORTSMOUTH, N. H. TUESDAY, APRIL 3, 1860. NO. 53.

Morning Chronicle.

LET THE STOMACH HAVE ITS CRAVING.—In the diseases produced by bad food, such as scorbutic dysentery and diarrhœa, the patient's stomach often craves for and digests things, some of which certainly would be laid down in no dietary that ever was invented for the sick, and especially not for such sick. These are fruits, pickles, jams, gingerbread, fat of ham or of bacon, suet, cheese, butter milk. These cases I have seen not by ones, nor by tens, but by hundreds. And the patient's stomach was right, and the book was wrong. The articles craved for, in these cases, might have been principally arranged under the two heads of fat and vegetable acids. There is often a marked difference between men and women in this matter of sick feeding.—Woman's digestion is generally slower.—*Florence Nightingale.*

GOD'S CONTRIVANCE FOR CHILDREN. Then, too, being fathers and mothers has a wonderful influence; it is one of God's contrivances in behalf of little children.—He takes care that there shall be a blessed inconsistency between a mother's head and a mother's heart, between a father's creed and a father's love; and so through God's love in them, and their parents' love surrounding them, the little ones get a chance for a joyous childhood, unless in the midst of very unhappy outward circumstances.

CALUMNY.—The aspersions of calumny will not adhere permanently to your character, unless they find it in some ground of adhesion. When, therefore, you are assailed by slander and obloquy, suffer that which will not stick to fall to the ground of its own accord; and as to the rest, mend your own character.

P. P. P.
PARK'S PRICKLY PLASTERS.
They impart strength; they annihilate pain.
Park's Patent Porus Prickly Plasters Are Sold by all Dealers From 1 to 25 Dimes.
THESE DELIGHTFUL PLASTERS yield readily to the motion of the body; absorb perspiration, and throw off all the offensive coagulated impurities of the system. They should be used for all Chronic Pains, Faintness, Dyspepsia, Colds, Consumption, Rheumatism, Female Weakness, etc. They retain their active properties when other Plasters are useless, and where applied *pain cannot exist.*—Every family should have them.—One size on cloth, three sizes on leather. Sample sent by mail, on receipt of twenty-five cents.

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.
Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.
In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated
If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.
Patronize your own.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN:
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all Nervous Complaints.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Bickford's Spring Balance,
for Window Sashes, to take the piece of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, JR.
SHOP, OVER MERRILL & FERGUSON'S BLACKSMITH SHOP, OPP. NEW CUSTOM HOUSE.

Ayer's Cherry Pectoral.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 3, 1860.

☞ In the extensive revivals going on in Great Britain and Ireland, there are experiences somewhat similar to spiritual manifestations and mediumships. Multitudes are affected by the invisible power; some speak with tongues they were not known to possess before—the ignorant breaking forth in the most impassioned eloquence, while others become senseless and inanimate. It is reported that the Catholic priests of Ireland have profited by the revival by selling charms to protect their people against its influence. Bottles of holy water, blessed by the priest, and worn on the person, are warranted to prevent an attack of the revival, which seems to be looked upon as a sort of contagion. Some of the priests have taken large sums for these antidotes. A poor servant, who had bought one of the charmed bottles for a shilling, stole into the room of his Protestant master, and shook it over his head while at prayers, to prevent his being "struck."

☞ The first promoter of the movement to reward William Cobden for his labors in behalf of commerce was a gentleman in Lancashire, who thought that the best way to show his gratitude was to present Mr. Cobden with a large sum of money. He communicated with others on the subject, and headed the list of subscriptions with the munificent sum of $5,000. The suggestion was no sooner thrown out than it was eagerly caught at, and in the space of three weeks more than £40,000 has been subscribed, the highest donation being £5000, and the lowest £500! Their generosity was stimulated by the fact that Mr. Cobden had lost all his private fortune in railway speculations.

☞ Obadiah, the droll New York correspondent of the Concord Independent Democrat, says:

The New York Herald is out again, advertising abolition books under the thin guise of friendship to the South. The Herald is worth more to the cause than an army of abolition speakers. Under the pretence of defending the South, the Herald is damaging her a hundred fold more than Phillips, Garrison, Greeley and Fred Douglas. Like a patent safe confidence man, he approaches the South as a friend and offers to show them round the town and point out the dangerous abolitionists in it, while he is robbing them of their pocket-books. While for this he is paid enormously by the publishers, and chuckles over the credulity of the South.

Speaking of the Charleston Convention, the same writer says:

A hungry politician is a very dangerous animal, and we should apprehend great danger to the tender young chattels at Charleston from such a large body of hungry, disappointed politicians, who would not scruple to make a pot pie of them or a mock turtle soup.

ARRIVAL OF THE SLOOP-OF-WAR VINCENNES.—*Slaver prisoners on board.*— The U. S. sloop-of-war Vincennes, Com. Totten, from the west coast of Africa, Feb. 4th, arrived at Boston, on Saturday. She has been absent thirty months. The Vincennes brought as prisoners the officers of the slave barque Orion, of New York, captured off the coast of Africa. She left U. S. ships Constitution and Marion, U. S. steamers Mystic and Sumter. The slavers were arraigned, held in $5000 each for examination, and committed to jail for want of securities. This case is likely to prove of considerable interest. The Vincennes has not lost a single man while on her trip.

☞ The Ceremony of taking the white veil took place in Manchester, Thursday evening, at St. Ann's church—the two young ladies who were the candidates having completed their six months' novitiate. Both are from New York, and are said to be highly accomplished. The procession of young girls, dressed in white, and wearing garlands of the "Sisters of Mercy," in their simple attire, of the two maidens about to assume vows of perpetual separation from the excitement, honors and pleasures of wordly society, were unusually imposing.

☞ London papers contain an account of the trial at New Zealand of Capt. Straker and Mr. Charles Straker, (brothers,) first officer of the English ship Snaresbrook, for the murder of an apprentice by a most systematic course of brutal treatment of the most horrible character. They beat him every day, exposed him to every hardship, and seemed to exercise all their ingenuity in designing new acts of cruelty, until at last, in the very extreme of misery, he became insane and died. The mate was sentenced to be hung, and the captain to be kept in penal servitude for six years.

☞ A Virginia postmaster has notified the publishers of the Christian Advocate and Journal, New York, that he has decided not to permit that paper to be circulated through his office. That is the kind of "higher law" believed in and carried out south of Mason and Dixon's line.

THE ANNUAL PARISH MEETING of Rev. Theodore Parker's Society, Boston, was held Sunday morning after the close of the service. The old officers were reelected. The annual report shows that the society is out of debt. It is intended to place the amount of Mr. Parker's salary for the present year on deposit, to be presented to him on his return. During the past year the pulpit has been filled forty-one Sundays, twenty six times by laymen. The present way of furnishing a supply for the pulpit will be continued.

☞ Elder Knapp, who is giving a series of lectures at Tremont Temple, Boston, says the Post, preached on Friday evening upon Universalism. Using some intemperate language, which excited the indignation of those who did not agree with him, there were some manifestations of disapprobation, and at the close, outbursts of indignation from all parts of the house. His friends responded in defence of his course, and as both parties were excited, there was fear of a more serious disturbance, but the super intendent shut off the gas, and thereby quelled the disturbance.

☞ The London Times of the 17th announces the death of M. Jullien as follows:

We hear that the eminent musician, M. Jullien, in whose behalf a subscription was being collected, is no more. He died, we believe, March 16th, in a lunatic asylum in Paris.

M. Jullien had previously attempted to commit suicide.

☞ There was a "strike" recently in the office of the Cincinnati Commercial, and three portly gentlemen walked in and offered their services at the case. These were the President of the Cincinnati and Dayton Railroad Company, the President of the Cincinnati and Zanesville Railroad Company, and the Treasurer of the Passenger Railroad Company of Cincinnati.

THE SIX THOUSAND DOLLARS sent from Boston to aid Black Republicanism in Rhode Island will be money thrown away. John Brown ism, as represented by Padlefore, will be wiped out clean by the gallant Unionists, led by Sprague. The rallying cry is "Sprague and the Union," and down with Helper-John Brown Padleford-ism.—Fling out the stars and stripes! What can $6000 do for the rag of sectionalism.—*Boston Post.*

☞ At Saragossa, during the first week of last month, an execution by *garotte* took place of three notorious highway assassins, during the performance of which a murder was committed under the very scaffold; and a silver basin, to receive moneys for prayers on behalf of the executed, was stolen with its contents.

NEW BUSINESS FOR A JUSTICE OF PEACE.—A Justice of the Peace at Weehawken, Hudson Co., recently baptised three children according to the usual religious rites. He states that the parents are Germans, and think he is empowered to do anything: and he being a Yankee, thinking it no harm to make as much possible, does it.—*Hackensack (N. J.) Jour.*

☞ Ex-President Pierce recently addressed an assemblage of over 700 guests at a complimentary dinner to the Hon. C. R. Nesbitt, Colonial Secretary of New Providence, promoted to be Lieut Governor of the Island of St. Vincent. The dinner took place at Nassau, N. P.

A sale of $192,000 worth of British dry goods to a single house, is reported to have been made yesterday, which netted a loss to the importer of $100,000.—*N. Y. Express*, 31st.

☞ A young man named Hiram Campbell committed suicide at West Cambridge, Mass., by taking strychnine. An antidote was administered, but not in season to save his life. He left a letter stating that he committed the deed in consequence of being rejected by a young lady at Milford.

NEW ORLEANS, March 31.—Ship Independence of Bath, with 3500 bales of cotton on board, has been on fire all the evening in her hold, and she will probably prove a total loss.

☞ The steamer Empire City has arrived at New York, with Havana dates of the 27th inst. Great excitement existed at Havana about the capture of the Marin expedition, and the papers denounced the proceeding as an act of war.

☞ Punch says of the commercial contest which it is supposed will now commence between France and England, though not sanguinary, it will be attended with no small drawing of claret.

☞ The Reading Chronicle speaks of an old lady 103 years of age, who mends all the clothes of her son and his family. Prentice supposes she thinks that "it is never too late to mend."

The imports of foreign dry goods at New York for the month of March are one and a half million dollars less than for the corresponding month of last year.

☞ The Deputy Marshals commence taking the census on the first of June, and are to complete it by the first of November.

☞ An English paper says Rosa Bonheur has received an offer of marriage from an American.

☞ Major F. N. Page, U. S. A., died at Fort Smith, Arkansas, on the 25th inst.

CONGRESS.

SATURDAY, March 31.

SENATE.—Mr. Doolittle presented the petition of Samuel Colt for an extension of his patent for a rotating pistol.

Mr. Fitch made a report in favor of printing the President's message, the accompanying instructions, etc., which was adopted.

The bill granting certain lots of land for the benefit of the Public Schools in the District of Columbia, was taken up and passed.

After the passage of several minor bills, the bill providing for a city railroad, between Washington and Georgetown, was taken up, after a lengthy discussion, postponed until Saturday next, and that day set apart for the business of the District of Columbia.—Several other bills relative to the District were also passed upon, when, after an executive session, the Senate adjourned.

FROM EUROPE.

The steamship Bavaria arrived at New York Sunday evening, from Southhampton on the 18th ult., and brings a London paper of that date.

Rome, Mar. 16.—This morning a great manifestation took place in favor of the Pope, at the Vatican.

Paris, Saturday.—The Patrie publishes a letter from Turin, stating that the annexation of Savoy to France had been definitely settled; and also states that the negotiations in regard to Tuscany, are in a fair way to a satisfactory conclusion.

The Emperor has received a deputation from Savoy.

Naples, Mar. 14.—Six of the Neapolitans recently arrested have been sent into exile. The others have been informed that they may remain in Naples.

Austria has expressed its disapprobation of the severe measures intended. An Austrian General has arrived.

The Ambassadors of the Western Powers have given their advice to the King upon the subject.

A Turin letter of the 13th says the Sardinian Parliament will not meet till the 12th of April. The King intends, when the expression of the wishes of the Romagnas are made to him, to deliver a speech, declaring that he postpones the acceptance for the present, adding that negotiations have been opened for the purpose of reconciling those wishes with respect for the rights of the Holy See. Unfortunately these negotiations only postpone the crisis a few days.

The annexation of Central Italy to Piedmont is everywhere accepted with the greatest enthusiasm.

This great event will be celebrated here by fetes of all kinds. At the end of the week the King will start on a tour through the Provinces which voted for the annexation.

The Paris correspondent of the London Times says "it is thought that Prince Carignan will be Governor General of Tuscany unless the Imperial idea of a separate state be carried out. There is great wrath here against the Pope. I am told His Holiness has issued another circular, still stronger than the encyclical letter, on the Romagna affair. A remark is said to have been made in a very high quarter that the Pope would, from the manner in which he is going on, soon make the famous pamphlet 'Le Pope et le Congress' a truth. This means that of all his states only Rome will be left to the Pope."

Letters from Rome say that the agitation is so great there as to render it extremely doubtful whether the French army will be able to keep it in subjection much longer.

WASHINGTON, Apr. 1.—In response to the report of the House Committee on Territories, which asserts the general principle that the acceptance or rejection of a petition for the admission of a State rests entirely on the discretion of Congress at the time of such application, Mr. Clark, of the minority, will present the following points:—That the Constitution of Kansas was not formed and presented to Congress in accordance with law, meaning the English Bill, but in derogation thereof—that it does not appear that there is within her limits sufficient population, as required by law; and further, the proposed area embraces the Cherokee Indian Territory which Congress in 1854 formally decided should constitute no part of the Territory of Kansas.

These reasons form the ground of opposition of the Democratic side to the admission of Kansas under the Wyandotte Constitution.

WASHINGTON, April 1.—A scene between two Congressmen, Saturday morning, occasioned some excitement. Mr. Van Wyck, meeting Mr. Hindman in the Avenue, held out his hand in friendly recognition, when Mr. H. refused to take it, making use of the words, as is reported, "You d——d scoundrel! you have delivered a speech not only insulting to every Southern man, but to every gentleman!" at the same time making a movement with his left hand towards Mr. Van Wyck's face, as if additionally to insult him.

NEW ORLEANS, March 21.—Marin, commander of the Mexican prize steamers, publishes a protest against their capture.—He says that neither the Saratoga, Indianola nor Wave showed colors. He knew the latter two were Juarez vessels, and supposed them to be towing armed boats to attack him. He attempted to escape, when two shots were fired at him, which he returned. As soon as he recognized the Saratoga, he ordered the firing to cease, notwithstanding which it was continued. He says he purchased steamers at Havana by order of the Supreme Court.

A strange man once went up to ——— in the street and asked him to lend him a pound. "How," said the other, "can you apply to me for such a favor? I don't know you." "O, my dear sir," replied the stranger, "it is for that very reason I ask you, for those who know me won't lend me a farthing."

EVANSVILLE, Ind., March 21.—Steamer Kate Way, with seven hundred bales of cotton on board, was burnt at Cannelton this morning.

In a prison in New York, living comfortably and securely, is a man who murdered a woman on Broadway, by shooting her with a pistol. The crime was totally unprovoked, and was committed eight months or more since. In a graveyard in New York, lies John Crummins, who, eight weeks ago only, killed a rowdy for insulting Mrs. Crummins, and trying to break up a little store which she kept to aid her husband in supporting the family. The murderer of the harlot has money. The murderer of the rowdy has none—*Boston Post.*

MUST BE SETTLED NOW!

All bills due the subscriber for subscriptions, advertising, or job work, at the Gazette Office, and all similar bills contracted with E. N. Fuller, Esq., who sold and transferred the same to me, must be paid immediately. All bills unpaid by the fourteenth instant, unless deemed utterly worthless, will be sued, and collected, with costs.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiorumenos.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters.

There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, emetics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well-known manufacturers of the celebrated "Stomach Bitters."—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 25, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. E. R. WRIGHT, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. epsot 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOLTON, MASS., June 1, 1859.

MESSRS. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a boil came, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Believe I should recover from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a repetition of the sufferings which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion, was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines have afforded me temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

MECHANIC ASSOCIATION.—Mr. Thomas Treadwell, who died last week, at the age of 80 years, was one of the original members and founders of the Mechanic Association, which was formed in 1802. He retained his membership to the time of his death; and the Association will attend his Funeral, at 2 o,clock this (Tuesday) afternoon.

There are, we understand, but two others of the original members now living, who have remained in the Association till the present time—Mr. Benjamin Carter of this city, and Mr. Hanson M. Hart now of Portland. Mr. Benjamin Akerman was also one of the first members, but withdrew from the Association many years since. These three venerable gentlemen are all who remain of the first enrolled list, in 1802.

THE GOOD OLD TIMES.—There is in this city—what we think is very scarce in any part of New England, at any rate—one place where the lovers of ye olden time can dine and feel at home. We mean the Victualling Cellar of Mr. J. G. Rand, at the Spring, where the innovation of the cooking-stove is unknown, and the meat and poultry yet smokes, simmers and steams on the spit in the veritable tin-kitchen before the open fire-place. The moderns don't know how to appreciate a turkey cooked in this way, till they try it; but your old-fashioned gent would smack his lips to see the sight once more. By the way, this is about the only eating-house proper we have in the city, save the hotels and oyster saloons; and the hungry can always get well served there. If our "old-fashioned comforts" friend of the Exeter News Letter will come down and see us, we will order an editorial *goose* served up there for the occasion.

WARM FOR THE SEASON.—On Saturday the mercury was up to 75°, and winter clothing became oppressive.—*Newburyport Herald.*

If March didn't come in like in a lion, it is going out in a lamb-like manner. The weather is positively praiseworthy.—*Manchester American.*

Yes, but presto, change! And what a change, too! Thermometer, Monday morning, below 30°—more than 45 degrees variation in one day. People should be built of white oak, and copper-fastened, to stand the shocks of such a climate.

"All Fool's Day this year came on Sunday, which prevented the playing of many foolish pranks," says an exchange. No doubt—but we don't see how there could well be more complete "fools" than the weather made of those who thought Summer had come.

☞ We very often have notices of "Lost" articles sent us, stating that "the finder will be rewarded *by* leaving the same at," &c. Now on the principle that "virtue is its own reward," (which we won't here discuss) this is no doubt correct; but as the writers evidently intend to offer a more tangible inducement, we usually change the word "by" to *on*, which will be seen to express quite a different meaning.

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

CONNECTICUT ELECTION.

HARTFORD, April 2—1 P. M.—There is great excitement here relative to the election to-day, and the vote will be the largest ever cast in the State. Both parties feel confident of victory.

WATERTOWN, April 2.—This city is quiet, with but little excitement. The whole vote, so far, is 660, the Republicans being 29 ahead.

NEW HAVEN, April 2—1 P. M.—The voting so far has been the heaviest yet known in this city. The city has generally been quiet, except in the third ward where the German Republicans were driven from the polls. The Democrats are ahead 200.

BY TELEGRAPH TO THE CHRONICLE.

HARTFORD, April 2—9 P.M.—The Democrats have gained over 1300 in the few towns heard from.

MIDDLETON, April 2.—The vote polled here to-day was the largest ever thrown.—Seymour's (Dem.) majority 290. Two Democratic Representatives elected. Four other towns give Seymour 438 maj.

HARTFORD, 10 P. M.—*Courant Office.* Hartford county gives Buckingham (Rep.) 7956, Seymour 8268—four towns to hear from; Republican loss 361. Two Democratic and one Republican Senator. Republicans gain two Representatives. Buckingham believed to be electec.

Hartford Times Office.—Thirty-seven towns and cities give a net gain for Seymour of 1641.

NEW HAVEN, 10 P. M.—*Palladium Office.*—In 35 towns, over half the State, Buckingham is over 1000 ahead. This includes the heavy majorities in most of the Democratic districts. The House is Republican by an increased majority, and the Senate is probably the same.

NEW YORK, April 2.—A Washington dispatch says Messrs. Covode and Sherman are threatened with assassination unless they desist from pressing their inquiries into the alleged corruptions of the administration.

NEW YORK, Apr. 1.—The Herald's Washington Correspondent says that President Buchanan was served with all the testimony in possession of the Covode Investigating Committee touching himself, before he had prepared the protesting message.

The Harper's Ferry Committee have decided not to subpœna ex-Governor Wise, of Virginia, he having furnished them with all the facts within his knowledge touching Brown's invasion of Harper's Ferry.

They have not decided what action they will take in regard to John Brown, Jr., who refuses to obey their summons.

DISAPPEARANCE OF THE BOY DOYER. In regard to the boy Doyer, in the employ of Plumer & Co., Boston, who disappeared with funds of the firm to the extent of about $1000, which he had been entrusted with to deposit, the Traveller says not the least trace can be found, though a thorough search has been made.

MARRIED.

In Kingston, Wm. C. Patten, Counsellor-at-Law, to Miss Sarah Ann Weare, both of K.

DIED.

The funeral of Thomas Treadwell, Esq., will take place at the Middle st. Church this (Tuesday) afternoon, at 2 o'clock. Friends are invited.

In South Eliot, Me., 28th ult., Mr. SAMUEL SPINNEY, aged 74.

Here's Health for the Million!!

CLARKE'S SHERRY WINE BITTERS

Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N.Y

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D., Physician Extraordinary to the Queen.

This well known celebrated female Pill is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times. *Ladies' Home Magazine.*

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than it burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

KEROSENE! KEROSENE!!

Of the purest quality, almost odorless—made by a new manufacturing company, who have succeeded in producing a very superior article, both for quality of flame and freedom from smoke.

KEROSENE LAMPS,
KEROSENE CHIMNEYS,
KEROSENE SHADES,
KEROSENE WICKS.

COMMON LAMPS fitted to burn Kerosene.

WORTHY OF
Universal Confidence and Patronage.
FOR STATESMEN, JUDGES, CLERGYMEN.

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

Inward it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her she, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,
BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Stamston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair good. A man or woman may be bald, or have a few gray hairs, and may be bald, or have a few gray hairs, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever, at least that is my experience. Believe it all! Yours truly,
WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes: viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty cents more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Headache and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c. &c. This compound has been proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Cancerine** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 38 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use it freely.

I know the above testimony of my wife with regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RUCKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with any complaint, as I believe they are the best medicine in my knowledge. ELIZABETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish to give testimony to them, and to all others affected, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable remedy. I have found nothing like it to give relief so quick. Let every suffering preacher take a phial and try it. Eld. EDWIN BURNHAM.

EXETER, July 30, 1841. "I have found Dr Swett's cough drops to be the most efficacious remedy for Coughs, and for any other complaints of the Lungs, many medicines with which I am acquainted.
NANCY F. JONES.

CANAAN, Aug 29, 1850. "This certifies that we have found great relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together
SAMUEL CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disorders of or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" insomuch, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and indeed all of the organs, arise from, or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active vegetables that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERYPTIVE AND EXPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, HOBS OR ST. ANTHONY'S FIRE, and DISEASES OF THE LIVER, and of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth. Disease is, in a jenneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Purging moderately, they cure by sympathetic influence, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. Cases are known of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of ever-body, but also more formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dropsy, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases to the blessings by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. While many inferior remedies thru-t upon the community have failed and been discarded, this has gained by its use, every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec20 6m d&w

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, [illegible] 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on the shortest notice, and dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions, and other subjects referred to all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it Inventors have advantages for securing patents unsurpassed by any, if not immeasurably superior to, any which can be offered them elsewhere. The Subscriber does not propose that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE MEASURE OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for procuring patents so much less, and the immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved Inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which Patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors who apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at the reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

Ayer's Sarsaparilla.

" "	three months,	30.

Business Cards, of not more than half a square, $6 per year.

All bills settled quarterly or semi-annually.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates for transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion. "Special Notices," 6 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the county.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 5 in the evening to receive advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the box in the street door after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. Papers will be left open at the time of delivery, to be placed on the counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessarily left out, the bell to be rung.

Subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss of any kind or expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ **S. R. Niles,** (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the food globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory. These deficiencies, if there, are GIVEN PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for Debility, Loss of Sleep, Loss of Flesh, and all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and enters immediately into the circulation, so that what you gain you retain. The No 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special advertisement of this. FOR SALE RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has no equal—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL, this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Uncurrent money bought, sold, and exchanged.

JOHN S. HARVEY,
Real Estate and Stock Broker,
No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay AIL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and ten years, *and can say, in confidence and truth,* on it, what we have never been able to say of any other medicine. IN NO INSTANCE HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, or did any child injured by any one who tried it. On the contrary, all are delighted to speak in terms of the highest commendation of its MAGICAL EFFECTS and medical virtues. We speak, in this matter, *what we know, and pledge a fulfilment of what we here declare.* In almost every instance where any child has been sick an hour or two, the infant is suffering from pain and exhaustion, and in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED AND SKILLFUL NURSES in New England and has been used with *the utmost success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not specedily remedied, end in death. We believe it the best and surest remedy in all cases of DYSENTERY AND DIARRHŒA, IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from the pain and exhaustion *attendant on teething, or the prejudices, or the prejudices* of others, stand between your suffering child and the relief that is ABSOLUTELY SURE to give it. Do not let your own *dives of others,* stand between your suffering child and the relief that is ABSOLUTELY SURE to give it, the moment it is used. Full directions each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st., New York. *Price only 25 cents per bottle.*

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who cater to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the Clipper line of Plows, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have been at great pains to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertion, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

J. B. WIGGIN & CO.,
Green St., Portsmouth!
Portsmouth, March 1st, 1860.

Morning Chronicle.

Where there is one extreme, there are always two. Where some are found who will not govern at all, some will push government beyond all bounds. Home becomes a prison. The children are slaves. The buoyant freedom of childhood is tutored and talked and whipped into the dull propriety of a doll. Gay laughter is hushed. To run and fling the arms, is ungraceful. To show a heart of glee, running over with wild but harmless language, is not befitting the child of solemn parents. So all the bloom of childhood is rubbed off; all its elasticity is extracted; and that the child may be a prodigy, early lessons are forced upon it; and it is brought up as God never meant it should be, and as only foolish men wish it to be—an infant mannerist—an infant hypocrite—an infant student—an infant; in short, a prodigy—a monstrosity.—*Beecher.*

A good story is told of John Van Buren. He had taken some technical legal advantage, by which his opponent's client in a case was non-suited. The man was furious, and declared his purpose to give John a piece of his mind when he saw him; he would *wither* him. Happening to see John one day at Downing's, standing at the bar, getting outside of a dozen of New York Bay's, he boldly confronted the Prince, and being a small man, looked up at him fiercely, and burst out, "Mr. Van Buren, is there any client so low and mean, or any case so nasty, that you won't undertake to defend him in it?" "I don't know," said John, stopping to put away another oyster, then bending down and confidentially drawling out his reply in the little man's ear, "*what you been doing?*"

☞ The Portland city election takes place to-day. The Democrats have made a fair nomination in presenting Judge Howard. Hon. Jedediah Jewett, who has been Mayor for three years, is the Republican candidate.

They had a Patti mania in Baltimore—they had "Patti hats," "Patti segars," "Patti neck-ties," and an enthusiastic restaurant keeper actually advertised "Oyster Patties."

The printers of New Jersey boast that there is not a single printer in the prisons of the State, and but one in the legislature.

P. P. P.
PARK'S PRICKLY PLASTERS.
They impart strength; they annihilate pain.
Park's Patent Porus Prickly Plasters Are Sold by all Dealers From 1 to 2 Dimes.
THESE DELIGHTFUL PLASTERS yield readily to the motion of the body, absorb perspiration, and throw off all the offensive coagulated impurities of the system. They should be used for all Chronic Pains, Faintness, Dyspepsia, Colds, Consumption, Rheumatism, Female Weakness, etc. They retain their active properties when other Plasters are useless, and where applied *pain cannot exist.*—Every family should have them.—One size on cloth, three sizes on leather. Sample sent by mail, on receipt of twenty-five cents.

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.
Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.
Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This combination is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.
Weakness.
The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.
Nervousness.
Weakness, with over-exertion, is generally the effect of this horror-depicting disease. Use DR. CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.
Broken Down Constitution.
Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.
Try them!
All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of 25 cents for a pint bottle.
25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1.25 for 4 qts.

CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.
Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.
In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated
If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.
Patronize your own.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, APRIL 4, 1860.

GLOUCESTER FISHERMEN.—The Boston Bulletin has published a *large* statement of Gloucester Fishing Vessels, viz. about four hundred vessels, averaging ninety tons. But the Gloucester Telegraph corrects it and says:—

In the height of the season last summer, there were but 322 schooners hailing from Gloucester Harbor, of twenty tons and upwards. Of this number, 234 were employed in Bay fishing, and were manned by 2943 men, and 131 boys; 67 were engaged in shore fishing with 491 men and three boys; and the balance (21) were freighting or coasting, employing 77 men—making a total of 3511 men and 134 boys.—The aggregate tonage of these schooners was 23,882 83 tons, averaging 74 16 each. This was far above the average of any previous year.

In addition to the above there were ten or a dozen vessels which came here from other places, (part of them chartered) for the purpose of fitting, and most of them were at the Bay.

The Annisquam fleet comprised thirty-five schooners, eleven of which were employed in Bay fishing, twenty-one in shore fishing, and three coasting. They employed 245 men and boys. The aggregate tonage was 1879 81 tons and the average was 53 67 tons—much below the average of the Harbor fleet.

The increase has not probably exceeded fifty vessels since. Deducting losses and changes, the fleet will not be materially larger this year than heretofore.

NEW YORKERS TROUBLED WITH DISHONEST GROG.—The New York Commercial Advertiser says the extensive adulteration of liquors offered in the New York market as pure, and the introduction of poisonous ingredients into those which are pronounced healthful, may well excite alarm, and call for the attention of the Legislature. Why there is so much brain fever, delirium tremens, and so much sudden death among the young men in New York, who indulge at the bar, cannot be explained upon any common principle. An expert chemist bo't of an importer a bottle of what was called genuine champagne. Analyzation proved it to contain one-quarter of an ounce of sugar of lead! The same gentleman analyzed sixteen samples of wine—Port, Sherry and Madeira—in which not one drop of the juice of the grape was found. The base of the Port wine was diluted sulphuric acid, colored with elderberry juice, with alum, sugar, and neutral spirits. The basis of the Sherry was a pale malt, sulphuric acid from bitter almonds, with a percentage of alcoholic spirits from brandy. The Madeira wine was a decoction of hops, sulphuric acid, honey, Jamaica spirits, etc.

The highest Order that was ever instituted on the earth, is the Order of Faith. This chapter is the portrait gallery of the Book; and from it look down upon us the memorable names of remote antiquity. Of the earlier heroes, a little is gathered; of the earliest, nothing. Adam is left out. But why should he be included? Let them answer who think Adam was so perfect a man—who think he was the type and ideal of the final man. What word did he ever speak, or what manly thing did he ever perform, before or after his fall, that was thought worthy of a record? He has a name in the Bible, and that is all. His name is coupled with one event, and that is all. Besides that, his life seems to have been barren, and worth not one word of recognition. Such was the man who is supposed to have been perfect, and from whom the whole race have descended. The race has come *up hill* every single step from the day of Adam to this!—*H. W. Beecher.*

This does not accord exactly with the old couplet in the New England Primer,—

In Adam's Fall
We sinned all.

☞ Willoughby states in his work on Ornithology, that a friend of his possessed a gander eighty years of age, which in the end became so ferocious that they were forced to kill it, in consequence of the havoc it committed in the barn-yard. He also speaks of a swan three centuries old, and says that several parrots are said to have attained from one hundred to one hundred and fifty years.

FOR MECHANICS.—Avoid giving any long credit, even to your best customers—A man who pays easily will not thank you for the delay; and a slack doubtful paymaster, is not too valuable a customer to dun sharply and seasonably. A fish may as well attempt to live without water or a man without air, as a mechanic without punctuality and promptness in collecting; it is folly to attempt to keep or get up business by deferring collection. When you lose a slack paymaster from your books, you only lose a chance of losing your money, and there is no man who pays more money to lawyers than he who is least prompt in collecting for himself.—*Ex.*

CIVILIZATION VS. COMFORT.—Franklin well describes the difference between them when he says:

Savages, we call the Indians, because their manner of life differs from ours. Our laborious manner of life, compared with theirs, *they* esteem slavish and base; and the learning on which we value ourselves, they regard as frivolous and useless.

☞ There is nothing like decaying bones for all sorts of fruit trees.

IN CONNECTICUT, Gov. Buckingham is elected without doubt.

Both branches of the Legislature are Republican by decided majorities, the House by an increase over last year. This result ensures a Republican U. S. Senator.

It has been one of the hardest fought political battles ever witnessed in the State, and the Republican triumph is complete.

The House is Republican by nearly two-thirds. The Senate, by returns and estimates, stands 13 Republicans and 8 Democrats. If the towns to be heard from come in the same as last year, Buckingham, rep., will be elected by about 1000. The total vote in Connecticut last year was as follows;

Buckingham, rep.	40,239
Pratt, dem.	38,369
Rep. plurality	1,870

PREMATURE FUNERAL.—*The Coffin Smashed and the Corpse Comes to Life.*—A singular affair occurred at the negro settlement known as Hog Neck, near Cleveland, Ohio. An old negro, familiarly known as Old Jakey, died (apparently,) and his body was put in a rough pine coffin, which was placed in a wagon, and the procession—an unusually large one—moved towards the grave. While on the way the horse attached to the wagon containing the coffin took fright and broke into a mad run, upsetting the wagon and throwing the coffin out. It rolled down a small hill, being badly smashed on its way. The mourners rushed to the spot, and were vastly amazed to see Old Jakey arising from among the ruins of his coffin and staring stupidly round. His inky black face, snow white wool and white shroud formed a startling picture, turning the amazement of the colored mourners into fright, and they all took wildly to their heels. Those who have seen Mr. T. D. Rice as the Virginia Mummy can form a faint idea of the serio-comic tableau.

As soon as Old Jakey recovered his senses, he lay down on the ground, and yelled lustily for the mourners to come back.—They came at length, cautiously—one by one—and the old fellow was carried home. He was very well next morning, and don't intend to die for some time yet.

☞ The Scientific American says, "Calf skin leather, instead of improving in quality with age, when made into boots deteriorates rapidly. It is subject to a species of dry rot—and in the course of three years becomes as tender as a piece of brown paper. Cow-skin and kip leather do not seem to be subject to this rapid deterioration; but all kinds of calf-skin, even the very best French is just as subject to it as the poorest qualities."

Speaking of the late extempore Union Convention, Tom Lardner says, as a naturalist, it seems to him that these very venerable and interesting specimens of web-footed ornithology, are hatching their goslings rather early in the season, without sufficient regard to the possible frosts, which may yet affect unpleasantly the health and happiness of their callow offspring. But then, as Tom very justly remarks, *they ought* to know better than all the world besides, the proper time for *incubation*; for most certainly they have sat upon, brooded over, and addled, more eggs, in the various and ever-changing political nests, which they have constructed within the last half century, than all the migratory birds, which fly annually from Labrador to the Gulf of Mexico.—*Boston Post.*

RUMORED CUSTOM-HOUSE FRAUDS.—The Traveller says the Surveyor of the Port of New York, with his private secretary, sailed in the steamer of Saturday for Europe, at about an hour's notice. It is said this sudden trip to Europe has reference to recently discovered frauds perpetrated between English exporters and American importers. More than this is not disclosed to the public at present.

☞ We notice by the circular of J. E. M. Gilley, the Boston Stock Broker, that the Bank dividends, together with those of the Insurance Companies, and interest paid on the Bonds in Boston in April, will reach the sum of three millions of dollars.—The forty banks in Boston divide in the aggregate 146 per cent., an average of 3.6 per cent. semi-annually.

COMPETENCY OF WITNESSES.—In the Police Court, Cambridge, Mass., on Monday, two boys who were arraigned for breaking and entering the saloon of Wm. Whitten, Bridge street, escaped the punishment in consequence of the incompetency of the proprietor of the place to appear as a witness, avowing his disbelief in the existence of a God.

☞ Evidence has been produced in the case of the sloop Spray, that a cry of murder was heard from on board a vessel off Norwalk Islands, and subsequently the report of a pistol. This corresponds with the statement that the Spray was at anchor in that vicinity. The Sound in that neighborhood will be dragged for the bodies of the murdered men.

☞ A letter from Rome states that the Rev. Theodore Parker does not improve in health.

No dust affects the eyes like gold dust, and no glasses like brandy glasses.

CONGRESS.

MONDAY, April 2.

Mr. Hunter, from the Finance Committee, reported back the Indian appropriation bill with amendments.

Mr. Davis's territorial resolutions were called up, when Mr. Saulsbury made a speech in opposition to the Republican party and its prospective nominee, Seward.

Mr. Ten Eyck argued against the extension of slavery into the territories.

Mr. Brown defended himself from charges of departing from party usages and interpolating new rules, and cited a case where Congress, by direct legislation, in 1834, protected slavery in Florida.

Mr. Wigfall held that the people of a territory could not admit or reject slavery.—He was opposed to starting new questions at this time, and would therefore vote for Mr. Davis's instead of Mr. Brown's resolutions, although he regretted any having been introduced. Adj.

HOUSE.—Mr. Morse ineffectually endeavored to introduce a bill to prohibit the Chinese Coolie trade in American vessels.

A bill was introduced to suppress polygamy in Utah. Considered.

After a lengthy debate the House adj.

The principal clause of the polygamy bill introduced by Mr. Nelson of Tennessee, and said to have been written by Judge Nelson of that State, extends to all territory and other places where the U. S. government has jurisdiction, and fines each party not more than five hundred dollars, and imprisons each party not more than five years.

The Douglas men, desirous of escaping the infringement which this bill makes upon popular sovereignty, have prepared a substitute which divides Utah, attaching a part of it to the new territory of Jeffersonia, a part to New Mexico, and another to a territory to be called Nevada, and giving to each of these territories jurisdiction in cases of polygamy.

Mr. Branch of North Carolina has prepared still another bill, repealing the law which makes Utah a territory, and making a new government there.

These bills will be up for action. The Republicans will support Mr. Nelson's bill, and if enough South Americans also support it, it will pass.

SEEKING NEW FISHING GROUNDS.—Some of the fishing firms of Gloucester intend to fit out a vessel to try the Mackerel Fishery in the North Sea or on the coast of Norway and Sweden. It is well known that Mackerel are found in abundance on those coasts at some seasons of the year.

IMPORTANT DISCOVERY.—It is announced that Professor Greenough of New Orleans, has succeeded, after much investigation, in impregnating common burning fluid or camphene, with carbonic acid gas as a neutralizing agent, which, leaving the inflammable nature of the fluid unchanged, makes it unexplosive, and consequently harmless.

☞ In the St. Louis breach of promise case, Carstang vs. Shaw, the jury on Saturday returned a verdict for the defendant. A motion for a new trial was made, and if it is refused, the case will be taken to the Supreme Court. This is the case where $100,000 was awarded to the plaintiff on the first trial.

☞ The Chinaman on first reaching New York, for the murder on the sloop Spray, wept bitterly when Capt. Leete's mother and sister appeared in Court last Saturday. It seems the red spots about the sloop and under the Captain's berth were produced by a keg of vermillion paint.

ANOTHER SWINDLING CASE AT SALEM.—The Traveller has information of another swindling operation among parties doing business in Salem, by which a number of dry goods firms in Boston have been bled to the amount of several thousand dollars. The full facts have not yet come to light, but it is rumored that a criminal prosecution is on the tapis.

☞ A most distressing case of small pox has proved fatal in Northfield, in the death of Daniel Crosby on the 23d ult., and who was buried in silence the same night. His wife lies at the point of death of consumption, and his three little daughters who were removed from home, plead in vain to see their parents.

☞ It is proposed in Lynn to establish two or more joint stock associations for the manufacture of shoes. The plan is to fix the shares at ten dollars each, so that a journeyman can take one or more shares, paying for a portion or all of the same in labor. About $6000 has already been subscribed.

☞ The new Pemberton Mill will, be completed about the first of July next.—The building will be larger than the old structure, which was so suddenly destroyed. Wooden pillars will be substituted for the iron supports in the old mill.

RHODE ISLAND ELECTION.—The annual election of Rhode Island takes place to day. To-morrow morning we shall endeavor to give the telegraphic returns.

PORTLAND ELECTION.—By telegraph from Portland, last evening, we learn that the Democrats have carried that city by 48 majority. Last year the Republicans had 208 majority.

1 Barrel,	$2,00
2 to 5 "	1,85
6 to 20 "	1,75
over 20 "	1,65

☞ Persons reading the advertisement of the New York Agricultural, observe that the prices there stated are for the article *in New York*; to which should be added freight, risk of transportation, &c.; when this is done, it will be found that my prices *are less* than the New York.

Farmers on the line of the various railroads can obtain the Poudrette, on sending their orders by Mr. George Noyes, on the C. & P. Railroad;—Mr. William Akerman, on P. S. & P. Railroad;—Messrs. Jackson & Co., on Eastern Railroad; or they can purchase it at the stores of the principal traders in towns on the line of these roads.

GUANO.

PURE PERUVIAN GUANO; by lb. bag or ton, at Boston prices—freight added.

SUPER-PHOSPHATES.

MAPES' NITROGENIZED SUPER-PHOSPHATE OF LIME, for Corn, Potatoes, Grain Crops, Vegetable Gardens, Lawns, &c.
This is a new article, composed of Dried Blood, Bones, Sulphuric Acid, Peruvian Guano, and Sulphate of Ammonia, and received the large Silver Medal awarded by the American Institute of New York, 1859.

Judge French, author of Farm Draining, says,
"We have tried every variety of fertilizer, and have more faith in *Mapes' Nitrogenized* than in any other manufactured article of the kind."
It is sold in bags of 160 lbs. for $4,30 per Bag.

TRAVELLING BAGS.

CONCORD & PORTSMO' RAILROAD

DIVIDEND NOTICE.

A DIVIDEND (No. 2,) of Three Dollars per share, will be payable at the office of the Treasurer, Portsmouth, on MONDAY, the second day of April, 1860, to holders of stock on this day.—The transfer books are closed until after April 2d.
THOMAS D. BAILEY, Treasurer.
Portsmouth, March 26, 1860.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humour, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."
BETSEY SANBORN.
Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SAMUEL SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtonititorumenos.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases See advertisement in another column.

The manufacture of Stomach Bitters.

There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, medicine, etc. Now, we ask any man who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among those, none have been more successful than Messrs. Hostetter & Smith, the well-known manufacturers of the celebrated "Stomach Bitters"—*Pittsburg Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., Pa., Aug. 28, 1858.
I have used the Oxygenated Bitters in my practice with decided success in debility, nervous prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. F. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.
Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.
H. G. BOWLER.

BURLINGTON, Vt., Nov. 12, 1854.
Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief, after using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.
Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOLTON, Mass., June 1, 1859.
Messrs. N. L. Chick Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it; and since then I have had no feeling of the kind, although occasions have since occurred which would have given rise to acute suffering, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

TO LET,

Half HOUSE No. 19 State St. Apply to
a4 HALL VARRELL.

Local.

☞ The old brick Cabot Street School House has been entirely demolished, to make way for the new wooden structure.

It being proposed to have a Fire Alarm Bell in that vicinity, a company in Boston have sent down one of the new-fashioned cast-steel Bells, which is being raised on a framework, and will be rung and tested to-day. These bells are highly spoken of.

"THE BARE-FOOT BOY."—Miss Swain, the fair artist, has produced a charming sketch of the Bare Foot Boy, the happiest, we think, of all of Whittier's poems. She has entered into the conception of the author, and represents the little fellow sitting on a bank beside the water, the very spot "where the whitest lilies blow," his bare legs hanging down in the sunshine, his "torn brim" but partially shading his "cheek of tan," and his whole attitude and air the very embodiment of mirth and contentment. The picture, as a whole, is certainly a gem, and we understand the Quaker poet is much pleased with the work.

It is executed by the well-known Grozelier, and is published by J. E. Tilton & Co., Boston; and for sale in this city by Jas. H. Head, Exchange Block. The Messrs. Tilton, who publish it, have a companion picture nearly ready by the same artists. It is called "Mary Dow," and illustrates Miss Hannah F. Gould's "Little Match Girl."

☞ We are indebted to C. C. Harvey, agent in this city for Russell & Tolman, Boston, for new Sheet Music of their publication,—"The Flower Girl's Appeal, by that delightful composer, Jas. G. Clark; and "The Maiden's Prayer," a pretty piece, one of a series of the Pianists' Musical Library. Mr. Harvey is always well supplied with new music.

☞ Read Mr. Shores' column through—and you will hardly fail to find something named there that you want. He is one of the best business men; and as a first step, he always takes pains to be liberally advertised.

A MEMORIAL OF FATHER WARD, aged 90 years and 6 months. This is the outer title of Rev. Dr. Bouton's sermon, which was delivered at the funeral of Rev. Jonathan Ward, at Brentwood—and it is an interesting memorial of a faithful man and minister.

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

☞ The Boston Gazette thinks "Governor Goodwin is personally, probably, the most popular man in New Hampshire."

TESTS OF CHARACTER.—If you find a man disposed to complain of the coldness of the world, be sure you will find that he has never brought anything into the world to warm it, but is a personal lump of ice set in the midst of it. If you find a man who complains that the world is all base and hollow, tap him and he will probably sound base and hollow. And so, in the other way, a kind man will probably find kindness everywhere about him.—*Dr. Chapin.*

HEALTH AND MONEY.—There is this difference between the two temporal blessings—health and money: money is the most envied, but the least enjoyed; health is the most enjoyed, but the least envied;—and this superiority of the latter is still more obvious when we reflect that the poorest man would not part with his health for money, but that the richest would gladly part with all his money for health.

☞ A Washington dispatch to the N. Y. Express says the House Committee on the Judiciary (Hickman of Pa. Chairman) have agreed to report adversely upon the President's protest to the action of the House.

☞ The number of American sea-going vessels reported during the last month as totally lost and missing, amounts to 4.—Their value is estimated at $720,000, exclusive of cargoes.

"TIME IS SHORT, AND ART IS LONG."—Yes, and the Art Journal for March is a wofully *long* time getting along this way. At least, this is the opinion of the subscribers.

☞ It is thought Neal Dow will lose nearly $25,000 by Mr. Peck's defalcation. The Portland Advertiser says the State will lose nothing.

☞ Mr. George N. Baker, of Cincinnati, recently fired sky rockets into a dense flock of pigeons, and brought them down in hundreds.

☞ New England snow storms frequently occur in April. The most remarkable fall of snow in the month, of the past ten years, occurred April 20, 1851.

☞ The War Department has advices from Col. Brown, of Brownsville, that Cortinas' movement was a mere raid, and the accounts have been largely magnified.

☞ Mrs. Partington has taken a decided stand on the Savoy question. She insists upon it that the Savoys are twice as good as the drumheads.

DR. GEORGE B. WINDSHIP may justly be termed one of the true philanthropists of the present day. Born to a high social position, and carefully educated as a physician, he saw the national evil of our country, the neglect of physical exercise. Determined not only to preach up the necessity of preserving the health of the body, (a thing all doctors do,) he took the higher ground, and made up his mind that he would preach by example. With this noble determination, he commenced a system of judicious exercise, and now, although a person of delicate appearance, and of moderate hight, he is unquestionably the *strongest man in the world*, having recently lifted, by his hands, unaided by any artificial assistance, over eleven hundred pounds. The doctor is an example that great physical culture is not inconsistent with the highest mental development; that men of sedentary pursuits may enjoy the very best possible health.

Two weeks since, while sojourning in a neighboring city, Dr. Windship delivered his lecture before a very densely packed audience; during the delivery, he seemed oppressed by the heat and foulness of the atmosphere, and going to a window near him, threw it up. At the conclusion of the lecture, he retired to an adjoining room to prepare for his illustrations. Hearing loud shouting and great tumult among the audience, he returned to the platform to ascertain the cause, when he found four stalwart men tugging away to pull down the window, which he had a few moments before raised with apparent ease! One of the audience first attempted to close the window, but without success, in consequence of its sticking; he then called another to his aid, but both of them failed to close it; a third was called, with no better success; and finally a fourth went to the rescue, and all were successful. This illustration of the Doctor's wonderful physical strength seemed to give great satisfaction to the audience, who expressed their approbation by the wildest enthusiasm.

We understand, though we do not vouch for the fact, that the Doctor, in recently attempting to cross a railway track, lifted the engine out of the way, so he would not have to soil his boots by stepping into the mud.—*N. Y. Spirit of the Times.*

Experience has proved that iron ships are particularly exposed to disaster if they get aspoke.

MARRIED.

In Exeter, Mr. Joseph Child, Jr., of West Cambridge, Mass. to Miss Frances Ellen Sullivan, of Exeter.

DIED.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned
OLD DOMINION COFFEE-POTS!!
of which so many thousands have been sold during the past year.
COFFEE.
Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.
Ladies' Home Magazine.

OLD DOMINION TEA-POTS.
made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.
A great loss of the aroma of the coffee berry is suffered by the common method of roasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN.

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact. If I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about fourmonths since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dye. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling of arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and to keep their growing gray or getting bald. Very Respectfully,

BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Stanaston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir—Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC the fact. Its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

STANLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds about twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His Panacea is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard, and Boneset—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His Family Pills are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His Preserve cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 33 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use it freely. MARY M. RICKER.

"I have the above testimony of my wife with regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the asthmatic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many. MARY MERRILL.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore would sincerely recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. ELIZA BETH CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness as a disagreeable disease. I wish by this card to say to them, and to all others affected, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable remedy. I have found nothing that gives relief so quick. Let every suffering preacher take a phial and try it. Rev. EDWIN BURNHAM.

EXETER, July 30, 1841. "I have found Dr Swett's cough drops to be a most excellent remedy for Coughs, and for any other complaints of the Lungs, of any medicines with which I am acquainted. NANCY M. PECKER.

CANAAN, Aug 29, 1840. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together.

THEOPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously developed by mercurial disease, low living, clandestine or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the curse of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their constitutions are invaded by this corruption, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the active principles that have been found to recover for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, RING WORM AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, ERYSIPELAS, NEURALGIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, LIVER PLAIN, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their prompt operation expels from the system and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of everybody, but also those of formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of the cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the fold of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape notice wherever it is used. Where it is known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the throat and lungs that are incident to our climate. While many inferior remedies that are upon the community have failed and been discarded, this has proved, by every fair trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE. $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec20 6m d&w

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, continued at 357.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents prepared on reasonable terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal opinions given or rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages not possessed elsewhere, in consequence of facility of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Subscriber has given proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and on SUCCESS IN THE FIRST INSTANCE DEPENDS ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for procuring patents so small, in consequence of immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and other official documents relative to patents. These, besides his extensive library of legal and mechanical works, and full acquaintance with the business of Patents Office, and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more special dexterous trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, all but two of which have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS.

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening, to receive advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the postbox in the street door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterward "strayed or stolen," from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessarily left out, the bell to be rung.

If subscribers will immediately inform us of any deviation from the above rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ **S. R. Niles,** (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *very* instance certain deficiencies in the Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—based upon astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No 1, which is also the No. for GENERAL DEBILITY. For LIVER and KIDNEY COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS DISEASES, use No. 2. For LIVER COMPLAINTS: No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and *acts* IMMEDIATELY upon the stomach, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESS, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? *Because it never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only reliable preparation now known for CHILDREN TEETHING, DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain. It has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Uncurrent money bought, sold, and exchanged.

JOHN S. HARVEY,
Real Estate and Stock Broker,
Jy11 No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say*, of it, what we have of any other article, NEVER FAILED IN A SINGLE INSTANCE, when timely used. Never did we witness an instance of dissatisfaction in the use of it. On the contrary, all are delighted with its operations, and speak in terms of unqualified praise of its marvellous virtues. We speak, in *this matter, what we do know*, after ten years experience, and not from the *statement of what we have heard others declare*. In almost every instance where the child is suffering from pain, it will relieve it in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *unfailing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but it regulates the stomach and bowels, corrects acidity, and gives tone to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.

We believe it the best remedy in the world, for DYSENTERY AND DIARRHŒA, in children, whether it arises from teething, or from other causes. We would say to every mother who has a child suffering from any of the foregoing complaints—*we do not let your sufferings of others*, stand between your suffering child and the relief that is ABSOLUTELY SURE. Give this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper, and the signature of the whole wrapper throughout the world. 18 Cedar st. New York. *Price only 25 cents per bottle.*

MAJOR HOOPER & SON,
10 & 12 WATER STREET

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is ordinarily requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others, we shall still continue, by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, this cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make us the richer sufficiently remunerative.

J. B. WIGGIN & CO.,
Greene St., Portsmouth,

THE BEWITCHING BEAUTY.

"I saw a glorious beauty in her face,
And with her breath she did perfume the air,
Sacred and sweet was all I saw in her."
—*Shakspeare.*

"The fire of her eyes dazzles the two worlds."
—*London Journal.*

THE BEWITCHING BEAUTY,

Which is embodied in the exquisite proportions and luminous coloring of

TITIAN'S RECLINING VENUS.

Has for two centuries been the admiration of all beholders. Artists, connoisseurs, and the public will therefore by glad to learn that a magnificent Engraving, colored in oil, of the

PICTURE THAT ENCHANTS THE WORLD,

Has been issued by the undersigned, at a price which places it

WITHIN THE REACH OF ALL.

Our Engraving is the only authentic copy ever published in America, of the

GEM OF THE DRESDEN GALLERY,

For which the government of Hanover paid

FORTY THOUSAND DOLLARS.

It represents the Goddess reclining on a couch and radiant with celestial loveliness. The warm lights and soft shadows which lend such a strange fascination to all the undraped divinities of Titian, are admirably reproduced in this picture, and the accessories, both in the foreground and background, enhance the general effect.

This picture is splendid without guadiness, warm without prurjency, and brimful of the very soul of art. [New York Express.

It is the best piece of flesh coloring ever executed in this country. [New York Leader.

Engraver and colorist have produced a work of art that has the Titian tone, as well as the fault—outline of the bewitching original. [N. Y. Mercury.

The drawing, coloring and finish are beyond praise. [N. Y. Atlas.

It deserves a place in the "porte-feuille" of every admirer of the fine arts. [N. Y. Sal. Press.

SEND—Inclose 62, and 15 cents in stamps, and you will receive by return mail, a gem of art, with an elegant gift.
A LIBERAL DISCOUNT TO AGENTS AND THE TRADE.

A really valuable GIFT OF JEWELRY is presented with the Engraving. Address,

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.
The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and invigorates the appetite, on which strength receives its origin and depends.

Nervousness.
Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.
Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!
All ye lovers of good Bitters and good health, and you will find them a cheap, efficacious and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.
25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

NEWSPAPERS.
CHEAP BOOKS, ANNUALS, TOY BOOKS,
Fancy Goods, Stationery, &c.,
may be found at the subscriber's store.

Among the very large number of Newspapers that I furnish, I will call particular attention to but two—THE NEW YORK LEDGER—a paper that excels all others in enterprise and ability.—The Hon. Edward Everett will continue to write for the Ledger, together with all the best talent in the world. THE NEW YORK TRIBUNE, the best paper in the world, for the news.

In calling the attention of the public to my list of Magazines and Newspapers, I would caution all against subscribing for Magazines, Newspapers, or other works, through irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated

If you wish to take any Magazine or newspaper, subscribe of some responsible agent in town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of these, and pay your money to those whom you know to be responsible. The subscriber has been in the business fifteen years, and will guarantee to furnish any publication as cheap as can be obtained.

Patronize your own.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights. It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, JR.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, APRIL 5, 1860.

TRUE SENTIMENTS ON HOME SUBJECTS.—In a recent discourse by a prominent Universalist clergyman, — the prevalence of crime in our communities is attributed to three main causes, viz:—"The haste to be rich," "Extravagance in living," "The false education and culture of our young women." The discourse is directed to the consideration of these evils, and his severe reprehensions of them are well-timed. He closes his sermon with the following good paragraph:—

When, therefore, parents and daughters realize how much better it is to be wise and useful, than to shine and glitter—when our young wives enter their new homes with characters formed on a solid moral and religious basis—when all men and women are ready to lay off all pretensions, and in every presence to seem precisely what they are—when all foolish extravagance ceases, and every one learns to live according to his means, and feel that death is always to be preferred to dishonor—then we shall have removed at least one cause of a large class of crimes. Then embezzlement and fraud, forgery and theft, will become less familiar words than now—and those who have deposited their hard-earned five cents or five dollars against the day of want, will feel they are sacred and secure.

FAT JOB LOST.—A few days ago, in the U. S. Senate, a bill appropriating $18,000 for *furnishing* the U. S. District and Circuit Court rooms in San Francisco, in 1855, was—to use a Congressional term—"knocked higher than a kite." Green, Gwin, Latham, Iverson, Hemphill and Mallory alone voted for it; while thirty-six Senators, embracing men of all parties, voted against it. Senator Crittenden was justly indignant, and a paragraph of his remarks deserves a wide circulation, for the truths embodied in it are applicable in many other places beside San Francisco. He said:

Here is an instance of culpable—I think I might in moderate terms call it criminal—extravagance. I am for punishing it. I will not vote for a cent of the bill in any form it can be put. I will vote against the bill. It is a fraud upon this government, as plain, palpable one upon the face of it; and if we ever intend to give a lesson, we have the power of doing it now, and I hope and trust in God the Senate will do it. Contrivers of this sort shall not always be able to console themselves, "Well, if our fraud and imposition do not succeed, we shall be paid any how." No, sir; they shall not be paid. Let them take their property. Let them hold one another responsible. Let these gentlemen settle one with another their responsibilities, and let our court houses be furnished in a plain, suitable manner. In the court house in my State, an old one comparatively, the whole furniture of it did not cost $500, I verily believe. The jurors sit on benches; the judges in respectable chairs, and they administer as sound and as good justice as is anywhere done. I will not give in to this oriental idea of extravagance in transacting the public business at all. I mean to vote against the bill, and let these gentlemen take their fine chairs,—and do what they can with them, and then we shall have our court houses furnished in a plain and suitable manner, consistent with the plain republicanism which we wish to engraft, and wish to preserve in this government in all its branches. I am against the bill, and mean to vote against it.

☞ The Boston Courier gives some particulars of the hubbub at Elder Knapp's anti-Universalist lecture, making the matter a little plainer. The Courier says:—

His remarks were so denunciatory as to excite the disapprobation of a large portion of his audience. At the close of his address he called upon all who were convinced by his remarks to manifest it by rising; and about one-half the audience rose up. Among those keeping their seats were many Evangelical Christians who did not approve of his course. He then asked a gentleman to pray, prefacing the request with observations that still more excited the feelings of his hearers. During the prayer there were murmurs of disapproval, and at the close outbursts of indignation.—A noisy discussion followed, and just as a few of the elect were congratulating themselves on the prospect of a general fight, the Superintendent turned off the gas.

☞ Dr. Livingston's brother writes to friends in England that the exploring party in Africa have discovered a great cotton growing manufacturing region at Lake Nyassa, the source of the river Shire. Six samples of the cotton have been sent home, and it is said to be of two kinds, native and foreign. The native is short in the staple, and feels more like wool than cotton. The foreign appears to be of good quality, with a staple from three-fourths of an inch to an inch in length. The looms are of the simplest construction, and all the processes are exceedingly slow. This vast cotton region is easily accessible.

IMMORTALITY.—When Napoleon asked a painter for what he was painting, the artist replied, "For immortality, sire."

"But how long will a painting last?" inquired the Emperor.

"Three or four hundred years, if preserved with care, and no accidents should happen."

"And that is what you call immortality," said the Emperor, bitterly.

☞ Frederick Weber, the largest man in Baltimore, weighing 472 pounds, died suddenly on Thursday last.

LETTER FROM KENTUCKY—No. 2.

BOSTON, Ky., March 31.

We have now been among the Kentuckians a month, and are beginning to get used to the (to us) queer pronunciations and expressions which greeted our ears on our arrival; and we can now listen to the expression "powerful weak" without a smile.

Boston (this Boston) is now getting to be quite a place. Messrs. Geo. W. Fernald & Co. have just finished erecting a store—the second here. There is also a debating club, which we have attended several times.—Questions of all kinds are brought up, whether relating to politics or the momentous issue as to "which has has the right to the chicken, the hen that laid the egg or the one that hatched it?" "Whether the signs of the times indicate a dissolution of the Union," has been discussed three times, and twice decided in the negative. It may surprise some of your readers, to hear that free discussion of the slavery question is tolerated. It is so; and we have heard quite a number of good speeches in defence of the principles and doctrines of the Republican party. Some have told us that if any one but Seward is nominated at Chicago, they will vote for him. We have no doubt but that with a conservative candidate—such as Crittenden—thousands of votes would be cast for the ticket in Kentucky and all the border slave states. And with a Northern man, even, the Republicans would receive many votes from native Kentuckians.

We were told, before leaving Portsmouth, that if we dared express our opinion on the subject of slavery, we should be driven out. Simple nonsense, the whole of it! Kentuckians are not savages—neither are we, abolitionists.

We were rather surprised at the election news from old Portsmouth. Would have given a dollar to have been in Ward One when the vote was announced.

If New Hampshire is a "good place to emigrate from," so is Kentucky a good place to receive that emigration. Thousands of acres of land which has not been cultivated as we Yankees are used to seeing it done, are laying idle, regarded as worthless nearly. If properly manured and tilled, as in New England, large crops would be the results of that labor.

We have quite a colony from Portsmouth, and "still there is room." G. W. M.

MUSIC.—*Dear Chronicle*:—You probably recollect that the late excellent Dr. Channing, though unmusical himself, yet encouraged music because he felt that mankind needed excitement; and he believed that music was a blessing in itself, and excited a good influence in the community.—Would that its blessing, its influence upon our social comfort and happiness, were better understood. All have the talent, and none should neglect to cultivate music. It is the only talent we hide in the earth. "No house should be without music. The simplest strain has its mission and its influence; the humblest song awakens emotion in some heart, and tends to good."

☞ The Univers newspaper, Paris, has been allowed to reestablish itself under the name of Le Monde. It recently published an article entitled "Religious Persecution of Roman Catholics in the Army of the United States." We are told that the soldiers are "compelled to attend Protestant services, or made to stand at the doors of church, out of pitiful spite;" that they are often "degraded and imprisoned for want of respect to the Bible"—with a host of similar calumnies, concluding with these words: "The same is the case throughout the entire Union, for Protestants, like Democrats, are everywhere the same!"

☞ John G. Glynn, who is alleged to be a fugitive murderer from the State of Massachusetts, was arrested in New York city on Monday last. The prisoner is accused of having killed Peter Naughton and his wife, of Webster, Mass., in November, 1856. Since that time Glynn has been missing. The accused was locked up to await the arrival of the Massachusetts officers.

☞ A fugitive slave was in Worcester on Monday. According to the Transcript of that city, he said that his master was after him, and that telegraphic dispatches to Boston had preceded him, and he expected to be arrested. He was advised to remain in Worcester, but declined. Although the details of his story did not harmonize, yet it was thought best to be on the safe side, and he was sent on his northward way rejoicing.

☞ The Washington correspondent of the New York Tribune says that "leading democrats in and out of Congress condemn the President's Message as weak and unnecessary, beside being calculated to place them in a false position before the country, as obstructing an investigation on the eve of a Presidential canvass.

A state of sickness is but a partial life—as a sick man is more or less dead.

A Universal Profession—That of gold-chaser.

CONGRESS.

TUESDAY, April 3.

SENATE.—Mr. Green offered resolutions providing for the dismissal from office of Wm. Medill, Comptroller of the Treasury, for violation of the rules of the Department. They were laid over.

The Indian appropriation bill came up, and the Senate's amendments adhered to. The subject was postponed till Thursday.

The House Homestead bill was taken up, the pending amendment being the Senate bill. Mr. Fitch offered an amendment.

Mr. Wilkinson made a speech in favor of the House bill. Adj.

HOUSE.—The bill for the suppression of polygamy in Utah was debated at length.

Mr. McClernand advanced a proposition to divide Utah between Pike's Peak and Nevada.

During a colloquy between Messrs. Farnsworth, and Black of Mo., the former said John Wesley spoke of slavery as the sum of all villainies.

Mr. Jenkins—Do you say so?

Mr. Farnsworth was very much of that opinion.

Mr. Jenkins—Then you declare a lie.

Mr. Farnsworth—I am not in the habit of descending into cess-pools to throw dirt with a blackguard. (Sensation.)

Mr. Jenkins, in his seat, was understood to say—I can't receive that as an insult.

Without taking a vote on the bill, the House adjourned.

☞ In one of his pleasant discourses in the Tabernacle of the Saints at Utah, President Heber C. Kimball gently admonished the believers as follows:—

Some who profess to be Saints, and even Elders, will get drunk, fight and swear most horribly; their state and condition are much worse than that of those who do not understand the law of God, and who have not been educated in the principles of virtue, righteousness, purity and holiness.—Brethren and sisters, if you feel willing to do as I do, you will stay at home and let the liquor go to hell with those that corrupt themselves with it. The only wish I have to offer is, I wish there was a little more strychnine in it; I wish it for the sake of all those that will not forsake their evils; for, if I were in that position, I should wish I was where I could not sin any more.

☞ The North American Review, No. 187, for April, 1860, is laid on our table by the editor. Its contents are:—

I. William Beckford.
II. Money and Credit.
III. Anne Whitney's Poems.
IV. Letters and Times of Basil of Cæsarea.
V. Nichol's Hours with the Evangelists.
VI. The Law of Divorce.
VII. United States Coast Survey.
VIII. The Life of John Collins.
IX. Darwin on the Origin of Species.
X. Recent French Literature.
XI. Isaac Disraeli.
XII. Woman's Rights as to Labor and Property.
XIII. Critical Notices.

An Irish woman residing at Johny Cake Dan, in Chemung County, N. Y., gave birth, about two weeks since, to three children at one time. She has been married but three years, but during that time has presented her husband with no less than seven little responsibilities!—the first year one, the second year three, and the last year also three. No use talking about "Americans ruling America" if things go on in this style, observes the Springfield Republican.

☞ A discussion took place in Philadelphia on Saturday last, on the writ of habeas corpus issued in favor of Moses Horner, the fugitive slave, but without concluding, the Court adjourned the case for one week. Much of the public interest in the case appeared to have subsided.

The Boston Courier fully sustains the President in his protest against the investigations of the House of Representatives.—They have a right to *impeach*, but not to investigate the alleged reasons for or ground-work of impeachment! He must be a stark fool who, as President, would commit an offence so naked, so overt and so barefaced that the House would be justified in impeaching without inquiry or investigation. Nothing is more impotent and lame than the President's protest, unless it be the Courier's defence of it.—*Bath Times*

☞ A German named Jacob Enders, aged 74, either drowned himself or fell into Green River, at Greenfield, on Wednesday. He had been a soldier in Napoleon Bonaparte's army, and had a medal given him for his bravery in battle. He had a bottle of rum with him when found.

No man, under the false and hypocritical pretence of liberty of conscience, ought to be suffered to have no conscience at all.

What is liberty, without wisdom and without virtue? It is the greatest of all possible evils; for it is folly, vice and madness, without tuition or restraint.

BANDS OF HOPE.—These juvenile associations are multiplying in Massachusetts.—Each of them comprises, on an average, a hundred youth. The pledge requires abstinence from the use of intoxicating liquors, tobacco and profanity.

The Bangor Union defends the Presidential protest, as was to be expected. It says, with an irony keener than a Damascus blade, "The country is fortunate, at this juncture, in having at the head of our affairs a man of the firmness, purity and integrity of President Buchanan." — *Bath Times.*

☞ The Republicans of the several Congressional districts in Maryland are invited to send delegates to a State Convention, to be held at Baltimore, on the 28th instant, for the purpose of choosing delegates to Chicago. "Sectionalism" is spreading.

Believe all men when they tell you the truth.

OLD SHOES.

Old shoes, your pilgrimage is done,
Worn out at last, the goal you've won,
And you are thrown away.
No more will pavement try your soles,
For you have had your day.

And I remember well the day
You started on your weary way,
You were in pride;
But now that you are older grown,
Your pegs are out, your stitches gone,
You're cast aside.

The feet that you so long have shod,
The paths that you so oft have trod,
Farewell. Two more
New as you were in days gone by,
Shield those same feet, those same paths ply,
As you before.

Old friends, your work is done,
The last step taken, the last race run;
While I
Shall still in other shoes work on,
Till thought and will to do are gone,
Then die. —*Portland Trans.*

NOTHING LIKE LEATHER.—The people of Vera Cruz, during the recent bombardment, in order to save their hides, took to hiding themselves behind raw hides, with which they covered the public buildings and dwellings, as a protection against the enemy's shells.

THE UNFORTUNATE MALE.—*Charley*—Why, Gus, ain't you going to the party to-night? *Gus*—No, ah, I guess not. You see there's no trusting one's self among the women, now its Leap Year.

WM. D. PERKINS.
Portsmouth, March 11, 1860.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure." BETSEY SAMBORN.

Kittanington, Sept. 25, 1858.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters. There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, emetics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tartar emetic, knows that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, and an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these none have been more successful than Messrs. Hostetter & Smith, the well-known manufacturers of the celebrated "Stomach Bitters."—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. E. B. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Dyspepsia and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. apnot 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give time to the foul and deep contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Estes.

BOLTON, MASS., June 1, 1859.

Messrs. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a repetition of the sufferings I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had formerly availed myself of the aid of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to lessen the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had neither boils of the kind, although occasions have since occurred which would have given rise to acute sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

NEW ENGLAND CARPET CO.,
75 Hanover Street,
Opp. AMERICAN HOUSE, BOSTON.

Local.

POLICE COURT, April 2,—before Justice Odell. Daniel Hennessy, for brawl and tumult, was fined $1; costs $5.77. Paid.

James Donovan plead guilty of drunkenness. Sent to the House of Correction for four days. Costs $3.66.

Joseph Tate, for truancy, was sent to the House of Reformation.

☞ Dr. Bouton's Sermon, the Memorial of Father Ward, is for sale in this city at Joseph H. Foster's Bookstore. Price 10 cts.—It should find purchasers among those in this city and in Newcastle and Newington, who remember the old gentleman with pleasure and gratitude.

☞ Rev. D. P. Pike of Newburyport is expected to preach at the Temple in this city, next Sunday, at the usual hours;—and to deliver a lecture on Temperance, in the same house, at 7 o'clock in the evening.

LAW IN THE WHITE MOUNTAIN DISTRICTS. — The Supreme Court of New Hampshire recently decided a curious case in Coos county, that is of some interest to the scattered residents of the mountain districts. The case related to a public notice of sale on an execution. The court held that a failure to comply with any of the substantial requirements of the statute, providing for the appraisal or sale of a debtor's lands on execution, will avoid the levy.—Where the statute requires notice of a sale to be posted up in two of the most public places in the town in which the property is situated, and the land is situated in a town which has but *one public place*, or in a place not incorporated nor inhabited, the statute is inoperative, and no valid levy can be made.

☞ The examination of Richard S. Richardson and Sarah Ann Healey, on charge of poisoning Mr. Healey, husband of the woman, was commenced in Auburn, N. H., on Monday. The first witness was Dr. A. A. Hayes, State Assayer of Massachusetts, who analyzed the contents of the stomach of the deceased, in which he found two grains of strychnine.

☞ Elder Hiram Munger will preach in the Advent Chapel this evening.

Elder Geo. Champlin, (one of Adam's colored sons) from Connecticut, will preach in the Chapel, next Sabbath. Friends are invited.

☞ During the heavy gale of Monday, schooner Betsy & Deborah, of Boston, was wrecked and lost between Thomaston, Me., and Portsmouth. She was loaded with lime. Crew saved.

EXCITING ARREST.

The Harper's Ferry Committee of the Senate, headed by Mr. Mason of Virginia, have made an arrest in Massachusetts, which will give New Englanders a good idea of how much *liberty* may be enjoyed by white men hereabouts, in case in case the *slave power* should elect its *President* in 1860.

It has been generally understood for some time past that Mr. F. B. Sanborn, a highly respected citizen of Concord, Mass., would resist any attempt to arrest him by virtue of a process from the United States Senate, for contempt in declining to go to Washington as a witness in the John Brown investigation.

The Boston Journal states that on Tuesday night, under cover of darkness, some of the officials attached to the U. S. Marshal's office invaded the house of Mr. Sanborn, seized him with much violence, handcuffed him, and attempted to force him into a carriage. This sneaking attempt to kidnap one of their fellow citizens aroused the indignation of the people of Concord, who had been alarmed by the family of Mr. Sanborn, and they interposed the legal obstacle of a writ of habeas corpus to his removal from the town. There was intense excitement in Concord, as might well be expected.

The matter came before the Legislature on Wednesday, for which leave was granted by a vote of 140 to 70.

The question of the powers of the U. S. Senate to issue processess running into the several States, came before the Supreme Judicial Court, in the case of F. B. Sanborn v. Carleton, deputized by the Sergeant-at-Arms of the Senate to serve the warrant for arrest for contempt. The principal questions discussed were whether the Sergeant-at-Arms can deputize another to exercise the authority given to him, and whether he can serve any processes out of the District of Columbia. The points involved are of much importance to the rights and liberties of every citizen.

Mr. Rufus Hosmer, a gentleman predisposed to apoplexy, was among the witnesses of the exciting affair, which produced such an effect upon his system, that he was seized with a fit on reaching home and died soon after.

It is a singular coincidence that in Court the lawyer who undertook the defence of the arrest happens to be named *Andros*, the namesake of a royal minion who flourished in Boston two hundred years ago.

NAVAL INTELLIGENCE.—At the Brooklyn Navy Yard the Brazilian corvette Dona Isabella is been repaired in the dry dock.

The United States storeship Supply is taking in stores for the Gulf Squadron, and will leave the Brooklyn Navy Yard, for Vera Cruz in a few days.

☞ One Henry Hoffman, who was the partner (bakers) of John Zimmerman, recently eloped with the latter's wife, which so affected Zimmerman that he has become insane. Mr. Zimmerman had unworthy partners on both sides.

☞ The King of Sweden is on the sick list. He fell recently from his horse, and further injured himself by springing over a wall in Christiania, while endeavoring to rescue people from a fire.

☞ Dr. Luther Farley died Monday evening at Manchester, after a sickness of nine days with lung fever, at the age of 73. He was a prominent and much-respected citizens. He leaves a wife dangerously sick with the same disease.

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.
JOB MOSES, Sole Proprietor, Rochester, N.Y

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.
This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.
In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.
These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.
To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
For full particulars, get a pamphlet, free, of the agent.
N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned OLD DOMINION COFFEE-POTS!!
of which so many thousands have been sold during the past year.
COFFEE.
Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.
Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.
There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.
We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.
Ladies' Home Magazine.
OLD DOMINION TEA-POTS.
made upon the same principle as the Coffee-pots.
WOOD'S PATENT COFFEE-ROASTER.
A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.
It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.
FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting a statement of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head became its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,

RENJ. J. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Siamaston, Ala., July 30th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has restored my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and I wish to say to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like. By publishing in our Southern papers, you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes: viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cordial of Dandelion, Spikenard and Bonset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottle, 25 cts; large, 50 cents.

LAWRENCE, July 27, 1854. "I hereby testify that the Cough Drops prepared by Dr. Simeon Swett, have given me very great relief from the whooping cough of late, and I would advise all who have a visit from that distressing complaint, to use it freely. MARY N. RICKER.

I know the above testimony, my wife speaks of, in regard to the salutary effect of Dr. Swett's Cough Drops to be correct. CHARLES C. RICKER.

CANAAN, Dec 11, 1841. "I have been troubled with the phthisic for a number of years, and have found more relief by using Dr. Swett's Cough Drops, than from all other medicines put together, though I have tried many. FANNY MINER.

"I have been cured of a severe cough, by using Dr. Swett's Cough Drops. I therefore could discreetly recommend them to all who are afflicted with lung complaints, as I believe them the best medicine in my knowledge. EZEKIEL CURRIER.

EXETER, March 3, 1841. "Many of my brethren in the ministry, frequently complain of oppressed lungs and hoarseness of voice, after frequent labors. I wish by this notice to inform, and to all others affected, that the cough drops, prepared by Dr. Swett, of Portsmouth, is a valuable remedy. I have found myself benefitted, and relief so quick. Let every suffering preacher take a phial and try it. Rev. EDWIN BURNHAM.

EXETER, July 30, 1841. "I have found Dr Swett's cough drops to be the most effectual remedy for Coughs, and for any other complaint of the Lungs, of any medicines with which I am acquainted. NANCY F. JONES.

CANAAN, Aug 29, 1850. "This certifies that we have found greater relief from Dr. Swett's cough drops, in very bad cases of phthisic in our family, than from all other medicines put together

THEOPHILUS CURRIER,
SALLY CURRIER.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the field becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupting and mucerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which gendered in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system, we must purify the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can bestow on the sick everywhere prevailing and fatal malady. It is compounded of the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the restoration of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOLOREUX, DYSPEPSIA OR DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so elegant, gentle, and reliable in their action, that their action can rarely withstand or evade their penetrating properties search and cleanse, and invigorate the system, purify human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so efficacious and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and alarming diseases. The agent below named is pleased to furnish gratis to the American public, containing certificates of their cures and direction for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Worms, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country has witnessed its virtues, personally known, who have been restored from alarming and even desperate diseases of the lungs by its use. Where its virtues are unknown, inferior remedies thru upon the community have failed and been discarded, this has gained friends by every trial, confirmed by those who the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
U. S. PATENT OFFICE.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent from the office for One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have the best facilities for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than those who employ, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has always received the highest evidence, that at no other office of the kind are the charges for professional services so moderate. The numerous practical works he has written during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and early accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities to Inventors and Patentees.

All accounts of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." THOS. EWBANK, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure a patent, and early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 1, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept 12, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

Ayer's Sarsaparilla.

DAILY MORNING CHRONICLE
PUBLISHED AT
Exchange Buildings, Portsmouth, N. H.

All Advertisements outside the regular legitimate business of the advertiser—such as real estate notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged at one-half the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, and in special "Notices of Notices," 5 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., duly authenticated and authorised by the proper parties, may be left at the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary, or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

In consequence of the numerous complaints we have made to us, by city subscribers, of the non-receipt of the Chronicle; and the frequent instances in which we are called upon to duplicate papers, often already once delivered, but afterward "snatched" from unprotected positions at the doors of subscribers—we are induced to adopt the following plan, in attempting to secure more prompt and regular delivery of our papers, and less vexation for ourselves and patrons.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counters or within the store, not on the floor. All left at residences, to be placed in the store-house; if any; and if none, to be put inside the house door; or, if inconvenient for the girl, the boy to be rung.

Subscribers will immediately report to us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ **S. R. Niles,** (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, are the agents for this paper, and authorized to contract for us at our LOWEST RATES.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1. For DEBILITY, and NERVOUS PROSTRATION No. 2. for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already proved by thousands, it is *taken by Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is FEMALE HELP, LEUCORRHŒA, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, ERUPTIONS and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD", $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.
GEO. C. GOODWIN & CO., Wholesale Agents, Boston.
And by all respectable Druggists throughout the country.
In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? *Because it never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the bowels, and relieving pain, it has no *equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of opiates, of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; it will not cost you much. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, never been able to say—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to effect a speedy cure. We do not know an instance of dissatisfaction used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, *what we do know,* after ten years experience, and *what we have declare.* In almost every instance where the infant is suffering from pain, relief and comfort follow the use of this medicine, if timely given. Perfect success, in nine hundred and ninety-nine cases, in thousands of cases, the child from pain, but restores the child to comfort, health, and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC. and overcome convulsions, which, if not speedily relieved, end in death. We believe it the best and safest medicine in all cases of DYSENTERY AND DIARRHŒA, IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any other *Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of Clipper, is so constructed that it can be drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size of any other make than the Clipper.

We also assure our Farming friends that as we have labored and endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this is possible—upon our former successes, although they, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Morning Chronicle.

Whatever you do, do it willingly. A boy who is whipped at school never learns his lessons well. A man that is compelled to work, cares not how badly it is performed. He who pulls off his coat cheerfully, strips up his sleeves in earnest, and sings while he works, is the man for us.

LACK OF VIRTUE.—The man that hath no virtue in himself, ever envieth virtue in others; for men's minds will either feed upon their own good, or upon others' evils; and who wants the one, will prey upon the other.

☞ There are no less than five submarine telegraphic cables now out of order, viz:—the Channel Islands, Atlantic, Mediterranean, and the Red Sea cables, and the one between Signapore and Batavia.

Sympathy must be reciprocal; when it is not, it ceases to be sympathy, and becomes compassion; and compassion alone can never touch the heart, and make it thrill with love and thankfulness."

The following is aunt Betsey's description of her milkman: "He is the meanest man in the world," she exclaimed. "He skims his milk on the top, and then he turns it over and skims the bottom.

The records of life run thus: Man creeps into childhood—bounds into youth—sobers into manhood—softens into age—totters into second childhood, — and slumbers into the cradle prepared for him.

☞ Mrs. George Washington Wyllys says "There's one thing she *never* ceased to be inwardly thankful for—that she is not a man, and consequently obliged to marry a woman. Well, men are not fond of being *obliged* to be married" either.

"Which is most disagreeable—to have no appetite for dinner, or no dinner for the appetite?"

P. P. P.
PARK'S PRICKLY PLASTERS.
They impart strength; they annihilate pain.
Park's Patent Porus Prickly Plasters Are Sold by all Dealers From 1 to 2½ Dimes.
THESE DELIGHTFUL PLASTERS yield readily to the motion of the body, absorb perspiration, and throw off all the offensive coagulated impurities of the system. They should be used for all Chronic Pains, Faintness, Dyspepsia, Colds, Consumption, Rheumatism, Female Weakness, etc. They retain their active properties when other Plasters are useless, and where applied *pain cannot exist.*—Every family should have them.—One size on cloth, three sizes on leather. Sample sent by mail, on receipt of twenty-five cents.

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.
Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.
Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.
Weakness.
The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.
Nervousness.
Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.
Broken Down Constitution.
Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.
Try them!
All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.
25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $3.25 for 4 qts.
DR. E. R. CLARKE, Sharon, Mass.,
Manufacturer and Proprietor.
DR. CLARKE'S HERB PILLS
ARE THE CHEAPEST AND BEST IN THE WORLD!!
DR. CLARK'S HERB SYRUP
cures everybody. Try it!!

Portsmouth, N. H.

FRIDAY, APRIL 6, 1860.

SANBORN RELEASED.

The Supreme Court of Massachusetts have had B. F. Sanborn before them on a writ of *habeas corpus*. Sanborn's counsel moved for his discharge on three points.

1. That the Sergeant-at-Arms of the Senate had no power out of the limits of the District of Columbia.

2. That a Sergeant-at-Arms is not an officer known to the Constitution or laws of the United States, as a general executive, of known powers, like a Sheriff or Marshal, and that his powers are limited to certain described cases.

3. That by the warrant returned, the power to arrest the respondent was in terms limited to McNair, the Sergeant-at-Arms, and could not be executed by a deputy.

The opinion given by the Court is—

1. In regard to the first, it seems to us that the objection opens a broader ground than it is necessary to occupy in deciding this preliminary question. We are not prepared to say that in no case can the Senate direct process to be served beyond the limits of the District, by an authority expressly given for that purpose.

2. The second question appears to us far more material. The Sergeant-at-Arms of the Senate is an officer of that house, like its doorkeeper, appointed by them, and required by their rules and orders to exercise certain powers, mainly with a view to order and due course of proceedings. He is not a general officer, known to the law, as a sheriff, having power to appoint general deputies, or to act by general deputation, in particular cases; nor, like a marshal, who holds analogous powers, and possesses similar functions, under the laws of the United States, with those of sheriffs and deputies under the State laws.

But even when it appears, by the terms of the reasonable construction of a statute, conferring an authority on a sheriff, that it was intended he should execute it personally, he cannot exercise it by general deputy, and of course he cannot do it by special deputation.

3. But, upon the third point, the Court are of the opinion that the warrant offers no justification. Suppose that the Senate had authority, by the resolves passed by them, to cause the petitioner to be arrested and brought before them, it appears by the warrant issued for that purpose that the power was given alone to McNair, Sergeant-at-Arms, and there is nothing to indicate any intention on their part to have such arrest made by any other person. There is no authority, in fact, given by this warrant, to delegate the authority to any other person.

It is a general rule of the common law, not founded on any judicial decision, or statute provision, but so universally received as to have grown into a maxim, that a delegated authority to any one does not authorize him to delegate it to another.

The counsel for the respondent asked what authority there is for limiting such warrant to the person named; it rather belongs to those who wish to justify under such delegated power to show judicial authority for the extension.

On the special ground that this respondent had no legal authority to detain the petitioner in his custody, the order of the Court is that the said Sanborn be discharged from the custody of said Carlton.

This decision gave the greatest satisfaction to the audience, who rushed into the square and gave three cheers.

Carlton, the Marshal, and his posse, have all been arrested for alleged illegal proceedings in making the arrest.

A Smart Woman.—Miss Sanborn, of Concord, Mass., by her activity, saved her brother B. F. Sanborn from the clutches of five kidnappers, after they had handcuffed him. We learn from the Boston Post that Miss Sanborn, hearing the noise, came out, and not understanding affairs, ran into the street and cried murder. The Marshal attempted to get the prisoner into his carriage, but Miss Sanborn got possession of the whip and lashed the horses so that it took four men to hold them, and the Marshal could not get the prisoner in alone. By this time an excited crowd had collected, and the Marshal was delayed. Sanborn himself says:

When they dragged me into the open air, without allowing me to put on my boots, overcoat or hat, I called out "Murder," and resisted with my feet as well as I could, with four stout men holding me. They dragged me to the carriage, which had been brought up by a fifth or sixth confederate, and attempted to put me in. I broke the side of the carriage with my feet, and my sister seizing one of the ruffians, they dropped me on my feet again.

Again they tried to put me in, but my sister whipped the horses, which started, and foiled them again. They were struggling with me and her—five men against a man and a woman—when the neighbors came running to my aid. The ruffians still attempted to kidnap me, but they soon found they were overpowered. Then, and not till then, did they read their warrant, in the street, by the light of a lantern, while I stood handcuffed and half-clothed in their hands.

Sanborn has preserved the handcuffs, and intends leaving them as a legacy to Concord, to be preserved as a memorial of the transaction.

☞ The New Hampshire Conference of the Methodist Episcopal Church, in session at Manchester this week, is well attended, two-thirds of the ministers being present.—Three young men were added to their number at this meeting. The annual Conference Sermon was by Rev. J. Hall of Portsmouth, on Wednesday evening.

Excitement in Kentucky.—Great agitation prevails in Kentucky, springing from the "irrepressible conflict." The oligarchy, not content with driving the free soilers from Berea, have denounced and threatened Cassius M. Clay, who replies that he will defend himself and his friends. He writes that his wife and daughters are as firm as he—saying:

The mob increases in violence; I lie upon my arms awaiting an attack; my family absolutely refuse to retire, saying they will run bullets, and aid, as in 1776. If driven into the woods, I shall attempt to hold my position as long as possible; standing on the Constitution, the laws and my right, I will defend them or die. The cannon at Lexington is sent for. May God defend the right.

☞ The husband of a young lady in Chicago became a victim to the vice of gambling, and night after night was be away from her, exhausting his means, on the cards. She used every entreaty in vain for a reformation, and finally resolved to strike at the root of the evil. Accordingly she watched him, and discovered where he went; posted herself as to the character of the establishment, and in the evening made complaint to the authorities. The police made a descent, captured gamblers and tools, and the former now await the law, and the latter confiscation.

The Rhode Island Election, on Wednesday, resulted in the choice of Sprague, the Democratic nominee. Sprague is not himself a Democrat, and has not been elected by the Democrats. He is an old whig, and possibly an American, and he has been elected by the American party. The result is an admonition to the Chicago Convention, and if it induces them to make a better nomination than they otherwise would, and one that will unite more of the opposition on a sound national platform, it may not be unfortunate.—*Newburyport Herald.*

Rhode Island Election.—*Providence, Apr.* 4.—13 towns give Sprague 3805 votes, Padelleford 3692.

This city has given a large majority for Sprague, and he is presumed to be elected by a majority not less than 1500. The Legislature is also against the Republicans.

☞ The last will of a queer old miser is much talked of at Vienna. He cut off all his nearest relatives, and made a very distant one, an extremely handsome young girl, sole heiress of his considerable property. So far there is nothing extraordinary; but there is a condition added to it. The testator was a hunchback, and had a club foot, which defects had probably obstructed many attempts of his to marry. He has made it, therefore, a condition that his heiress is to get the property only when she marries a man shaped as he was. She is, besides, to live in a convent three months in each year, to pray for his soul. The heirs at law have attacked this odd last will, on the plea that when it was made, the testator must evidently have been mad. As there is, however, no equity jurisdiction in Austria, they may find there task not an easy one.

Wholesale Embezzlement. — A young man, who for two years has had charge of the order department of G. G. Evans' Gift Book Establishment in Philadelphia, has appropriated to his own use $20,000 which he had stolen from letters ordering books. The clerk has confessed and has owned up to building several houses, and contracting for building others. He has given up to Mr. Evans the houses, so that the latter will not lose much.

Two Murderers Unexpectedly Turned Up.—Among the prisoners taken from the Mexican steamer Miramon, were two men named Louis Delisle and Antonio Caracano. These two men were officers on board the Gen. Miramon, and were the only ones who urged the Mexican steamer to resistance. Upon the arrival of the prisoners at New Orleans, they were recognized as two murderers, who had years past been tried and convicted, but who escaped the halter during one of the years when New Orleans was ruled virtually by mob law.

A Good Beginning.—The steamship S. R. Spaulding made her first trip from sleety and windy Boston to green-pea and magnolia Savannah in eighty hours. It will soon be fashionable to cure a bad cough or a fit of influenza by dropping down to see our Southern cousins.

☞ There were in Savannah, Ga., one day last week, six first-class steamships loading for Northern ports—three for New York, and one each for Boston, Philadelphia and Baltimore. This looks like business enterprise, but not much like non-intercourse.

☞ A Second Universalist Society has been formed in Manchester, N. H., and Rev. B. H. Davis, of Poughkeepsie, N. Y., has received a call to be their pastor. The Christian Freeman says he will accept.

A Second Universalist Society has been formed in Concord, N. H.

The Universalist Church at Atkinson is to be reopened for regular public worship on and after the third Sunday in April.

What ship carries more passengers than the Great Eastern? Courtship.

"Long John Wentworth."—While some vile papers are heaping unmeasured abuse upon the Hon. John Wentworth, who has recently been elected Mayor of Chicago, it is but just to quote the following, which shows what manner of man he is. Mr. Asa P. Bradley, in a communication to the Chicago Evening Journal, says:

"It is well known to most of the citizens of Chicago, that my brother, David M. Bradley, late of this city, now deceased, was for twenty years confidential manager of the Democrat, and part of the time a partner in the concern with Mr. Wentworth. A few hours before he died, Mr. Wentworth, knowing the anxiety he felt for the education of his eldest son, said to him that he should not feel so anxious about it, for he would educate him at his own expense. When we heard it from his own lips at the side of the death bed, we let it pass as only a soothing remark to a dying friend, but the boy is now reaping the benefit of that passing remark, in Dartmouth College, where the subject of this note graduated with honors some twenty-four years ago.

This is not all. A further testimony of the heart may be seen at the cemetery (where sleeps my brother) in the beautiful monument to the memory of the departed, costing from three to five hundred dollars, and all paid for by him who never turned his back on a friend or flattered an enemy."

☞ John McNeil, of Hillsboro', N. H., cousin of ex-President Pierce, and the only relation he left in office, was among the first turned out of the Boston custom house by Collector Austin, and has now been restored by Gen. Whitney. The Portland Advertiser says:

"The restoration can hardly be a prompting of Mr. Buchanan's, who has always exhibited a mean and revengeful spirit towards President Pierce and his friends,—so much so that Mr. Pierce has declined all invitations to visit the White House under the present reign."

☞ A young man named John Shouffer, about twenty-five years of age, committed suicide last Monday night, in Dalton, Ohio, by shooting himself through the head with a rifle. He was engaged to be married to a young lady in the above named place, and in conversation with her on the previous Sabbath stated that he could not marry her, as he was unable to obtain money he had loaned out, and was afraid he would not be able to support her. No cause can be assigned for the commission of the dreadful act, other than that intimated in the conversation referred to.

☞ Mrs. Elizabeth Daveis, wife of the Hon. Charles S. Daveis, of Portland, who died on Tuesday evening, was the last surviving child of the late John Taylor Gilman, of Exeter, a most worthy gentleman, and the long-honored Governor of New Hampshire. Mary, wife of Dr. Cogswell, of the Astor Library—Dorothy, first wife of Rev. Dr. Nichols, and the wife of Judge Emery, of Portland, were the other sisters—all now dead.

☞ Theodore Parker writes from Rome that during the four months he has been in that city he has not seen a drunken man. He does not believe there is a bar in all Italy. Mr. Parker has a word for the "Union savers at Boston and New York,"—it is simply "fools!" He closes his letter with a compliment to Louis Napoleon, and leaves friends in painful anxiety about his health.

Thinking Aloud—A Minister's Wife.—"The first time I took my oldest boy to church, when he was two years and a half old, I managed with caresses and frowns, and candy, to keep him very still till the sermon was half done. By this time his patience was exhausted, and he climbed to his feet, and stood on the seat looking at the preacher (his father) quite intently. Then, as if he had hit upon a certain relief for his troubles, he pulled me by the chin to attract my attention, and exclaimed in a distinct voice, 'Mamma, make papa say Amen!'"

Sententious.—At Fishkill Landing, in an oyster saloon, on the top of the stove, is a shingle placard which seems to us better expressed than any advertisement we have ever seen to the same purpose: "Gentlemen will not, and others must not, spit in this stove." The writer of that should be employed on the advertising columns of a newspaper.

Story with a Moral.—The manner in which so many allow themselves to be sacrificed to their love of wealth, reminds one of the cupidity of the monkey—that caricature of our species. In Algiers, the Kabyle peasant attaches a gourd, well fixed to a tree, and places within it some rice.—The gourd has an opening merely sufficient to admit the monkey's paw. The creature comes to the tree by night, inserts his paw, and grasps his booty. He tries to draw it back, but it is clenched, and he has not the wisdom to unclench it. So there he stands till morning, when he is caught, looking as foolish as may be, though with his prize in his grasp.

☞ In Cincinnati, a few days since, a woman was sentenced to four months' imprisonment for stealing a ham. Her husband, who was present, and had assisted in disposing of the ham, on hearing the sentence, bowed politely to the Court, and expressed himself much gratified at the result.

All in want of an elegant carpet for a little money, read the advertisement in another column, of the New England Carpet Co., of Boston.

CONGRESS.

Wednesday, April 4.

Senate.—Mr. Green urged the consideration of his resolutions calling for the dismissal of Comptroller Medill.

A debate ensued, during which Mr. Benjamin wanted to offer an amendment to the resolutions, and assumed to state the facts.

Mr. Green, interrupting, said that Mr. Benjamin should not discuss the merits of resolutions.

Mr. Benjamin—You address the presiding officer.

Mr. Green—I call on the presiding officer to restore order.

Mr. Benjamin said that Mr. Green's remarks were very discourteous.

Before the result was reached, the Homestead bill came up by special order.

Mr. Pugh spoke in favor of the Senate bill.

Mr. Wigfall spoke against the Homestead bill.

On motion of Mr. Sumner, the President was requested to communicate all correspondence relative to the claims of foreign governments to military service of naturalized American citizens. Adj.

House.—Mr. Stanton reported back the West Point appropriation bill, with a recommendation that the House non-concur in the Senate amendment providing for a regiment of Texas volunteers.

The consideration of the anti-polygamy bill was resumed.

After a lengthy debate, Mr. Nelson moved the previous question.

The main question was then ordered,—114 to 75,—when Mr. Nelson, who reported the bill, was allowed one hour to close the debate; without concluding his remarks, Mr. N. gave way to an adjournment.

☞ The Alton (Ill.) Democrat says that a large and splendid convent or seminary for the Sisters of Charity is to be erected forthwith in that town. This will be the largest structure of the kind in the West, covering an entire block or square, and costing $30,000. The Altonians seem to exult at the prospect, as it will give an impetus to labor and its consequent trade.

Extraordinary Conduct of Slaves. The New Orleans Crescent states that one day last week a gang of thirty-four plantation slave from Oak Grove, St. James' Parish, about fifty miles from the city, came into town in a body to consult a lawyer and find out who their master was. It seems that the slaves belonged to the estate of the late James H. Shepherd. The negroes say that for five years they have not known whether they had a master or not; that lately a new overseer was put over them, and treated them cruelly without proper cause; knocking them down with clubs, and flogging them till their backs were all raw. They were taken to the lock-up for future disposition.

☞ An English writer speaks of "the slough of poverty, brutality, and gin, which lies in the lowest level of London life;" and says "the more refinement you find in the higher levels of civilization, the fouler are the dregs that lie at the bottom."

An infant in Wrightsville, Pa., nearly came to its death, the other day, in the following manner: The father left a bottle containing a narcotic, on a sideboard and went from the room; the infant was lying in a cradle, and a three-year old boy was in care of it; the latter took the bottle, poured nearly all the contents down the infant's throat, causing partial strangulation, and afterward a death-like stupor, from which it was with difficulty recovered. The moral is obvious.

☞ At a wake in New York, the other morning, the police attempted to stop the noise of the mourners, when one Nelligan ran up stairs and got upon the roof of the house, whence he slid off and was killed.

Round Shoulders.—We see it stated that stoop-shouldered men are on the increase, attributed to wearing shawls—the wearer, in order to keep the article around him, being compelled to "hump himself" by folding his arms upon his breast. We give the information gratuitously for those who are in the habit of wrapping themselves up in this feminine garment.

An auctioneer on one occasion when speaking to a horse-dealer about the surrounding country, which was very level, and some of which he had to dispose of, remarked, "The country is exceedingly beautiful, and I do so admire a *rich flat*."

"So do I sir," said the grinning jockey.

☞ The following appears under "Erratum" in an exchange:—

In a piece on our fourth page, entitled "We must not Lag Behind," instead of the line "That moulds its dirty shirt," please read "That would its duty shrink."

EQUALITY.

Dear Marian, of one clay God made us all;
And though men push and poke and paddle in't.
(As children play at fashionable dirt-pies,)
And call their fancies by the name of facts,
Assuming difference, lordship, privilege,
When all's plain dirt—they come back to it at last;
The first grave-digger proves it with a spade,
And puts all even. —*Mrs. Browning.*

☞ Rev. R. M. Sargent, recently of Gilmanton, was installed on the 27th of March, as pastor of Congregational church in Farmington. Sermon by Rev. A. Tobey, of Durham.

Strumous or Scrofulous affections are the curse, the blight, the potato rot of mankind. They are vile and filthy as well as fatal. They arise from contamination and impurity of the blood, and are to be seen all around us everywhere. One quarter of all we meet are tainted with them, and one quarter of these die of them; die foolishly too, because they are curable. *Ayer's Sarsaparilla* cleanses out the Scrofulous corruption from the blood, renders it pure and healthy, and effectually expurges the foul contamination from the system. No longer groan under your Scrofulous disorders, since the irresistible Dr. Ayer has provided his masterly combination of curative virtues that he calls Sarsaparilla.—*Democrat, Waterbury, Ct.*

Young Man Missing.—Boardman Rand, a young man 21 or 22 years old, (son of Mr. Wm. Rand, formerly of New Castle, now living in Walden street, at the South End, in this city,) has been missing from home since Saturday morning last. It was supposed he had gone to the house of his sister, Mrs. Oliver Shorey, at South Berwick, as he crossed Portsmouth Bridge on Saturday forenoon; but nothing has since been heard of him. He is subject to fits, and might be supposed to be insane; and probably would not give any satisfactory account of himself, if questioned. He is rather tall, and was dressed in dark clothes. Any information concerning his whereabouts will be thankfully received by his distressed friends, as named above, or may be sent to the Portsmouth Chronicle office.

"The Mercantile."—The annual election of officers of the Portsmouth Mercantile Library Association takes place this evening, at their Hall. All members who can do so should attend.

The Association is flourishing, and well worthy the encouragement of all citizens, as one of the best institutions of the city, and almost the only one especially designed to benefit young men—perhaps the most important part of any community.

The Library is now very valuable, and is constantly being increased and improved. The Reading Room connected with it has been removed to the front room—one of the most pleasant and attractive in the city—and is worthy of the patronage of the public. We are desired to state that the Rooms of the Association will be open to all visitors during the coming week; and citizens are invited to visit and examine, and to enrol themselves among the subscribers to the Reading Room, if they see fit.

☞ The Old South Bell is said to be cracked. It has sounded strangely and unpleasantly for several days.

The new cast steel bell which was tried near Cabot street school-house, on Wednesday, hardly came up to what was expected of it. It was hung low, however, and directly behind the Engine House; and there were other circumstances unfavorable to its being heard down in town.

The steel bell was rung again, with the North bell, at 9 o'clock Thursday evening, and gave full satisfaction to all who heard it. These bells are highly recommended, as being cheap, light, fine-toned and durable.

The Auburn Poisoning Case.—Richardson, one of the poisoners of Healey, is in Exeter jail, as a murderer, to be tried at the Court which begins there next Tuesday. Mrs. Healey, though ordered to be committed, is not yet in jail, being very sick.

☞ Rev. D. P. Pike of Newburyport is expected to preach at the Temple in this city, next Sunday, at the usual hours;—and to deliver a lecture on Temperance, in the same house, at 7 o'clock in the evening.

☞ Elder Geo. Champlin, (one of Adam's colored sons) from Connecticut, will preach in the Advent Chapel, next Sabbath.—Friends are invited.

Fuller, Esq., who sold and transferred the same to me, must be paid immediately. All bills unpaid by the fourteenth instant, unless deemed utterly worthless, will be sued, and collected, with cost.

AMOS S. ALEXANDER,

Office, No. 5 Daniel St.

Portsmouth, April 2, 1860.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

Betsey Sanborn.

Kensington, Sept. 25, 1856.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, Portsmouth, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Diuretic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

In Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavytontitorumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The manufacture of Stomach Bitters. There is nothing more common and annoying at the present day than ailments of the stomach, and whether these ills are caused by the quantity or quality of the food and drink we use, or some other cause, it is not our purpose to inquire. The fact is conceded, and hence the necessity for pills, emetics, tonics, etc. Now, everybody who has swallowed a dose of pills, or tasted of the stuff known that both are attended with very nauseous and debilitating effects. Hence they are generally thrown aside, except in extreme cases, for an invigorating and wholesome tonic demanded by all whose digestive organs are out of repair. A great many scientific men have spent much time and labor in combining the medicinal properties of herbs and extracting the same by various means. Among these, none have been more successful than Messrs. Hostetter & Smith, the well-known manufacturers of the celebrated "Stomach Bitters."—*Pittsburgh Union.*

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

Subjoined are a few tributes from well-known physicians:

Mansfield, Tioga Co., Pa., Aug. 26, 1859.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. F. H. WHITE, M. D.

Auburn, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never met with a medicine which has given such great satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

Burlington, Vt., Nov. 12, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a bottle. I think it the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., Boston. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

---

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and so change the disordered secretions into health-giving elements.

Letter from Rev. Richard S. Eides.

Boston, Mass., June 1, 1859.

Messrs. N. L. Clark & Co.—Gentlemen,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. In 1854, a carbuncle, which ultimately occupied a space of three or four inches square formed upon the upper part of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and great pain attendant upon the system were great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had used five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to some of my sufferings, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EIDES.

GRASS SEED.

150 Bushels HERDS GRASS, CLOVER and RED TOP SEED, for sale by

HENRY F. GERRISH,

5 Daniel Street.

CITY COUNCIL, THURSDAY EVE.

A Petition of Granite State Engine Co., No. 1, to enlarge the Hall of the House, was referred to Joint Com. on Fire Department.

The Committee on City Building reported that a suitable City Hall, Offices, Market, &c., could be built of stone, brick and iron, on the site of Jefferson Market, for say $30,000; but that it is inexpedient to move in the matter at present, or until the will of the people can be fully and fairly ascertained in the matter.

IN BOARD OF ALDERMEN.—Granite State Engine Co. No. 1, gave notice that they should disband at the expiration of their year, in May.

Petition of Board of Engineers, to have the year of the Fire Department commence on the first Monday, in April, instead of the first Monday in May—was granted.

Petition of Robt. E. Shillaber and other boys, to be allowed to run old Engine No. 3, laid on table.

The Mayor was authorized to have the Old South bell re-cast

IN COMMON COUNCIL, the Committee reported recommendation to build a first class Reservoir in Haymarket Square, at once; which was adopted, and $— appropriated for the purpose.

The Appropriation Bill was taken up. For support of poor, $3100 reduced to $2600. For farming utensils and manure for City Farm, $150 reduced to $50. For repairs of roads out of the compact part of the city, $1000 reduced to $600. For streets and common sewers, $2000 reduced to $1200. For City Watch, $2000 cut down to $1600. Health Committee, $350 reduced to $150. For Fire Department, incidentals reduced from $1,330 to $500.—Without finishing the bill, the board adj.

☞ Rev. Chas. Nichols, a revivalist, of Boston, will preach this afternoon and evening, to-morrow evening, and next Sabbath, at the Pearl St. Church, at the usual hours of worship.

VANDALISM. — We learn that half a dozen fine fruit trees in the garden of Dr. W. L. Johnson of Exeter were girdled and ruined on Wednesday or Thursday night of last week. The doctor's instrumentality in enforcing the liquor law doubtless instigated the outrages.—*Ballot.*

Hartford, Apr. 4.—The Republicans have a torchlight procession to-morrow night, in honor of their victory. Buckingham's majority is 536. In the House the Republicans have 59 majority and 7 in the Senate.

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

☞ Early on Sunday morning last, Rev. Mr. Medbery baptized two converts at Noble's Island.

☞ George H. Knowlton, formerly of Portsmouth, has been elected City Clerk of Biddeford, Me.

☞ We publish no price current of cattle this week, as Thursday was Fast Day in Massachusetts, and no fair was held.

☞ Two stevedores got into a fight in a bar-room in New York on Monday, and one stamped the other to death.

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.
JOB MOSES, Sole Proprietor, Rochester, N.Y

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.
This well known medicine is no imposition, but a safe and sure remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.
In cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.
These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.
To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
For full particulars, get a pamphlet, free, of the agent.
N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned
OLD DOMINION COFFEE-POTS!!
of which so many thousands have been sold during the past year.
COFFEE.
Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.
Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.
There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.
We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.
Ladies' Home Magazine.

OLD DOMINION TEA-POTS.
made upon the same principle as the Coffee-pots.

WOOD'S
PATENT COFFEE-ROASTER.
A great loss of the aroma of the coffee berry is suffered by the common method of roasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.
It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

KEROSENE! KEROSENE!!
Of the purest quality, almost odorless—made by a new manufacturing company, who have succeeded in producing a very superior article, both for quality of flame and freedom from smoke.

KEROSENE LAMPS,
KEROSENE CHIMNEYS,
KEROSENE SHADES,
KEROSENE WICKS.

Portsmouth, March 11, 1860.

THE ONLY PREPARATION

WORTHY OF

Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world, testify to the Efficacy of Professor O. J. Wood's Hair Restorative, and gentlemen of this Press are unanimous in its praise. A few testimonials only can be here given; see circular for the rest, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I want it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased, with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,

BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Sizmaston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1856, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my gratitude to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are amongst his most popular preparations, viz:

His **Pancea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sores or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Cérulial of Dandelion, Spikenard and Boneset, a remedy unequalled for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents.

Cough Drops for Hoarseness, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 25 cts large, 50 cents.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of DR. SIMEON SWETT'S MEDICINES

constantly for sale at his residence in

Portsmouth ----- No. 1 School Street.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, since the exact of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of civil and mechanical works, and full accounts of patents granted in Great Britain and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON.
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot find a person more competent and trustworthy, and more capable of putting their application in a form to secure for them early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 3, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, and some of the patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, TWENTY APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may be expected in any case on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is varied and aggravated by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vice, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by depoliation from the blood of corrupt or ulcerous matter, which, in the lungs, and internal organs, is called tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which pervades the blood, is nourished by the vitiles of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they are far less able to withstand the assaults of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination, and many destructive diseases of the liver, kidneys, breath, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is so undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our time can derive for this disease, the most prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the eradication of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TIC DOULOUREUX, DYSPEPSIA, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from INFERIOR OR VITIATED BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The purifying power and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC are so composed that disease within the range of their action can rarely withstand or evade them. Their purgative properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health and energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Gravel, Rheumatism and Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrive upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY

For Notices in editorial columns 10 cts. per line, each insertion; Special Notices, 5 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS,

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left at the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be charged at one-half counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and where there is no storm-house door; or if necessarily left out, the bell to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from such a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ **S. R. Niles,** (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance a certain deficiencies in the red globules of Blood. Supply this deficiency, and you are made well. The "BLOOD FOOD" is founded upon this theory, hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite,* and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that wet or dry you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SCROFULOUS, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 469 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. E. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and Infantile Powders, for their *immediate instaneous relief,* when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relives by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING, DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has no equal—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other recommended Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can rely upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say,* of it, what we have not been able to say of any other medicine, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to effect a cure when timely used. Never did we know an instance of dissatisfaction by any one who made use of it, but on the contrary, all speak in terms of highest commendation of its magical effects and medicinal virtues. We speak, in this matter, *what we do know,* after ten years experience, and *pledge the reputation for the here declare.* In almost every instance where the infant is suffering from pain and exhaustion, a dose of it will relieve it in fifteen or twenty minutes after this syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and skillful NURSES in New England and has been used with *unfailing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, is fatal. We believe it is the best and surest remedy in the world, in all cases of DYSENTERY IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*we would say to you, as one mother to another, do not let your own dear child suffer unnecessarily* when there is a remedy within your reach, that will be ABSOLUTELY SURE to follow the use of it, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

Morning Chronicle.

REMARKABLE LONGEVITY.—Capt. John Rice and his wife Elizabeth, residing in Dover, Vt., both departed this life on the 7th ult., within a few hours of each other, the former at the age of 88 years, 8 months and 25 days, the latter, his wife, at the age of 91 years, that day being the anniversary of her birth. They were married Nov. 16, 1790, and lived happily in the married state for nearly seventy years. The Brattleboro' Phenix says, they had lived to see their children and grandchildren wearing grey hairs, and to embrace a grandchild of one of their grandchildren—a circumstance rarely witnessed. As a fitting conclusion to such a long union in life, they sleep in one grave.

The robust health commonly enjoyed by the working classes, compared with those engaged in sedentary pursuits, is chiefly owing to their bodily labor. In every period and occupation of life, exercise is essential to health; but most of all in the young.

At a blow-out jubilee at Brayton's factory, in North Adams, Mass., Mr. Brayton remarked that when he opened his mill in 1832, wages for girls were 42 cents a week, and calico cost $1 a yard; now some of his girls earn $6 a week and calico is sold for eight cents a yard.

Tom Sayers is described as a "long bodied" man with a "well featured face," an eye "frightened with sober, steady thought," and has a hand which though styled the "auctioneer," from its propensity to knock down, gloves itself with "No. 8 Alexandre's."

THE OLD MAN'S SECRET.—An aged clergyman, who had known not one day's illness, was asked his secret. "Dry feet and early rising," was his reply; "these are my only two precautions."

The wife of M. de Girardin, of Paris, recently presented him with a fine boy—much to his astonishment, it is said, as he had not calculated upon such an event.

HALLET, DAVIS & CO.,
409 WASHINGTON ST., BOSTON,
Manufacturers of
Best Square & Grand Piano-Fortes,
WHICH ARE WARRANTED FOR FIVE YEARS.
Having had an extensive experience of 25 years in the business, and having at present the most complete facilities for turning out twenty Pianos per week, they feel confident in guaranteeing perfect satisfaction to all patrons.
As an evidence of the superiority of their Pianos,—this house has received the awards of thirty-two Premiums, with Medals of gold, silver and bronze; nine of which were first Premiums for the best Grands and Parlor Grands, over all competitors.
There are many instruments in Portsmouth, from this manufactory—to the owners of any of which, we would respectfully refer.
A splendid 7-octave Piano from the above celebrated makers, may be seen at the Temple; and any information given, or instruments furnished at the manufacturers' prices, on application to
FRANK W. MILLER.
Portsmouth, Dec. 20, 1859.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of any thing in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely required to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, it cannot be done.
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.
J. B. WIGGIN & CO.,
Green St., Portsmouth.

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.
Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.
Mankind can never too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.
Weakness.
The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.
Nervousness.
Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.
Broken Down Constitution.
Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.
Try them!
All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.
25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1.25 for 4 qts.
DR. E. R. CLARKE, Sharon, Mass.,
Manufacturer and Proprietor.

DR. CLARKE'S HERB PILLS
ARE THE CHEAPEST AND BEST IN THE WORLD!!

DR. CLARK'S HERB SYRUP
cures everybody. Try it!!

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhea, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights. It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new building, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, Jr.
SHOP, OVER MERRILL & FERGUSON'S BLACKSMITH SHOP, OPP. NEW CUSTOM HOUSE.

SATURDAY, APRIL 7, 1860.

THE DANGERS OF DRINKING.

In a recent discourse from the text—"There is a way that seemeth right unto a man, but the end thereof are the ways of death," Rev. H. W. Beecher commenced by saying:

If, in this world, men could go back upon their path, and begin again, when they find that they have made a mistake, as men can in a journey; if they could treat character as school-boys treat a slate, and, when the example was found to be full of errors, rub it all out, and begin again; then it would not be so important to make right beginning in moral matters. But it is only to a limited extent that we change moral courses, when once we have advanced far upon them. It is, therefore, very important that men should not make a mistake in the beginning; and that they should not make a mistake in the beginning, it is very important that they should know how to discriminate between ways that are right, and ways that only *seem* right.

There are many things which conspire to make wrong courses in this life seem safe beforehand. To the young, that seems safe which appears brilliant and prosperous.—They have had no experience by which to judge of the remote working of any course that seems to begin fairly and purely. They have put hope in the place of experience. Youth unites courage and self-confidence, often in an unwise fellowship. The beginnings of evil are almost identical with good —*almost*, not quite. There is, frequently, in addition to this hopefulness, and this presumption, a difficulty in discerning the distinction between a right course and a wrong course, at the beginning. The beginnings are so near together—they are so nearly parallel—that you cannot easily discern the difference in them.

Two lines may seem to be parallel, and may be so nearly parallel that the eye cannot detect that they diverge in the slightest degree—the divergence may not exceed the ten thousandth part of an inch at the starting point; and yet, at a distance of a thousand miles from this point, the divergence is very plain; and if they extend around the globe the opposite ends are almost at right angles. There are always many things that work out their results quicker than others. Some poisons prove fatal at once, and others work disorganization in the system for weeks, and months, and even years, before they prove fatal.—And so it is with moral courses. There are always many things which do not directly injure men, but which do prepare the way for other things to do it. They get the man ready for assault and defeat, rendering him accessible, putting him off his guard, weakening his moral stamina, and predisposing him to temptation. Ten thousand things there are, of which the young say, "Is there any harm in this, itself considered?" There may not be any harm in a certain thing, itself considered, and yet that thing, if not avoided, may bring a man within the artillery range of other things in which there is harm.

There are a great many men in a great many kinds of business, to whose interests it is that the young school should not be over-scrupulous. There are men in every profession, that hold up the dignity, and nobleness, and moral excellence of the profession. Then there are men in every profession that tend to lower its tone. In all the professions may be found worldly men, without any moral feeling, apparently, who tend to work down the consciences of those who come under their influence. They tell the young aspirants in those professions that they must not bar up their own way by too many scruples, and that manhood is an obstacle to success.

There are worse men than these—men that seem to take delight in dissolving the pearl of purity in the young. I should scarcely believe such a thing was possible, if I did not see the workings of it. Yes, there are men of great wit, of great reasoning power, and peculiar fascination, that seem to take an infernal pleasure in charming the young away from their moral teachers, demoralizing their higher impulses and feelings, and preparing them for all manner of mischief. They would compass the sea and land to make one proselyte, that they might make him two-fold more a child of hell than themselves, if possible.

But besides, there are those who, though they do not desire to destroy men, yet desire to draw them down so far that their appetites shall come into market. They depend for their livelihood upon the vices of men. They like to have men buy largely, but not so largely as to destroy themselves. They would like to make all men customers, and then hold them as long as possible.—Therefore you hear them say, "Men ought to indulge in these things in moderation." What they mean by *moderation*, is that they want a man to pay a good while! What they mean by *moderation*, is that they would like a man to drink six times a day for sixty years! The man that drinks six times a day the first year, and sixteen times a day the second year, and dies the third year, does not pay half so well as if he drank more moderately. Then they want to secure a certain amount of respectability in their customers, because respectable customers draw others, while beastly customers drive others away. Therefore you see them leaning across the counter, and talking about morals, and saying such things as that a man ought to have self-respect enough to keep himself up in society. Ah, when men begin to tamper with appetites, the less they say about self-respect the better!

I apply all the remarks of this discourse to the subject of drinking. I think that temporarily there is a reactionary state in the public mind with reference to temperance. I think that to a certain extent there is a going back in this cause. I do not think the great cause itself, with the last thirty years of discussion, has lost ground; but I think that as in filling any great tank, the waters rush in in such a way that, as they rise up on parts of the surface, there are oscillations, so in the progress of any great cause there are reactionary influences which produce oscillations, as it were, in certain departments of the cause. And it seems to me that we are at a time in which the young are drinking again, if not as much as before the temperance movement was started, yet a great deal more than they were ten or fifteen years ago. That is, at least, the result of my own observation. And on this whole subject, I have this to say—that of all the evils among us, drinking is the most dangerous; and if any man thinks it is not, it is probably more dangerous in his case than in that of other persons. The men that are timid, and cautious, and stingy, and cold withal, are usually the men who do not like to drink, and who are least in danger of becoming drunkards; but the men that are genial, and generous, and confident, and hopeful, and that love to see things glitter by the head of the wine cup, are the men who like to drink, and who are in danger of becoming drunkards.

And this is pre-eminently a sin; for it is a sin which seems, in its beginnings, to be fair enough, and one which pleads long precedent, pleads secret example and permission, pleads custom in the highest and most respectable circles—pleads everything except fact and expediency. The beginnings of it are festal, convivial, beautiful even; but if there be one thing of which it may be said, "The ends thereof are the ways of death," this is it.

I speak as a pastor—I speak as a citizen—I speak simply as a man. I have seen so much of this evil, I do see so much of it, I see that it is so easy to let it alone before meddling with it, and so hard afterward, that I feel bound to warn you against it, again and again. And I am speaking what I do thoroughly believe, when I say that unless a man has occasion to use the various alcoholic stimulants for real *bona fide* medical purposes, he had better let them entirely alone; because the beginnings of this habit seem right, and the ends thereof are death.

One thing is certain—you do not need to drink. It does not do you any good. It is expensive and dangerous. The more you do it, the more you want to do it, and therefore the more dangerous it becomes in your case.

I am not wholly faithless with regard to the reformation of men who are addicted to drinking; but I think that except by means of institutions, it is almost impossible to reform them. Instituted help, long confinement, and regimen, may eradicate the taint from them.

One word more under this head. There is a habit of recommending the substitution of milder beverages in the place of the stronger ones. Now men may talk as much as they please about lager beer, aild native American wine, and about those who drink being satisfied with these, but what is it that makes men drink in this country? Do they drink because they love the taste of liquor? Do they do it as a general rule for any other reason than this—that they have two weeks' work to do in one, and they want to double strength? You drink because you have got to do ten hours' work in a day, and you have strength to do only eight; you drink because you have got to do fifteen hours' work in a day, and you have strength to do only twelve; you drink because you have got to do eighteen hours a day, and you have got strength to do only sixteen! You want *steam*, and therefore you drink that which will make steam!—The Frenchman and the Italian may drink for the *tongue*, but you drink for the *nerve*.

Talk about the people in foreign countries, where the habit of drinking is universal, being peaceful? They are a thousand times more quarrelsome than we are. The people in those countries where there is beer-drinking in families, are the most quarrelsome in the world. They may not get drunk, but you will find in them the preliminary tendencies to drunkenness. They drink enough to make them irritable, perpetually. We drink not to gratify the palate, but for a business purpose. That being the case, we may begin our fires with pine shavings, not only because we can light them so easily, but also because we want them to set on fire something solider. And wine is a step-stone to brandy. Beer a step-stone the other way. It does not lead up to brandy, but it leads down to *drunk*—and beastly drunk.

I would speak with discrimination. I would not make what I say void of influence, by any seeming extravagance. I would leave a margin of toleration, where, under the appropriate directions of physicians who are themselves temperate, men may, for occasional states of aberration in the physical system, use ardent spirits.—But in regard to using milder beverages for the sake of doing two men's work, I say, you can begin with these, but you will not stop with them. When they have lost their power to stimulate you, you will want something stronger, and you will go to brandy;—and from brandy—if such a thing remains except in legends—you will go to drugged brandy and spices. You will be a drunkard then, and there is no use of tracing you farther. A man that drinks for the sake of the drunk, is a drunkard, whether he reels or not. Thus the beginings of the ways of intemperance may seem right, but the ends thereof are the ways of death.

I will here repeat what I believe I have said to you aforetime. There is an asylum being built in Binghamton under the auspices of Dr. Turner, for inebriates. There ought to have been one long ago. I thank God for the springing up of this one. It will be the pioneer of others. We need many such instruments. I am informed that although the building is not yet completed, and although it is gaged to accommodate only three hundred patients, more than twenty-eight hundred applications for admissions have already been made, and that four hundred of them were made in behalf of women.

Now such facts as these ought to make men pause. If any of you are gradually going back to your old customs; if you are beginning to put wine on your dinner table again, and are beginning to offer wine to your friends again, as they step in day by day, and are beginning to drink brandy again; I most earnestly, I most solemnly, warn you of the mischief you are doing to others and yourself; and I beseech you by every motive that is sacred in the eye of a man and a Christian, to stop, and take the safer ground.

☞ "Occasional" writes to the Philadelphia Press as follows:

One of those cases which awaken the sympathies of all men came to my knowledge the other day, and it is of so interesting a character that I cannot refrain from giving it to the world. An estimable colored man, well known in Washington, called upon me on Monday, with tears in his eyes, and said: "I have had news to tell you. My wife, with whom I have lived happily for more than twenty years, was sold by her master on the 19th of March, and is now in the slave-pen at Alexandria, and will be sent by the slave-trader to the extreme South unless I can raise $800 by Saturday to buy her back to my bosom, and to give to our children their devoted and faithful mother. We have had eleven children, of whom seven are now alive."—On inquiry I found that the woman was an honest and trustworthy servant, and I know her husband to be one of the best fellows of his race.

A subscription was immediately started, and we shall be enabled to rescue her from her impending doom. I am not disposed to enter into an argument against slavery, but is it not a galling reflection that here, in the district of Columbia, this infernal traffic in human flesh is carried on, and that a slave-pen is maintained within sight of the Washington Monument? It does my heart good to see the feeling which this case has excited among Southern men.—They look upon the slave-trader with even more abhorrence than we of the North, and I have no doubt that in the list of names attached to the paper for the relief of poor Sam's wife will be found many generous slaveholders.

FLOATING THIRTY MILES ON A CAKE OF ICE.—The Green Bay Advocate relates a thrilling ice adventure:—

"Henry Martin and Isaac Gagnom, one with a load of hay, the other with a load of corn meal, were travelling on the ice of Little Bay de Noquet. About 4 o'clock P. M., they discovered a crack which cut them off from the shore, and that the ice on which they were was floating them out into Green Bay towards Death's Door.—They unharnessed their horses and let them go, and took the box off one of the sleds to use in case they got into the water. At midnight, being exhausted, they lay down to sleep under the lee of a hummock of ice. In the morning, at eight o'clock, they saw land which proved to be Washington Island, and they landed outside Death's Door. They had thus been driven thirty miles across the Bay in one of the heaviest gales that ever blowed. The horses, after being loosed, followed the men in their rambles on the ice until coming to a weak place they went in. Two hours later, one of the horses swam up to the cake, on which the men were, put his head on the ice, looking beseechingly, but they could not help the poor brute."

ORIGIN OF "HAIL COLUMBIA."—The song of Hail Columbia, adapted in measure to the President's March, was written by Joseph Hopkinson, of Philadelphia, in 1798. At that time war with France was expected, and a patriotic feeling prevaded the community. Mr. Fox, a young singer and actor, called upon Mr. Hopkinson one morning, and said, 'To-morrow evening is my benefit at the theatre. If you will write me some patriotic verses to the tune of the President's March, I feel sure of a full house. Several people about the theatre have attempted it, but they have come to the conclusion that it cannot be done.—Yet I think you may succeed.' Mr. Hopkinson retired to his study, wrote the first verse and chorus, and submitted them to Mrs. Hopkinson, who sang them to a harpsicord accompaniment. The time and words harmonized. The song was soon finished, and that evening the young actor received it. The next morning the theatre placards announced that Mr. Fox would give a new patriotic song. The house was crowded—the song was sung—the audience was delighted—eight times it was called for and repeated; and when sung the ninth time, the whole audience stood up and joined in the chorus. Night after night, 'Hail Colubia' was applauded in the theatre; and in a few days it was the universal song of the boys in our streets. Such was the origin of our national song, 'Hail Columbia.'"

The venerable Rev. Jaazaniah Crosby, of the Unitarian Society of Charlestown, on Sabbath before last, preached his fiftieth anniversary sermon to the people of his parish. He was settled in Charlestown in his youth, immediately after his ordination, and his case affords the unusual example, in this fast country, of a pastor retaining the affection and veneration of his people during his entire ministerial life. But three men are now living who were members of his congregation at the time of his settlement, viz: Geo. Olcott, Esq., Hon. Enos Stevens, and Hon. H. Hall.—*Claremont Eagle.*

"VERY LIKE A WHALE."—Mr. Albert Blake, a shoemaker of Claremont, having a fondness for sport, went fishing the other day up Black River, near Cavendish, Vt., and soon made fast to a Pike, which, from the strength of its pull, he "suspicioned" was one of the early settlers. After an exciting struggle of some twenty minutes, he succeeded in landing it safely and brought it home. This respectable fish measures three feet four inches in length, weighs eighteen and three-quarter pounds, and was taken with a common trout line!—*Eagle.*

☞ The U. S. House of Representatives, on Thursday, passed the bill against polygamy, 149 to 60.

Mr. Lovejoy of Ill. made a speech against slavery, endorsing Helper's book, &c., amid a storm of opposition from Messrs. Barksdale, Bonham and others.

SLAVERY IN TENNESSEE. — A correspondent of the Independent, who resides in Tennessee, says:—

"We have fifty families who do not own slaves, to one who does; and of those fifty, nearly every one wishes that ours were a free State.

☞ The four bogus deputy sergeants-at-arms, who tried to kidnap B. F. Sanborn, at Concord, Mass., are held to bail in $2000 each, for trial for assault with intent to kidnap. They got bail very readily, as the slave power and its patronage stands behind them.

Sanborn himself has been arrested and held to bail in $500 for assault and battery on the minions who handcuffed him. No Massachusetts jury will convict him on this charge.

AN HONORABLE RECORD.—It is recorded of John Waller, an early Baptist minister of Virginia, that, for the offense of preaching the gospel, he lay in four different jails one hundred and thirteen days, besides receiving reproaches and buffetings, stripes, &c.

Brother Wigfall got up a howl in the Senate the other day, over a similar persecution of Baptists, by the Puritans of old Massachusetts. Will he favor us with another bowl of the same sort for old Virginia?

SPRING GOODS

—at the—

CONGRESS BLOCK BOOK-STORE.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK,

Has just received

most of his supply of Goods for the SPRING SALES, and would respectfully call the attention of his friends and the public, to the following, which he has now in store:

LAST CALL.

All persons indebted to the late firm of JOSEPH HARVEY & SON are requested to call at my office, No. 47 Congress Street, and pay their bills and notes before the 25th of April.

All accounts not paid by that time will positively be put in suit for collection, as the business of the firm must be closed.

JOHN S. AARVEY, Assignee.

April 6, 1860.

MUST BE SETTLED NOW!

All bills due the subscriber for subscriptions, advertising, and job work, at the Gazette Office, and all similar bills contracted with E. N. Fuller, Esq., who sold and transferred the same to me, must be paid immediately. All bills unpaid by the fourteenth instant, will be deemed utterly worthless, will be sued, and collected, with costs.

AMOS S. ALEXANDER,
OFFICE, No. 5 Daniel St.

Portsmouth, April 2, 1860.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiturumenos.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The wide reputation which Dr. J. Hostetter's "Stomach Bitters" have attained during the past year, bespeaks its excellence in a more forcible manner than we can offer. It renovates, purifies, and strengthens the system, and aids the stomach in the performance of its functions. It is regarded, on all sides as a sovereign specific, and therefore, to prepare it in the best possible way, should be the object of the public. We commend it with more than usual confidence, believing and knowing, as we do, that it stands foremost among the many preparations of the day, for imparting strength, vigor and tone to the system, and possessing the curative powers for all similar diseases arising from a disordered stomach. In the most severe cases of cramps, diarrhœa, and weakness in the stomach, the "Bitters" have been rigidly tested, and always with the greatest success.

Sold by druggists and dealers generally, everywhere.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health it has no parallel.

For the following Complaints these Bitters are a specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Deblility:

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of healing art.

Subjoined are a few tributes from well-known physicians:

MANSFIELD, TIOGA CO., PA., Aug. 26, 1858.

I have used the Oxygenated Bitters in my practice with decided success in debility, and general prostration, &c., and confidently recommend it in General Debility, and diseases of the digestive organs. F. H. WHITE, M. D.

AUBURN, N. Y., Sept. 6, 1858.

Gentlemen:—I have been in the drug business the last fifteen years, and have never sold a medicine that has given such general satisfaction in cases of Dyspepsia as the Oxygenated Bitters, and in this disease I always recommend it.

H. G. FOWLER.

BURLINGTON, VT., Nov. 12, 1854.

Gentlemen,—I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from taking only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure.

Yours, &c., JAMES LEWIS, M. D.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Boils.

These torments of Job seem to be uncommonly prevalent at the present time. Like the volcano, boils give issue to the foul and fiery contents of the deep interior. How much better is it to remove the causes of such suffering by stimulating the absorbents to healthy activity through the agency of the PERUVIAN SYRUP, and to remove disordered secretions into health-giving elements.

Letter from Rev. Richard S. Edes.

BOLTON, MASS., June 1, 1859.

MESSRS. N. L. Clark & Co.—GENTLEMEN,—For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent advance. In 1854, a carbuncle, which ultimately occupied a space of three or four square inches, formed on the small of my back. During the progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system was great. Before I had recovered from this attack, two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I had previously availed myself of the advice of scientific and skilful physicians, and had tried various remedies which were recommended to me. They sometimes produced a temporary relief, but none of them had the effect to break up the tendency of my system to boils and carbuncles. Formerly the slightest injury to the cuticle, a scratch, or an abrasion was almost certain to result in a boil, sometimes a succession of them. I continued taking the Peruvian Syrup until I had nine five bottles of it, and since then I have had nothing of the kind, although occasions have since occurred which would have given rise to acute suffering, had my system been in its former diseased condition.

I attribute this improved state of my system entirely to the Peruvian Syrup, and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind of intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character.

Respectfully yours, RICHARD S. EDES.

GRASS SEED.

150 Bushels HERDS GRASS, CLOVER and RED TOP SEED, for sale by

HENRY F. GERRISH,

Local.

CITY WATCHMEN, AND THE APPROPRIATION BILL.—The Common Council are desirous of cutting down the appropriations for the current year, as proposed by the joint Finance Committee. Well, $50,000 and upwards *does* seem a large sum for a city like Portsmouth to spend; but there seems no way to dodge much of it.

As to the City Watch, for which about $2000 is annually expended—some of the Council thought, as doubtless will others outside, that $1.50 per night is rather high pay, when equally good men are glad to work for half that sum per day. It was thought that 75 cents per night would hire as good watchmen as can be found in the city.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

☞ Mr. Barnum made a speech from the stage of his Museum in New York, which will answer as a fine advertisement for him. As he has done a great deal for the newspapers, says the Boston Post, we are glad to see that they, by publishing it, are doing something for him. Mr. Barnum announced that after five years of hard struggle to keep his head above water, he has at last waded ashore. He has paid every clock debt, and relieved himself of all his liabilities He acknowledges his obligations to forbearing creditors, generous friends, and his wife, for this result. He gave up all his property to meet his obligations in 1855, but when his Connecticut real estate was sold his wife bought some of it in with the proceeds of property he had made over to her in the days of his prosperity. This was the lease of the Museum building, having 22 years to run; and the Museum collection being sold, subject to her interest, she has received from this source $80,000 over and above the sums paid to the owners of the building.—This amount was devoted by her to buying up his indorsements. "The Christian name of my wife," says Mr. B., "is Charity. I may acknowledge, therefore, that without Charity I am nothing."

His labors in Europe yielded him a considerable sum, which was devoted to the same object. In this way, by hard labor, economical living, and perseverance, he has recovered his ground, and although he has lost a great many tens of thousands of dollars, he is still in a condition to go to work zealously and hopefully. He promises all sorts of attractive entertainments at the Museum, which is located, he says, on the most accessible spot on the island, and will re-open it April 7th.

☞ News from Europe, by the Kangaroo, from Liverpool, March 21.

The annexation of Savoy to France has been definitely settled by France and Sardinia, and the treaties signed.

In the English Parliament, the proposition for the ballot was rejected.

A squadron of four vessels, headed by the screw steamer Hero, is to convey the Prince of Wales to Canada. The London Times recommends that the Prince make the tour of the United States, and feels sure a visit to the President will be appreciated.

Mrs. Jamieson, the authoress, is dead.

Florence Nightingale was seriously ill, and prayers are offered in the garrison chapel for her..

Farini has presented to the King of Sardinia the votes of the provinces in favor of annexation. The King, in reply, said he accepted the vote, but at the same time he would not fail in devotedness to the Pope.

The Pope had addressed an admonitory to Victor Emmanuel, breaking all relations, and excommunicating him.

MARRIED.

Juvenile Dancing School.

MR. LAMPREY

Respectfully informs his friends, and parents generally, that the SUMMER TERM of his

DANCING & WALTZING SCHOOL

for Young Misses and Juveniles, will commence

AT IRVING HALL,

ON WEDNESDAY AFTERNOON, April 18, at 3 o'clock—to continue each Wednesday and Saturday Afternoon, for 24 Lessons.

Terms, $8 for the Course.

☞ Among the new Dances to be taught, are Le Prince Imperial Quadrille, from the Imperial Opera; Zuima l' Orient, a Danish Dance; Polka Redowa Quadrilles, Shottische Quadrilles, and all the fashionable figures of the season in New York and Boston.

A RAID UPON THE MOUNTAINS.

While the people of Vermont are proverbial for their virtues and hospitality, a few thinly settled districts upon the high ridges of the Green Mountains have always been infested with a dangerous and daring population. It was so in the days of the Revolution, and many a defile and glen among the summits has its story of having been the retreat of a reckless band of adventurers.—Most of these families were refugees from other States, who sought safety among the solitudes of the mountains. The most desperate house-thieves, counterfeiters and robbers in the country up to the present time, are those who hide themselves among these wilds.

One of the peculiarities of this class of people is their total disregard of the Sabbath or marriage. Even when the younger class emigrate, they are apt to retain their roving, reckless habits. Nearly eight years ago, one of them, sturdy and well-appearing, married a young woman near Manchester. He was employed as a machinist at Lowell. Two years after, he abandoned his wife, taking with him the only child, and leaving him with his parents, who live on a mountain in the town of Hancock, Vt.

During the past winter, the mother visited the child. Having obtained legal advice, and ascertained that her husband had without a divorce married another woman, she left Manchester recently, accompanied by a relative, to recover her child by legal force if needed. The people of that town number about 400, and knowing the circumstances, strongly sympathized with the mother. The house where the boy was kept was two miles up the summit, isolated from the rest of the town. The mother with her friend went to the house, found the boy, now seven years old, and attempted to escape with him. The alarm was however given to the husband's brothers, in the maple woods near by, who rushed upon the wagon, dragged out of it both mother and child, and after violent usage carried away the boy, and compelled the mother to leave the mountain.

On her return to the village, the people of the town were fully aroused, and assembled almost *en masse*. A strong guard was sent up the mountain to watch the house during the night, to prevent escape; and at daylight the sheriff, with the mother and a strong posse, entered the house, but found the child missing. After arresting the grandfather and one of the brothers, the citizens, in despite of the storm, pushed up the mountain, and found the child where it had just been left by its uncle upon a snow drift. The boy was restored to his mother, and taken to the village. Two of the brothers attempted to get the child by force, but the Ethan Allen grit of the town's people prevented their success. They even drove to Bethel, twenty miles distant, to intercept the mother and child at the depot; but the people of Bethel, apprised of the facts, were on the alert, so that both escaped without further difficulty.—*Manchester American*

☞ In New Bedford, Mass., are some 2000 Portuguese emigrants from the Western Islands,—sailors and laborers.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Ragians, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & FAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation. CHARLES W. BREWSTER.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N.Y

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Hoarseness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.—*Ladies' Home Magazine.*

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S

PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than it burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

WM. D. PERKINS.

Portsmouth, March 11, 1859.

THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.

FOR STATESMEN, JUDGES, CLERGYMEN

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair dark, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility, and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added, to them, by hair falling on the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very respectfully,

BENJ. A. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Alamatoo, Ala., July 20th, 1858.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to you "Hair Restorative," the hair will return now beautiful than ever, at least this is my expertence. Believe it all. Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like. By publishing in our Southern papers you will get more patronage south. I see several of you certificates in the Mobile Mercury, a South ern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of fever, while in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair has grown in full glossy and no words can express my obligations to you in giving to the afflicted such a treasure.

FILLMORE JOHNSON.

The Restorative is put up in bottles of three sizes: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Panacea** is unrivalled for the cure of Cancer, Scrofula, Salt Rheum, Ulcers, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

Compound of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Side and Back, and the whole family of Consumptive complaints. Price 75 cents.

Rheumatic Compound, for the cure of Rheumatism in all the various phases and names of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound has proved to be the surest remedy for these complaints that has been tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.

His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.

His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents

Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 38 cts; large, 50 cents.

Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of DR SIMEON SWETT'S MEDICINES

constantly for sale at his residence in

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, SECOND TIER OF 1-37.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent in the United States, for One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if equal to, any other agency in the country, as inventors can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense amount of business transacted during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents. These, with his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond competition, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting the application in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 3, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and has done it now upon the most unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPLICATIONS, ONE of which was decided in his FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the Blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, intemperance, or an healthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the several impurities of the blood, which, in fact, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects are generally deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles, and in other parts of the body, on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases, consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumptive which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all the people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system, we must resort to the best means in alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is compiled from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the cure of the diseases from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TETTERS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TOOTH PAIN, DYSPEPSIA, LIVER COMPLAINT AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from impurity of the blood. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The paramount power and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are generally acknowledged to be the best. Their action can rarely withstand or evade them. Their penetrating properties search and cleanse the whole body internally, and by their alterative agenism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of disease gone, health returns, and those who were with pain or physical debility is astonished to find his health or energy restored by a remedy at once so pleasant and invigorating.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous disorders. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions of the Skin, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of advanced Consumptives in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate disease of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thru upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec20 6m d&w

All Advertisements outside the regular legitimate business of advertisers—such as auctions, private notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, will be charged at one-half the above rates of transient advertising.

For Notices in editorial columns 10 cts. per line, each insertion; "Special Notices," 6 cts. per line, each insertion; per Square, double the rates of other advertising.

As Advertisements appear in both Daily and Weekly Chronicle—they receive thorough circulation in the city and vicinity, and throughout the State.

NOTICE TO ADVERTISERS.

The Chronicle Office is open from 4 o'clock in the morning till 8 in the evening; and advertisements, notices, &c., duly authenticated and authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if nothing of special importance.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

We expect all papers to be delivered as early as half-past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the early morning hour, to be placed on the counter or desk, and never on the floor. All left at residences, to be placed in the storm-house, if any; and if none, to be put inside the house door; or if necessarily left out, the bell to be rung.

If subscribers will immediately inform us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence that any carrier has been stealing a copy of the Chronicle from any door.

☞ S. R. Niles, (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Court Street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Scrofula, Dyspepsia, Rheumatism, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE DIFFERENT RADICALS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS indicating CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all Chronic COMPLAINTS arising from LIVER, KIDNEYS, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 402 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and Pills. Because it *never fails to give immediate relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing inflammation, regulating the Bowels, and relieving pain, it has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; the you can depend on. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

MRS. WINSLOW,

An experienced Nurse and Female Physician,

presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, never been able to say of it, what we have of no other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, when timely used. Never did we know an instance of dissatisfaction by any one who had tried it. On the contrary, all are delighted with its operations, and speak in terms of the highest commendation of its medicinal virtues. We speak, in this matter, *what we know from personal experience, and what we believe.* We speak, in this matter, *from our reputation, for the truthfulness of what we here declare.* In almost every instance where the infant is suffering from pain, a single dose will be sufficient to relieve it within fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with great success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, and gives rest to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest remedy in all cases of DYSENTERY AND DIARRHŒA, IN CHILDREN, from any cause whatever. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will SURE—yes, to follow the use of this medicine, if timely used. Full directions each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

THE WINE GLASS.

Who hath woe? Who hath sorrow? Who hath contentions? Who hath wounds without cause? Who hath redness of eyes? They that tarry long at the wine! They that go to seek mixed wine! Look not thou upon the wine when it is red, when it giveth its color in the cup; when it moveth itself aright. At the last it bitteth like a serpent, and stingeth like an adder.

BAD LIQUOR.—A correspondent urges that if the drinking population of our city could only be induced to see and hear Dr. Cox's demonstrations of the poisonous character of the liquors they are constantly imbibing, they would surely refrain. We do not believe it. Why should they revolt against sulphuric acid, strychnine, Prussic acid, etc., and not against alcohol? Are the former deadly poisons? So is alcohol. So is Nicotine, the essential principle of tobacco, as has has been a thousand times demonstrated. Yet what votary of tobacco ever declined one chew, one pinch, one whiff, on that account? It is very true that most of the liquors drank in this city, from what pretends to be pure Cognac down to the mildest lager beer, are grossly adulterated—or rather they are made up in good part of cheap and deadly substances which differ radically from those of which they profess to be extracts. But if they were just what they purport to be, they would be poisons still; and the tendency of such teachings as Dr. Cox's is to induce a blind belief that, if they were only not adulterated, they would be innoxious, if not wholesome. If men will poison themselves, we see not why they may not as well do it with strychnine as with nicotine, sulphuric acid or alcohol. That the former do their work the more speedily, is a recommendation of one class or the other; but we do not decide of which. In this gloriously free and enlightened country, if one man chooses to kill himself with a pistol and another with a cleaver, who shall overrule the choice of the one in favor of that of the other?—*New York Tribune.*

HALLET, DAVIS & CO.,
400 WASHINGTON ST., BOSTON,
Manufacturers of
Best Square & Grand Piano-Fortes,
WHICH ARE WARRANTED FOR FIVE YEARS.

Having had an extensive experience of 25 years in this business, and having at present the most complete facilities for turning out twenty Pianos per week, they feel confident in guaranteeing perfect satisfaction to all persons.

As an evidence of the superiority of their Pianos,—this house has received the awards of thirty-two Premiums, with Medals of gold, silver and bronze; nine of which were first Premiums for the best Grands and Parlor Grands, over all competitors.

There are many instruments in Portsmouth, from this manufactory—to the owners of any of which, we would respectfully refer.

A splendid 7-octave Piano from the above celebrated makers, may be seen at the Temple; and any information given, or instruments furnished at the manufacturers' prices, on application to
FRANK W. MILLER.
Portsmouth, Dec. 20, 1859.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR. CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shaokled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1.25 for a qts.

DR. E. R. CLARKE, Sharon, Mass.,

Dr. B. S. Goodwin, Indian Physician,

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street, Dr. G. would respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all disease from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhea, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.

No Mercury! No Bleeding! No Blisters!

Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Bickford's Spring Balance,

for Window Sashes, to take the place of weights. It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

☞ Also, *CARPENTER WORK* faithfully executed. ADAMS PERRY, JR.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, APRIL 9, 1860.

THE PRESIDENT'S MESSAGE.

The Concord Patriot endorses it, in the following terms:

We publish the President's protest against the action of the black republicans of the House, in appointing a roving committee to hunt up scandal against him. It is a temperate, dignified and manly rebuke to their mean and arrogant course, and an earnest and able defence of the just and constitutional rights and prerogatives of the high position he occupies.

The Portsmouth, N. H., Gazette also endorses it as "a most able, dignified and manly protest"—and says:

That the President is entirely right in his position, every intelligent man must perceive.

On the contrary, the Bath, Me., Times a Douglas democratic paper, says Mr. Buchanan has taken the course to confirm the suspicions already aroused; and his interference with action on the part of the House, which did not call upon him for information, is well calculated to beget and strengthen the impression. * * * One thing which makes the whole matter look dubious, is the fact that immediately after the passage of Mr. Covode's resolution, and the appointment of the committee provided for in it, the Washington Constitution—the official organ of the administration—came out and defiantly challenged the most searching examination. * * * The democratic papers all over the land took up the tune thus pitched by the official organ. * * * The action of the President, in trying to head off this investigation, which was expected to do so much in wiping the reproach from his administration, is a "wet blanket" that was entirely unexpected. Referring to the President, Mr. Buchanan says:

He is the only representative of the people of all and each of the sovereign States. To them, and to them alone, is he responsible whilst acting within the sphere of his constitutional duty, and not in any manner to the House of Representatives.

On this the Times remarks—Such language seems to us to smell strongly of the French Court, and to smack distinctly of a *coup d' etat*. No man ever with more confidence appealed to the people than Louis Napoleon while trampling upon the French constitution, and while gathering up the reins for an imperial drive; and the result has shown that he knew what he was about.

Why talk of heeding the people and of defending their rights, while spitting in the faces of their representatives—the only mediators between them and him! We repeat, under the circumstances the language employed by the President is worthy only of the demagogue, who feigns great love and respect for the "dear people," while his ear is deaf to their remonstrances, and he is studiously ignoring their voice and disregarding their expressed will.

Our government for the past three years has drifted towards the rocks of despotism with fearful velocity. Democratic spirit has been declared treason to the party. Dissent from the Executive has been deemed a crime to be punished with political death. Juntos have been more potent than cabinets. "Boards of Trade" have exercised the functions devolved by the Constitution upon the elected servants of the people.—Men have been smitten down in the public service for no crime; and when a reason was asked, no response has been granted.

Five years more in the same direction and with the same velocity, would leave the French empire far in the rear. Despotism as perfect as that of the autocrat of Russia now prevails in high places. Men in office fear to express their own preferences even for the *succession*, unless those preferences are shared in by the head of the government. To prefer those whom that does not, is to incur displeasure and be punished with removal. Who ever heard of such a state of things before? Who can feel safe, with all the offices—civil, military and naval—in the hands of men who dare speak only as their chief?

☞ The President is preparing a message on our relations with Mexico, which the Atlas says, he intends sending to Congress before the Charleston Convention, with the intention of making a sensation there. His friends have not abandoned the idea that some remote accident may lead to his nomination. They are planning for such a contingency.

☞ Government advices have been received up to the 15th ult., but nothing is known officially by the government of the bombardment of Miramos. Private advices, however, have been received up to the 23d. Miramon had raised the siege, and given up all hope of capturing the city, and left for the city of Mexico. But few lives were lost, but a great destruction of property had taken place from the bombardment.

☞ The United States sloop-of-war Mohican, from St. Vincent, (Cape de Verde,) arrived at Port Praya, Feb. 15, and sailed on the 18th for Monrovia—all well.

☞ The State of Arkansas is the only State in the Union without a telegraph, and she has not a foot of line within her border.

RESULTS OF AN IRISH SPREE.—On Thursday night, in South Reading, Mr. Thompson, an Englishman, who lets the upper part of his house to an Irish family, was so disturbed by a jollification overhead that he went up stairs and asked the persons engaged in the tumult to discontinue their disorderly conduct. They, however, kept on, when he told them that unless they were more quiet he would call the town officer. Thompson started to summon the officer. When the party ascertained that he had gone, a number of the men, furious with liquor, followed him, and as he reports, surrounded and attacked him, when, to save his life, he stabbed three of them. One died in a few minutes, another cannot recover, and a third is dangerously wounded. Thompson immediately gave himself up to the officers.

THE SECOND ADVENTISTS are again on the *qui vive*, in anticipation of the approximate end of all mundane things. They were looking hard for it on the first day of April; and then their curious arithmetic indicated Sunday April 8, as the chosen time for the coming of the kingdom of Christ; but it seems they must "wait a little longer."

ANOTHER BODY FOUND AT LAWRENCE. Thursday, as is the usual custom at Lawrence on holidays, the water was drawn off from the canal by which the mills are supplied with water, and a mass of brick which fell into the canal at the time of the disaster to the Pemberton Mill, was removed, when beneath there was found the body of Mrs. McCann. She was probably carried down with the falling wall through the ice and drowned. She leaves two or three children.

EASTER.—Lest Friday was Good Friday, the Church anniversary of the Crucifixion. Last Sunday was Easter Sunday, the anniversary of the Resurrection of Jesus from the dead. It is the great day of the Church, when from the humblest chapel to the loftiest cathedral whose arches echo to the organ notes, was sounded the glorious triumph of the risen, "Christ has risen from the dead, and become the first fruits of them that slept."

RHODE ISLAND ELECTION.—The result of the election in this State is the defeat of the regular Republican ticket, by a Coalition of Democrats, Americans, and dissatisfied Republicans, upon a ticket headed by Mr. Sprague for governor.

The total vote of the State, with one town (New Shoreham) lacking† is:—

Sprague	12,146
Padelford, Repub.	10,577
Scattering,	149

The vote of Providence stood:—Sprague, 3578; Padelford, 2761. Of Newport:—Sprague, 812; Padelford, 476.

The Senate, so far, shows three Republican majority,—with several districts to elect. The House contains a Coalition majority.—*Traveller.*

GREAT LOSS.—The statement is reiterated without contradiction that on the large private sale of British dry goods, made at New York, last week, to the amount of $192,000, there was a loss to the importers of nearly $100,000, and that large lines of French and Swiss dress goods have been sold this spring at half the cost of importation.

WIGFALL STILL RISING.—It will be seen that Senator Wigfall's last announcement proves that his power of eating fire increases daily. "The State of Texas," he shouted, "was a sovereign State, and exercised rights which had never been delegated to *this miserable one-horse concern at Washington.*"

☞ Dr. Hayes never saw but one Esquimaux with a beard,—an old man, with hairs upon his upper lip and chin, silvered with age. The faces of all others of the tribe were as innocent of hair as a woman's. The beards of Kane's party excited great curiosity and admiration among the natives of the Arctic regions.

It is more difficult to forgive an injury from a friend, than from an enemy. Your favorite dog flying at you, pains you a great deal more than a similar assault from a strange dog.

☞ Hon. George N. Briggs of Massachusetts has been cordially and unanimously elected Chancellor of Madison University. If he accepts the appointment, Dr. Eaton will retire from the Presidency, that he may devote his whole time to the more congenial duties of his Theological Professorship.

SENTENCE OF REV. DANIEL WORTH.—*Fayetteeille, N. C., April 4.*—Rev. Daniel Worth has been found guilty of circulating Helper's book, and sentenced to imprisonment for one year.

☞ Hon. James K. Paulding died at New York, Wednesday. He was a native of New York State, born August 22, 1779.—He was connected with Washington Irving in the publication of "Salmagundi,"—and has since written many other books, and much for periodicals.

It is vain that we hope to please all alike. Let a man stand with his face in whatsoever direction he will, he must necessarily turn his back on one-half of the world.

☞ 12,000 to 15,000 pounds of foreign fleece wool was sold in Boston, Saturday, at 32 cts. per pound.

CONGRESS—*House, Friday, 6th.*—A resolution was adopted, asking the President for information concerning the reported expulsion of American citizens from the City of Mexico.

Mr. Covode, from the select committee, reported that they had examined Augustas Schell, who was connected with the New York hotel fund, a part of which was supposed to have been sent into Pennsylvania, and a portion expended in New York for electioneering purposes during the Presidential contest. The committee required him to produce the list of subscribers, which he declined to do, on the ground that it would be a violation of confidence. The committee propose a resolution that the Speaker should issue his warrant, bringing Mr. Schell before the House to answer for contempt.

Mr. Colfax asked leave to report a bill for the supply of the Pike's Peak region with the mails.

Private bills were then considered, and seventeen passed.

The House then went into Committee of the whole, and Mr. Wells spoke against slavery.

EXCITEMENT IN CONGRESS.—On Thursday Mr. Lovejoy of Ill., who is a brother of the Alton martyr, made a speech upon the slavery question, in which he used the most violent language of denunciation and invective. He left his seat and took his place in the area in front of the Speaker's desk, and proceeded with violent gesticulations to storm out the most terrific imprecations upon slavery. Presently Pryor of Va. protested against these maledictions against the institution, and soon Barksdale was shaking his cane. Mr. Washburne of Me. was in the chair, but as the excitement rose higher, Speaker Pennington was called in. The members crowded into the area, and there was intense excitement. The correspondent of the New York Herald says:

When the conflict was thickest, Lovejoy informed the infuriated crowd that they could not intimidate him. Potter of Wis., who stood by his side, gave notice that he had a right to select his own position when speaking. Burnett of Ky. insisted that the gentleman from Illinois should not be allowed to go on out of order. Another member cried out "He can't finish that speech here to-day," when Kellogg of Ill. sprang into the midst of the centre of the crowd in the area, and with great emphasis and feeling declared that his colleague was proceeding in order and should not be intimidated by threats or insult; that he was entitled to the floor and must be allowed to go on;—and when he was out of order, he (Kellogg) would be the first to check him. This last speech, together with the appearance of the Assistant Sergeant-at-Arms, brought harmony out of chaos, and Lovejoy mounted the Clerk's desk and finished his speech.

THE STATE PRISONER AT WASHINGTON.—Mr. Hyatt, the contumacious Senate witness prisoner, (says the Traveller,) is daily holding his levees at the Washington jail, at which Senators, Representatives, members of the press, distinguished visitors from abroad, ladies, all classes, meet daily. The jailors are kept in constant motion in letting in and out the callers on their guest. There is no alteration in his condition or position. The Senate shows no more disposition to "back down" than he does. In this case, under the law of 1857, at the close of the present session, he will be turned over to the District Attorney, when he can be liberated on bail, as was Mr. Wolcott; and he can then, as did Mr. W., for bit the bail and close the case and the issue if he chooses. But he declares it his intention not to give bail, and if the jury find a verdict against him, as it is almost certain that they will, to carry the case up to the Supreme Court, where is less doubt that the decision of the lower court will be sustained. He steadfastly refuses to apply for a writ of habeas corpus, as it will only end, as his friends say, in "intensifying" the precedent.

INITIATING THE GREEN 'UNS.—The boys of some of the Newburyport schools have an initiatory service for all new scholars, which consists in throwing them over a fence. This the Herald says is sometimes as violent and exciting as the initiation into the Sons of Malta. Three weeks ago one boy was caught in the fence by one leg, and split the bone so that he has not stepped since; and last week another boy had a collar bone broken. It is not unfrequently that they go home severely bruised.

☞ Considerable excitement was occasioned in Newburyport, on Friday afternoon, by the announcement that Henry T. Pearson, aged 16 years, had fallen dead in the Gymnasium. He was not a member, but was present by invitation, and had entered actively into their exercises. His first experiment at lifting was to raise 400 pounds dead weight. He then put on the gloves and sparred with another lad, went across the room, fell down and expired.

The Herald states young Pearson had been subject to palpitation of the heart, and it is probable that he died from some organic disease; and his death may have been hurried by over exertion.

WASHINGTON, Apr. 6.—John Brown, Jr., of Ohio, one of the refractory witnesses in the Harper's Ferry case, will not be pursued by the Sergeant-at-Arms, as the Senate Investigating Committee are satisfied that the Sergeant cannot call out the posse comitatus as can the Sheriff or Marshal, and therefore may be overpowered.—This meets Sanborn's case.

FROM EUROPE.—Steamship Kangaroo, from Liverpool, at New York, brings dates of the 21st inst.

The U. S. steamer Iroquois arrived at Gibraltar on the 14th, and the San Jacinto at Cadiz on the 9th.

The annexation of Savoy to France has been definitely settled by France and Sardinia, and the treaties signed.

In the English Parliament, the proposition for the ballot was rejected.

A squadron of four vessels, headed by the screw steamer Hero, is to convey the Prince of Wales to Canada. The London Times recommends that the Prince make the tour of the United States, and feels sure a visit to the President will be appreciated.

Mrs. Jamieson, the authoress, is dead.

Florence Nightingale was seriously ill, and prayers are offered in the garrison chapel for her.

Farini has presented to the King of Sardinia the votes of the provinces in favor of annexation. The King, in reply, said he accepted the vote, but at the same time he would not fail in devotedness to the Pope.

The Pope had addressed an admonitory to Victor Emmanuel, breaking all relations, and excommunicating him.

The Municipal Council of Nice have voted against the annexation of Savoy to France, and sent a deputation to Turin on the subject.

Austria declines to renew diplomatic intercourse with Sardinia, owing to flagrant violations of the treaty of Zurich by the latter power.

The Shah of Persia is dead.

WASHINGTON, Apr. 6.—The New Orleans Picayune of Tuesday says that Capt. Swasey of the ship Masconomo, from Liverpool, reports on the 8th ult., that while passing Cuba, was chased and fired at by a war steamer carrying Spanish colors. He hove to, and the steamer questioned him where the Masconomo was bound. The steamer then sailed away without giving any explanation. The Masconomo had American colors and private signals flying at the time.

SIX MEN KILLED.—*Philadelphia, Apr. 6.*—Six men were killed by being precipitated down the shaft of a coal mine at Irving Station, a few days since, in consequence of the breaking of a rope.

☞ Havana advices state that a difficulty had occurred at Cienfuegos between the seamen of U. S. steamer Wyandotte and the night watch. One seaman was killed.

☞ The documents of the State of Wisconsin are generally printed in the English, German, Norwegian, Dutch, Welsh, Irish and French languages. What a Babel!

☞ Job and Card Printing, of all descriptions, neatly and promptly executed, at the Chronicle Office. Engraved Cards furnished to order, in the best styles, at the lowest rates.

LAST CALL.

All persons indebted to the late firm of JOSEPH HAYWARD & SON are requested to call at my office, No. 47 Congress Street, and pay their bills and notes before the 25th of April.

All accounts not paid by that time will positively be put in suit for collection, as the business of the firm must be closed.

JOHN S. HARVEY, Assignee.

April 6, 1860.

MUST BE SETTLED NOW!

All bills due the subscriber for subscriptions, advertising, or job work, at the Gazette Office, and all similar bills contracted with E. N. Fuller, Esq., who sold and transferred the same to me, must be paid immediately. All bills unpaid by the fourteenth instant, unless deemed utterly worthless, will be sued, and collected, with costs.

AMOS S. ALEXANDER.
OFFICE, No. 5 Daniel St.

Portsmouth, April 2, 1860.

Piles.

All diseases of atony or loss of tone in the bowels, such as Piles, Prolapsus Uteri, Fistula, &c., are benefitted by the PERUVIAN SYRUP. It purifies the products of digestion, favors the healthy action of the intestines, and prevents the accumulation of refuse matters, and the costiveness which are the cause of so many of these weakening diseases.

BOSTON, Sept. 8, 1858.

Gentlemen:—For more than thirty years I have been a great sufferer from dyspepsia and piles. I have been frequently under medical treatment, and have tried various preparations which have been recommended to me, but received no permanent relief. In January last I commenced taking the "Peruvian Syrup," and after taking three bottles of it I became perfectly cured of the dyspepsia and piles, and my general health is now all that I can desire it to be.

MILTON DAGGETT, No. 12 Essex Street.

Dr. Wistar's Balsam of Wild Cherry.

This preparation is a certain cure for all diseases of the Throat and Lungs, Coughs, Colds, Bronchitis, Whooping Cough, Croup, Incipient Consumption, &c. In confirmation of the highest medical authority that "Consumption can be cured," numerous instances of complete restoration from this disease by the use of the Balsam can be given.

The following letter was received from Colonel Markham, of the British army, and shows the estimation in which the Balsam of Wild Cherry is held abroad.

Pier Hotel, Isle of Wight, England, Sept. 30, 1850.

Sir:—I have a daughter in a delicate state of health, who has, I think, received signal benefit from Dr. Wistar's Balsam of Wild Cherry, three bottles of which were sent her by her brother in Canada. Please put me up six bottles, and forward them by the first steamer to Southampton or Liverpool, as you may find most convenient, with any account of the medicine you may be so good as to send me. We have searched London for it in vain.

Believe me yours, truly,
WM. MARKHAM.

TESTIMONY OF PHYSICIANS.

Dr. Freleigh, of Saugerties, N. Y., says he cured Liver Complaint of four years' standing that would not yield to the usual remedies.

Abraham Skillman, M. D., of Boundbrook, N. J., says it is the best medicine for Consumption in every stage, that has ever been known.

None genuine unless signed I. BUTTS on the wrapper.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spn0t 4wd&w

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiotrumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The wide reputation which Dr. J. Hostetter's "Stomach Bitters" have attained during the past year, bespeaks its excellence in a more forcible manner than we can offer. It renovates, purifies, and strengthens the system, and aids the stomach in the performance of its functions. It is regarded on all sides as a sovereign specific, and therefore, to procure it in the best possible way, should be the object of the public. We commend it with more than usual pride and confidence, believing and knowing, as we do, that it stands foremost among the many preparations of the day, for imparting strength, vigor and tone to the system, and possessing the curative powers for all similar diseases arising from a disordered stomach. In the most severe cases of cramps, diarrhœa and weakness in the stomach, the "Bitters" have been rigidly tested, and always with the greatest success.

Sold by druggists and dealers generally, everywhere.

FIRE PROOF SAFES.

TWO SECOND-HAND FIRE-PROOF SAFES in perfect order. For sale by

GEO. L. TREADWELL,
apr6 1w 16 MARKET STREET.

Local.

☞ Mr. Shores, of the Congress Block Bookstore, seems to know just what we are in need of, before we say it,—and sends the article right into our Counting Room. We are indebted to him for a patent "Metallic Rubber Slate," which appears to be a sheet of iron coated with India rubber, so as to imitate the best slate—over which it possesses several advantages, being lighter, stronger, thinner, and we should judge in no way inferior. We were just thinking of getting one, on which to record our new subscribers daily, for the carriers' information.

Then there came, too, a package of Prof. Mapes' celebrated "Super-Phosphate of Lime," which will come in play, (most of the cits think farm-work is all play) if we retire to a farm in the country this season; and after testing it, we will give the result of our experience to the public.—Meantime, see Mr. Shores' advertisement—to-morrow.

"A man convinced *against his will*,
"Is of the same opinion still."

Our sage friend of the Journal has had the above couplet stereotyped, and given it a permanent place in his columns, as a standing motto. As a "companion to" it, we would suggest a selection from Holy Writ, which speaks of a certain sort of person "wiser in his own conceit than seven men who can *render a reason*."

☞ The report of the City Council last week, stated that Granite State Engine Co. No. 1 gave notice of intention to disband. We are informed this is incorrect—the Company is to withdraw from the Department, but will keep up their organization as an Ex-One.

We also learn that Atlantic Co., No. 6, will likewise withdraw at the close of their year, in May.

N. H. METHODIST CONFERENCE, at Manchester, Thursday, was principally occupied with general business. A memorial of the E. Genesee Conference, in favor of lay representation in the General and Annual Conference, was concurred in by a small vote. The thirteenth annual report of the Biblical Institute at Concord was read, showing that 382 students had received the benefits of this "School of the Prophets," who are now found in 24 different conferences, some on the Pacific coast, some in the missionary fields of China, India and Bulgaria. More funds are needed, and another professorship must be established.

The Conference have elected Rev. James Pike, D. L. Barrows, S. Howard and W. F. Evans, delegates to the General Conference.

☞ We are indebted to the courtesy of our neighbors of the Gazette, for the use of their types of President Buchanan's special Message to the House of Representatives, in response to their call for information respecting Pennsylvania Election.

☞ The pulpit of the Court street church, Newburyport, was occupied last Sabbath, by Rev. Dr. Swett of Portsmouth.

NEW YORK, April 6.—The Tribune correspondent says that the State Department has received from Charleston a statement of the capture of the brig Jehossee on the Coast of Africa by an English cruiser, which will be immediately transmitted to Mr. Dallas, for the purpose of demanding reparation. The Jehossee is owned by the parties concerned in the Wanderer's slave trading expedition.

It is understood the Harper's Ferry Committee will to-day take up the Sanborn arrest case, and bring forward a resolution giving the Sergeant-at-Arms authority to make the arrest.

The Covode Investigating Committee has examined George Baker, editor of the Pennsylvanian, who testified to holding a salary of $1200 in the Philadelphia Custom House, but could not tell what office he held, or what duties he performed, or why his name did not appear on the list of employees. He admitted he was a relative of President Buchanan. G. H. Purser testified to various matters connected with the government contract relative to the public storage in New York, stating that responsible parties had offered to take the contract $30,000 per year less than the amount paid by government. The Com. call on Sec. Cobb for copy of this contract and all correspondence relating thereto.

DECREASING.—The births in the Sandwich Islands last year were 1612; deaths 2291.

MARRIED.

In Eliot, 4th inst., by Rev. Daniel Waterhouse, Mr. GEO. M. STEVENS of Andover, N. H., to Mrs. LUCY M. FERGUSON, of Eliot.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving the tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

JOB MOSES, Sole Proprietor, Rochester, N.Y

Just received, a fresh invoice of the world-renowned

OLD DOMINION COFFEE-POTS!!

of which so many thousands have been sold during the past year.

COFFEE.

Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.

Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.

There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.

We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.

Ladies' Home Magazine.

OLD DOMINION TEA-POTS.

made upon the same principle as the Coffee-pots.

WOOD'S

PATENT COFFEE-ROASTER.

A great loss of the aroma of the coffee berry is suffered by the common method of roasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.

It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in this manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.

KEROSENE! KEROSENE!!

The President's Message

To the House of Representatives.

After a delay which has afforded me ample time for reflection, and after much and careful deliberation, I find myself constrained by an imperious sense of duty, as a co-ordinate branch of the Federal Government, to protest against the first two clauses of the first resolution adopted by the House of Representatives on the 5th inst., and published in the Congressional Globe on the succeeding day. These clauses are in the following words:

"*Resolved*, That a Committee of five members be appointed by the Speaker for the purpose, first, of investigating whether the President of the United States, or any other officer of Government, has by money, patronage, or other improper means, sought to influence the passage of any law appertaining to the rights of any State or Territory; and second, also to inquire into and investigate whether any officer or officers of Government have, by combination or otherwise, prevented or defeated, or attempted to prevent or defeat, the execution of any law or laws now upon the statute-book, and whether the President has failed or refused to compel the execution of any law thereof."

I confine myself exclusively to these two branches of the resolution, because the portions of it which follow relate to alleged abuse in the Post Office, Navy Yards, public buildings, and other public works of the United States. In such cases inquiries are highly proper in themselves, and belong equally to the Senate and House as incident to their legislative duties, and being necessary to enable them to discover and provide appropriate legislative remedies for any abuses which may be ascertained. Although the terms of the latter portion of the resolution are extremely vague and general, yet my sole purpose in adverting to them at present is to make the broad line of distinction between the accusatory and the remedial clause of this resolution. The House of Representatives possess no power under the Constitution over the first or accusatory portion of the resolution, except as an impeaching body, while over the last, in common with the Senate, their authority as a legislative body is fully and cheerfully admitted.

It is solely in reference to the first or impeaching power that I propose to make a few observations. Except in this single case the Constitution has invested the House of Representatives with no power, no jurisdiction, no supremacy whatever, over the President. In all other respects he is quite as independent of them as they are of him. As a co-ordinate branch of the Government, he is their equal. Indeed, he is the only direct representative on earth of the people of all and each of the sovereign States. To them, and them alone, is he responsible while acting in the sphere of his constitutional duty, and not in any manner to the House of Representatives.

The people have thought proper to invest him with the most honorable, responsible, and dignified office in the world, and the individual, however unworthy, now holding this exalted position will take care, so far as in him lies, that their rights and prerogatives shall never be violated in his person, but shall pass to his successors unimpaired by the adoption of a dangerous precedent. He will defend them to the last extremity against any unconstitutional attempt, come from what quarter it may, to abridge the constitutional rights of the Executive, and render him subservient to any human power except themselves.

The people have not confined the President in the exercise of the Executive duties. They have also conferred upon him a large measure of legislative discretion. No bill can become a law without his approval, as representing the people of the United States, unless it shall pass after his veto by a majority of two-thirds of both Houses. In his legislative capacity he might, in common with the Senate and the House, institute inquiry to ascertain any facts which ought to influence his judgment in approving or vetoing any bill. Thus participating in the performance of legislative duties between co-ordinate branches of the Government ought to inspire the conduct of all of them in their relations toward each other with mutual forbearance and respect; at least each has a right to demand justice of the other. The cause of complaint is that the constitutional rights and immunities of the Executive have been violated in the person of the President. The trial of an impeachment of the President before the Senate on charges preferred and prosecuted against him by the House of Representatives, would be an imposing spectacle for the world. In the result, not only his removal from the Presidential chair would be involved, but what is of infinitely greater importance to himself, his character, both in the eyes of the present and future generations, might possibly be tarnished.—The disgrace cast upon him would in some degree be reflected upon the character of the American people who elected him. Hence the precautions adopted by the Constitution to secure a fair trial.—On such a trial, it declares that the Chief Justice shall preside. This was doubtless, because the framers of the Constitution believed it to be possible that the Vice President might be biased by the fact that, in case of the removal of the President from office, the same shall devolve on the Vice President. The preliminary proceedings in the House, in case of charges which may involve impeachment, have been well and wisely settled by long practice upon principles of equal justice both to the accused and to the people.

The precedent established in the case of Judge Peck of Missouri, in 1831, after a careful review of all the former precedents, will, I venture to predict, stand the test of time. In that case, Luke Edward Lawless, the accuser, presented a petition to the House, in which he set forth minutely and specifically his causes of complaint, and prayed that the conduct and proceedings in this behalf of the said Judge Peck may be inquired into by your honorable body, and such decision made thereon as to your wisdom and justice shall seem proper.

This petition was referred to the Judiciary Committee. Such has ever been deemed the appropriate Committee to make a similar investigation. It is a standing Committee, supposed to be appointed without reference to any special case, and at all times is presumed to be composed of the most eminent lawyers in the House, from different portions of the Union, whose acquaintance with judicial proceedings and whose habits of investigation qualify them peculiarly for the task. No tribunal, from their position and character, would, in the nature of things, be more impartial. In the case of Judge Peck, the witnesses were selected by the Committee itself, with a view to ascertain the truth of the charge. They were cross-examined by him, and everything was conducted in such a manner, as to afford him no reasonable cause of complaint.

In view of this precedent, and what is of far greater importance, in view of the Constitution and principles of eternal justice, in what manner has the President of the United States been treated by the House of Representatives. Mr. John Covode, a Representative from Pennsylvania, is the accuser of the President. Instead of following the wise precedents of former times, and especially that in the case of Judge Peck, and referring the accusation to the Committee on Judiciary, the House have made my accuser one of my judges.

To make the accuser the judge, is a violation of the principles of universal justice, and is condemned by the practice of all civilized nations. Every freeman must revolt at the spectacle. I am to appear before Mr. Covode, either personally or by substitute to cross-examine the witnesses which he may produce upon myself to sustain his own accusations against me, and perhaps even this poor boon may be denied to the President. And what is the nature of the investigation which this resolution proposes to institute? It is vague and general as the English language affords words in which to make it. The Committee is to inquire, too into any specific charge or charges, but whether the President has, by "money, patronage, or other improper means," sought to influence, not the action

of any individual Member or Members of Congress, but "the action of the entire body of Congress itself," or any Committee thereof. The President might have had some glimmering of the nature of the offense to be investigated had his accuser pointed to the act or acts of Congress which he sought to pass or defeat by the employment of "money, patronage, or other improper means." But the accusation is bounded by no such limits; it extends to the whole circle of legislation, to interference "for or against the passage of any law appertaining to the rights of any State or Territory." And what law does not appertain to the rights of some State or Territory? And what law or laws has the President failed to execute? These might easily have been pointed out, had any such existed.

Had Mr. Lawless asked an inquiry to be made by the House whether Judge Peck in general terms, had not violated his judicial duties without specification of any particular act, I do not believe there would have been a single vote in that body in favor of the inquiry. Since the time of the Star Chamber and of general warrants, there has been no such proceeding in England. The House of Representatives, the high impeaching power of the country, without consenting to hear a word of explanation, have endorsed this accusation against the President, and make it their own act. They even refuse to permit a member to inquire of the President's accuser what were the specific charges against him. Thus, in this preliminary accusation of "high crimes and misdemeanors" against a co-ordinate branch of the Government under the impeaching power, the House refused to hear a single suggestion even in regard to the correct mode of proceeding; but without a moment's delay, passed accusatory resolutions under the pressure of the previous question. In the institution of a prosecution for any offence, against the most humble citizen, and I claim for myself no greater rights than he enjoys. The Constitution of the United States and of the several States require that he shall be informed in the very beginning of the nature and cause of the accusation against him, in order to enable him to prepare for his defence.

There are other principles, which I might enumerate, not less sacred, protecting an impenetrable shield to protect every citizen falsely charged with a criminal offense. These have been violated in the prosecution instituted by the House of Representatives against the Executive branch of the Government. Shall the President alone be deprived of the protection of these great principles, which prevail in every land where a ray of liberty penetrates the gloom of despotism? Shall the negative alone be deprived of the rights which all his fellow citizens enjoy? The whole proceeding against him justifies the fear of those wise and great men, who, before the Constitution was adopted by the States, apprehended that the tendency of the Government was to the aggrandizement of the Legislature at the expense of the Executive and Judicial Departments.

I again declare emphatically that I make this protest for no reason personal to myself, and I do it with perfect respect for the House of Representatives, in which I had the honor of serving for five successive terms. I have lived long in this goodly land, and have enjoyed all the offices and honors which my country could bestow. Amid all the political storms through which I have passed, the present is the first attempt which has ever been made, to my knowledge, to assail my personal or official integrity, and this has been done as the time is approaching when I shall voluntarily retire from the service of my country. I feel proudly conscious that there is no public act of my life which will not bear the strickest scrutiny. I defy all investigation. Nothing but the basest perjury can sully my good name. I do not fear even this, because I cherish an humble confidence that the Gracious Being who has hitherto defended me and protected against the shafts of falsehood and malice will not desert me now when I have fallen upon cold and gray-headed." I can declare before God and my country that no human being, with an exception scarcely worthy of notice, has, at any period of my life, dared to approach me with a corrupt or dishonorable proposition, and, until recent developments, it had never entered into my imagination that any person, even in the storm of exasperated political excitement, would charge me, in the most remote degree, with having made such a proposition to any human being. I may now, however, exclaim in the language of complaint employed by my first and greatest predecessor, that I have been abused "in such exaggerated and indecent terms as could scarcely be applied to a notorious defaulter, or even to a common pickpocket."

I do, therefore, for the reasons stated, and in the name of the people of the several States, solemnly protest against these proceedings of the House of Representatives, because they are in violation of the rights of a co ordinate Executive branch of the Government, and subversive of its constitutional independence; because they are calculated to foster a band of interested parasites and informers, ever ready to swear before *ex parte* Committees to pretended private conversations between the President and themselves, incapable, from their nature, of being disproved—thus furnishing material for harassing him, degrading him in the eyes of the country, and eventually, should he be a weaker timid man, rendering him subservient to improper influences, in order to avoid such persecutions and annoyances; because they tend to destroy that harmonious action for the common good which ought to be maintained, and which I sincerely desire to cherish between the co-ordinate branches of the Government; and finally, because, if they succeed, they would establish a precedent dangerous and embarassing to all my successors, to whatever political party they might be attached.

JAMES BUCHANAN.

Washington, March 28 1860.

The Treasurer of the Howard Benevolent Society gratefully acknowledges to day the receipt of Fifty Dollars from Mrs. JAMES SHEAFE, of New York, for the benefit of the poor.

JOHN STAVERS, *Treasurer.*

Portsmouth, April 3, 1860.

Most prominent among those who in former times ministered freely to the wants of our poor, and being removed elsewhere have still ever kept them in mind, is the lady of the late James Sheafe, Esq. Although a generation has passed away since her removal to New York, yet her thoughts have every year silently reached our place, and gone to and those who through the infirmity of age, or sickness have required the care of those on whom Providence has more bountifully bestowed his gifts. Happy would it be if all who have riches had a heart to feel for the needy, that the blessings of those who are ready to perish might rest upon them.

F. B. Sanborn of Concord, Mass., is a brother of Dr. C. H. Sanborn, of Hampstead,—who though claiming to be a Republican, violently opposed the election of Mr. Marston last year.

Assessors' Notice.

THE inhabitants of the City of Portsmouth are hereby required as the law directs to exhibit to the Assessors of said City a just and true account of their estates taxable by law on the first day of April next; and all persons who do not comply with the above requirement, in handing in an inventory of their taxable estate at the value they estimate the same, may not expect any abatement. The Assessors, City Clerk and Secretary to the Board of Assessors as Justice of the Peace, or any of the Justices of the Peace, are proper persons to administer the Oath, and each individual making his inventory should have an endorsement on the same certifying that it had been duly sworn to, and the same be handed to one of the assessors or left with the Secretary at the City Clerk's Office, State street, on or before the said 17th day of April next.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, Government Report of 1856.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Writings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The subscriber would refer, to prove that none is more SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast amount of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot confide a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 5, 1853.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part will induce me hereafter to confide in him to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at the reasonable charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which it is fluid becomes diluted and vitiated, being in the circulation it pervades the whole body, and may appear in any case on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The symptoms taints is various, from the mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, and depressing cares, and, last but not the least, hereditary in the constitution, descending "from parents to children, even unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or viscerous matter, which, in the lungs, liver, and kidneys, produces the tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, if not removed, infects the whole system, and engrafts life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in nature, are still rendered fatal by the taint in the system. Most of the consumption which decimates the human family has its origin directly in the scrofulous contamination, and many destructive diseases of the liver, kidneys, brain and, indeed all of the organs, arise from or are aggravated by this cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and, unless it is understood that to cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by bodily food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of the world has been able to offer to every form of ailing and fatal malady. It is combined from the most active remedials that have been discovered for the purgation from the foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it has been found a cure for the cure of scrofula, or scrofula, but also those other affections which arise from it, such as

ERYSIPELAS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, FEVER SORES, OAK OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR SYPHILIS, and indeed the whole class of complaints arising from DEFECTS OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for a vitiated blood is the generation of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate the vital fluid, in which second they should establish a precedent dangerous and embarassing to all my successors, to whatever political party they might be attached.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Long experience and extensive trade have shown their adaptedness to the wants of the public, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. Some of the virtues of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health restored by a remedy so easy of access and so simple and inviting.

Not only do they cure the every-day complaints of the stomach, but the more stubborn and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing testimonials of the cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Loss of Appetite, Foul Stomach, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Nervous Diseases, Neuralgia, as a dinner Pill, and for Purifying the Blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, WHOOPING COUGH, CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So well is the field of its usefulness known and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and wherever its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies have lurked in the community have failed and been discarded, this has gained, by its unerring trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

All our remedies are for sale by W. R. PRESTON, Portsmouth, and by all druggists and merchants in the civilized world. dec30 6m d&w

NOTICE TO ADVERTISERS.

The Chronicle Office is open from 4 o'clock in the morning till 5 in the evening; and advertisements, &c., delivered at any intermediate time, authorized by responsible parties, may be left in the drop-box in the street-door, after the office is closed—and will be inserted next morning if necessary or desired.

All advertisers are requested to hand in their notices as early as convenient.

NOTICE TO SUBSCRIBERS.

We expect all papers to be delivered as early as half past 7 o'clock, in pleasant weather and under favorable circumstances. All papers left at stores, open at the time of delivery, to be placed on the counter or desk, and never on the floor. All left at dwellings, to be placed by the door-stone, if any; and if none, to be put inside the house door, or if necessarily left out, the bell to be rung.

All persons will oblige by immediately informing us of any deviation from these rules, we will endeavor to remedy the evil; but when we are convinced that they are complied with, and that any loss results from lack of a suitable place to protect or secure the papers, we shall consider our contract ended when once the paper is delivered, and cannot supply any loss at our own expense.

We will here also renew our offer of $10 reward for evidence to convict any person of stealing a copy of the Chronicle from any door.

☞ S. R. Niles, (successor to V. B. Palmer) Newspaper Advertising Agent, No. 1, Scollay's Building, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

S. M. Pettengill & Co., 119 Nassau st., New York, and 10 State st., Boston, are authorized to contract for us at our LOWEST RATES.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*—should the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—and its unfailing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, CONSUMPTION, or any affection whatever of the THROAT or LUNGS indicating CONSUMPTION, use No. 1, which is also the No. for *Debility, Want of Appetite*, and for all CHRONIC COMPLAINTS arising from INTEMPERANCE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, FEMALE COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that relief follows you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for use. For SALT RHEUM, SCROFULA, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 402 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. JACKSON'S VEGETABLE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that it is what we say it is. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING, DIARRHEA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing inflammation, regulating the Bowels, and relieving pain, it has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. Save you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to follow from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. JACKSON'S VEGETABLE CORDIAL this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

JOHN S. HARVEY,
Real Estate and Stock Broker,
jy11 No. 47 Congress St., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say*, of it, what we have *never* can of any other medicine, IT FAILED, IN A SIN GLE INSTANCE, to EFFECT A CURE, or did we not know it to be such from our own testimony, we would be delighted to speak in terms of unqualified praise of its great and medicinal virtues. We speak, in this matter, *what we know*, after ten years experience, *and pledge the stockholders of our reputation for the truth of what we say.* In almost every instance where from pain and exhaustion in the infant suffering from pain and exhaustion, relief will be found in from one to two hours after it is administered.

This valuable preparation is the prescription OF ONE OF THE MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives rest to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the safest and surest remedy in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, from teething or any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices, or the prejudices of others*, stand between your suffering child and the relief that will SURE—yes, SURE—follow the use of this medicine, if timely used. Full directions each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

Daily Morning Chronicle

VOL. 16. PORTSMOUTH, N. H. TUESDAY, APRIL 10, 1860. NO. 59.

Morning Chronicle.

☞ Burleigh, in the New New York gossip for the Boston Journal, gives the following rich items:—

I won't vouch for the accuracy of it, but rumor is loud that the lady of the Diamond Wedding has come back again—that she found her lord and master testy, bad tempered and penurious—that the now due instalment on the 14th street house has not been paid, and that all round something "is to pay generally." Not having the fear of either the Cuban or the father-in-law before my eyes, I send the tale afloat for what it is worth.

When Mr. Nelson from Tennessee made his address at the National Meeting, at Cooper Institue, he was long, solemn and dull; he not only took the time that other speakers ought to have shared with him, but used up completely the patience of the audience. Signs of uneasiness were apparent on all sides. At length Mr. Nelson said, "Gentlemen, I fear I am trespassing on your patience, and am taking up too much of your time." "Instead of the usual cry "Go on, go on," with applause, a sharp loud voice cried out, "Oh, dry up and give somebody else a chance," which original remark electrified the audience more than anything else that was said on that occasion.

Who is F. B. Sanborn of Concord? This inquiry has been frequently made since his attempted arrest at Concord. A correspondent informs the Traveller that he is a native of Hampton Falls, New Hampshire, and is about twenty-six years of age, with a pleasing countenance and a tall and handsomely-proportioned form. He is a graduate of Phillips Academy, Exeter, N. H., and afterwards of Harvard College, where he stood foremost in his class. It is supposed that he could throw but little additional light upon the Harper's Ferry invasion, though his name was mentioned in some of the correspondence found at the house of Brown. Mr. Sanborn keeps a private school at Concord, and is held in high esteem by his townsmen.

☞ There is in England an excess of 800,000 females over males. The disparity is caused by the wars and standing armies, by the drain of men for the mercantile and naval marine, and by the greater number of males who emigrate.

☞ The question of the "removal of the Court" of Sullivan county, N. H., from Newport to Claremont, was submitted to the people of the county at the recent election, and decided in the negative by a large majority.

☞ The Virginia Senate has passed a bill repealing the law which prevented a man marrying his brother's widow, and legalizing marriages of that kind which have already taken place.

☞ One half of the Everett House property, New York, was sold at auction on Tuesday, for $101,600—$30,000 less than it was expected to bring.

☞ Rev. Cyrus Pierce, familiarly called "Father Pierce," died on the 5th inst, in West New Newton, Mass.

Work as though thou wert to live forever—worship as though thou wert to die presently.

400 WASHINGTON ST., BOSTON,
Manufacturers of
Best Square & Grand Piano-Fortes,
WHICH ARE WARRANTED FOR FIVE YEARS.
Having had an extensive experience of 25 years in the business, and having at present the most complete facilities for turning out twenty Pianos per week, they feel confident in guaranteeing perfect satisfaction to all patrons.
As an evidence of the superiority of their Pianos—this house has received the awards of thirty-two Premiums, with Medals of gold, silver and bronze; nine of which were first Premiums for the best Grands and Parlor Grands, over all competitors.
There are many instruments in Portsmouth, from this manufactory—to the owners of any of which, we would respectfully refer.
A splendid 7-octave Piano from the above celebrated makers, may be seen at the Temple; and any information given, or instruments furnished at the manufacturers' prices, on application to
FRANK W. MILLER.
Portsmouth, Dec. 29, 1859.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say "it cannot be done."
Notwithstanding the immense advantages which these Plows possess over a 1 others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.
Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unstrung nervous system.
Man cannot feel too thankful, that our all-wise Creator has so amply supplied us with the effectual means of preserving and regaining our health. This compound is a mild, effectual and regular Tonic, very pleasant to the palate, and exceedingly healthy for the system.
Weakness.
The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.
Nervousness.
Weakness, with over-exertion, is generally the origin of this horror-depicting disease. Use DR CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.
Broken Down Constitution.
Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.
Try them!
All ye lovers of good Bitters and good health, and you will find them a cheap, efficacious and pleasant remedy; and sold for the low price of 25 cents for a pint bottle.
25 cts. for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 3 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
The following are some of the Diseases successfully treated by Dr. Goodwin. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.
☞ Also, CARPENTER WORK faithfully executed. ADAMS PERRY, Jr.

Portsmouth, N. H.

SATURDAY, APRIL 10, 1860.

For the Chronicle.

THE PRESIDENTIAL CONTEST.

We are a young nation, less than a hundred years old; but how rapidly have we been departing, within the last quarter of a century, from the principles upon which the fathers founded the government? We seem to forget by what sacrifice of blood and treasure our liberties were obtained. Once lost, how could they be regained?

We regard the next election of a President of our confederated States as momentous, for it involves in no small degree, not only the question whether the government shall be restored to its original principles, but also the question of the future political destinies of the country. Shall the boasted asylum of liberty continue to be free?—Or shall our free States submit to the domination of a proud Southern oligarchy, the very worst kind of government ever adopted? Every intelligent person must understand what is now going on in the republic. Our President now exercises more power and patronage than the chief ruler of Great Britain. Some sixty or seventy thousand office-holders are dependent upon his will, and a much larger number are aspirants for office. By the executive action, the nation may be involved in foreign wars, and the measures of Congress greatly influenced.—But still a graver question is forced upon our consideration.

Under the decision of the Supreme Court, the oligarchy contend that they can hold property in man, and hold it, under the federal Constitution, in all our Territories, in defiance of Territorial legislation. Success in that would render the next step easy—viz., that they can hold their property in human flesh in any part of the Union.—They have, they say, over fifteen hundred millions of property in their fellow creatures, and therefore they will use every possible effort to elect a President to protect that kind of property. The threat is also thrown out that should a President with Northern principles by elected, the slave States will form a new confederacy.

We know that the oligarchy controls those States, and can secede; but the free States, regardless of the threat, with a population towards twenty millions, can not only maintain the liberties which were the fruits of the American Revolution, but all their industrial pursuits will continue to prosper and flourish. The oligarchy can command scarcely one million of voters, while the free States have over two millions of free and generally enlightened voters, and by a general union of action can place in the Presidential chair a candidate espousing their principles. The question now arises, whether they will longer submit to Southern dictation—to the requirements of an overbearing oligarchy, composed of some two or three hundred thousands? An oligarchy that tramples in the dust the rights not only of the colored, but of the white Southern population. Should the free States longer bow down their necks to the intended yoke, then we should despair of the fairest republic upon which the sun ever shone.

It may safely be affirmed that no candidate with Northern principles can expect to receive even a single vote from any Southern electoral college. But the stake is of that vast importance that it ought to insure a united action in each of the free States. The contest will be attended with a more violent struggle than any former election.

Some of our politicians are attempting to make bargains, compromises, &c., in order to propitiate or secure some aid from the oligarchy, and they discuss the question of *availability*. By the latter they hope to secure the loaves and fishes of office, which rise higher in their minds than the sacred principles upon which our free institutions are based. But the great body of our virtuous and enlightened voters prefer, we trust, the highest qualifications, firm integrity, and the most eminent abilities, safely to guide the ship of State. A candidate with such qualifications may be found without going South. New York, as well as Ohio, can each furnish a candidate of long experience in the State as well as the national councils, the history of whose lives and principles are so well and so extensively known throughout the country, that no letters of inquiry are requisite. To either of these distinguished statesmen the people may safely entrust the guardian protection of the national rights and welfare.

JOHN HANCOCK.

☞ The slave power in Kentucky is waring against Cassius M. Clay, with as much ferocity as it warred against Freedom in Kansas.—Reading the account of it, as given by Mr. Clay himself, and also Mr. Sanborn's account of the slavery "raid" in Massachusetts, puts Uncle Toby in mind of a passage in Revelation, 12:12, "Wo to the inhabiters of the earth and of the sea, for the Devil is come down unto you in great wrath, because he knoweth that he hath but a short time."

SAVOY ANNEXED TO FRANCE.—This appears to be a fixed fact. The Paris Patrie says the Sardinian troops had commenced the evacuation of Savoy, and the first detachment of the French troops, returning from Lombardy, would arrive in Savoy on the 25th of March.

M. Thouvnal's despatch to Count de Persigny, containing explanations for the British government relative to the annexation of Savoy, is published. It points out the necessity for a revision of the French frontiers; reiterates the Emperor's respect for existing treaties; claims that this is an exceptional case, and shows that the cession will be made without violence, and free from all restraint.

The London Times admits that the annexation must be quietly allowed, but at the same time denounces the act as one of spoliation and wrong.

The Paris correspondent of the London Times says all the powers have replied to France relative to Savoy, and gives the following as the substance of their notes:—Russia says, so long as the right of the people to select their rulers is not put forward by France, and that as the present change does not affect the balance of Europe, what Sardinia may do with Savoy is no affair of hers. Prussia says, as the Emperor formally disavows the doctrine of natural frontiers, the transfer is no business of hers. Austria declares she certainly does not approve of any annexation of the kind, but as Europe stood by when other annexations were effected, she does not see what she has to do with the Savoy annexation.

CONDITION OF ITALY.

The French army in Lombardy commenced its return on the 21st.

The Sardinian Council of State had decided that the concordat, concluded by Austria with the Pope, is not binding on Lombardy.

The ex-Duke of Tuscany is preparing a protest against his fate.

Baron Ricasoli reached Turin on the 22d, and presented to the King of Sardinia the vote of Tuscany on the annexation question. The King, in response to a congratulatory speech by Ricasoli, said: "I accept the vote of Tuscany, which, after having been expressed by the National Assembly, is now confirmed by the unanimity of popular suffrages. Tuscany, in associating her destinies with those of Piedmont, far from removing, continues her glorious traditions, and augments their importance by uniting them to those of the other parties of the State. The Parliament, in which the representatives of Tuscany will take seats besides those of Piedmont, Lombardy and the Romelia, will bring the laws of the country into conformity with the truthful principles of liberty. Thus Tuscany will enjoy the blessings of administrative autonomy, without weakening the union of power and the national will, upon which the prosperity and independence of the country are principally dependent."

The King then signed the decree annexing Tuscany to Sardinia.

POISON IN LIQUORS.—Dr. Cox of Ohio, whose labors in exposing the iniquity of drugging liquors are well known to the public, delivered a lecture in New York, on Wednesday evening, on the same subject. After stating the results of investigations in Ohio, Dr. Cox stated that he had lately examined twenty samples of brandy in Philadelphia, and he did not find one pure. While reading his lecture on brandy, in that city, a dealer came up with a bottle and offered him $2500 to show that there was anything but brandy in that brandy. He analyzed it, and found nothing but whisky, rotgut, corn whisky, fusil oil, nitric ether, and pepper. But he didn't get the $2500. During his lecture, the Doctor analyzed brandy, port and sherry, the bottles which contained them bearing the labels of the most celebrated importers of liquor in New York. Into the brandy, litmus paper was dipped; it immediately became red, indicating acid. He also produced a beautiful blue, precipitate of prussiate of iron, indicating, as he said, prussic acid. He then tested, for fusil oil, without result.

In the port, the litmus paper was instantly turned to red. A test was made for alcohol, but there was none. In pure port there is from 19 to 26 per cent. of alcohol. A test of "Pale Harmony Sherry" disclosed the presence of acid, and a test with chloride of barium showed a considerable quantity of sulphuric acid. Dr. Cox said that liquor dealers admitted these adulterations to him, and Dr. Dodge, who presided at the meeting, said dealers had confessed the same to him.

☞ Rev. Miles Grant, of Boston, editor of the World's Crisis, sends the following note to the Boston Journal:—

We noticed in Saturday's Journal a statement that the Second Adventists expected the coming of Christ the first of April, or on the 8th inst. We think our position as an editor of one of the Second Advent papers enables us to speak understandingly on this subject. We were not aware that any one, except the "young man" to whom reference was made, expected the coming of Christ "the first day of April," the eighth, or one month from yesterday. But we do believe in the *'proximate* coming of Christ,' as advertised by ourselves in your paper.

The word *proximate* is defined to mean *nearest*, or *next*.

The hard stool of repenrence has no cushion.

THE SANBORN CASE.—Messrs. Woodbury and Andros, counsel for Carleton in the habeas corpus case—Frank B. Sanborn ex-relatione John S. Keyes—have filed his exceptions to the ruling of the Chief Justice. The first point made is to the jurisdiction—that the Senate has exclusive authority to decide upon its own privileges, and the form and manner in which said privileges shall be exercised; and also that the Senate alone can decide who are and who are not its officers; 2nd, that McNair had authority to delegate the power to arrest to Carleton; 3d, that under the general rule of law, Carleton was the deputy of McNair and the Chief Justice having overruled these points, the said Carleton prays that these exceptions may be allowed.

☞ A coroner's jury, at So. Reading, Mass., returned the following verdict:—

"That the said William Simmons came to his death April 7, 1860, between the hours of four or five o'clock, A. M., by wounds inflicted upon him with some sharp instrument in the hands of Henry Thomson.

One of the witnesses, John Foley, the father of Michael Foley, testified that his son with the others, came home on Friday night; that he got up and let him in; he was to have been married on Sunday to Owen Foley's sister; "they were not intoxicated, but were all a little overjoyed,"—by which we understand they were not dead drunk, so as to fall down and be still,—but rum crazy, and as ugly as half drunken creatures are apt to be.'

PRESENTATION TO MISS SANBORN.—The friends of Mr. Frank B. Sanborn are about to present to his sister—as a token of their respect for her bravery—one of the latest style of Colt's revolvers. It will bear an engraved representation of the old Pine Tree flag, and the inscription "*Sic itur ad astra.*"

BOSTON, Ky., April 5.

A shocking accident occurred on the Kentucky Central Railroad, about two miles from this place, at Meridian, yesterday afternoon. A man named Thomas Hicks was run over by the up wood train, and so injured that he probably cannot survive. It seems he was intoxicated and walking at the side of the track, when just as the engine reached him, he fell in on the track, and the whole train passed over his body. Four large bottles were found by him, one empty, one crushed in his pocket, and two filled with whiskey.

Now, who is responsible for this man's life? Who but the one who sold him the liquor? If not, why not? There is an intense feeling against the sale of liquor here, and this will probably be the means of putting it down.

The Post Office at Meridian has been abolished, and Dr. Wm. H. Roberts of this place has been appointed Postmaster. The office is to be called Boston Station, to distinguish it from Boston, in Nelson Co., Ky.

Yours, G. W. M.

We believe that the proceeding against Mr. Sanborn was deliberately made to assume its peculiarly base and flagrantly illegal character, for the express purpose of bringing the general government and our State government into collission, in order that Massachusetts might be "snubbed."—Having sought to assassinate one of our Senators, it was meant to assassinate the Commonweath itself.—*Traveller.*

☞ The new steel bell manufactured at Sheffield, England, for San Francisco, was tried in the New York Park on Saturday, and voted a humbug. It is said the sound made by it is sharp and quick, but not so strong, loud or lasting as that of bells of the common bell-metal.

SUICIDE.—In New York, Thursday evening, the wife of Dr. Wm. B. Latson, dentist, through jealousy of her husband, locked herself up in his room, and lighting a charcoal fire, laid down, and calmly awaited death.

☞ It is a fact not generally known, that the size of a man's head (as to his hat) increases and decreases with the rest of his body. Any experienced hatter will tell you so.

☞ In the British House of Commons, March 21, the bill limiting the hours for labor of women and children in bleaching and dyeing works, passed by a large majority.

☞ The Boston Journal appears in new type,—and is just about to add an eight cylinder press, now building by Messrs. Hoe & Co. It is a very valuable and successful concern.

☞ Gen. Jefferson Davis is again suffering from inflammation of the eyes. The surgical operation lately performed on one, it is apprehended, will result in the loss of both.

☞ A man in Indiana recently committed suicide through fear of becoming a drunkard, as he felt the appetite for liquor growing upon him.

A LONG LOAN ON DOUBTFUL CREDIT. In Austria, at latest dates, a new loan was being raised at five per cent., of 200,000,000 florins, repayable by lottery during 57 years.

The papers in New Jersey are beginning to croak already about the failure ofnext summer's peach crop. They see the "worm i' the bud" very early in Jersey.

THE WHITE MOUNTAIN HOUSES.—Messrs. J. A. Gilmore, President of the Franconia Hotel Company; Henry Bell, Esq., of the Profile House, and Mr. Hartshorn of the Crawford House, were in Boston, Friday, making arrangements for the season. There was at first a proposition for Mr. Bell to take the Crawford House, but he has concluded to remain at the Franconia Hotel. He, with Richard Taft, Esq., formerly of the Flume House, will have charge of the Profile House during the season. S. H. Dumas of the Phœnix Hotel, Concord, who was clerk at the Profile last year, or Jennings, who was clerk there two years ago, will return. Gibbs and Hartshorn will conduct the Crawford House with J. Q. A. Brigham, for fourteen years the popular chief clerk at the American House, Boston, as clerk. The Crawford House has been thoroughly finished, and the House is in the best possible condition. The Flume House is to be kept by J. C. Tyler, Esq., who will doubtless make it a favorite resort.

ASSIGNEE'S NOTICE.

LAST CALL.

All persons indebted to the late firm of JOSEPH HARVEY & SON are requested to call at my office, No. 47 Congress Street, and pay their bills and notes before the 26th of April.

All accounts not paid by that time will positively be put in suit for collection, as the business of the firm must be closed.

JOHN S. HARVEY, Assignee.

April 6, 1860.

MUST BE SETTLED NOW!

All bills due the subscriber for subscriptions, advertising, or job work, at the Gazette Office, and all similar bills contracted with E. T. Fuller, Esq., who sold and transferred the same to me, must be paid immediately. All bills unpaid by the fourteenth instant, unless deemed utterly worthless, will be sued, and collected, with costs.

AMOS S. ALEXANDER,
OFFICE, No. 5 Daniel St.

Portsmouth, April 2, 1860.

Piles.

All diseases of atony or loss of tone in the bowels, such as Piles, Prolapsus Uteri, Fistula, &c., are benefitted by the PERUVIAN SYRUP. It purifies the products of digestion, favors the healthy action of the intestines, and prevents the accumulation of refuse matters, and the costiveness which are the cause of so many of these weakening diseases.

BOSTON, Sept. 5, 1858.

Gentlemen:—For more than thirty years I have been a great sufferer from dyspepsia and piles. I have been frequently under medical treatment, and have tried various preparations which have been recommended to me, but received no permanent relief. In January last I commenced taking the Peruvian Syrup, and after taking three bottles of it I became perfectly cured of the dyspepsia and piles, and my general health is now all that I can desire it to be.

MILTON DAGGETT, No. 12 Essex Street.

Dr. Wistar's Balsam of Wild Cherry.

This preparation is a certain cure for all diseases of the Throat and Lungs, Coughs, Colds, Bronchitis, Whooping Cough, Croup, Incipient Consumption, &c. In confirmation of the highest medical authority that "Consumption can be cured," numerous instances of complete restoration from this disease by the use of the Balsam can be given.

The following letter was received from Colonel Markham, of the British army, and shows the estimation in which the Balsam of Wild Cherry is held abroad.

Fort Hotel, Isle of Wight, England, Sept. 30, 1850.

Sir:—I have a daughter in a delicate state of health, who has, I think, received signal benefit from Dr. Wistar's Balsam of Wild Cherry. three bottles of which were sent her by her brother in Canada. Please put me up six bottles, and forward them by the first steamer to Southampton or Liverpool, as you may find most convenient, with any account of the medicine you may be so good as to send me. We have searched London for it in vain.

Believe me yours, truly,
WM MARKHAM.

TESTIMONY OF PHYSICIANS.

Dr. Freleigh, of Saugerties, N. Y., says he cured Liver Complaint of four years' standing that would not yield to the usual remedies.

Abraham Skillman, M. D., of Roundbrook, N. J., says it is the best medicine for Consumption in every stage, that has ever been known.

None genuine unless signed I. BUTTS on the wrapper.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, Portsmouth, N. H., No. 1, School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at the establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

The wide reputation which Dr. J. Hostetter's "Stomach Bitters" have attained during the past year, bespeaks its excellence in a more forcible manner than we can offer. It renovates, purifies, and strengthens the system, and aids the stomach in the performance of its functions. It is regarded on all sides as a sovereign specific, and therefore, to procure it in the best possible way, should be the object of the public. We commend it with more than usual zeal and confidence, believing and knowing, as we do, that it stands foremost among the many preparations of the day, for imparting strength, vigor and tone to the system, and possessing the curative powers for all similar diseases arising from a disordered stomach. In the most severe cases of cramps, diarrhœa and weakness in the stomach, the "Bitters" have been rigidly tested, and always with the greatest success.

Sold by druggists and dealers generally, everywhere.

apr9 1w 16 MARKET STREET.

Local.

CITY HALL.—We copy on the fourth page, some remarks from the Journal respecting a new City Building, &c. We do this, as we wish to present the matter to our readers in every light, that all may be prepared to act intelligently when the time comes. As to the present accommodations of City Offices, &c., such as they are, the rooms may be cheap enough; but we would'nt accept similar for our private counting-room, — and valuable records should be in a fire-proof building. How our neighbor figures five years to extend from 1855 to 1861, we don't know; but we are told that the present city lease will expire in July next. As to the old Court House, we don't suppose anybody would be green enough to spend money in fitting up that old coop, situated as it is out of the way of everybody.

Perhaps it is not best to build a City Hall this year—and if the people (including the tax-payers) don't want it, it certainly should not be built; but we are sure the people (and the tax-payers) do want it, when it can be built in the right way.—Competent judges say $30,000 (probably less) will put up a suitable building—with a market below, City offices in second story, and Hall in third. And we don't believe it will build itself, if we wait never so long. When the citizens want it done, they must do it.

☞ At the annual meeting of the Mercantile Library Association, held on Friday evening last, the following gentlemen were elected officers for the ensuing year:

President—James C. Brown.
Vice President—John S. Rand.
Secretary—Joseph Foster.
Treasurer—Charles T. Emery.
Librarian—E. Washington Brown.
Directors—George T. Vaughan, Charles Robinson, Jr., John Knowlton, 2d, G. F. Melcher, Jos. B. Knowlton, N. P. Thacher.
Lyceum Committee—Directors.
Trustee—Hon. Clement March.

☞ Four persons were baptized at Noble's Island last Sabbath, in the midst of the rain. Rev. George Champlin (colored) of the Advent Church, administered the rite. We learn that Mr. C. is to remain here this week, and preach every evening. Quite a revival is now in progress among the Adventists; and meetings are held every afternoon and evening. The final consummation of all earthly labor, and the annihilation of everything material, takes place this Spring, if their predictions are correct.

DEATHS IN PORTSMOUTH.—The number of deaths in this city, during the month of March, was twenty-two,—as follows:

Males ten—aged 1 month, 5 mos., 1 year and 2 mos., 1 year 8 mos, 2 years 6 months, 5, 23, 27, 53, and 80 years.

Females twelve—aged 3 months, 2 years and 3 months, 4, 8, 12, 13, 22, 25, 45, 50, 72, and 89 years.

1 Barrel,	$2,00
2 to 5 "	1,85
6 to 20 "	1,75
over 20 "	1,65

☞ Persons reading the advertisement of the New York Agents will observe that the prices there stated are for the article *in New York*; to which should be added freight, risk of transportation, &c.; when this is done, it will be found that my prices *are less* than the New York.
Farmers living in the line of the various railroads can obtain the Poudrette, on sending their orders by Mr. George Noyes, on the C. & P. Railroad;—Mr. William Akerman, on P. S. & P. Railroad;—Messrs. Jackson & Co., on Eastern Railroad; or they can purchase it at the stores of the principal traders in towns on the line of these roads.

GUANO.
PURE PERUVIAN GUANO; by lb. bag or ton, at Boston prices—freight added.

SUPER-PHOSPHATES.
MAPES' NITROGENIZED SUPER-PHOSPHATE OF LIME, for Corn, Potatoes, Grain Crops, Vegetable Gardens, Lawns, &c.
This is a new article, composed of Dried Blood, Bones, Sulphuric Acid, Peruvian Guano, and Sulphate of Ammonia, and received the large Silver Medal awarded by the American Institute of New York, 1859.
Judge French, author of Farm Draining, says,
"We have tried every variety of fertilizer, and have more faith in *Mapes' Superphosphate* than in any other manufactured article of the kind."
It is sold in bags of 160 lbs. for $4,30 per Bag.

TRAVELLING BAGS.
A good variety always on hand, and also of Porte-Monaies, Money Bags, Pocket Books, Card Cases, &c.

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.
JOB MOSES, Sole Proprietor, Rochester, N.Y.

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.
This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.
In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.
These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.
To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
For full particulars, get a pamphlet, free, of the agent.
N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

SHALER'S SPIRAL BRUSHES,
A new style of FLOOR, SCRUB & WINDOW BRUSHES—very durable.
Just received, a fresh invoice of the world-renowned
OLD DOMINION COFFEE-POTS!!
of which so many thousands have been sold during the past year.
COFFEE.
Boiled coffee, it is well known, is superior to coffee made after the French fashion, by straining; but, when boiled in an ordinary coffee pot, the fine aroma goes off with the vapor, leaving the infusion flat or bitter, hence a resort by many housekeepers to the French biggin.
Several attempts have been made to construct a coffee pot that would accomplish this desirable object, but, until the "Old Dominion Coffee Pot" appeared, none was found entirely adapted to the purpose. It is simple in construction, easily used, and will always give good coffee at one fourth less cost than by the old modes of boiling.
There is in coffee both an aromatic and a bitter principle. In boiling, the aromatic (which is very volatile) escapes if the boiler is open, and the bitter remains. The excellence of coffee depends on the amount of aroma retained in boiling; but all know that this delicious fragrance of the berry is allowed to pervade the whole house for half-an hour or so before breakfast, during the boiling process, and that, in too many cases, the flavor of the coffee is so impaired, that little or no enjoyment is found in the drinking. Coffee thus deprived of its aroma, is neither so pleasant nor so healthy as a beverage.
We would recommend to housekeepers a trial of the "Old Dominion Coffee Pot," which some families have had in use for over a year, and say they would on no consideration be without it, as it retains the whole of the strength as well as the aroma of the berry. One-fourth less coffee is required; and this is a consideration in these times.
Ladies' Home Magazine.
OLD DOMINION TEA-POTS.
made upon the same principle as the Coffee-pots.
WOOD'S
PATENT COFFEE-ROASTER.
A great loss of the aroma of the coffee berry is suffered by the common method of wasting it in an open pan. This is entirely obviated by the use of the Patent Roaster.
It is a simple, hollow iron syphon, or globe, intended to be placed over the fire in a stove or range, and so constructed as to be easily turned during the process of burning—so that every particle of coffee is equally roasted, and in the manner retains much more of its strength, than if burned in the ordinary way. No family that uses Coffee should be without a Coffee Roaster and an Old Dominion Coffee Pot.
KEROSENE! KEROSENE!!
Of the purest quality, almost odorless—made by a new manufacturing company, who have succeeded in producing a very superior article, both for quality of flame and freedom from smoke.

FOR SALE.
THE TWO STORY DWELLING HOUSE and lot of LAND, No 2 McDonough St. House containing six rooms and scullories. It is a very desirable situation, being located between the two Factories,—and is the residence of JAMES PERKINS.—It is offered at private sale until
WEDNESDAY, 25th of April inst.
And if not disposed of previously, will be sold at Auction on that day at 12 o'clock, M. by
JOSEPH B. ADAMS
For terms apply to JOHN S. HARVEY, No. 47 Congress Street, or the owner, JAMES PERKINS, on the premises.

DWELLING HOUSE AND LAND
AT AUCTION.
On SATURDAY, May 5th, at 12 o'clock,
on the premises,
The new and pleasant HOUSE, opposite the Woodbury mansion; with the OUT-BUILDINGS and about 2½ acres of LAND
The above is one of the pleasantest locations in Portsmouth, and the land is in a high state of cultivation. TERMS made known at the time of sale.
H. F. WENDELL, Auct.

HOUSE, LAND, &c., ON THE PLAINS.
AT AUCTION.
On SATURDAY, May 5th, at 12 o'clock,
(unless previously disposed of at private sale)
A small HOUSE, BARN and 1 ACRE in good repair, together with about six acre and a half of excellent LAND, on which there are some forty FRUIT TREES, young and thrifty, a part of which are in a bearing condition; an abundance of currant bushes; a small asparagus bed, and a never failing well of excellent water
The above is pleasantly situated on Portsmouth Plains, near the school house, two miles from Market Square, being the place formerly occupied by Wm. B. Lowe, 2d. For price and terms, which are moderate, enquire of
J. B. ADAMS, Auct.

GEORGE W. PLUMER'S
NEW BAKING ESTABLISHMENT.
SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.
Orders from neighboring towns and the country promptly attended to.
Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr S. N. Plumer, the subscriber offers to his patrons
ON TUESDAY, MARCH 27th,
at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**
The Bake House on State street will be open every Sunday morning, by supplying customers with Bread, Beans, &c., as usual.
Baking for Families carefully attended to.
In addition to our Shops, we shall with our Cart on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. P WILDES, will attend to all orders delivered him.
Grateful for past favors, we would respectfully solicit a share of the public patronage.
GEORGE W. PLUMER.
Portsmouth, March 26, 1860.

NOTICE.
"Once I trusted all my friends;
For so they seemed to be;
But when I asked them for my pay,
They only laughed at me."
ONE MORE CALL, AND A NEW INDUCEMENT TO PAY UP.
The Subscriber would say to those in debt to him by note or account, that if payment is made on or before the 1st of May next, a liberal discount will be made to those who are evidently too poor to pay the full demand against them.

A choice assortment for sale at **44 Market St.**
LAFAYETTE LAIGHTON.

From the Journal.

CITY ROOMS.—Several suggestions have been made of late respecting the building of a City Hall, which will give a place for general meetings, and also room for the City Offices. Desirable as such a building may be, there are many among us who are willing to wait for better times before entering on any such enterprise.—Such a building would cost some $40,000—adding for interest and incidentals to our regular annual expenses some $3000, which must be met by an increase of taxes annually to that amount. If the public are willing to meet the increase of their taxes, there is no objection to going forward at once and raising the structure.

The recent movement in the City Council, to fit the Court House for the City Rooms, has led us to inquire into the expense of the present convenient rooms to the City. We find that the City have six rooms, for which they took a lease in 1850 for five years, for $200 per year. At the expiration of five years, in 1855, the lease was renewed for the same sum with the remission of the tax on the building, which will not expire until July 1861.

Now, as the City lets of the six rooms one they do not need, for $70 per year, our City Council are furnished with two spacious Halls for the meeting of the Common Council, and of the Board of Mayor and Aldermen, an office for the Mayor, and an office for the City Collector—all for the low sum of $130 per year and tax.

As the interest of the expenditure of $2500 in fitting the Court House for City purposes would pay the whole expense incurred for rent, in a more central locality, it would be a wiser policy to turn the Court House to some other use.

WRITING SCHOOL.—There has of late been a lack of schools for this purpose, and we are pleased that one so well qualified as a finished penman, to give instruction, has tendered his services. Mr. MERRETT has been very successful in imparting instruction in drawing, and we have no doubt that his class in writing will be immediately filled up. As busy as a bee, Mr. M.'s hours are nearly all filled up by his pupils in music—and he is also very successful in imparting this branch of education.

JUVENILE DANCING SCHOOL.—Mr. Lamprey will commence a new school at Irving Hall, Wednesday afternoon April 18th, and will introduce a number of newly imported dances.

THE NORTH AMERICAN REVIEW for April is published by Crosby, Nichols & Co. of Boston, and is received by J. H. Foster, agent. The editor of the Traveller, who has given it a perusal, gives the following sketch of the contents. It opens with a good article on William Beckford, one of the cleverest and most eccentric of men, but whose eleverness and eccentricity never would have made him immortal if he had not united the wealth of a Jew of modern times to the talent of a Greek of the classic times. This is followed by one on *Money and Credit*, for those political economists who must have the results of the reading of others because they have small time to read for themselves. Article III. is a favorable notice of Lamar *Whitney's Poems*, which so well deserve praise. The fourth article is on *The Letters and Times of Basil of Cæsarea*; and the fifth is entitled *Nichols's Poems with the Evangelists*;—both papers being able and learned. Many readers will find much to interest them in Article VI., headed *Laws of Divorce*, a subject of special attraction in this age of dissolving matrimonial views, and which is here treated in a clear and forcible manner. Article VII. is on *The U.S. Coast Survey*, and is followed by one on *The Life of John Collins Warren*. The IXth is headed *Darwin on the Origin of the Species*, the title explaining the subject. In article X. we have one of those papers on *Recent French Literature* which are so well written that we like them even when we cannot agree with the reviewer in her estimate of authors, or subscribe to her political opinions. There is a good paper on *Isaac Disraeli*; and another on *Women's Rights as to Labor and Property*, admirably written, and which ought everywhere to be read. The number closes with a batch of *Critical Notices*. We have seldom seen a better number than this even of the North American, as every article is good, and some of them are superlatively so. The oldest of our Reviews evidently means to be also the best of them.

We learn that Lyman B. Hoar, of the Senior Class, and Andrew A. Ingraham, of the Freshman Class, of Dartmouth College, both of this city, have been elected editors for Dartmouth College, of the "Undergraduate," the new College Magazine recently started by the students at Yale.—*New Bedford Standard.*

Miss Ellen Bateman, daughter of Mr. H. I. Bateman, and sister of Miss Kate Bateman, was married on the 26th of March, at Lyons, France, to a Mr. Greppo, a gentleman of that place.

Recent letters from Florence state that Mr. and Mrs. J. T. Fields, and Mrs. Stowe and her party, have gone to Rome.

A contemporary says that "error alone is mortal." It must be allowed that it has a mortal long life.

The school committee have forbidden the assignment of lessons for study out of school, in the Boston schools for girls.
